RISK FACTORS

1 Risks derived from the issuer's legal nature and operations.

a) Nature of the Fund and obligations of the Management Company.

The Fund is a separate closed-end fund devoid of legal personality and is managed by a management company, in accordance with Royal Decree 926/1998. The Fund shall be liable only for its obligations to its creditors with its assets.

The Fund shall have open-end revolving assets and closed-end liabilities. Its assets shall comprise the Initial Credit Rights to be acquired upon being constituted, and, revolving upon repayment of the Credit Rights, such Additional Credit Rights as may be acquired on each Payment Date during the Revolving Period, which shall end on the Payment Date falling on November 20, 2007, unless terminated sooner in accordance with the provisions of section 2.2.2.2.1 of the Building Block.

The Management Company shall discharge for the Fund the functions attributed to it in Royal Decree 926/1998, and enforce Bondholders' interests as the manager of third-party portfolios. There shall be no syndicate of bondholders. Therefore, the capacity to enforce Bondholders' interests shall depend on the Management Company's means.

b) Forced substitution of the Management Company.

In accordance with article 19 of Royal Decree 926/1998, where the Management Company is adjudged insolvent, it shall find a substitute management company. In any such event, if four months should have elapsed from the occurrence determining the substitution and no new management company should have been found willing to take over management, there shall be an early liquidation of the Fund and an amortisation of the securities issued by the same.

c) Limitation of actions against the Management Company.

Bondholders and all other ordinary creditors of the Fund shall have no recourse whatsoever against the Fund Management Company other than as derived from breaches of its duties or inobservance of the provisions of the Deed of Constitution and of this Prospectus.

d) Applicability of the Bankruptcy Act

Both BBVA and the Management Company may be declared bankrupt.

In particular, bankruptcy of BBVA could affect its contractual relationships with the Fund, in accordance with the provisions of Bankruptcy Act 22/2003, July 9.

Specifically, the transaction involving the assignment of the Credit Rights, they cannot be the subject of restitution other than by an action brought by the receivers of BBVA, in accordance with the provisions of the Bankruptcy Act, and after first proving the existence of fraud in said transactions, fully in conformity with Additional Provision Five, section 4, of Act 3/1994, April 14.

In the event of BBVA being decreed in bankruptcy, in accordance with the Bankruptcy Act, the Fund, acting through the Management Company, shall have a right of separation with respect to the Credit Rights, on the terms provided for in articles 80 and 81 of the Bankruptcy Act. Moreover, the Fund, acting through its Management Company, shall be entitled to obtain from BBVA the resulting Credit Right amounts from the date on which bankruptcy is decreed, for those amounts will be considered to be the Fund's property, through its Management Company and must therefore be transferred to the Management Company, representing the Fund. This right of separation would not necessarily extend to the monies received and kept by BBVA on behalf of the Fund before that date, for they might be earmarked for bankruptcy, based on the most widespread construction of article 80 of the Bankruptcy Act for the time being in force, given the essential fungible nature of money. The means mitigating that

risk are described in sections 3.4.4.1 (Treasury Account), 3.4.4.2 (Principal Account), 3.4.5 (Collection by the Fund of payments in respect of the assets) and 3.7.2.1.2 (Collection management) of the Building Block.

In the event of bankruptcy of the Management Company, it must be replaced by another management company in accordance with the provisions of article 19 of Royal Decree 926/1998.

e) Information sourced from a third party

The Fund has entered into agreements with third parties for the provision of certain services in relation to the Bonds. These include the Servicing Agreement, the Start-Up Loan Agreement, the Subordinated Loan Agreement, the Financial Swap Agreement, the Bond Issue Paying Agent Agreement, the Guaranteed Interest Rate Account (Treasury Account) Agreement, the Guaranteed Interest Rate Account (Principal Account) Agreement and the Bond Issue Management, Underwriting and Placement Agreement.

Bondholders may be aggrieved in the event of any of those parties being in breach of the obligations accepted under each of the above agreements.

2 Risks derived from the securities.

a) Liquidity

There is no assurance that the Bonds will be traded on the market with a minimum frequency or volume.

There is no undertaking that any institution will be involved in secondary trading, giving the Bonds liquidity by offering consideration.

Moreover, the Fund may in no event repurchase the Bonds from Bondholders. Nevertheless, the Bonds may be fully subject to early amortisation in the event of Early Liquidation of the Fund, on the terms laid down in section 4.4.3 of the Registration Document.

b) Yield.

Calculation of the yield (internal rate of return) of the Bonds in each Series contained in section 4.10 of the Securities Note is subject to future market interest rates, given the floating nature of the Nominal Interest Rate of each Series.

c) Duration.

Calculation of the average life and duration of the Bonds in each Series contained in section 4.10 of the Securities Note is subject to fulfilment of Credit Right repayment and to assumed Credit Right prepayment rates that may not be fulfilled. Credit Right repayment performance is influenced by a number of economic and social factors such as market interest rates, the Obligors' financial circumstances and the general level of economic activity, preventing their predictability.

d) Late-payment interest.

Late interest payment or principal repayment to Bondholders shall under no circumstances result in late-payment interest accruing to their favour.

e) Subordination of the Bonds.

Interest payment and principal repayment on Series B Bonds is deferred with respect to Series A Bonds, whereas interest payment and principal repayment on Series C Bonds is deferred with respect to Series A and B Bonds. Nevertheless, there is no certainty that these subordination rules shall protect Series A, B and C Bondholders from the risk of total loss.

The subordination rules for the various Series are laid down in the Priority of Payments and in the Liquidation Priority of Payments of the Fund, in accordance with section 3.4.6 of the Building Block.

f) Deferment of interest.

This Prospectus and all other supplementary Bond-related documents provide for Series B and C Bond interest payment to be deferred in the event of the occurrence of the circumstances provided for in section 3.4.6.2.1.2 of the Building Block.

Series A Bond interest is not subject to these deferment rules.

g) Rating of the Bonds.

The credit risk of the Bonds issued by the Fund has been rated by the following rating agencies: Standard & Poor's España S.A., Moody's Investors Service España S.A. y Fitch Ratings España S.A.U.

The rating agencies may review, suspend or withdraw the final ratings assigned at any time, based on any information that may come to their notice.

These ratings are not and cannot therefore be howsoever construed as an invitation, recommendation or encouragement for investors to proceed to carry out any transaction whatsoever on the Bonds and, in particular, acquire, keep, charge or sell those Bonds.

3 Risks derived from the assets backing the issue.

a) Risk of default on the Credit Rights.

Bondholders shall bear the risk of default on the Credit Rights pooled in the Fund.

BBVA, as Originator, shall have no liability whatsoever for the Obligors' default of principal, interest or any other amount they may owe under the Credit Rights. Under article 348 of the Commercial Code, BBVA is liable to the Fund exclusively for the existence and lawfulness of the Loans, and for the personality with which the assignment is made. BBVA will have no liability whatsoever to directly or indirectly guarantee that the transaction will be properly performed nor give any guarantees or security, nor indeed agree to repurchase the Credit Rights, other than the undertakings contained in section 2.2.9 of the Building Block regarding substitution of Credit Rights failing to conform, on the date of assignment to the Fund, to the representations contained in section 2.2.8 of the Building Block.

The Bonds issued by the Fund neither represent nor constitute an obligation of BBVA or the Management Company. No other guarantees have been granted by any public or private organisation whatsoever, including BBVA, the Management Company and any of their affiliated or associated companies.

b) Limited Hedging.

A high level of delinquency of the Credit Rights might reduce or indeed exhaust the limited hedging against Credit Right losses that the Bonds in each Series distinctly have as a result of the existence of the credit enhancement transactions described in section 3.4.2 of the Building Block.

The degree of subordination in interest payment and principal repayment between the Bonds in the different Series derived from the Priority of Payments and the Liquidation Priority of Payments of the Fund is a mechanism for distinctly hedging the different Series.

c) Credit Right prepayment risk.

There will be a prepayment of the Credit Rights pooled in the Fund when the Obligors prepay the portion of principal pending repayment on the Credit Rights.

That prepayment risk shall pass quarterly on each Payment Date to Bondholders by the partial amortisation of the Bonds, in accordance with the provisions of the rules for Distribution of Principal Available Funds contained in section 4.9.3.1.6 of the Securities Note.

b) Geographical concentration risk.

As detailed in section 2.2.2.1 f) of the Building Block, the Autonomous Communities having the largest concentration of the address of obligors of the loans selected to be assigned to the Fund upon being established are, as a percentage with respect to the outstanding principal, as follows: Andalusia (22.27%), Catalonia (16.46%) and Valencian Community (11.83%), altogether representing 50.56%.

Moreover, paragraph 2 of section 2.2.2.3 of the Building Block sets the following Global Requirements in relation to geographical concentration by Autonomous Communities to be satisfied by the Credit Rights, including the Additional Credit Rights, in order to be assigned to the Fund:

- That on the date of assignment, the Outstanding Balance of the Credit Rights for Obligors for a same Autonomous Community is not in excess of twenty-five percent (25.00%) of the total Outstanding Balance of the Credit Rights.
- That on the date of assignment, the Outstanding Balance of the Credit Rights for Obligors for the three (3) Autonomous Communities with the highest representation (Outstanding Balance) is not in excess of sixty percent (60.00%) of the total Outstanding Balance of the Credit Rights.

4.4 Date of establishment and existence of the issuer.

4.4.1 Date of establishment of the Fund.

The Management Company represents that the contents of the Deed of Constitution shall match the draft Deed of Constitution it has submitted to the CNMV and the terms of the Deed of Constitution shall at no event contradict, change, alter or invalidate the contents of this Prospectus.

The Deed of Constitution may not be changed other than in exceptional events, provided that is permitted under the laws in force and subject to such statutory requirements as may be established. In any event, those changes shall require that the Management Company first notify and secure the prior authorisation, if necessary, of the CNMV or competent administrative body and the Rating Agencies, and provided that such changes are not detrimental to the rating assigned to the Bonds by the Rating Agencies or to Bondholders. The amendment of the Deed of Constitution shall be notified by the Management Company to the CNMV and the Rating Agencies. The Deed of Constitution can also be corrected as requested by the CNMV.

4.4.2 Existence of the Fund.

4.4.3 Early Liquidation of the Fund.

4.4.3.1 Following notice served on the CNMV, the Management Company shall be entitled to proceed to an early liquidation ("**Early Liquidation**") of the Fund and thereby an early amortisation ("**Early Amortisation**") of the entire Bond Issue, in any of the following events ("**Early Liquidation Events**"):

- (i) When the amount of the Outstanding Balance of the Credit Rights yet to be repaid is less than ten (10) percent of the Outstanding Balance of the Initial Credit Rights upon the Fund being established, and provided that the payment obligations derived from the Bonds in each Series may be honoured and settled in full in the Liquidation Priority of Payments.

Payment obligations derived from the Bonds in each Series on the date of Early Liquidation of the Fund shall at all events be deemed to be the Outstanding Principal Balance of the Series on that date plus interest accrued and not paid until that date, which amounts shall be deemed to be due and payable on that date to all statutory intents and purposes.

- (ii) Where, in any event or circumstance whatsoever unrelated to the Fund's operations, a substantial alteration occurs or the financial balance of the Fund required by article 11.b) of Royal Decree 926/1998 is permanently damaged. This event includes such circumstances as the existence of any change in the law or supplementary implementing regulations, the establishment of withholding obligations or other situations which might permanently affect the financial balance of the Fund.

- (iv) When a default occurs indicating a major permanent imbalance in relation to any of the Bonds issued or that it is about to occur.
- (v) Upon the lapse of eighteen (18) months from the date of the last maturity of the Credit Rights, even if amounts are still due and payable.

4.4.3.2 The following requirements shall have to be satisfied to proceed to that Early Liquidation of the Fund:

- (ii) Shall proceed to terminate such agreements as are not necessary for the Fund liquidation procedure.

- (iii) It will be entitled to arrange for a credit facility which shall be fully allocated to the early amortisation of the Bond Issue. Payment of interest accrued and principal repayment on that credit facility shall be made in accordance with the Liquidation Priority of Payments.
- (iv) Finally, both due to an insufficiency of the preceding actions and the existence of Credit Rights or other remaining assets of the Fund, the Management Company shall proceed to sell them and shall therefore invite a bid from at least five (5) entities from among the most active in the purchase and sale of those Credit Rights and assets who may, in its view, give a market value. The Management Company shall be bound to accept the best bid received for the Credit Rights and assets on offer. In order to set the market value, the Management Company may secure such valuation reports as it shall deem necessary.

In events (i), (iii) and (iv) above, the Originator shall have a pre-emptive right and will therefore have priority over third parties to acquire the Credit Rights or other assets remaining on the assets of the Fund, or to grant to the Fund the credit facility designed for the early amortisation of the Bond Issue. The Management Company shall therefore send the Originator a list of the assets and of third-party bids received, and the latter may use that right for all of the Credit Rights or other remaining assets offered by the Management Company or the credit facility within five (5) Business Days of receiving said notice, and provided that its bid is at least equal to the best of the third-party bids.

- 4.4.3.4 The Management Company shall forthwith apply all the proceeds from the sale of the Fund's assets to paying the various items, in such manner, amount and order as shall be requisite in the Liquidation Priority of Payments, other than the amounts, if any, drawn under the credit facility arranged, which shall be fully allocated to the Early Amortisation of the Bond Issue.

4.4.4 Termination of the Fund.

The Fund shall terminate in any of the following events:

- (i) Upon the Credit Rights pooled therein being fully repaid.
- (ii) Upon the Bonds issued being fully amortised.
- (iii) When the Early Liquidation procedure established in section 4.4.3 above is over.
- (iv) At all events, upon the final liquidation of the Fund on the Final Maturity Date on November 20, 2019 or the following Business Day if that is not a Business Day.
- (v) Upon the establishment of the Fund terminating in the event that the Rating Agencies should not confirm any of the assigned provisional ratings as final ratings by the start of the Subscription Period. In this event, the Management Company shall terminate the establishment of the Fund, the assignment to the Fund of the Initial Credit Rights and the Bond Issue.

Termination of the establishment of the Fund shall be notified to the CNMV as soon as such is confirmed, and shall be publicised by means of the procedure specified in section 4.1.3.2 of the Building Block. Within not more than one month after the occurrence of the event of termination, the Management Company shall execute a statutory declaration before a notary public declaring that the Fund's obligations have been settled and terminated and that the Fund has terminated. Notwithstanding the above, the Fund Management Company shall defray the expenses of setting up the Fund payable with the Start-Up Loan, the agreement for which shall not be terminated but shall rather be cancelled after those amounts are settled, the repayment of principal being subordinated to fulfilment of all other obligations undertaken by the Management Company, acting for and on the Fund's behalf.

In the event that there should be any remainder upon the Fund being liquidated and after making all payments to the various creditors by distributing the Liquidation Available Funds in the set Liquidation Priority of Payments, that remainder shall be for the Originator on the liquidation terms established by the Management Company.

In any event, the Management Company, acting for and on behalf of the Fund, shall not proceed to terminate the Fund and strike it off the relevant administrative registers until the Credit Rights and the Fund's remaining assets have been liquidated and the Fund's Liquidation Available Funds have been distributed, in the Fund Liquidation Priority of Payments.

Upon a period of six (6) months elapsing from liquidation of the Fund's remaining assets and distribution of the Liquidation Available Funds, the Management Company shall execute a statutory declaration before a notary public declaring (i) that the Fund has terminated, and the events prompting its termination, (ii) how Bondholders and the CNMV were notified, and (iii) how the Fund's Liquidation Available Funds were distributed in the Liquidation Priority of Payments; notice of this shall be given in a nation-wide newspaper and all other appropriate administrative procedures will be observed. The Management Company will submit that statutory declaration to the CNMV.

