Fitch Takes Rating Action on Hipocat 6 and 8 RMBS Deals

Fitch Ratings - Frankfurt am Main - 12 March 2019: Fitch Ratings has upgraded two tranches and affirmed five tranches of the Hipocat series. The Outlooks are Stable. A full list of rating actions is at the end of this rating action commentary.

The Spanish RMBS transactions comprise residential mortgages originated by Catalunya Banc S.A. (now part of Banco Bilbao Vizcaya Argentaria, S.A., (BBVA); A-/Stable/F2) and serviced by BBVA.

KEY RATING DRIVERS

Sufficient Credit Enhancement (CE)

The rating actions reflect our view that current and projected CE is sufficient to withstand higher stresses, as reflected in today's upgrades. Fitch expects Hipocat 6's CE to slowly increase despite the transaction amortising on a pro-rata basis. This is due to overcollateralisation of the rated notes and the reserve fund having reached its floor level. The affirmation the class C notes is driven by its strong reliance on the reserve fund as a source of CE and low model-implied asset loss assumptions. For Hipocat 8 we expect CE to further increase as the transaction is expected to continue to amortise sequentially as the reserve fund remains below its target. The volatility of the reserve fund levels in Hipocat 8 means the class D notes have been affirmed, rather than upgraded, despite an increase in its CE.

Stable Asset Performance

The transactions continue to show sound asset performance with three-month plus arrears (excluding defaults) as a percentage of the current pool balance at 1.3% and 0.5% for Hipocat 6 and Hipocat 8, respectively. Cumulative default rates stood at 1.1% and 6.3% of the initial portfolio balances for Hipocat 6 and Hipocat 8. We expect performance to remain stable given the more than 15 year of seasoning of the portfolios, prevailing low interest rates and the positive Spanish macroeconomic outlook.

Payment Interruption Risk

Hipocat 8 class A2, B and C notes remain exposed to payment interruption risk in the event of a servicing disruption, as the available structural mitigants (ie cash reserve funds that can be depleted by losses) are deemed insufficient to sustainably cover senior fees, net swap payments and senior note interests under the most severe asset and cash-flow assumptions. As a result, Fitch continues to cap the notes' ratings at 'A+sf'.

For Hipocat 6, the cash reserve fund is at its target balance of EUR 11.9 million. Although the cash reserve fund may be drawn in the future to cover for defaults, Fitch has not applied a rating cap to the class A and class B notes based on our expectation that funds will remain sufficient to provide sustainable coverage of payment interruption risk in the short- to medium-term.

RATING SENSITIVITIES

A worsening of the Spanish macroeconomic environment, especially employment conditions, or an abrupt shift of interest rates could jeopardise the underlying borrowers' affordability. This could have negative rating implications, especially for junior tranches that are less protected by structural CE.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. There were no findings that affected the rating analysis. Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable.

Overall and together with the assumptions referred to above, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.
