DBRS Takes Rating Action on BBVA RMBS 9, FTA

DBRS Ratings Limited (DBRS) has today taken the following rating action on the bond issued by BBVA RMBS 9, FTA (the Issuer):

-- Bonds: Confirmed at A (sf)

The rating action reflects the following analytical considerations, as described more fully below:

- An amendment to the transaction signed on 27 October 2015.
- Portfolio performance, in terms of delinquencies and defaults, as of the September 2015 payment date.
- Updated portfolio default rate, loss given default and expected loss assumptions for the remaining collateral pool.
- Current available credit enhancement to the Bonds to cover expected losses at the A (sf) rating level.

BBVA RMBS 9, FTA is a securitisation of Spanish prime residential mortgages originated and serviced by Banco Bilbao Vizcaya Argentaria, S.A. (BBVA).

The structural amendment consists of the issuance of a new Loan B with a face value of EUR 140,000,119.00 in order to finance the extraordinary partial redemption of the currently outstanding Bonds. The face value of the outstanding Bonds after amortisation will be EUR 870,186,128.00.

Additionally, there has been a reduction in the reserve fund and the introduction of a floor at 0% on the interest rate of the notes. The reserve fund has been reduced to EUR 64.75 million (compared to EUR 265.48 million at the DBRS initial rating), and the new target balance will be set as the lower of EUR 64.75 million or 10.00% of the outstanding principal of the Bonds and the Loan B, subject to a floor of EUR 32.38 million.

As of the September 2015 payment date, two- to three-month arrears are at 0.68%, down slightly from 0.73% in September 2014. The 90+ delinquency ratio was at 0.59%. The current gross

cumulative default ratio is at 1.66%.

Post-restructure, credit enhancement to the Bonds is 20.27% and consists of subordination of the new Loan B as well as the reserve fund.

BBVA is the account bank for the transaction. The DBRS public rating of BBVA at 'A' complies with the Minimum Institution Rating given the rating assigned to the Bonds, as described in DBRS's "Legal Criteria for European Structured Finance Transactions" methodology.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable is the "Master European Structured Finance Surveillance Methodology", which can be found on www.dbrs.com at <http://www.dbrs.com/about/methodologies>. Other methodologies and criteria referenced in this transaction are listed at the end of this press release.

DBRS has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology. DBRS conducted a review of the amendments to the deed of constitution of the fund, which spells out the amendments under consideration, along with the relative notification to CNMV. The other transaction legal documents have remained unchanged since the most recent rating action, and were not reviewed.

For a more detailed discussion of the sovereign risk impact on Structured Finance ratings, please refer to DBRS's "The Effect of Sovereign Risk on Securitisations in the Euro Area" commentary on <http://www.dbrs.com/industries/bucket/id/10036/name/commentaries/>.

The sources of information used for this rating include information provided by Europea de Titulizacion S.A., S.G.F.T. and data from the European DataWarehouse.

DBRS does not rely upon third-party due diligence in order to conduct its analysis. DBRS was not supplied with third-party assessments; however, this did not impact the rating analysis.

DBRS considers the information available to it for the purposes of providing this rating was of satisfactory quality.

DBRS does not audit the information it receives in connection with the rating process, and it does not and cannot independently verify that information in every instance.

The last rating action on this transaction took place on 21 October 2014, when DBRS confirmed its rating on the Bonds.

Information regarding DBRS ratings, including definitions, policies and methodologies is available

at www.dbrs.com.

To assess the impact of changing the transaction parameters on the rating, DBRS considered the following stress scenarios as compared with the parameters used to determine the rating (the base case):

-- DBRS expected a lifetime base case probability of default (PD) and loss given default (LGD) for the pool based on a review of the current assets. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.

-- The base case PD and LGD of the current pool of mortgages for the Issuer are 4.25% and 42.00%, respectively. At the A (sf) rating level, the corresponding PD is 16.52% and the LGD is 53.80%.

-- The Risk Sensitivity overview below illustrates the ratings expected if the PD and LGD increase by a certain percentage over the base case assumption. For example, if the LGD increases by 50%, the rating of the Bonds would be expected to remain at A (sf), assuming no change in the PD. If the PD increases by 50%, the rating of the Bonds would be expected to remain at A (sf), assuming no change in the LGD. Furthermore, if both the PD and LGD increase by 50%, the rating of the Bonds would be expected to remain at A (sf).

Bonds Risk Sensitivity:

-- 25% increase in LGD, expected rating of A (sf)

-- 50% increase in LGD, expected rating of A (sf)

-- 25% increase in PD, expected rating of A (sf)

-- 50% increase in PD, expected rating of A (sf)

-- 25% increase in PD and 25% increase in LGD, expected rating of A (sf)

-- 25% increase in PD and 50% increase in LGD, expected rating of A (sf)

-- 50% increase in PD and 25% increase in LGD, expected rating of A (sf)

-- 50% increase in PD and 50% increase in LGD, expected rating of A (sf)