Repayment of Series A Bond principal is sixth (6th) in the application of Liquidation Available Funds in the Liquidation Priority of Payments established in section 3.4.6.3 of the Building Block.

Repayment of Series B Bond principal is eighth (8th) in the application of Liquidation Available Funds in the Liquidation Priority of Payments established in section 3.4.6.3 of the Building Block.

Repayment of Series C Bond principal is tenth (10th) in the application of Liquidation Available Funds in the Liquidation Priority of Payments established in section 3.4.6.3 of the Building Block.

4.7 Description of the rights attached to the securities.

The economic and financial rights for Bondholders associated with acquiring and holding the Bonds shall be as derived from the terms as to interest rate, yields and redemption terms on which they are to be issued and given in sections 4.8 and 4.9 of this Securities Note.

Bondholders and all other creditors of the Fund shall have no recourse whatsoever against Credit Right Obligors who may have defaulted on their payment obligations or against the Originator. Any such rights shall lie with the Management Company, representing the Fund.

Bondholders and all other creditors of the Fund shall have no recourse whatsoever against the Fund or against the Management Company in the event of non-payment of amounts due by the Fund resulting from the existence of default or prepayment of the Credit Rights, a breach by the Originator of its obligations or by the counterparties to the transactions entered into for and on behalf of the Fund, or shortfall of the financial hedging transactions for servicing the Bonds in each Series.

Bondholders and all other creditors of the Fund shall have no recourse against the Management Company other than as derived from a breach of its duties. Those actions shall be resolved in the relevant ordinary declaratory proceedings depending on the amount claimed.

All matters, disagreements, actions and claims deriving from the Management Company's establishment, administration and legal representation of BBVA AUTOS 2 FONDO DE TITULIZACIÓN DE ACTIVOS and the Bond Issue by the same shall be heard and ruled upon by the competent Spanish Courts and Tribunals.

4.8 Nominal interest rate and provisions relating to interest payable.

4.8.1 Bond nominal interest rate.

The Bonds in each Series shall, from the Closing Date until they mature fully, accrue a yearly nominal interest, variable and payable quarterly, which shall be the result of applying the policies established hereinafter for each of the Series.

The resultant yearly nominal interest rate (hereinafter the "**Nominal Interest Rate**") for each Series shall be payable quarterly in arrears on each Payment Date on the Outstanding Principal Balance of the Bonds in each Series on the preceding Payment Date, provided that the Fund has sufficient liquidity in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

Withholdings, interim payments, contributions and taxes established or to be established in the future on Bond principal, interest or returns shall be borne exclusively by Bondholders, and their amount, if any, shall be deducted by the Management Company, for and on behalf of the Fund, or through the Paying Agent, as provided by law.

4.8.1.1 Interest accrual.

For interest accrual purposes, the duration of each Bond Series shall be divided into successive interest accrual periods (“**Interest Accrual Periods**”) comprising the exact number of days elapsed between every two consecutive Payment Dates, each Interest Accrual Period including the beginning Payment Date but not including the ending Payment Date. Exceptionally, the duration of the first Interest Accrual Period shall be equivalent to the exact number of days elapsed between the Closing Date, December 15, 2005, inclusive, and the first Payment Date, February 20, 2006, exclusive.

The Nominal Interest Rate shall accrue on the exact number of days in each Interest Accrual Period for which it was determined, calculated based upon a 360-day year.

4.8.1.2 Nominal Interest Rate.

The Nominal Interest Rate applicable to the Bonds in each Series and determined for each Interest Accrual Period shall be the result of adding:

- (i) the Reference Rate, as established in the following section, and
- (ii) a margin for each Series as follows:
 - **Series A:** margin ranging between 0.06% and 0.16%, both inclusive.
 - **Series B:** margin ranging between 0.18% and 0.30%, both inclusive.
 - **Series C:** margin ranging between 0.20% and 0.50%, both inclusive.

The margin applicable to each Series, expressed as a percentage, shall be determined with one accord among the Lead Managers by 10am (CET time) on the day of the Subscription Period (December 13, 2005).

Failing an agreement, the Management Company shall fix the specific margin for the Series in respect of which no margin was agreed, as follows:

- **Series A:** 0.14% margin.
- **Series B:** 0.25% margin.
- **Series C:** 0.40% margin.

The final margins applicable to each Series fixed shall be notified by the Management Company by the start of the Subscription Period to the Underwriters and Placement Agents to be reported to investors interested in subscribing for the Bonds. The Management Company will also notify this to the CNMV as information in addition to this Prospectus. The final margin applicable to each Series shall be set down on the notarial certificate recording subscription for and payment of the Bond Issue.

The resultant Nominal Interest Rate shall be expressed as a percentage rounded to the nearest thousandth of a whole number or rounded up to the nearest one where the differences of rounding up or down to the nearest thousandths are identical.

4.8.1.3 Reference Rate and determining the same.

The reference rate (“**Reference Rate**”) for determining the Nominal Interest Rate applicable to each Bond Series is as follows:

- i) Other than for the first Interest Accrual Period, three- (3-) month Euribor, “Euro Interbank Offered Rate”, calculated and distributed by the BRIDGE financial information system under an FBE (“Federation Bancaire de l’Union Europeene”) mandate, fixed at 11am (CET or “Central European Time”) on the Interest Rate Fixing Date described below, which is currently published on electronic pages EURIBOR01 supplied by Reuters, and 248 supplied by Dow Jones Markets (Bridge Telerate), or any other page taking their stead in providing these services.

Exceptionally, the Reference Rate for the first Interest Accrual Period shall be the result of a straight-line interpolation between two- (2-) month Euribor and three- (3-) month Euribor, fixed at 11am (CET time) on the second Business Day preceding the Closing Date, falling on the day of the Subscription Period, bearing in mind the number of days in the first Interest Accrual Period. The Reference Rate for the first Interest Accrual Period shall be calculated in accordance with the following formula:

$$IR = \left[\left(\frac{D-60}{30} \right) \times E3 \right] + \left[\left(1 - \left(\frac{D-60}{30} \right) \right) \times E2 \right]$$

Where:

IR = Reference Rate for the first Interest Accrual Period.

D = Number of days in the first Interest Accrual Period.

E2 = Two- (2-) month Euribor.

E3 = Three- (3-) month Euribor.

Euribor definitions approved by the FBE and the Financial Markets Association (ACI) supplementing the current definition of Euribor shall be considered included for the purpose of the Euribor Reference Rate without having to amend these Reference Rate terms or have the Management Company notify Bondholders.

- ii) In the event that the Euribor rate established in paragraph (i) above should not be available or be impossible to obtain, the substitute Reference Rate shall be the interest rate resulting from finding the simple arithmetic mean of the interbank offered interest rates for non-transferable three- (3-) month deposit transactions in euros in an amount equivalent to the Outstanding Principal Balance of the Bond Issue, declared by four (4) prime banks in the Euro zone, following a simultaneous request to each of their headquarters by the Paying Agent after and around 11am (CET time) on the Interest Rate Fixing Date.

Exceptionally, the substitute Reference Rate for the first Interest Accrual Period shall be the rate resulting from the straight-line interpolation between the interest rate resulting from finding the simple arithmetic mean of the interbank offered interest rates for non-transferable two- (2-) month deposit transactions in euros and the interest rate resulting from finding the simple arithmetic mean of the interbank offered interest rates for non-transferable three- (3-) month deposit transactions in euros, both in an amount equivalent to the face amount of the Bond Issue, declared by the banks as provided for in paragraph one above, following a simultaneous request to each of their headquarters by the Paying Agent after and around 11am (CET time) on the second Business Day preceding the Closing Date.

The substitute Reference Rate shall be expressed as a percentage rounded to the nearest thousandth of a percentage point or rounded up to the nearest point where the differences of rounding up or down to the nearest thousandths are identical.

Should it be impossible to apply the above substitute Reference Rate, upon the failure by any or several of the banks to provide written quotations as provided for in paragraphs one and two of this section, the interest rate resulting from applying the simple arithmetic mean of the interest rates declared by at least two of the other banks shall be applicable.

- iii) If the rates established in paragraphs i) and ii) above should not be available or be impossible to obtain, the last Reference Rate or substitute Reference Rate applied to the next preceding Interest Accrual Period shall apply, and so on for successive Interest Accrual Periods whilst matters remain the same.

On each Interest Rate Fixing Date, the Paying Agent shall notify the Management Company of the Reference Rate determined in accordance with paragraphs i) and ii) above. The Management Company shall keep the listings and supporting documents on which the Paying Agent shall notify it the Reference Rate determined.

4.8.1.4 Interest Rate Fixing Date.

The Management Company shall, for and on behalf of the Fund, determine the Nominal Interest Rate applicable to each Bond Series for every Interest Accrual Period as provided for in sections 4.8.1.2 and 4.8.1.3 above, on the second Business Day preceding each Payment Date (the “**Interest Rate Fixing Date**”), and it will apply for the following Interest Accrual Period.

Exceptionally, the Management Company shall determine the Nominal Interest Rate of the Bonds in each Series for the first Interest Accrual Period as provided for in sections 4.8.1.2 and 4.8.1.3 above, on the second Business Day preceding the Closing Date, falling on the day of the Subscription Period, and shall notify the same in writing on the same day to the Underwriters and Placement Agents in order for them to report this to investors interested in subscribing for the Bonds. The Management Company will also notify this to the CNMV, the Paying Agent, AIAF and Iberclear.

The nominal interest rates determined for each Bond Series for successive Interest Accrual Periods shall be communicated to Bondholders within the deadline and in the manner for which provision is made in section 4.1.1.a) of the Building Block.

4.8.1.5 Formula for calculating interest.

Interest settlement for the Bonds in each Series, payable on each Payment Date for each Interest Accrual Period, shall be calculated for each Series in accordance with the following formula:

$$I = P \times \frac{R}{100} \times \frac{d}{360}$$

Where:

I = Interest payable on a given Payment Date, rounded up to the nearest eurocent.

P = Outstanding Principal Balance of the Bonds in the Series on the Determination Date preceding that Payment Date.

R = Nominal Interest Rate of the Series expressed as a yearly percentage.

d = Exact number of days in each Interest Accrual Period.

Informative table on the evolution of the reference rate to be used.

For merely illustrative purposes, below are details of the three- (3-) month Euribor rates published on certain dates over the last two years, which, other than the first date, would have been the second Business Day preceding the 20th of each month, this being the Payment Date, on the EURIBOR01 electronic page supplied by Reuters, and the Nominal Interest Rate that would have resulted if applied to each Bond Series, in the event that the applicable margins should be the average margins in the range established for each Series, in accordance with section 4.8.1.2 of this Securities Note (0.11% for Series A, 0.24% for Series B and 0.35% for Series C):

4.8.2 Dates, place, institutions and procedure for paying interest.

Interest on the Bonds in all the Series will be paid until they are finally amortised by Interest Accrual Periods in arrears on February 20, May 20, August 20 and November 20 in each year, or the following Business Day if any of those is not a Business Day (each of those dates, a “**Payment Date**”), and interest for the then-current Interest Accrual Period will accrue until said first Business Day, not inclusive, on the terms established in section 4.8.1.2 of this Securities Note.

The first interest Payment Date for the Bonds in each Series shall be February 20, 2006, and interest will accrue at the applicable Nominal Interest Rate between the Closing Date, December 15, 2005, inclusive, and February 20, 2006, exclusive.

In this Bond Issue, business days (“**Business Days**”) shall be deemed to be all days other than a:

- public holiday in the city of Madrid, or
- non-business day in the TARGET calendar (Trans European Automated Real-Time Gross Settlement Express Transfer System).

Both interest resulting for Bondholders in each Series and the amount, if any, of interest accrued and not paid, shall be notified to Bondholders as described in section 4.1.1.a) of the Building Block, at least one (1) calendar day in advance of each Payment Date.

Bond interest accrued shall be paid on each Payment Date provided that the Fund has sufficient liquidity to do so in the Priority of Payments or Liquidation Priority of Payments, as the case may be.

In the event that on a Payment Date the Fund should be unable to make full or partial payment of interest accrued on the Bonds in any Series, in the Priority of Payments, interest amounts not paid shall be accumulated on the following Payment Date to interest on the Series proper that, as the case may be, should be paid on that same Payment Date, and will be paid in the Priority of Payments and applied by order of maturity if it should be impossible once again not to pay the same fully due to a shortage of Available Funds.

Unpaid interest amounts due shall not earn additional or late-payment interest and shall not be accumulated to the Outstanding Principal Balance of the Bonds.

The Fund, through its Management Company, may not defer Bond interest payment beyond November 20, 2019, the Final Maturity Date, or the following Business Day if that is not a Business Day.

The Bond issue shall be serviced through the Paying Agent, to which end the Management Company shall, for and on behalf of the Fund, enter into a Paying Agent Agreement with BBVA.

4.9 Maturity date and amortisation of the securities.

4.9.1 Bond redemption price.

The redemption price of the Bonds in each Series shall be EUR one hundred thousand (100,000) per Bond, equivalent to 100 percent of their face value, payable as established in section 4.9.2 below.

Each and every one of the Bonds in a same Series shall be amortised in an equal amount by reducing the face amount of each of the Bonds.

4.9.2 Characteristics specific to the Amortisation of each Bond Series.

4.9.2.1 Amortisation of Series A Bonds.

Series A Bond principal shall be amortised by partial amortisation on each Payment Date after Bond amortisation begins, in an amount equal to the Principal Available Funds applied on each Payment Date to amortising Series A, in accordance with the rules for Distribution of Principal Available Funds given in sections 4.9.3.1.4 and 4.9.3.1.5, pro rated between the Bonds in Series A proper by reducing the face amount of each Series A Bond.

The first partial amortisation of the Series A Bonds shall occur on the Payment Date falling on February 20, 2008 or on a previous Payment Date in the event of early termination of the Credit Right Revolving Period.

Notwithstanding partial or total amortisation resulting from partial amortisation as provided for in the preceding paragraph, final amortisation of Series A Bonds shall occur on the Final Maturity Date (November 20, 2019 or the following Business Day if that is not a Business Day), or before the Final Maturity Date, in accordance with the provisions of section 4.9.3.2 of this Securities Note, upon Early Liquidation and Early Amortisation of the Bond Issue, in both cases in the Liquidation Priority of Payments.

4.9.2.3 Amortisation of Series B Bonds.

Series B Bond principal shall be amortised by partial amortisation on each Payment Date after Bond amortisation begins, in an amount equal to the Principal Available Funds applied on each Payment Date to amortising Series B in accordance with the rules for Distribution of Principal Available Funds given in sections 4.9.3.1.4 and 4.9.3.1.5 below, pro rated between the Bonds in Series B proper by reducing the face amount of each Series B Bond.

The first partial amortisation of the Series B Bonds shall occur once the Series A Bonds have been fully amortised.

Notwithstanding partial or total amortisation resulting from partial amortisation as provided for in the preceding paragraph, final amortisation of Series B Bonds shall occur on the Final Maturity Date (November 20, 2019 or the following Business Day if that is not a Business Day), or before the Final Maturity Date, in accordance with the provisions of section 4.9.3.2 of this Securities Note, upon Early Liquidation and Early Amortisation of the Bond Issue, in both cases in the Liquidation Priority of Payments.

4.9.2.4 Amortisation of Series C Bonds.

Series C Bond principal shall be amortised by partial amortisation on each Payment Date after Bond amortisation begins, in an amount equal to the Principal Available Funds applied on each Payment Date to amortising Series C in accordance with the rules for Distribution of Principal Available Funds given in sections 4.9.3.1.4 and 4.9.3.1.5 below, pro rated between the Bonds in Series C proper by reducing the face amount of each Series C Bond.

