Date of Release: 27 January 2015

DBRS Confirms Rating of Rural Hipotecario XII, FTA

Bloomberg: DBRS Confirms Rating of Rural Hipotecario XII, FTA

Industry Group: Structured Finance

Sub-Industry: RMBS

DBRS Ratings Limited (DBRS) has today confirmed its rating of the Series A notes of Rural Hipotecario XII, Fondo de Titulización de Activos (the Issuer) at A (sf).

The confirmation of the rating of the Series A notes is based upon the following analytical considerations:

- Portfolio performance, in terms of delinquencies and defaults, as of the September 2014 payment date.
- Updated portfolio default rate, loss given default and expected loss assumptions for the remaining collateral pool.
- Incorporation of a sovereign-related stress component to address the impact of macroeconomic variables on collateral performance given the long-term foreign and local currency rating of A (low) for the Kingdom of Spain.
- Current available credit enhancement for the Series A notes to cover the expected losses at the A (sf) rating level.

Rural Hipotecario XII, FTA is a securitisation of first-ranking residential mortgage loans originated by 16 Spanish rural savings banks and serviced by the respective originators. The transaction follows the standard structure under the Spanish Securitisation Law and closed in November 2009.

The portfolio is performing in line with DBRS's initial expectations. As of the September 2014 payment date, the 90+ delinquency ratio (excluding defaulted loans) as a percentage of the performing balance of the portfolio was 1.26% and has been decreasing from 2.85% in September 2013. As per the September 2014 delinquency report, the gross cumulative default ratio increased to 1.94%, but it is still within DBRS's initial expectations.

Credit enhancement for the Series A Notes is provided by subordination of the Series B and Series C notes and an amortising Cash Reserve (currently equal to 6.29% of the outstanding principal balance of the Series A Notes). The credit enhancement for the Series A notes increased to 12.95% in September 2014, up from 11.86% in September 2013. The Cash Reserve is currently at €36,386,242, i.e. 86.92% of its target balance. As more loans rolled into default in recent periods, the Cash Reserve drew down due to the provisioning mechanism for defaulted loans.

Press Release

insight beyond the rating.

Barclays Bank Plc (Spanish Branch) is the Treasury Account Bank for the transaction. The DBRS private rating of Barclays Bank Plc (Spanish Branch) is at least equal to the Minimum Institution Rating given the rating assigned to the Series A notes, as described in the DBRS Legal Criteria for European Structured Finance Transactions. Additionally, Banco Cooperativo Español is the Swap Counterparty for the transaction. The DBRS public rating of Banco Cooperativo Español complies with the DBRS Derivative Criteria for European Structured Finance Transactions.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable is the Master European Structured Finance Surveillance Methodology. Other methodologies and criteria referenced in this transaction are listed at the end of this press release.

This can be found on www.dbrs.com at:

<http://www.dbrs.com/about/methodologies>

For a more detailed discussion of sovereign risk impact on Structured Finance ratings, please refer to DBRS commentary “The Effect of Sovereign Risk on Securitisations in the Euro Area” on: <http://www.dbrs.com/industries/bucket/id/10036/name/commentaries/>.

The sources of information used for this rating include monthly investor reports provided by Europea de Titulización, S.A., S.G.F.T. and data from the European DataWarehouse. DBRS considers the information available to it for the purposes of providing this rating to be of satisfactory quality.

DBRS does not audit the information it receives in connection with the rating process, and it does not and cannot independently verify that information in every instance.

The last rating action on this transaction took place on 27 January 2014, when DBRS confirmed the rating of the Series A notes at A (sf).

Information regarding DBRS ratings, including definitions, policies and methodologies are available on www.dbrs.com.

To assess the impact of the changing the transaction parameters on the rating, DBRS considered the following stress scenarios, as compared to the parameters used to determine the rating (the Base Case):

-- DBRS expected a lifetime base case Probability of Default (PD) and Loss Given Default (LGD) for the pool based on a review of the current receivables. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.

Press Release

Insight beyond the rating

-- The base case PD and LGD of the current pool of mortgages for the Issuer are 5.82% and 23.56%, respectively. At the A (sf) rating level, the corresponding PD is 18.43% and the LGD is 36.98%.

-- The Risk Sensitivity overview below illustrates the ratings expected if the PD and LGD increase by a certain percentage over the base case assumption. For example, if the LGD increases by 50%, the rating of the Series A notes would be expected to decrease to BBB (high) (sf), assuming no change in the PD. If the PD increases by 50%, the rating for the Series A notes would be expected to decrease to BBB (high) (sf), assuming no change in the LGD. Furthermore, if both PD and LGD increase by 50%, the rating would be expected to decrease to BBB (low) (sf).

Series A Notes Risk Sensitivity:

- 25% increase in LGD, expected rating of A (low) (sf)
- 50% increase in LGD, expected rating of BBB (high) (sf)
- 25% increase in PD, expected rating of A (sf)
- 50% increase in PD, expected rating of BBB (high) (sf)
- 25% increase in PD and 25% increase in LGD, expected rating of A (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected rating of BBB (high) (sf)
- 50% increase in PD and 25% increase in LGD, expected rating of BBB (sf)
- 50% increase in PD and 50% increase in LGD, expected rating of BBB (low) (sf)
