Fitch Upgrades 3 Tranches of Bankinter RMBS Series; Affirms Others

Fitch Ratings-Madrid-19 March 2019: Fitch Ratings has upgraded three tranches and affirmed six tranches of three Spanish RMBS transactions of the Bankinter programme. The Outlooks are Stable.

A full list of rating actions is at the end of this rating action commentary. The transactions comprise residential mortgages originated and serviced by Bankinter, S.A.

KEY RATING DRIVERS

Strong Performance Outlook

The transactions continue to show sound asset performance with three-month plus arrears (excluding defaults) as a percentage of current pool balances being lower than 0.6% as of the latest reporting dates, and gross cumulative defaults flat at below 0.7% of the respective portfolios' initial balances. We expect performance to remain stable over the short- to medium- term due to the seasoning of the mortgages of more than 15 years (ie. weighted average indexed loan-to-value (LTV) ratios between 23% and 38%), the prevailing low interest rate environment and a positive Spanish macroeconomic outlook.

Today's rating actions reflect Fitch's credit analysis of the portfolios, which have been run with a reduced performance adjustment factor of 50% and linked to the minimum lifetime loss rate of 5% under a 'AAA' stress scenario in accordance to Fitch's European RMBS Rating Criteria.

Stable or Improving Credit Enhancement (CE)

CE ratios for the rated notes are expected to remain broadly stable or gradually increase over the short-to medium-term due to the pro-rata amortisation mechanism of the notes and the reserve funds being at (or about to reach) their respective absolute floors. Current and projected CE ratios are sufficient to mitigate the credit and cash flow stresses under the relevant rating scenarios, and consistent with the upgrades and affirmations of the notes. CE ratios will increase faster once the amortisation of the notes switches back to fully sequential, when the outstanding portfolio balance over initial portfolio balance represents less than 10% (currently between 14% and 25%) or sooner if performance triggers are breached.

Rating Cap Due to Counterparty Risk

Bankinter 7's class C note rating is capped at the SPV account bank's 'A' Long-Term Deposit Rating (Banco Santander S.A), as the only source of structural CE for this class is the reserve fund that is kept at the bank account. The rating cap reflects the excessive counterparty dependence on the SPV account bank holding the cash reserves, as the sudden loss of these funds would imply a downgrade of 10 or more notches of the notes in accordance with Fitch's Structure Finance and Covered Bonds Counterparty Rating Criteria.

While Bankinter 9P and 9T class C note ratings are also exposed to the excessive counterparty risk their current ratings are lower than the 'Asf' cap due to other credit considerations.

Payment Interruption Risk Mitigated

The transactions are viewed by Fitch as sufficiently protected against payment interruption risk in a scenario of servicer disruption, as liquidity is sufficient to cover at least three months of senior fees, net swap payments and interest due amounts on the senior securitisation notes, until an alternative servicing

arrangement is implemented.

RATING SENSITIVITIES

A worsening of the Spanish macroeconomic environment, especially employment conditions, or an abrupt shift of interest rates could jeopardise the underlying borrowers' affordability. This could have negative rating implications, especially for junior tranches that are less protected by structural CE.

As Bankinter 7 class C notes' rating is capped at the SPV bank account Long-Term Deposit rating, a change to the latter could trigger a corresponding action to the class C notes' rating.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. There were no findings that affected the rating analysis. Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring. Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing.

The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable. Overall, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts.