The first partial amortisation of the Series C Bonds shall occur once the Series A and the Series B Bonds have been fully amortised.

Notwithstanding partial or total amortisation resulting from partial amortisation as provided for in the preceding paragraph, final amortisation of Series C Bonds shall occur on the Final Maturity Date (November 20, 2019 or the following Business Day if that is not a Business Day), or before the Final Maturity Date, in accordance with the provisions of section 4.9.3.2 of this Securities Note, upon Early Liquidation and Early Amortisation of the Bond Issue, in both cases in the Liquidation Priority of Payments.

4.9.3 **Common characteristics applicable to amortisation of Bonds in each Bond Series.**

4.9.3.1 **Partial amortisation.**

Irrespective of the Final Maturity Date and subject to the Early Amortisation of the Bond Issue in the event of Early Liquidation of the Fund, the Fund shall, through its Management Company, proceed to a partial amortisation of the Bonds in each Series, after the Revolving Period ends, on the Payment Dates in accordance with the specific amortisation terms for each Series established in section 4.9.2 of this Securities Note and on the terms described hereinafter in this section common to all three Series.

4.9.3.1.1 **Determination Dates and Determination Periods.**

These will be the dates falling on the fourth (4th) Business Day preceding each Payment Date on which the Management Company on behalf of the Fund will make all necessary calculations to distribute or withhold the Available Funds and the Principal Available Funds which the Fund shall dispose of on the relevant Payment Date, in the Priority of Payments. The first Determination Date shall be February 14, 2006.

Determination Periods shall be periods comprising the exact number of days elapsed between every two consecutive Determination Dates, each Determination Period excluding the beginning Determination Date and including the ending Determination Date. Exceptionally,

- (i) the duration of the first Determination Period shall be equal to the days elapsed between the date of establishment of the Fund, inclusive, and the first Determination Date, February 14, 2006, inclusive, and
- (ii) the duration of the last Determination Period shall be equal to the days elapsed a) until the Final Maturity Date or the date on which the Early Liquidation of the Fund concludes, as provided for in section 4.4.4.3 of the Registration Document, on which the Credit Rights and the assets remaining in the Fund have been liquidated and all the Liquidation Available Funds have been distributed in the Liquidation Priority of Payments of the Fund, b) from the Determination Date preceding the Payment Date preceding the date referred to in a), both inclusive.

4.9.3.1.2 **Outstanding Principal Balance of the Bonds.**

The Outstanding Principal Balance of a Series shall be the sum of the principal pending repayment (outstanding balance) on a given date of all the Bonds in that Series.

By addition, the Outstanding Principal Balance of the Bond Issue shall be the sum of the Outstanding Principal Balance of all three Series A, B and C making up the Bond Issue.

4.9.3.1.3 **Principal Withholding on each Payment Date.**

On each Payment Date, the Available Funds shall be used in seventh (7th) place in the priority of payments for withholding the amount designed for acquiring Additional Credit Rights and, after the Revolving Period ends, for amortising the Bonds as a whole, without distinguishing between the different Series (“**Principal Withholding**”), in an amount equal to the positive difference, if any, on the Determination Date preceding the relevant Payment Date, between (i) the Outstanding Principal Balance of the Bond Issue, and (ii) the sum of a) the Outstanding Balance of Non-Doubtful Credit Rights and b) the Principal Account balance and, as the case may be, the Surplus Account balance transferred from the Principal Account.

Depending on the liquidity existing on each Payment Date, the amount actually applied of the Available Funds to Principal Withholding shall be included among the Principal Available Funds and be applied in accordance with the rules for Distribution of Principal Available Funds established hereinafter in section 4.9.3.1.5 below.

4.9.3.1.4 **Principal Available Funds and Principal Deficiency on each Payment Date.**

The Principal available funds on each Payment Date (the “**Principal Available Funds**”) shall be the following:

- a) The Principal Withholding amount applied in seventh (7th) place of the Available Funds on the relevant Payment Date.
- b) Until the Payment Date next succeeding the end of the Revolving Period, inclusive, the Principal Account balance and, as the case may be, the Surplus Account balance transferred from the Principal Account on the Determination Date preceding the relevant Payment Date.

The principal deficiency (the “**Principal Deficiency**”) on a Payment Date shall be the positive difference, if any, between (i) the Principal Withholding amount, and (ii) the amount actually applied of the Available Funds to Principal Withholding.

4.9.3.1.5 **Distribution of Principal Available Funds.**

The Principal Available Funds shall be applied on each Payment Date in accordance with the following rules (“**Distribution of Principal Available Funds**”):

1. During the Credit Right Revolving Period, payment of the assignment price comprising the face value of the outstanding capital or principal of the Additional Credit Rights acquired by the Fund on the relevant Payment Date.

The remaining Principal Available Funds not used for acquiring Additional Credit Rights shall remain credited to the Principal Account.

2. After the Revolving Period ends, the Principal Available Funds shall be sequentially applied firstly to amortising Series A until fully amortised, secondly to amortising Series B until fully amortised, and thirdly to amortising Series C until fully amortised.

4.9.3.2 **Early Amortisation of the Bond Issue.**

Subject to the Fund’s obligation, through its Management Company, to proceed to final amortisation of the Bonds on the Final Maturity Date or amortisation of each Series before the Final Maturity Date, the Management Company shall, after first notifying the CNMV, be authorised to proceed, as the case may be, to an Early Liquidation of the Fund and hence an Early Amortisation, on a Payment Date, of the entire Bond Issue in the Early Liquidation Events and subject to the requirements established in section 4.4.3 of the Registration Document and subject to the Liquidation Priority of Payments.

4.9.3.3 **Final Maturity Date.**

The Final Maturity Date and consequently the final amortisation of the Bonds is November 20, 2019 or the following Business Day if that is not a Business Day, without prejudice to the Management Company, for and on behalf of the Fund, and in accordance with the provisions of sections 4.9.3.1 and 4.9.3.2 of this Securities Note, proceeding to amortise all or any Series of the Bond Issue before the Final Maturity Date. Final amortisation of the Bonds on the Final Maturity Date shall be made subject to the Liquidation Priority of Payments.

4.10 **Indication of yield.**

The average life, yield, term and final maturity of the Bonds in each Series depend on several factors, most significant among which are the following:

- i) Acquisition by the Fund of Additional Credit Rights during the Revolving Period in order to replace the decrease in the amounts of the Credit Rights.
- ii) The repayment schedule and system of each Credit Right established in the relevant document.

- iii) The Obligors' capacity to prepay the Credit Rights in whole or in part and the aggregate prepayment pace throughout the life of the Fund. In this sense, Credit Right prepayments by Obligors, subject to continual changes, and estimated in this Prospectus using several performance assumptions of the future effective constant annual early amortisation or prepayment rate (hereinafter also "CPR"), are very significant and shall directly affect the pace at which the Bonds are amortised, and therefore their average life and duration.
- iv) Changes in Credit Right interest rates resulting in every instalment repayment amount differing.
- v) Obligors' delinquency in payment of Credit Right instalments.

The following assumed values have been used for the above-mentioned factors in calculating the tables contained in this section:

- Loan interest rate: 6.66% weighted average interest rate as of November 21, 2005 of the portfolio of selected loans which has been used for calculating the repayment instalments and interest of each of the selected loans;
- Credit Right portfolio delinquency: 0.10% of the Outstanding Balance of the Credit Rights, with 100% recoveries within 15 months of becoming delinquent;
- Credit Right doubtfuls rated as bad debts: 0%;
- that the Credit Right prepayment rate remains constant throughout the life of the Bonds;
- that the Bond Closing Date is December 15, 2005;
- that there is no Principal Deficiency;
- that the Credit Right Revolving Period shall end on November 20, 2007, and during the same Additional Credit Rights shall be acquired on each Payment Date and in the aggregate Principal Available Funds on each such dates; and
- that the weighted average final maturity of the additional Credit Rights acquired during the Revolving Period is 5 years.

The actual adjusted life and the yield or return on the Bonds will also depend on their floating interest rate. The following nominal interest rates are assumed for each Series for the first Interest Accrual Period, resulting from the straight-line interpolation bearing in mind the number of days in the First Interest Accrual Period between two- (2-) month Euribor (2.406%) and three- (3-) month Euribor (2.450%) on November 24, 2005 and in the event that the applicable margins should be the average margins in the range established for each Series in accordance with section 4.8.1.2 of this Securities Note (0.11% for Series A, 0.24% for Series B and 0.35% for Series C):

	Series A Bonds	Series B Bonds	Series C Bonds
Nominal interest rate	2.526%	2.656%	2.766%

For successive Interest Accrual Periods, the floating interest rate of the Bonds in each Series is assumed to be constant as follows, resulting from 3-month Euribor (2.450%) on November 24, 2005 and in the event that the applicable margins should be the average margins in the range established for each Series in accordance with section 4.8.1.2 of this Securities Note (0.11% for Series A, 0.24% for Series B and 0.35% for Series C):

	Series A Bonds	Series B Bonds	Series C Bonds
Nominal interest rate	2.560%	2.690%	2.800%

4.10.1 Estimated average life, yield or return, duration and final maturity of the Bonds.

Assuming that the Management Company shall exercise the Early Liquidation of the Fund and Early Amortisation of the Bond Issue option provided in section 4.4.3 of the Registration Document when the Outstanding Balance of the Credit Rights is less than 10% of their initial Outstanding Balance upon the Fund being established, the average life, return (Internal Rate of Return IRR) for the Bond subscriber, duration and final maturity of the Bonds for different CPRs, would be as follows:

These figures have been calculated using the following formula:

Average life of the Bonds: for each Series, average of the time periods between the Closing Date and each Payment Date, using for weighting purposes the weights the principal to be repaid on each Payment Date has on the total face amount of the Series, in accordance with the following expression:

$$V = \frac{\sum (P \times d)}{T} \times \frac{1}{365}$$

Where:

- V = Average life in each Bond Series issued expressed in years.
- P = Estimated principal to be repaid in each Bond Series on each Payment Date.
- d = Number of days elapsed between the Closing Date and the Payment Date at issue.
- T = Total face amount in EUR in each Bond Series.

Internal rate of return (IRR): for each Series, interest rate equalling the restatement at present value of the total amortisation and interest amounts received on each Payment Date with the face value of the Bond.

$$N = \sum_{i=1}^n A_i (1+r)^{-(nd/365)}$$

Where:

- N = face value of the Bond in each Series.
- r = IRR expressed as an annual rate, per unit.
- A_i = (A₁ A_n). Estimated total amortisation and interest amounts to be received by investors.
- nd = Number of days comprised between the Closing Date of the issue and each of the n Payment Dates, not inclusive, during the life of the Bond.

Duration of the Bonds (adjusted Macaulay formula): for each Series, measure of Bond price sensitivity with respect to changes in yield.

$$D = \frac{\sum_{j=1}^n (a_j \times VA_j)}{PE} \times \frac{1}{(1+i)}$$

Where:

D = Duration in each Bond Series expressed in years.

a_j = Time elapsed (in years) between the Closing Date and each of the *n* Payment Dates at issue.

VA_j = Estimated present value of each of the amounts comprising principal and gross interest, payable on each of the *n* Payment Dates discounted at the actual interest rate (IRR) in every Series.

PE = Issue price in every Bond Series.

i = Actual interest rate (IRR) in every Series, per unit.

The Management Company expressly states that the servicing tables described hereinafter for each Series are merely theoretical and given for illustrative purposes, and represent no payment obligation whatsoever, on the basis that:

- Whereas CPRs are assumed to be constant respectively at 14.00% and 16.00% throughout the life of the Bond Issue, as explained above actual prepayment changes continually. The benchmark considered was the historic CPR experienced by credit rights pooled in the asset securitisation fund BBVA Autos 1 FTA, which was 15.19% as at October 31, 2005.
- The Outstanding Principal Balance of the Bonds on each Payment Date and hence interest payable on each such dates shall depend on the actual Credit Right prepayment, delinquency and default rates.
- Whereas Bond nominal interest rates are assumed to be constant for each Series from the second Interest Accrual Period, the interest rate in all the Series is known to be variable.
- Credit Right portfolio delinquency: 0.10% of the Outstanding Balance of Credit Rights with 100% recoveries within 15 months of becoming delinquent.
- Credit Right doubtfuls rated bad debts: 0%
- The assumed values referred to at the beginning of this section are at all events taken for granted.
- It is assumed that the Management Company will exercise the Early Liquidation of the Fund and thereby the Early Amortisation of the Bond Issue option when the Outstanding Balance of the Credit Rights is less than 10% of their initial amount upon the Fund being set up, as provided in section 4.4.3 of the Registration Document.

4.11 Representation of security holders.

No Syndicate of Bondholders will be set up for the securities included in this Bond Issue.

On the terms provided for in article 12 of Royal Decree 926/1998, it is the Management Company's duty, as the manager of third-party portfolios, to represent and enforce the interests of the holders of the Bonds issued by the Fund and of all its other ordinary creditors. Consequently, the Management Company shall make its actions conditional on their protection and observe the provisions established for that purpose from time to time.

4.12 Resolutions, authorisations and approvals for issuing the securities.

a) Corporate resolutions.

Resolution to set up the Fund and issue the Bonds:

At its meeting of November 4, 2005, the Executive Committee of the Board of Directors of EUROPEA DE TITULIZACIÓN resolved that:

- i) BBVA AUTOS 2 FONDO DE TITULIZACIÓN DE ACTIVOS be set up in accordance with the legal system for which provision is made in Royal Decree 926/1998 and Act 19/1992, failing a provision in Royal Decree 926/1998 and to the extent applicable, and all other legal and statutory provisions in force and applicable from time to time.
- ii) Credit rights assigned by BBVA derived from loans granted by BBVA to individuals resident in Spain for financing the purchase of new motor cars be pooled in the Fund.
- iii) The Bonds be issued by the Fund.

Resolution to assign the credit rights:

The Standing Executive Committee of BBVA resolved, at a meeting held on October 26, 2005, that the assignment of loans and credits without mortgage security granted by BBVA for financing the purchase by individuals of new motor cars to an open-end Asset Securitisation Fund set up ad hoc for a total maximum amount of EUR 1,000,000,000 be authorised. Moreover, and in order for the outstanding balance of the securitised loans to remain at EUR 1 billion for the first twenty-four months of existence of the Fund, that the assignment of additional loans or credits be authorised.

b) Registration by the CNMV.

The establishment of the Fund and issue of the Bonds are subject to the condition precedent of the entry in the Official Registers of the CNMV of this Prospectus and all other supporting documents, in accordance with the provisions of article 5.1.e) of Royal Decree 926/1998.

This Prospectus regarding the establishment of the Fund and issue of the Bonds has been entered in the CNMV's Official Registers on December 5, 2005.

c) Execution of the Fund public deed of constitution.

Upon the CNMV registering this Prospectus, the Management Company shall with BBVA, Originator of the Credit Rights, proceed to execute on December 12, 2005 a public deed whereby BBVA AUTOS 2 FONDO DE TITULIZACIÓN DE ACTIVOS will be established, BBVA will assign the Initial Credit Rights to the Fund, and the Fund will issue the Asset-Backed Bonds, on the terms provided in article 6 of Royal Decree 926/1998.

The Management Company represents that the contents of the Deed of Constitution shall match the draft Deed of Constitution it has submitted to the CNMV and the terms of the Deed of Constitution shall at no event contradict, change, alter or invalidate the contents of this Prospectus.

The Management Company shall submit a copy of the Deed of Constitution to the CNMV to be entered in the Official Registers before the Bond Subscription Period begins.

4.13 Issue date of the securities.

The Bonds shall be issued by means of the Deed of Constitution on December 12, 2005.

