MADRID (Standard & Poor's) Jan. 23, 2009--Standard & Poor's Ratings Services today affirmed its ratings on all the notes issued by Bancaja 7 Fondo de Titulizacion de Activos. At the same time, we removed the class A notes from CreditWatch negative (see list below).

We placed the senior notes on CreditWatch negative on Nov. 27, 2008 given their exposure to 'A-2' rated derivative counterparty. This followed the change to our methodology for 'A-2' rated counterparties on Oct. 22, which states that 'A-2' rated counterparties would no longer support 'AAA' ratings on the issued notes (see "Methodology: Updated Counterparty Criteria For Derivatives: Eligibility Of 'A-2' Counterparties Removed In 'AAA' Transactions").

On Sept. 23, we lowered our short-term rating on Caja de Ahorros de Valencia, Castellón y Alicante (Bancaja) to 'A-2' (see "Spanish Bank Bancaja Downgraded To 'A-/A-2' On Weakening Asset Quality; Outlook Negative"). Subsequently, Bancaja 7 terminated its interest swap agreement with Bancaja and replaced Bancaja's obligations. Credit Suisse (A+/Stable/A-1) is now the interest swap counterparty for this transaction.

At closing, the issuer entered into an interest swap agreement to provide protection against adverse interest rate resetting and movements.

Today we affirmed our ratings on the class A to D notes in Bancaja 7 after a

full credit and cash flow analysis of the most recent transaction information that we have received. The ratings on these notes are currently supported by higher credit enhancement levels provided by a cash reserve and class subordination due to transaction amortization, as well as lower long-term arrears than later Bancaja deals.

The Bancaja deals are Spanish residential mortgage-backed securities (RMBS) transactions backed by pools of first-ranking mortgages secured over owner-occupied residential properties in Spain.
