## Rating Affirmed On Spanish ABS Transaction BBVA Finanzia Autos 1's Class C Notes

**Primary Credit Analyst:**

Doug Paterson, London (44) 20-7176-5521; doug.paterson@spglobal.com

OVERVIEW

- Following our review of BBVA Finanzia Autos 1's collateral performance, we have affirmed our 'D (sf)' rating on the class C notes.
- BBVA Finanzia Autos 1, originated by Finanzia Banco de Crédito, is backed by a portfolio of Spanish loans granted to purchase new and used cars.

LONDON (S&P Global Ratings) Feb. 13, 2017—S&P Global Ratings today affirmed its 'D (sf)' credit rating on BBVA Finanzia Autos 1, Fondo de Titulizacion de Activos' class C notes.

We have reviewed BBVA Finanzia Autos 1's collateral performance, and the transaction's current structural features.

Since our previous review on Feb. 26, 2014, the transaction has paid down significantly (see "Rating Lowered On Spanish ABS Transaction BBVA Finanzia Autos 1's Class C Notes; Class A And B Notes Affirmed"). The outstanding portfolio balance, excluding defaulted loans (defined in this transaction as loans in arrears for more than 12 months), as of the last investor report, dated Dec. 31, 2016, was 0.3% of the closing balance, down from 7.3% at our January 2014 review.

Since our previous review, we have continued to observe stabilizing delinquencies, with slight reductions in some arrears buckets. However, long-term delinquencies have continued to roll into defaults. Due to the transaction's deteriorating performance observed so far, the fact that the

class C notes have previously missed interest payments and remain undercollateralized, and the reserve being fully depleted, we have affirmed our 'D (sf)' rating on the class C notes.

Our rating on the class C notes addresses the timely payment of interest due under the rated notes, and ultimate payment of principal at maturity.

The transaction is exposed to counterparty risk through Societe Generale S.A. (Madrid Branch) as guarantor of the bank account provider, and Deutsche Bank AG (London Branch) as a swap provider. Under our current counterparty criteria, we consider that the required minimum rating for the supporting entities and the transaction's replacement mechanisms adequately mitigate its exposure to counterparty risk (see "Counterparty Risk Framework Methodology And Assumptions," published on June 25, 2013).

BBVA Finanzia Autos 1 is backed by a portfolio of Spanish loans granted to purchase new and used cars. Finanzia Banco de Credito S.A.--the consumer finance arm of Banco Bilbao Vizcaya Argentaria S.A.--originated the transaction, which closed in May 2007. The revolving period ended in April 2008, one year ahead of the scheduled date, because the delinquency rate was higher than the trigger threshold level.