4.13.1 Potential investors to whom the Bonds are offered

Placement of the Bonds in each of Series A, B and C of the Bond Issue is targeted exclusively at qualified investors, and therefore, in accordance with the Securities Market Act and applicable implementing regulations, the Bond offering shall not be considered a public offering.

Each of the Series consists of one tranche only.

4.13.2 Subscription or acquisition date or period.

The subscription period (the "**Subscription Period**") shall begin at 12 o'clock midday (CET time) on December 13, 2005 and end at 1pm (CET time) on the same day.

4.13.3 Where and with whom may subscription or acquisition be processed?

In order to be taken into account, subscription proposals shall be made during the Subscription Period established in the preceding section, with BBVA, DRESNER KLEINWORT WASSERSTEIN, JPMORGAN, ABN AMRO, BANCO COOPERATIVO, FORTIS BANK, HSBC and SOCIÉTÉ GÉNÉRALÉ, as Underwriters and Placement Agents, and observing the procedures established hereinafter in the following sections.

Subscribing for or holding Bonds in one Series does not imply subscribing for or holding Bonds in any of the other Series.

4.13.4 Placement and allocation of the Bonds.

The Underwriters and Placement Agents shall freely proceed to accept or turn down the subscription proposals received, making sure in any event that there is no discriminatory treatment between similarly characterised proposals. The Underwriters and Placement Agents may nevertheless give priority to proposals of those of their customers as they shall deem fit or appropriate and indeed subscribe on their own account, for themselves or group companies, Bonds in each Series.

Each Underwriter and Placement Agent agrees to subscribe in its own name, at the close of the Subscription Period, for such amount of Bonds as may be necessary to complete the figure of their underwriting commitment as determined in the Bond Issue Management, Underwriting and Placement Agreement.

4.14 Restrictions on the free transferability of the securities.

There are no restrictions on the free transferability of the Bonds. They may be freely transferred by any means admissible at Law and in accordance with the rules of the AIAF market where they will be traded. A transfer in the accounts will convey the ownership of each Bond. The effects of entering the conveyance to the transferee in the accounting record shall be the same as handing over the certificates and the transfer shall thereupon be enforceable on third parties.

5 ADMISSION TO TRADING AND DEALING ARRANGEMENTS.

5.1 Market where the securities will be traded.

In fulfilment of the provisions of article 2.3 of Royal Decree 926/1998, the Management Company shall, upon the Bonds having been paid up, apply for this Bond Issue to be listed on AIAF Mercado de Renta Fija (“**AIAF**”), which is a qualified official secondary securities market pursuant to transitional provision six of Act 37/1998, November 16, amending the Securities Market Act. The Management Company undertakes that definitive listing will be achieved not later than one month after the Closing Date.

The Management Company expressly represents that it is aware of the requirements and terms that must be observed for the securities to be eligible to be listed, remain listed and be excluded from listing on the AIAF, in accordance with the laws in force and the requirements of its governing bodies, and the Fund agrees through its Management Company to observe the same.

In the event that, by the end of the one-month period referred to in the first paragraph of this section, the Bonds should not be so listed on the AIAF, the Management Company shall forthwith proceed to notify Bondholders thereof, moreover advising of the reasons resulting in such breach, using the extraordinary notice procedure provided for in section 4.1.2 of the Building Block. This shall be without prejudice to the Management Company being held to be contractually liable, as the case may be.

5.2 Paying agents and depository agents.

5.2.1 Paying Agent of the Bond Issue.

The Bond Issue will be serviced through BBVA as Paying Agent. Payment of interest and repayments shall be notified to Bondholders in the events and in such advance as may be provided for each case in section 4.1.1 of the Building Block. Interest and amortisation shall be paid to Bondholders by the relevant members and to the latter in turn by Iberclear, the institution responsible for the accounting record.

The Management Company shall, for and on behalf of the Fund, enter with BBVA into a paying agent agreement to service the Bonds issued by the Fund (the “**Paying Agent Agreement**”).

The obligations to be taken on by BBVA (the “**Paying Agent**”) under this Paying Agent Agreement are summarily as follows:

- (i) Paying the Fund by 3pm (CET time) on the Closing Date, by crediting the Treasury Account, for same day value, the aggregate amount of the subscription for the Bond Issue received from the other Underwriters and Placement Agents as provided for in the Bond Issue Management, Underwriting and Placement Agreement plus the face amount of the Bonds placed and subscribed, as the case may be, for on its own account, as Underwriter and Placement Agent.
- (ii) Paying each Underwriter and Placement Agent on the Closing Date, as directed by the Management Company, the underwriting and placement fee amount they shall each have earned, after they have in turn paid it the face amount of the Bonds they shall each have placed and subscribed for, as the case may be, on their own account up to their respective underwriting commitment.
- (iii) Handing to the Management Company Bond Issue placement dissemination control information based on the information provided in that connection by the Underwriters and Placement Agents, using for that purpose the form duly established by the CNMV.
- (iv) On each of the Bond Payment Dates, paying interest and, as the case may be, repaying Bond principal through Iberclear, after deducting the total amount of the interim tax withholding for return on

investments to be made by the Management Company, on behalf of the Fund, in accordance with applicable tax laws.

- (v) On each Interest Rate Fixing Date, notifying the Management Company of the Reference Rate determined to be used as the basis for calculating the Nominal Interest Rate applicable to each Bond Series.

In the event that the rating of the short-term, unsecured and unsubordinated debt of BBVA should, at any time during the life of the Bond Issue, fall below F1, P-1 or A-1 respectively in Fitch's, Moody's and S&P's rating scales, the Management Company shall within not more than thirty (30) Business Days from the time of the occurrence of any such circumstances revoke the appointment of BBVA as Paying Agent, and shall thereupon designate another institution having a credit rating for its short-term, unsecured and unsubordinated debt of at least F1, P-1 and A-1 respectively in Fitch's, Moody's and S&P's rating scales, to take its place before terminating the Paying Agent Agreement or, as the case may be, under a new paying agent agreement, and subject to prior notice being given to the Rating Agencies. Should BBVA be replaced as Paying Agent, the Management Company shall be entitled to change the fee payable to the substitute institution, which may be higher than that established with BBVA under the Paying Agent Agreement.

In consideration of the services provided by the Paying Agent, the Fund shall pay it on each Payment Date during the term of the agreement, a fee of EUR twelve thousand (12,000.00), inclusive of taxes as the case may be. This fee shall be paid provided that the Fund has sufficient liquidity and in the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

In the event that the Fund should not have sufficient liquidity to pay said full fee, then the amounts accrued and not paid shall be accumulated without any penalty whatsoever to the fee falling due on the following Payment Date, unless that absence of liquidity should continue, in which case the amounts due shall build up until fully paid on the Payment Date on which they are settled.

The Paying Agent Agreement shall be fully terminated in the event that the Rating Agencies should not confirm the provisional ratings assigned to each Series as final ratings by the start of the Subscription Period or in the event of termination of the Bond Management, Underwriting and Placement Agreement.

7.5 Credit ratings assigned to the securities by rating agencies.

Fitch, Moody's and S&P have on December 2, 2005, assigned the following provisional ratings to each Bond Series, and expect to assign the same final ratings by the start of the Bond Subscription Period.

Bond Series	Fitch Ratings	Moody's Ratings	S&P Ratings
Series A	AAA	Aaa	AAA
Series B	AA	Aa3	AA-
Series C	A	A3	A

If the Rating Agencies should not confirm any of the assigned provisional ratings as final by the start of the Subscription Period, this circumstance would forthwith be notified to the CNMV and be publicised in the manner for which provision is made in section 4.1.2.2 of the Building Block. Furthermore, this circumstance would result in the establishment of the Fund, the Bond Issue and the assignment of the Initial Credit Rights terminating.

Rating scales used by Fitch, Moody's and S&P.

The following are the rating scales for long-term debt used by the agencies:

Fitch	Ratings given by Moody's	S&P	Meaning
AAA	Aaa	AAA	Extremely strong capacity for interest payment and principal repayment. For Moody's securities that are rated Aaa are judged to be of the best quality and carry the smallest degree of investment risk. Interest payments are protected by a large or an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, they are unlikely to impair the fundamentally strong position of such securities.
AA	Aa	AA	Very strong capacity for interest payment and principal repayment. For Moody's securities that are rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high grade securities. They are rated lower because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present that make the long-term risks appear somewhat larger than in Aaa securities.
A	A	A	Strong capacity for interest payment and principal repayment. Factors giving security are considered adequate, but may be susceptible to impairment in the future. For Moody's securities that are rated A possess many favourable investment attributes and are to be considered as upper medium grade obligations. Factors giving security to principal and interest are considered adequate, but elements may be present that suggest a susceptibility to impairment some time in the future.
BBB	Baa	BBB	Interest and principal payment protection may not be so large; payment capacity is considered adequate. Adverse business conditions may result in inadequate capacity to make interest and principal payments. For Moody's securities that are rated Baa are considered as medium grade obligations, i.e., they are neither highly protected nor poorly secured. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
BB	Ba	BB	Speculative grade. Their future cannot be considered as assured. Protection of interest and principal payments is very moderate. For Moody's securities that are rated Ba are judged to have speculative elements; their future is not well assured. Often the protection of interest and principal payments may be very moderate, and thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterises bonds in this class.
B	B	B	Assurance of interest or principal payments may be small. Highly vulnerable to adverse business conditions. For Moody's securities that are rated B generally lack characteristics of the desirable investment. Assurance of interest and principal payments or maintenance of other terms of the contract over any long period of time may be small.
CCC	Caa	CCC	Vulnerable to default. Continuity of payments dependent on favourable financial, economic and business conditions.

Fitch	Ratings given by Moody's	S&P	Meaning
CC	Ca	CC	For Moody's securities that are rated Caa are of poor standing. Such securities may be in default or there may be present elements of danger with respect to principal or interest. Highly speculative.
C	C	C	For Moody's securities that are rated Ca represent obligations that are speculative in a high degree. Such issues are often in default or have other marked shortcomings. Denotes actual or imminent default.
DDD,DD,D		D	For Moody's securities that are rated C are the lowest rated class of securities, and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing. Speculative securities. Their value might not exceed the repayment value in the event of liquidation or reorganisation of the sector.

- Fitch appends (+) or (-) to categories from AA to CCC denoting relative status within each category.
- Moody's applies numerical modifiers 1, 2, and 3 in each generic rating category from Aa to Caa. Modifier 1 indicates that the security ranks in the higher end of each generic rating category; modifier 2 indicates a mid-range ranking; and modifier 3 indicates a ranking in the lower end of each generic category.
- S&P appends (+) or (-) to categories from AA to denoting relative standing within each category

The following are the rating scales for short-term debt used:

Fitch	Ratings given by Moody's	S&P	Meaning
F1	P-1 (Prime-1)	A-1	The highest rating, indicating strongest capacity for timely payments. In the case of Fitch and S&P, the + sign may be appended if capacity is extremely strong. For Moody's issuers rated P-1 have a superior ability for timely repayment of less than 1-year debt obligations. P-1 issuer repayment ability will often be evidenced by many of the following characteristics: 1) leading market position in well-established industries; 2) high rates of return on funds employed; 3) conservative capitalisation structure with moderate reliance on debt market and ample asset protection; 4) broad margins in earnings coverage of fixed financial charges and high internal cash generation; and 5) well-established access to a range of financial markets and assured sources of alternate liquidity.
F2	P-2 (Prime-2)	A-2	Capacity for timely debt servicing is satisfactory, although margin of safety not as great as in the previous case. For Moody's issuers rated P-2 have a strong ability for timely repayment of less than 1-year debt obligations. This will normally be evidenced by many of the characteristics cited in the preceding category but to a lesser degree. Earnings trends and coverage ratios, while sound, may be more subject to variation. Capitalisation characteristics, while still appropriate, may be more affected by external conditions. Ample alternate liquidity is maintained.
F3	P-3 (Prime 3)	A-3	Capacity for payment is satisfactory, but more vulnerable than the previous cases to adverse changing circumstances.

Fitch	Ratings given by		S&P	Meaning
		Moody's		
B		NP (Not Prime)	B	For Moody's issuers rated P-3 have an acceptable ability for timely repayment of less than one-year debt obligations. The effect of industry characteristics and market composition for the issuer may be more pronounced. Variability in earnings and profitability may result in changes in the level of debt protection measurements and may require relatively high financial leverage. Normally implies an adequate payment capacity but adverse circumstances would seriously impair debt servicing capacity. For Moody's this means that these issuers do not fall within any of the above rating categories.
C		---	C	This rating is assigned to short-term debt with a doubtful payment capacity.
D		---	D	Debt rated D is in default. This category is used when interest or principal payment is not made on the date due, even if the applicable grace period has not expired.

Rating considerations.

The ratings assigned to each Bond Series by Fitch measure the Fund's capacity for timely payment of interest and payment of Bond principal throughout the life of the transaction and at all events before the Final Maturity Date, on the terms stipulated in the Prospectus.

The ratings assigned to each Bond Series by Moody's measure the expected loss before the Final Maturity Date. In Moody's opinion, the structure allows prompt payment of interest and payment of principal during the life of the transaction and, in any event, before the Final Maturity Date.

The ratings assigned to each Bond Series by S&P measure the Fund's ability to meet interest payments as they fall due on each set Payment Date and principal repayment throughout the life of the transaction and, in any event, before the Final Maturity Date.

The ratings take into account the structure of the Bond Issue, the legal aspects thereof and of the issuing Fund, the characteristics of the loans selected to be assigned to the Fund and the regularity and continuity of the operating flows.

The Rating Agencies' ratings are not an assessment of the likelihood of obligors prepaying principal, nor indeed of the extent to which such prepayments differ from what was originally forecast. The ratings are not by any means a rating of the level of actuarial performance.

The ratings assigned, and any review or suspension of the ratings:

- (i) are assigned by the Rating Agencies based on manifold information received with respect to which they give no assurance, nor even as to their accuracy or wholeness, wherefore the Rating Agencies may in no event be deemed to be responsible therefor; and
- (ii) are not and cannot therefore be howsoever construed as an invitation, recommendation or encouragement for investors to proceed to carry out any transaction whatsoever on the Bonds and, in particular, acquire, keep, charge or sell those Bonds.

The Rating Agencies may review, suspend or withdraw the final ratings assigned at any time, based on any information that may come to their notice. Those events, which shall not constitute early liquidation events of the Fund, shall forthwith be notified to both the CNMV and the Bondholders, in accordance with the provisions of section 4.1 of the Building Block.

In carrying on the rating and monitoring process, the Rating Agencies rely on the accuracy and wholeness of the information provided by BBVA, the Management Company, the Lead Managers, the auditors of the selected loans, and lawyers.

ASSET-BACKED SECURITIES NOTE BUILDING BLOCK

(Annex VIII to Commission Regulation (EC) No. 809/2004 of April 29, 2004)

1. SECURITIES

1.1 Minimum denomination of the issue.

The Fund shall be set up with the Initial Credits Rights which BBVA shall assign to the Fund upon being established and their total principal or capital shall be equal to or slightly under EUR one billion (1,000,000,000.00), the face value amount of the Bond Issue.

1.2 Confirmation that the information relating to an undertaking or obligor not involved in the issue has been reproduced.

Not applicable.

2. UNDERLYING ASSETS

2.1 Confirmation that the securitised assets have capacity to produce funds to service any payments due and payable on the securities.

The Management Company confirms that, based on their contractual characteristics, the flows of principal, interest and any other amounts generated by the securitised Credit Rights allow the payments due and payable on the Bonds issued to be satisfied.

Nevertheless, in order to cover for potential defaults on payment by the Obligors of the securitised Credit Rights, a number of credit enhancement transactions have been arranged allowing the amounts payable on the Bonds in each Series to be covered to a different extent and mitigating interest risk due to the different terms of the interest clauses of the assets and of the Bonds in each Series. In exceptional circumstances, the enhancement transactions could actually fall short. The credit enhancement transactions are described in sections 3.4.2, 3.4.3 and 3.4.4 of this Building Block.

Not all the Bonds issued have the same risk of default given the credit ratings assigned by the Rating Agencies to the Bonds in each Series, detailed in section 7.5 of the Securities Note.

Upon the occurrence of a (i) substantial alteration or permanent imbalance of the Fund due to any event or circumstance whatsoever unrelated to the Fund's operations or (ii) default indicating a serious permanent imbalance in relation to any of the Bonds issued or suggesting that it will occur, the Management Company may proceed with an Early Liquidation of the Fund and thereby an Early Amortisation of the Bond Issue on the terms laid down in section 4.4.3 of the Registration Document.

2.2 Assets backing the issue.

The Credit Rights to be pooled in the Fund, represented by the Management Company, shall exclusively consist of Credit Rights owned by and shown on the assets of BBVA derived from Loans granted to individuals resident in Spain (the "**Obligors**") for financing the purchase of new motor cars, comprising the Initial Credit Rights assigned by BBVA to the Fund upon being established and the Additional Credits Rights later assigned during the Revolving Period.

The requirements to be met by the Credit Rights to be assigned to the Fund, the characteristics of the Initial Credit Rights and the system for subsequent assignments of Additional Credit Rights during the Revolving Period, are described hereinafter in this section in accordance with the provisions of the Deed of Constitution.

Maximum Credit Right Amount.

The maximum amount of the Outstanding Balance of the Credit Rights pooled in the Fund shall be EUR one billion (1,000,000,000.00) (the “**Maximum Credit Right Amount**”), equivalent to the face value of the Bond Issue.

2.2.1 Legal jurisdiction by which the pool of assets is governed.

The securitised assets are governed by Spanish Law.

As BBVA has represented, most of the Loans are originated in a loan agreement certified by a commissioner for oaths whereas others, those not exceeding a certain amount, are originated in a private agreement the terms of which include a clause making provision for the issue of a non-negotiable blank promissory note by the borrower Obligor, delivering the same to BBVA and expressly authorising BBVA, upon final or early termination, as the case may be, to complete the same with such amount as may result from the addition of a number of items in order to stand as an enforceable instrument for BBVA in the event of a breach by the Obligor of the terms agreed in the relevant Loan.

Upon the secured main obligation falling due, whether by expiration of its term or early termination, and the borrower Obligor failing to comply with the payment obligations, BBVA shall be authorised to complete the promissory note as provided for among the parties, and shall be entitled to present the same for collection, applying, as the case may be, the proceeds therefrom to total or partial payment of the Loan, in accordance with articles 12 and 96 of Exchange and Cheque Act 19/1985.

In Loans secured by means of a bill, the buyer of the vehicle may, in accordance with the provisions of article 12 of Consumer Credit Act 7/1995, March 23, raise against the Fund any claims deriving from the buyer's relations with the vehicle supplier, provided that the circumstances laid down in article 15 a, b and c of that Act occur, namely (i) that the vehicle purchase contract and the loan agreement were entered into with a different supplier, (ii) that a previous exclusive arrangement was entered into between the lender and the vehicle supplier for financing the vehicle, and (iii) the borrower shall have taken out the loan by applying that arrangement.

2.2.2 Description of the general characteristics of the obligors, as well as global statistical data referred to the securitised assets.

2.2.2.1 Initial Credit Rights.

The Deed of Constitution shall perfect the agreement between the Management Company, for and on behalf of the Fund, and BBVA to assign to the Fund an as yet indeterminate number of Initial Credit Rights whose total principal or capital shall be equal to the Maximum Credit Right Amount (EUR 1,000,000,000.00) or a slightly lower amount closest thereto. The amount of the Initial Credit Rights assigned upon the Fund being constituted may be slightly less than the Maximum Credit Right Amount given how difficult it is to exactly adjust to that amount because each of the Loans will be assigned at each of their total outstanding capital or principal upon being assigned. The difference between the Maximum Credit Right Amount and the amount of the Initial Credit Rights shall be credited to the Principal Account.

The Deed of Constitution shall itemise each of the Initial Credit Rights assigned to the Fund, providing the main features allowing them to be identified.

The selected loan portfolio from which the Initial Credit Rights shall be taken comprises 122,342 loans, the outstanding principal of which as of November 21, 2005 amounted to EUR 1,356,945,331.28 and the overdue principal amounted to EUR 1,847,420.06.

Audit of the selected assets securitised through the Fund upon being established.

These 122,342 selected loans from which the Initial Credit Rights shall be taken have been audited by Deloitte.

That audit was made using sampling techniques consisting of analysing a number of transactions fewer (sample) than the full selection of loans (population), allowing a conclusion to be arrived at regarding that population. The verification deals with a number of both quantitative and qualitative attributes regarding the sample transactions and specifically regarding: nature of the loan and obligor, lending policy, loan origination, identification of the obligor, date of origination, date of maturity, initial amount, current balance, fixed interest rate, personal bond and transfer of the loan. Selected loans in respect of which incidents are detected in verifying the sample shall not be assigned to the Fund by BBVA.

The audit results shall be set out in a report prepared by Deloitte, which is one of the available documents established in section 10 of the Registration Document.

General characteristics of the obligors and the economic environment, as well as global statistical data referred to the securitised assets.

As declared by BBVA in section 2.2.8.2.(14) of the Building Block, none of the Loans that will finally be assigned to the Fund upon being established shall have any overdue payments on their assignment date.

2.2.2.2 Additional Credit Rights.

After being constituted, the Fund, represented by the Management Company, shall on each Payment Date during the Revolving Period make successive acquisitions of Additional Credit Rights to replace the decrease in the Outstanding Balance of the Credit Rights in the amount of the Principal Available Funds.

2.2.2.2.1 Revolving Period.

The Management Company shall, for and on behalf of the Fund, make quarterly acquisitions of Additional Credit Rights on each Payment Date within the time-period comprised between the first Payment Date, February 20, 2006, and the Payment Date falling on November 20, 2007, both inclusive (the "Revolving Period").

There will be an early, definitive termination of the Revolving Period after the Payment Date in the Revolving Period, inclusive, on which any of the following circumstances shall have occurred, as the case may be:

- a) That, on the preceding Determination Date, the cumulative Outstanding Balance of Doubtful Credit Rights since the Fund was established is in excess of 3.00% of the Outstanding Balance of the Credit Rights.
- b) That, on the preceding Determination Date, the Outstanding Balance of Delinquent Credit Rights is in excess of 2.20% the Outstanding Balance of Credit Rights.
- c) That for two (2) consecutive and preceding Payment Dates the Outstanding Balance of the Non-Doubtful Credit Rights is less than 90.00% of the Outstanding Principal Balance of the Bond Issue.
- d) If interest accrued on the Series A Bonds should not be paid due to a shortfall of Available Funds on the relevant Payment Date.
- e) That, on the preceding Payment Date, the Cash Reserve shall not have been provisioned up to the Required Cash Reserve amount.
- f) That the Financial Swap Agreement shall have been terminated and a new replacement financial swap agreement shall not have been put in place within fifteen (15) days.
- g) That BBVA should have been declared insolvent, in liquidation or in a position which might result in its credit institution authorisation being revoked.
- h) That BBVA shall have been replaced as Servicer under the Loan Servicing Agreement.

- i) That the Spanish tax laws shall have been modified to such an extent that the assignment of Additional Credit Rights is exceedingly burdensome for BBVA.
- j) That, on the preceding Payment Date, the Outstanding Balance of Non-Doubtful Credit Rights is less than eighty percent (80.00%) of the Outstanding Principal Balance of the Bond Issue.

2.2.2.2.2 **Acquisition Amount.**

The maximum amount the Management Company, for and on behalf of the Fund, may allocate on each Payment Date to the acquisition of Additional Credit Rights (the “**Acquisition Amount**”) shall be the amount of the Principal Available Funds on the relevant Payment Date.

During the Revolving Period, the remaining Principal Available Funds not used for acquiring Additional Credit Rights shall remain credited to the Principal Account.

2.2.2.2.3 **Election Requirements.**

In order to be assigned to and included in the Fund, the Additional Credit Rights shall on the respective assignment date satisfy all the election requirements laid down in this section (the “**Election Requirements**”).

1. Individual Requirements

The following are the Election Requirements each additional Loan shall individually satisfy to be assigned to the Fund (the “**Individual Requirements**”):

1. That the Obligor is an individual resident in Spain.
2. That the Loan is denominated in euros.
3. That the Loan has not matured before, and does not mature on, the date of assignment to the Fund.
4. That the Loan principal has already been fully drawn down.
5. That the outstanding principal balance of the Loan is between EUR five hundred (500) and EUR sixty thousand (60,000), both inclusive.
6. That the Loan is established at a fixed interest rate.
7. That at least one (1) instalment has fallen due on the Loan and is not overdue.

12. That the Loan is not in an interest or repayment exclusion period.

2. Global Requirements.

In addition to satisfying the Individual Requirements, the following are the Election Requirements the Credit Rights, including the Additional Credit Rights, must satisfy as a whole for the latter to be assigned to the Fund (the “**Global Requirements**”):

1. That the average interest rate of the Credit Rights weighted by the Outstanding Balance of each Credit Right on the date of assignment is not less than 5.00%.

2. That average time elapsed since the date of origination of the Additional Credit Rights until the date of assignment and exclusively in relation to the Additional Credit Rights assigned as of that date, weighted by the Outstanding Balance of each Additional Credit Right on the assignment date is not less than three (3) months.

7. That on the date of assignment, the Outstanding Balance of the Credit Rights for Obligors for the three (3) Autonomous Communities with the highest representation (Outstanding Balance) is not in excess of sixty percent (60.00%) of the total Outstanding Balance of the Credit Rights.

2.2.2.2.4 Offer Dates.

The “**Offer Request Dates**” shall be the dates falling on the sixth (6th) Business Day preceding each Payment Date in the Revolving Period on which Additional Credit Rights should be acquired.

“**Offer Dates**” shall be the dates falling on the fourth (4th) Business Day preceding each of the Payment Dates in the Revolving Period on which Additional Credit Rights should be acquired.

2.2.2.2.5 Procedure for acquiring Additional Credit Rights.

1. On each Offer Request Date, the Management Company shall send the Originator a written notice demanding the assignment of Additional Credit Rights for the Fund, specifying estimated Acquisition Amount and the Payment Date on which the assignment to the Fund and payment for the assignment shall be made.
2. By 9am (CET time) on the Offer Date, the Originator shall send the Management Company a written notice offering to assign Additional Credit Rights, along with a data file detailing the selected loans and their characteristics included in the assignment offer and which shall satisfy the Individual Requirements and the other characteristics given in section 2.2.8.2 of this Building Block.
3. By the second (2nd) Business Day preceding the Payment Date, the Management Company shall send the Originator a written notice accepting the assignment of Additional Credit Rights, along with a data file with the details of the Additional Credit Rights accepted and their characteristics notified by the Originator.

In determining which Additional Credit Rights to include on the assignment acceptance, the Management Company shall:

- (i) Check that the Loans listed on the assignment offer satisfy the Individual Requirements numbered from 2 to 12 and the Global Requirements in conformity with the characteristics notified by the Originator, without this entailing checking compliance with the other characteristics of the Loans given in section 2.2.8,2 of this Building Block, which shall be reaffirmed by the Originator in the public deed recording the acquisition of Additional Credit Rights.

- (ii) Determine the Additional Credit Rights that are acceptable and eligible for assignment to the Fund for a total amount equal or as near as possible to the Acquisition Amount.

2.2.2.2.6 Annual audit of the Additional Credit Rights.

The Management Company shall on the Fund's behalf annually commission an audit, using sampling techniques, of Additional Credit Rights acquired during the years 2006 and 2007, this being the Revolving Period, which shall remain outstanding as of December 31 in each of those years.

The audit of the Additional Credit Rights in the sample shall refer to the same attributes as the audit made of the loans selected for assignment to the Fund upon being established.

That audit shall be undertaken by an audit firm registered in the Official Register of Auditors (ROAC) and sent to the CNMV along with the audit report on the annual accounts of the Fund for the years ended on December 31, 2006 and 2007.

2.2.2.3 Outstanding Balance of the Credit Rights.

The outstanding balance of a Credit Right shall be the sum of the capital or principal not yet due and the capital or principal due and not paid to the Fund on the specific Loan on a given date.

The Outstanding Balance of the Credit Rights on a date shall be the sum of the outstanding balance of each and every one of the Credit Rights on that date.

Delinquent Credit Rights shall be deemed to be Credit Rights that are delinquent on a given date with an arrears in excess of three (3) months in payment of overdue amounts, excluding Doubtful Credit Rights. Non-Delinquent Credit Rights shall be deemed to be Credit Rights that are not deemed to be Delinquent Credit Rights or Doubtful Credit Rights on a given date.

Doubtful Credit Rights shall be deemed to be Credit Rights that are delinquent on a given date with a period of arrears equal to or greater than twelve (12) months in payment of overdue amounts or classified as bad debts by the Management Company because there are reasonable doubts as to their full repayment based on indications or information obtained from the Servicer. Non-Doubtful Credit Rights shall be deemed to be Credit Rights that are not deemed to be Doubtful Credit Rights on a given date.

2.2.3 Legal nature of the pool of assets.

The selected loans may be classified based on their collaterals into:

- (i) Loans without special security.
- (ii) Loans exclusively secured with third-party personal bonds.

The loans shall be directly assigned to the Fund upon being sold by BBVA and acquired by the Fund, on the terms provided for in section 3.3 of this Building Block.

2.2.4 Expiry or maturity date(s) of the assets.

The selected loans each have a final maturity date without prejudice to periodic partial repayment instalments, on the specific terms applicable to each of them.

Obligors may at any time during the life of the loans prepay all or part of the outstanding capital, in which case the accrual of interest on the part prepaid will cease as of the date on which repayment occurs.

The final maturity date of the loans selected to be assigned to the Fund upon being established lies between January 1, 2007 and September 28, 2015. The final maturity date of the Loans assigned to the Fund upon acquisitions being subsequently made during the Revolving Period may not extend beyond September 30, 2017.

2.2.5 Amount of the assets.

The maximum amount of the Outstanding Balance of the Credit Rights pooled in the Fund shall be EUR one billion (1,000,000,000.00) (the “**Maximum Credit Right Amount**”), equivalent to the face value of the Bond Issue.

2.2.6 Loan to value ratio or level of collateralisation.

The selected loans have no real estate mortgage security and the information as to the loan to value ratio does not therefore apply.

There is no overcollateralisation in the Fund since the Maximum Credit Right Amount shall be EUR one billion (1,000,000,000), the face value amount of the Bond Issue.

2.2.7 Method of creation of the assets.

The loans selected for assignment to the Fund have been granted by BBVA following its usual credit risk analysis and assessment procedures for lending to individuals for the purpose of purchasing new motor cars. The procedures currently in place at BBVA are described below:

1. Introduction.

BBVA has a multi-channel distribution model, with the following marketing channels:

- *Network of Branches*

BBVA has a network of 3510 Branches in Spain covering the entire territory of Spain. This is the basic point in originating consumer credit, and is the main channel for receiving transactions and is therefore the basic reference for customers, and in turn the Branches are the ultimate recipient of all personal credit transactions arriving through the channels detailed below.

- *Network of Prescriptor Centres.*

This network supplements Branches and consists of 44 prescriptor centres specialising in processing transactions induced through prescriptors (car dealers). The main objective of these centres, with nationwide coverage, is procuring and managing prescriptors, and processing and deciding transactions assigned by those prescriptors, which are always channelled to Branches to be subsequently originated there.

- *Creditón BBVA Line*

For processing and pre-authorising over the telephone Credits applied for by customers and non-customers over the telephone, which are always originated at the Network of Branches.

- *Internet*

For processing and pre-authorising on the Internet BBVA Clic-e consumer loans, which shall, as with the telephone channel, always be originated at Network Branches.

2. Approval System.

BBVA has fully updated, tested technological means and systems for the various stages in arranging and administering personal loans to work smoothly.

Scoring system.

Transactions are assessed by means of two systems:

- *Proactive Scoring.*

Based on internal information of BBVA, risk limits are assigned, among other products, for Consumer Loans. This is used as an instrument supporting management and sale of lending products offering financing.

This tool scores each customer, within the Consumer Unit in which the customer is integrated, based on the customer's performance and relationships with BBVA, scoring the risk and assigning risk limits to the products: consumer, credit cards and current account overdrafts. If at the time of the application the customer has a sufficient available limit, the scoring opinion is positive. Otherwise, Reactive Scoring is used for the assessment.

- **Reactive Scoring.**

This system analyses each party involved having regard to their social and demographic and employment characteristics, and the economic situation of the family unit (income and expenditure). Where guarantors exist, the scoring result is enhanced if the profile is favourable and payment capacity and creditworthiness is sufficient.

The system provides a joint valuation for all parties involved and for the transaction and issues an opinion that may be:

- Positive: favourable profile of the applicants/transaction and positive payment capacity.
- Doubtful: Weak points in the borrowers and/or the transaction. Three grades: moderately doubtful, doubtful and very doubtful.
- Negative: derives from unfavourable aspects in the applicants and/or the transaction mainly due to a lack of payment capacity or more unstable social, employment or economic risk profiles.

The payment capacity of the family unit is obtained dividing the cash balance by the loan payment.

- The cash balance is the difference between monthly income and expenditure.
- The income is found weighting the proved net fixed and variable income according to the type of occupation. The expenditure is established based on the expenses declared by the applicant and the system estimate considering the level of income, size of the family unit, province of residence, etc.

The system relates the scoring opinion to internal and external filters and policy rules and issues a final automatic opinion which may be:

- Positive: positive scoring, no internal and external filters and satisfies risk acceptance requirements.
- Doubtful: positive scoring with mild default filters or doubtful scoring and/or mild default filters.
- Negative: positive or doubtful scoring with worrying filters or negative scoring.

The account manager's/analyst's capacity to authorise these transactions shall be determined by the empowerment figures conferred (in regard to both customer and product).

3. Origination of consumer loan transactions.

Transactions shall be originated in contractual documents created ad hoc which are automatically printed out from the application. Transactions shall always be originated at the Branch to which customers are naturally linked, based on:

- Applicants' usual family residence (or workplace).
- Previous relationships with that Branch.

The following paragraphs summarise main sections of risk decision principles, procedures and operation in loan transactions for the purchase of new vehicles.

Empowerment for Risks.

Empowerment is personally conferred based on the officer's experience and qualification and need to be so empowered for discharging his or her duties, having regard to the characteristics of the Unit in which he or she belongs. Since it is conferred on the individual as opposed to the position, the empowerment figure can vary when various individuals hold the same positions.

The empowerment for accepting risks originates in Political Bodies of BBVA Group and is cascaded down the hierarchic line. The empowerment figure shall be determined based on the officer's capability and the characteristics of the assigned market and segment.

Empowerment is conferred and used personally and accountability for its use shall also be personal. This personal liability is not lost or diluted even where decisions are made on the Risks Committee, which decisions shall never be collegiate decisions. Liability for the decision extends not only to the outcome but also to the appropriateness of the route chosen to study the decision and the documents provided.

Transactions which are not covered by the empowerment because of their amount, form or term or relating to customers for which there is no empowerment shall be submitted to the next immediate empowerment level or whoever the same shall have established.

Along with the empowerment for accepting customer risks which may be generically given, there may be specific empowerments for given products or risk forms, the characteristics of which as to amount, term and method of analysis shall be defined on a case by case basis.

Exceptions to the power to delegate and cancellation

Generally, Branches are delegated consumer loan approval authorities provided that they do not exceed a 3-year term. That generic limitation can be scaled up according to borrower.

The above exception to the empowerment shall not affect the Territorial Retail Banking Management Offices, Regional Corporate Banking Management Offices and Institutional Banking and Corporate Branch Management Offices (saving for transactions for the benefit of relatives up to the second degree of consanguinity or affinity, by whoever uses the empowerment).

Certificate – Record of Transactions / Committees

This document shall list in chronological order all transactions proposed, whether they are authorised, or refused using the empowerment or submitted to be analysed and for a decision to be made by higher levels.

Instructions affecting the BBVA Retail Banking Specific Consumer Empowerments

The following requirements have to be satisfied for using Consumer Loan Empowerment:

- All transactions (including refused transactions) shall be dealt with by the Crediconsumo arrangement system integrated in the Retail Administration.
- There is no empowerment for transactions with a Negative Opinion.
- The maximum empowerment amount and term for this product shall at no event be exceeded

Consumer credit.

Crediconsumo is a computerised system for integrally processing Consumer credit transactions which, through automatic connection and interrelationship with several applications of the Bank, includes:

- A procedure for Scoring the risk for decision analysis and support.
- An automatic search in internal and internal Default Files (Mora BBVA, RAI, BDI, ASNEF).
- An instant search system for our customers' basic relationships (customer Flash).
- An automated credit transaction operational and administrative processing procedure (origination, accounting, etc.).

Studying / Authorising the Transaction:

Although the administrative procedure for these credit transactions is now computerised, the risk must be studied independently of the support procedure for analysis and the decision obtained with the Scoring procedure.

It must be taken into account whether the amount, term, purpose or use, the class of customer applying, etc., comply with acceptable standards and are within the patterns established by BBVA for granting those credits.

Upon receiving a loan application, the system is provided with the necessary details on-line. The system will analyse personal and economic particulars (Scoring) and check whether the applicant is already a customer of the Bank or is included in any list of defaulters, issuing an automatic opinion that may be Positive, Negative or Doubtful.

Transactions with a Negative Opinion are not delegated to Branches.

The Branches may decide on transactions receiving Positive-Doubtful opinions with amounts fitting in the figures for which the respective Branches are empowered.

File minimum

A file shall at least have the following documents:

- Crediconsumo Application / Proposal form. (The applicants' signature must be affixed to the Crediconsumo application or proposal form.)
- Identity Documents: Spanish ID, etc. (checked against the originals).
- Proof of income (pay cheque, personal income tax return, etc.).
- Title deeds (where appropriate).
- Pro forma invoice/Quote.
- Proof of entries in Filters.

Contractual documents

Consumer loans originated at DMCs (Direct Marketing Centres) and only up to certain amounts and maximum terms may be perfected without the involvement of a Commercial Commissioner for Oaths being required by simultaneously originating a loan document along with an additional clause and a promissory note.

Loans induced by prescriptors up to EUR 9,000 and for a term of not more than 5 years may be originated by means of a loan document, an additional clause and promissory note, without the involvement of a Commercial Commissioner for Oaths.

Loans intended to be used for buying a new vehicle up to EUR 24,000, and for a term of not more than 10 years, induced by a prescriptor, may use the same operations set out in the previous point.

In all other cases as to amounts (in excess of EUR 9,000 or 24,000 depending on whether or not they are to be used for a new car), term (in excess of 5 years and 10 years for a new car) or not originating in a prescriptor, the transaction shall be originated in a loan document certified by a Commercial Commissioner for Oaths.

In general, all transactions channelled through Branches, whatever the amount and term may be, shall be originated in a loan document certified by a Commercial Commissioner for Oaths. This circumstance may only be avoided when the following circumstances (both) concur in the same transaction, in which case the use of a promissory note and an additional clause may be exceptionally considered:

- In the case of old BBVA customers (not less than two years) with whom the Bank has had a verified positive experience.
- For amounts of not more than EUR 6,000 and a term of up to 5 years.

2.2.8 Indication of representations and collaterals given to the issuer relating to the assets.

The Management Company reproduces below the representations and warranties BBVA, as holder of the Loans until assigned to the Fund and as originator of the Credit Rights, shall give and make on the date of establishment of the Fund to the Management Company, on the Fund's behalf.

1. In relation to BBVA.

- (1) That BBVA is a credit institution duly incorporated in accordance with the laws in force for the time being, entered in the Companies Register and in the Register of Credit Institutions of the Bank of Spain.
- (2) That neither at today's date nor at any time since it was incorporated has BBVA been decreed insolvent, in bankruptcy or in suspension of payments, nor in any circumstance generating a liability which might result in the credit institution authorisation being revoked.
- (3) That BBVA has obtained all necessary authorisations, including those required of its corporate bodies and third parties, if any, affected by the assignment of the Credit Rights to the Fund, to validly be present at the execution of the Deed of Constitution, the agreements relating to the establishment of the Fund and to fulfil the undertakings made.
- (4) That BBVA has audited annual accounts for the last three years ending on December 31, 2004, 2003 and 2002. The audit report to the year 2004 annual accounts has a technical objection regarding the failure to consistently apply accounting principles and policies derived from an alternative policy at the Bank of Spain concerning how to report pre-retired staff commitments applicable to financial institutions in the same situation, the auditor agreeing with the change. The audit report on the annual accounts for the years 2003 and 2002 have no notes. Those audited annual accounts have been filed with the CNMV and with the Companies Register.

2. In relation to the Loans and to the Credit Rights derived therefrom assigned to the Fund.

- (1) That both the grant of the Loans and their assignment to the Fund and all aspects related thereto are and will be at arm's length.
- (2) That the Loans exist and are valid and enforceable in accordance with the applicable laws.
- (3) That BBVA is the legal and beneficial owner, without limitation, of all the Loans, free and clear of all and any liens and claims.
- (4) That the details of the Loans included in the schedules to the Deed of Constitution and subsequent deeds of assignment accurately reflect the status of those Loans on the assignment date.
- (5) That the Loans are not secured with any security interest whatsoever but are personal Loans and the Obligor or Obligors shall be liable for fulfilling the same with all their current or future assets. Some of them are also guaranteed by means of a surety given by a person other than the Obligor or Obligors.
- (6) That the Loans are duly supported and mostly originated in a loan agreement certified by a commissioner for oaths, whereas others are originated in a private agreement the terms of which include a clause making provision for the issue of a non-negotiable blank promissory note by the borrower Obligor, delivering the same to BBVA and expressly authorising BBVA, upon final or early termination, as the case may be, to complete the same with such amount as may result from the addition of a number of items in order to stand as an enforceable instrument for BBVA in the event of a breach by the Obligor of the terms agreed in the relevant Loan..
- (7) That the respective loan agreements recording the Loans contain no clauses preventing their assignment or requiring any authorisation or communication for the Loan to be assigned.

- (8) That the Obligors under the Loans are all individuals resident in Spain and are not employees, managers or officers of BBVA.

2.2.9 Substitution of the securitised assets.

Set rules for substituting the Credit Rights or otherwise repayment to the Fund.

1. In the event of early amortisation of the Credit Rights due to prepayment of the relevant Loan capital, there will be no direct substitution of the Credit Rights affected thereby, notwithstanding the acquisition by the Fund of Additional Credit Rights during the Revolving Period.
2. In the event that it should be observed throughout the life of the Credit Rights that any of them failed on the assignment date to meet the characteristics contained in section 2.2.8.2 of this Building Block, the Originator agrees, subject to the Management Company's consent, to proceed forthwith to remedy and, if that is not possible, substitute or, as the case may be, redeem the affected Credit Right not substituted, by automatically terminating the assignment of the affected Credit Rights, subject to the following rules:
 - a) The party becoming aware of the existence of a non-conforming Credit Right, whether the Originator or the Management Company, shall notify the other party of this circumstance. BBVA shall have not more than fifteen (15) Business Days from said notice to proceed to remedy that circumstance if it may be remedied or, in order to proceed to a substitution thereof
 - b) The substitution shall be made for the outstanding principal plus interest accrued and not paid and any amount owing to the Fund until that date on the relevant substituted Credit Right.

In order to proceed to the substitution, the Originator shall notify the Management Company of the characteristics of the Loans proposed to be assigned satisfying the characteristics given in section 2.2.8.2 of this Building Block and the (Individual and Global) Election Requirements and similarly characterised as to purpose, term, interest rate and outstanding principal balance. Once the Management Company has checked that the (Individual and Global) Election Requirements are satisfied and expressly stated to the Originator that the Loans to be assigned are appropriate, the Originator shall proceed to terminate the assignment of the affected Credit Right and assign a new or new replacement Credit Rights.

The substitution shall be recorded in a public deed subject to the same formal requirements established for the assignment of Credit Rights and shall be communicated to the CNMV and to the Rating Agencies.

- c) In the event that any Credit Right should not be substituted on the terms set in rule b) of this section, the Originator shall proceed to automatically terminate the assignment of the affected Credit Right not replaced. That termination shall take place by a repayment in cash to the Fund of the outstanding principal, interest accrued and not settled, and any other amount owing to the Fund until that date on the relevant Credit Right, which shall be paid into the Treasury Account.
 - d) In the event of termination of Credit Rights due to both substitution and repayment, the Originator shall be vested in all the rights attaching to those Credit Rights accruing from the termination date or accrued and not due, and overdue amounts on that same date.
3. In particular, the amendment by the Servicer during the life of the Credit Rights of their terms without regard to the limits established in the special laws applicable and, in particular, to the terms agreed between the Fund, represented by the Management Company, and the Originator in this Prospectus, in the Deed of Constitution and in the Servicing Agreement, which would therefore be an absolutely exceptional amendment, would constitute a unilateral breach by the Servicer of its duties which should not be borne by the Fund or by the Management Company.

That breach is not to be borne by the Fund and shall therefore be redressed, as provided for in article 1224 of the Civil Code, which redress shall not result in a warranty by the Originator as Servicer that the transaction will be successfully completed.

Upon any such breach occurring, the Fund may, through the Management Company: (i) demand payment of the relevant damages and losses and (ii) request replacement or repayment of the affected Credit Rights, in accordance with the procedure provided for in paragraph 2 above of this section, which shall not result in the Servicer guaranteeing that the transaction will be successfully completed, but only the requisite redress of the effects resulting from the breach of its duties, in accordance with article 1124 of the Civil Code.

The expenses originated by the actions to remedy the Originator's breach shall be borne by the Servicer and cannot be charged to the Fund or the Management Company. The Management Company shall forthwith notify the CNMV of each and every replacement or redemption of Credit Rights resulting from a breach by the Originator.

The Management Company represents that the summary descriptions of those agreements, contained in the relevant sections, give the most substantial and relevant information on each of the agreements, accurately present their contents, and no information has been omitted which might affect the contents of the Prospectus.

3.3 Description of the method and date of the sale, transfer, novation or assignment of the assets or of any rights and/or obligations in the assets to the issuer.

3.3.1 Perfecting the assignment of the Credit Rights.

3.3.1.1 Assignment of the Initial Credit Rights.

The Management Company, for and on behalf of the Fund, and BBVA, shall in the Deed of Constitution perfect the agreement assigning Credit Rights to the Fund, as follows:

- (i) Assignment by BBVA to the Fund of the initial Credit Rights to be listed in the Deed of Constitution.
- (ii) Establishment of the obligation by BBVA to assign to the Fund in a public deed on each Payment Date in the Revolving Period the Additional Credit Rights selected by the Management Company, in an amount not in excess of the Acquisition Amount, from among those offered by BBVA satisfying the Election Requirements.

3.3.1.2 Assignment of the Additional Credit Rights.

Each new assignment to the Fund of Additional Credits Rights shall be perfected in a public deed executed by the Management Company, for and on behalf of the Fund, and BBVA on each assignment date. All expenses and taxes deriving from completion of subsequent assignments of Additional Credit Rights shall be borne by the Fund.

On each new acquisition of Additional Credit Rights, the Management Company shall deliver to the CNMV, on the following Business Day:

- (i) A certified copy of the public deed of assignment itemising each Additional Credit Right assigned to the Fund with the main features allowing them to be identified.
- (ii) A written statement by the Management Company, also signed by BBVA, that the Additional Credit Rights satisfy all the set (Individual and Global) Election Requirements to be assigned to the Fund.

In the event that the unsecured and unsubordinated long-term debt obligations of BBVA should at any time during the Revolving Period be downgraded below BBB- by S&P, BBVA shall deliver to the Management Company upon assignment a credit rating certificate declaring (i) that BBVA is creditworthy as of that date and (ii) that the assignment to the Fund of the Additional Credit Rights is not made to the detriment of the interests of creditors of BBVA.

- 3.3.1.3 In the event of BBVA being decreed in bankruptcy, the assignment of the Credit Rights may only be revoked as provided for in the bankruptcy laws if whoever exercises the relevant termination action proves that the assignment of the Credit Rights was fraudulently made, the foregoing on the terms of Additional Provision Five of Act 3/1994 and articles 10 and 15 of Act 2/1981.

The assignment by BBVA to the Fund of the Credit Rights shall not be notified to the Obligors. However, in the event of insolvency, or indications thereof, of administration by the Bank of Spain, of liquidation or of substitution of the Servicer, or because the Management Company deems it reasonably justified, the Management Company may demand the Servicer to notify Obligors of the transfer to the Fund of the outstanding Credit Rights, and that the payments derived therefrom will only be effective as a discharge if made into the Treasury Account opened in the name of the Fund. However, both in the event of the Servicer failing to notify Obligors within five (5) Business Days of receiving the request and in the event of the Servicer becoming insolvent, the Management Company itself shall directly or, as the case may be, through a new Servicer it shall have designated, notify Obligors.

3.3.2 Loan assignment terms.

1. The Credit Rights will be fully and unconditionally assigned for the entire term remaining until maturity of each Loan.
2. The Originator shall be liable to the Fund for the existence and lawfulness of the Credit Rights to the same extent laid down in articles 348 of the Commercial Code and 1529 of the Civil Code.
3. The Originator shall not bear the risk of default on the Credit Rights and shall therefore have no liability whatsoever for default by the Obligors of principal, interest or any other amount owing to them by the Obligors under the Loans, and will not be liable for the enforceability of security collateral thereto or the accessibility or effects, as the case may be, of exchange proceedings. The Originator will moreover have no liability whatsoever to directly or indirectly guarantee that the transaction will be successfully completed, nor give any guarantees or security, nor indeed agree to replace or repurchase the Credit Rights, other than as provided in section 2.2.9 of this Building Block.
4. Each Loan shall be assigned for all the outstanding capital pending repayment on the assignment date and for all the ordinary and late-payment interest on each Loan assigned.

Specifically, for illustration, without limitation, the assignment of the Credit Rights shall confer the following rights in relation to each of the assigned Loans:

- (i) To receive all Loan capital or principal repayment.
- (ii) To receive all Loan capital ordinary interest amounts accrued.
- (iii) To receive all Loan late-payment interest amounts accrued.
- (iv) To receive any other amounts, assets or rights received as payment of the Loan principal, interest or expenses, either in the form of the knock-down price or amount determined by a court decision, on the sale or utilisation of the assets awarded or, upon enforcing, in the administration or interim possession of the assets in enforcement proceedings.
- (v) To receive all possible rights or compensations accruing for the Originator under and derived from the Loans, including those derived from any ancillary right attached to the Loans, excluding total or partial prepayment fees and any other right that may not be integrated in the debt claimed from the Obligor in the event of default on the Loans.

The above-mentioned rights will all accrue for the Fund from the date of assignment of the Credit Rights. Interest shall moreover include interest accrued and not due since the last interest settlement date on each of the Loans, on or before the date of assignment.

Returns on the Loans constituting Fund income shall not be subject to a Corporation Tax withholding as established in Royal Decree 1777/2004, July 30, approving the Corporation Tax Regulations.

5. The Fund's rights resulting from the Credit Rights are linked to the payments made by the Obligors, and are hence directly affected by the evolution, delays, prepayments or any other incident relating to the Loans.

6. The Fund shall bear all and any expenses or costs defrayed by the Originator derived from the recovery actions in the event of a breach of obligations by the Obligors, including bringing the relevant action against the same.
7. In the event of a renegotiation of the Loans or their due dates, consented to by the Management Company, for and on behalf of the Fund, the change in the terms shall affect the Fund.
8. BBVA as Originator of the Credit Rights shall be entitled to receive from the Obligor the fees, including prepayment or early cancellation fees or any other right which cannot be made part of the debt to be claimed from the Obligor in the event of default on the Loans.

3.3.3 Loan sale or assignment price.

The sale or assignment price of the Credit Rights shall be at par. The aggregate amount payable by the Fund for the assignment of the Credit Rights shall be an amount equivalent to the sum of (i) the face value of the capital or principal outstanding on each Loan, and (ii) ordinary interest accrued and not due and overdue interest on each Loan on the assignment date (the “**accrued interest**”).

The Management Company shall pay the total Credit Right assignment price on behalf of the Fund as follows:

1. The part consisting of the face value of the capital of all the Loans, subparagraph (i) of paragraph one of this section, shall be paid by the Fund on the following dates:
 - a) Payment of the face value of the Initial Credit Rights shall be fully paid on the Bond Closing Date, for same day value, upon the subscription for the Bond Issue being paid up, by means of an instruction given by the Management Company to BBVA to proceed to debit the Treasury Account opened on behalf of the Fund. BBVA shall receive no interest on the deferment of payment until the Closing Date.
 - b) Payment of the face value of the Additional Credit Rights shall be fully paid on the relevant Payment Date on which the assignment occurs, for same day value, upon BBVA debiting the Treasury Account opened on behalf of the Fund.
2. The part consisting of interest accrued on each Credit Right, subparagraph (ii) of paragraph one of this section, shall be paid by the Fund on the earlier of the collection dates falling on the first interest settlement date of each Credit Right or the date on which they are paid by the Obligor, after the date of assignment, and will not be subject to the Fund Priority of Payments.

If the establishment of the Fund and hence the assignment of the Initial Credit Rights should terminate, in accordance with the provisions of section 4.4.4.(v) of the Registration Document, (i) so will the Fund’s obligation to pay for the assignment terminate, and (ii) the Management Company shall be obliged to restore to BBVA any rights whatsoever accrued for the Fund upon the Initial Credit Rights being assigned.

3.4 Explanation of the flow of funds.

3.4.1 How the cash flow from the assets will meet the issuer’s obligations to holders of the securities.

The amounts received by the Fund derived from the securitised Credit Rights will be paid by the Servicer into the Treasury Account on the seventh day after the date on which they are received by the Servicer or the following business day if that is not a business day, for same day value. In this connection, business days shall be taken to be all those that are business days in the banking sector in the city of Madrid. Therefore, the Fund shall be receiving almost daily income into the Treasury Account on the amounts received from the Credit Assets.

The weighted average interest rate of the loans selected as of November 21, 2005, as detailed in section 2.2.2.e) of this Building Block, is 6.69%, which is above the 2.40% weighted average interest rate of the Bonds that has been presumed for hypothetical purposes in the table contained in section 4.10 of the Securities Note. Nevertheless, the Financial Swap mitigates the interest rate risk occurring in the Fund

because the Credit Rights are subject to fixed interest with accrual periods and settlement date differing from the floating interest established for the Bonds based on 3-month Euribor and with quarterly accrual and settlement periods.

Quarterly on each Payment Date Bondholders will be paid interest accrued and principal repayment on the Bonds in each Series on the terms set for each of them and in the Priority of Payments given in section 3.4.6.2 of this Building Block.

3.4.2 Information on any credit enhancement.

3.4.2.1 Description of the credit enhancement.

The following credit enhancement transactions are incorporated to the financial structure of the Fund:

- (i) Cash Reserve set up by drawing down the Subordinated Loan.
Mitigates the credit risk derived from delinquency and default on the Credit Rights.
- (ii) Financial Swap:
Mitigates the interest rate risk occurring in the Fund because the Credit Rights have fixed interest and accrual periods and settlement date differing from the floating interest established for the Bonds based on 3-month Euribor with quarterly accrual and settlement periods. In addition, a 3.00% margin excess is included and the servicing fee amount of the securitised Credit Rights is covered.
- (iii) Treasury Account.
Partially mitigates the loss of return on the liquidity of the Fund due to the timing difference between income received daily on the Credit Rights until payment of Bond interest and acquisition of Additional Credit Rights on the next succeeding Payment Date during the Revolving Period or, when it is over, until principal repayment occurs.
- (iv) Principal Account:
Partially mitigates the loss of return on the amounts of the Principal Available Funds not applied to acquiring Additional Credit Rights during the Revolving Period.
- (v) Subordination and deferment in interest payment and principal repayment between the Bonds in the different Series, derived from their place in the application of the Available Funds as well as the rules for Distribution of Principal Available Funds in the Priority of Payments, or in the application of the Liquidation Available Funds in the Liquidation Priority of Payments, are a means for distinctly hedging the different Series.

3.4.2.2 Cash Reserve.

The Management Company shall set up on the Closing Date an Initial Cash Reserve by drawing fully the available Subordinated Loan principal and shall subsequently, on each Payment Date, keep the Required Cash Reserve amount provisioned in the Fund Priority of Payments.

The characteristics of the Cash Reserve shall be as follows:

Cash Reserve amount.

1. The Cash Reserve shall be set up on the Closing Date in an initial amount equal to EUR fifteen million seven hundred thousand (15,700,000.00) ("**Initial Cash Reserve**").
2. Subsequently to being set up, on each Payment Date, the Cash Reserve shall be provisioned up to the Required Cash Reserve amount established hereinafter with the Available Funds in the Priority of Payments of the Fund.

The required Cash Reserve amount on each Payment Date (the "**Required Cash Reserve**") shall be the lower of the following amounts:

- (i) EUR fifteen million seven hundred thousand (15,700,000.00).
- (ii) The higher of:
 - a) 3.14% of the Outstanding Principal Balance of the Bond Issue.

- b) EUR seven million eight hundred and fifty thousand (7,850,000.00).
3. Notwithstanding the above, the Required Cash Reserve shall not be reduced on the relevant Payment Date and shall remain at the Required Cash Reserve amount on the preceding Payment Date whenever any of the following circumstances concur on the Payment Date:
- i) That on the Determination Date preceding the relevant Payment Date the amount of the Outstanding Balance of Delinquent Credit Rights is greater than 1.00% of the Outstanding Balance of Non-Doubtful Credit Rights.
 - ii) That on the preceding Payment Date the Cash Reserve was not provisioned up to the Required Cash Reserve amount on that Payment Date.
 - iii) That three (3) years have not elapsed since the date on which the Fund was established.

Yield.

The Cash Reserve amount shall remain credited to the Treasury Account, and will be remunerated on the terms of the Guaranteed Interest Rate Account (Treasury Account) Agreement.

Application.

The Cash Reserve shall be applied on each Payment Date to satisfying Fund payment obligations in the Priority of Payments and in the Liquidation Priority of Payments.

3.4.3 Details of any subordinated finance.

3.4.3.1 Subordinated Loan.

The Management Company shall, for and on behalf of the Fund, enter with BBVA into an agreement whereby BBVA shall grant to the Fund a commercial subordinated loan amounting to EUR fifteen million seven hundred thousand (15,700,000.00) (the "**Subordinated Loan Agreement**"). The Subordinated Loan amount shall be delivered on the Closing Date and shall be applied to setting up the Initial Cash Reserve on the terms for which provision is made in section 3.4.2.2 of this Building Block, although granting of the Loan by no means guarantees performance of the securitised Credit Rights.

Subordinated Loan principal shall be repaid on each Payment Date in an amount equal to the positive difference existing between the outstanding Subordinated Loan principal on the Determination Date preceding the relevant Payment Date and the Required Cash Reserve amount on the relevant Payment Date, and in the application priority established for that event in the application of Available Funds in the Priority of Payments.

In the event that the Fund should not have sufficient liquidity to proceed to the relevant Subordinated Loan repayment on a Payment Date, in the Priority of Payments, the portion of the principal not repaid shall be repaid on the next succeeding Payment Date along with the amount that should be repaid, as the case may be, on that same Payment Date, until it is fully repaid.

Final maturity of the Subordinated Loan shall be repaid on the Final Maturity Date or, as the case may be, on the date on which the Management Company proceeds with Early Liquidation subject to the Liquidation Priority of Payments of the Fund.

The Subordinated Loan outstanding principal shall accrue an annual nominal interest, determined quarterly in each Interest Accrual Period, which shall be the result of adding: (i) the Reference Rate determined for the Bonds, and (ii) a 3.00% margin. This interest will be payable only if the Fund should have sufficient liquidity in the Priority of Payments or the Liquidation Priority of Payments, as the case may be. Interest shall be settled and payable on the date of expiration of each Interest Accrual Period on each Payment Date, and shall be calculated based on: (i) the exact number of days in each Interest Accrual Period and (ii) a three-hundred-and-sixty- (360-) day year. The first interest settlement date shall fall on February 20, 2006. Interest shall be paid on the relevant Payment Date provided that the Fund has sufficient liquidity in the Priority of Payments or, in the event, the Liquidation Priority of Payments

Interest accrued and not paid on a Payment Date shall not be accumulated to the Subordinated Loan principal and shall not earn late-payment interest.

All Subordinated Loan amounts due and not paid due to a shortfall of Available Funds shall be settled on the following Payment Dates on which the Available Funds allow payment in the Priority of Payments of the Fund. Amounts not paid on preceding Payment Dates shall be paid with preference over Subordinated Loan amounts payable on that Payment Date, honouring firstly overdue interest and secondly principal repayment, in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

The Subordinated Loan Agreement shall be fully terminated in the event that the Rating Agencies should not confirm the provisional ratings assigned to each Series as final ratings by the start of the Subscription Period.

3.4.3.2 Start-Up Loan.

The Management Company shall, for and on behalf of the Fund, enter with BBVA into a commercial loan agreement amounting to EUR one million five hundred thousand (1,500,000.00) (the “**Start-Up Loan Agreement**”). The Start-Up Loan amount shall be delivered on the Closing Date and be allocated to financing the expenses of setting up the Fund and issuing the Bonds.

Outstanding Start-Up Loan principal will accrue an annual nominal interest, determined quarterly for each Interest Accrual Period, which shall be the result of adding: (i) the Bond Reference Rate determined for each Interest Accrual Period, and (ii) a 2.00% margin. This interest will be payable only if the Fund should have sufficient liquidity in the Priority of Payments or Liquidation Priority of Payments, as the case may be. Interest shall be settled and payable on the date of expiration of each interest accrual period on each Payment Date, and shall be calculated based on: (i) the exact number of days in each Interest Accrual Period and (ii) a three-hundred-and-sixty- (360-) day year. The first interest settlement date shall be February 20, 2006.

Interest accrued and not paid on a Payment Date shall not be accumulated to the Start-Up Loan principal and shall not earn late-payment interest.

Start-Up Loan principal will be repaid quarterly on each Payment Date as follows:

- (i) The portion of Start-Up Loan principal actually used to finance the Fund set-up and Bond issue expenses shall be repaid in twelve (12) consecutive quarterly instalments in an equal amount, on each Payment Date, the first of which shall be the first Payment Date, February 20, 2006, and the following until the Payment Date falling on November 20, 2008, inclusive.
- (ii) The portion of Start-Up Loan principal not used shall be repaid on the first Payment Date, February 20, 2006.

All Start-Up Loan amounts due and not paid due to a shortfall of Available Funds shall be settled on the following Payment Dates on which the Available Funds allow payment in the Priority of Payments of the Fund. Amounts not paid on preceding Payment Dates shall be paid with preference over Start-Up Loan amounts payable on that Payment Date, honouring firstly overdue interest and secondly principal repayment, in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

The Start-Up Loan Agreement shall not be terminated upon the establishment of the Fund being terminated in accordance with the provisions of section 4.4.4.(v) of the Prospectus Registration Document. In that event, the Start-Up Loan shall be used to pay the expenses of setting up the Fund and issuing the Bonds and all other obligations undertaken by the Management Company, for and on behalf of the Fund, originated upon the Fund being established and which are due and payable, and the repayment of principal shall be deferred and subordinated to satisfaction of those obligations, using the Fund's remaining assets.

3.4.3.3 Subordination of Series B and Series C Bonds.

Interest payment and principal repayment on Series B Bonds is deferred with respect to Series A Bonds, as provided in the Priority of Payments and in the Liquidation Priority of Payments of the Fund.

Interest payment and principal repayment on Series C Bonds is deferred with respect to Series A and Series B Bonds, as provided in the Priority of Payments and in the Liquidation Priority of Payments of the Fund.

Sections 4.6.1 and 4.6.2 of the Securities Note detail the order numbers of Bond interest payment and principal repayment in each Series in the priority of payments of the Fund.

3.4.4 Investment parameters for the investment of temporary liquidity surpluses and parties responsible for such investment.

3.4.4.1 Treasury Account.

The Management Company, for and on behalf of the Fund, and BBVA shall enter into a Guaranteed Interest Rate Account (Treasury Account) Agreement whereby BBVA will guarantee a variable yield on the amounts paid by the Fund through its Management Company into a financial account. The Guaranteed Interest Rate Account (Treasury Account) Agreement shall specifically determine that all amounts received by the Fund will be paid into a financial account in euros (the “**Treasury Account**”) opened at BBVA, in the name of the Fund by the Management Company, which amounts shall mostly consist of the following items:

- (i) cash amount received upon subscription for the Bond Issue being paid up;
- (ii) Credit Right principal repaid and interest collected;
- (iii) any other amounts relating to the Credit Rights and from the sale or utilisation of the assets awarded or under administration or interim possession of the assets in enforcement proceedings, and all and any rights or indemnities including those derived from any right attached to the Credit Rights, excluding prepayment or early termination fees and any other right that may not be integrated in the debt claimed from the Obligor in the event of default on the Loans;
- (iv) Subordinated Loan principal drawn down, and the Cash Reserve amount from time to time;
- (v) Start-Up Loan principal drawn down;
- (vi) Financial Swap amounts paid to the Fund;
- (vii) the amounts of the returns obtained on Treasury Account, Principal Account and, as the case may be, Surplus Account balances; and
- (viii) the amounts of interim withholdings on the return on investments to be effected on each relevant Payment Date on the Bond interest paid by the Fund, until due for payment to the Tax Administration.

BBVA shall pay an annual nominal interest rate, variable quarterly and settled quarterly, other than for the first interest accrual period, the duration of and the interest settlement for which shall be based on the duration of that period, applicable for each interest accrual period (differing from the Interest Accrual Period established for the Bonds) to the positive daily balances if any on the Treasury Account, equal to the interest rate resulting from decreasing (i) the Reference Rate determined for each Bond Interest Accrual Period substantially matching each Treasury Account interest period, (ii) by a 0.10% margin, translated to an interest rate based on calendar years (i.e. multiplied by 365, or 366 in leap years, and divided by 360). Interest shall be settled on the date of expiration of each interest accrual period on each of the Fund Determination Dates (the fourth (4th) Business Day preceding each Payment Date), and shall be calculated based on: (i) the exact number of days in each interest accrual period, and (ii) a three-hundred-and-sixty-five (365-) day year or a three-hundred-and-sixty-six (366-) day year if it is a leap year. The first interest accrual period shall comprise the days elapsed between the date of establishment of the Fund and the first Determination Date, February 14, 2006.

In the event that the rating of the short-term, unsecured and unsubordinated debt of BBVA should, at any time during the life of the Bond Issue, fall below F1, P-1 or A-1 respectively in Fitch's, Moody's and S&P's rating scales, the Management Company shall within not more than thirty (30) days from the time of the

occurrence of any such circumstances put in place, after notifying the Rating Agencies, any of the options described hereinafter allowing a suitable level of guarantee to be maintained with respect to the commitments derived from this Agreement in order for the rating given to the Bonds by the Rating Agencies not to be adversely affected:

- a) Obtaining from an institution having a credit rating for its short-term, unsecured and unsubordinated debt of at least F1, P-1 and A-1 respectively in Fitch's, Moody's and S&P's rating scales, and subject at all times to the prior communication to the Rating Agencies, a first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by BBVA of its obligation to repay the amounts deposited in the Treasury Account, during the time over which the loss of the F1, P-1 or A-1 ratings is maintained by BBVA.
- b) Transferring the Fund's Treasury Account to an institution whose short-term, unsecured and unsubordinated debt has a rating of at least F1, P-1 and A-1 respectively in Fitch's, Moody's and S&P's rating scales, arranging the highest possible yield for its balances, which may differ from that arranged with BBVA under this Agreement.
- c) If options a) and b) above are not possible, obtaining from BBVA or a third party collateral security in favour of the Fund on financial assets with a credit quality of not less than that of Spanish State Government Debt (*Deuda Pública del Estado Español*), in an amount sufficient to guarantee the commitments established in this Agreement.
- d) Moreover, if it should not be possible to transfer the Treasury Account on the terms set forth above, the Management Company may invest the balances for periods not extending beyond the following Payment Date, in short-term fixed-income assets in euros issued by institutions having ratings of at least F1 (for periods of less than 30 days or F1+ for longer periods), P-1 and A-1 (for periods of less than 30 days or A-1+ for longer periods) for short-term, unsecured and unsubordinated debt respectively in Fitch's, Moody's and S&P's rating scales, including short-term securities issued by the Spanish State, in which case the yield obtained could also differ from that obtained initially with BBVA under this Agreement.
- e) In events b) or d), and that that BBVA's short-term, unsecured and unsubordinated debt should again attain the F1, P-1 and A-1 ratings respectively in Fitch's, Moody's and S&P's rating scales, the Management Company may subsequently transfer the balances back to BBVA under the Guaranteed Interest Rate Account (Treasury Account) Agreement

Additionally, notwithstanding the provisions of the preceding paragraphs of this section, should at any time during the term of this Agreement the sum of the Treasury Account and Principal Account balance exceed twenty percent (20.00%) of the Outstanding Principal Balance of the Bond Issue and in the event that the rating of the short-term, unsecured and unsubordinated debt of BBVA should, at any time during the life of the Agreement, fall to A-1 in S&P's rating scale, the Management Company may, upon a request by S&P, put in place any of the options described hereinafter for the time during which the position of BBVA's rating shall have fallen to A-1 is maintained, and subject to notice being first given to the Rating Agencies in order for the rating given to the Bonds by the Rating Agencies not to be adversely affected:

- a) Obtaining from an institution having a credit rating for its short-term, unsecured and unsubordinated debt of at least F1, P-1 and A-1+ respectively in Fitch's, Moody's and S&P's rating scales, a first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by BBVA of the amount by which the sum of the Treasury Account and Principal Account balance exceeds the amount equivalent to twenty percent (20.00%) of the Outstanding Principal Balance of the Bond Issue.
- b) Transferring and crediting the amount of the excess of the sum of the Treasury Account and Principal Account balance of the amount equivalent to twenty percent (20.00%) of the Outstanding Principal Balance of the Bond Issue to a financial account (the "**Surplus Account**") opened by the Management Company in an institution whose short-term, unsecured and unsubordinated debt has a rating of at least F1, P-1 and A-1+ respectively in Fitch's, Moody's and S&P's rating scales, and arranging the highest possible yield for its balances, which shall at least match that arranged with BBVA under the Treasury Account and Principal Account, and subject to the same settlement terms as the Treasury Account.

(The Management Company may open in the name of the Fund an only Surplus Account or an account for crediting amounts transferred from the Treasury Account which shall for these purposes be referred to as a Cash Surplus Account and therefore references in this Prospectus to “Surplus Account balance transferred from the Treasury Account” shall be deemed to be replaced with “Cash Surplus Account balance”).

- c) In either of events a) or b), in the event that the rating of the short-term, unsecured and unsubordinated debt of the guarantor institution or institution where the Surplus Account shall have been opened should fall below A-1 in S&P's rating scale, the Management Company shall within not more than thirty (30) days from the time of the occurrence of any such circumstance, once again put in place either of options a) or b) described above.

All costs, expenses and taxes incurred in connection with putting in place and arranging the above shall be borne by BBVA.

3.4.4.2 Principal Account.

The Management Company, for and on behalf of the Fund, and BBVA shall enter into a Guaranteed Interest Rate Account (Principal Account) Agreement whereby BBVA will guarantee a variable yield on the amounts paid by the Fund through its Management Company into a financial account. The Guaranteed Interest Rate Account (Principal Account) Agreement shall specifically determine that the amounts of the Principal Available Funds not applied to acquiring Additional Credit Rights during the Revolving Period will be paid into a financial account in euros (the “**Principal Account**”) opened at BBVA in the name of the Fund by the Management Company.

BBVA shall pay an annual nominal interest rate, variable quarterly and settled quarterly, other than for the first interest accrual period, the duration of and the interest settlement for which shall be based on the duration of that period, applicable for each interest accrual period (equivalent to the Interest Accrual Period established for the Bonds) to the positive daily balances if any on the Principal Account, equal to the interest rate resulting from decreasing (i) the Reference Rate determined for each Bond Interest Accrual Period, (ii) by a 0.10% margin, translated to an interest rate based on calendar years (i.e. multiplied by 365, or 366 in leap years, and divided by 360). Interest shall be settled on the date of expiration of each Interest Accrual Period on each Payment Date, and shall be calculated based on: (i) the exact number of days in each interest accrual period, and (ii) a three-hundred-and-sixty-five (365-) day year or a three-hundred-and-sixty-six (366-) day year if it is a leap year.

In the event that the rating of the short-term, unsecured and unsubordinated debt of BBVA should, at any time during the term of this Agreement, fall below F1, P-1 or A-1 respectively in Fitch's, Moody's and S&P's rating scales, the Management Company shall within not more than thirty (30) days from the time of the occurrence of any such circumstances put in place, after notifying the Rating Agencies, any of the options described hereinafter allowing a suitable level of guarantee to be maintained with respect to the commitments derived from this Agreement in order for the rating given to the Bonds by the Rating Agencies not to be adversely affected:

- a) Obtaining from an institution having a credit rating for its short-term, unsecured and unsubordinated debt of at least F1, P-1 and A-1 respectively in Fitch's, Moody's and S&P's rating scales, and subject at all times to the prior communication to the Rating Agencies, a first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by BBVA of its obligation to repay the amounts deposited in the Principal Account, during the time over which the loss of the F1, P-1 or A-1 ratings is maintained by BBVA.
- b) Transferring the Fund's Principal Account to an institution whose short-term, unsecured and unsubordinated debt has a rating of at least F1, P-1 and A-1 respectively in Fitch's, Moody's and S&P's rating scales, arranging the highest possible yield for its balances, which may differ from that arranged with BBVA under this Agreement.

- c) If options a) and b) above are not possible, obtaining from BBVA or a third party collateral security in favour of the Fund on financial assets with a credit quality of not less than that of Spanish State Government Debt (*Deuda Pública del Estado Español*), in an amount sufficient to guarantee the commitments established in this Agreement.
- d) Moreover, if it should not be possible to transfer the Principal Account on the terms set forth above, the Management Company may invest the balances for periods not extending beyond the following Payment Date, in short-term fixed-income assets in euros issued by institutions having ratings of at least F1 (for periods of less than 30 days or F1+ for longer periods), P-1 and A-1 (for periods of less than 30 days or A-1+ for longer periods) for short-term, unsecured and unsubordinated debt respectively in Fitch's, Moody's and S&P's rating scales, including short-term securities issued by the Spanish State, in which case the yield obtained could also differ from that obtained initially with BBVA under this Agreement.
- e) In events b) or d), and that BBVA's short-term, unsecured and unsubordinated debt should again attain the F1, P-1 and A-1 ratings respectively in Fitch's, Moody's and S&P's rating scales, the Management Company may subsequently transfer the balances back to BBVA under the Guaranteed Interest Rate Account (Principal Account) Agreement.

Moreover, notwithstanding the provisions of the preceding paragraphs of this section, should at any time during the term of this Agreement the sum of the Treasury Account and Principal Account balance exceed twenty percent (20.00%) of the Outstanding Principal Balance of the Bond Issue and in the event that the rating of the short-term, unsecured and unsubordinated debt of BBVA should fall to A-1 in S&P's rating scale, the Management Company may, upon a request by S&P, put in place any of the options described hereinafter for the time during which the position of BBVA's rating shall have fallen to A-1 is maintained, and subject to notice being first given to the Rating Agencies in order for the rating given to the Bonds by the Rating Agencies not to be adversely affected:

- a) Obtaining from an institution having a credit rating for its short-term, unsecured and unsubordinated debt of at least F1, P-1 and A-1+ respectively in Fitch's, Moody's and S&P's rating scales, a first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by BBVA of the amount by which the sum of the Treasury Account and Principal Account balance exceeds the amount equivalent to twenty percent (20.00%) of the Outstanding Principal Balance of the Bond Issue.
- b) Transferring and crediting the amount of the excess of the sum of the Treasury Account and Principal Account balance of the amount equivalent to twenty percent (20.00%) of the Outstanding Principal Balance of the Bond Issue to a financial account (the "**Surplus Account**") opened by the Management Company in an institution whose short-term, unsecured and unsubordinated debt has a rating of at least F1, P-1 and A-1+ respectively in Fitch's, Moody's and S&P's rating scales, and arranging the highest possible yield for its balances, which shall at least match that arranged with BBVA under the Treasury Account and Principal Account, and subject to the same settlement terms as the Treasury Account.

(The Management Company may open in the name of the Fund an only Surplus Account or an account for crediting amounts transferred from the Treasury Account which shall for these purposes be referred to as a Principal Surplus Account and therefore references in this Prospectus to "Surplus Account balance transferred from the Principal Account" shall be deemed to be replaced with "Principal Surplus Account balance".)

- c) In either of events a) or b), in the event that the rating of the short-term, unsecured and unsubordinated debt of the guarantor institution or institution where the Surplus Account shall have been opened should fall below A-1 in S&P's rating scale, the Management Company shall within not more than thirty (30) days from the time of the occurrence of any such circumstance, once again put in place either of options a) or b) described above.

All costs, expenses and taxes incurred in connection with putting in place and arranging the above shall be borne by BBVA.

The Guaranteed Interest Rate Account (Principal Account) Agreement shall be fully terminated in the event that the Rating Agencies should not confirm the provisional ratings assigned to each Series as final ratings by the start of the Subscription Period. Moreover, the Principal Account shall be closed on the Payment Date after the Payment Date on which the Revolving Period ends, once it is settled by the Management Company.

3.4.5 Collection by the Fund of payments in respect of the assets.

The Servicer shall manage collection of all Credit Right amounts payable by the Obligors. The Servicer shall use every effort in order for payments to be made by the Obligors to be collected in accordance with the contractual terms and conditions of the Loans.

The Credit Right amounts received by the Servicer shall be paid by the Servicer in full into the Fund's Treasury Account on the seventh day after the day on which they were received by the Servicer, or the following business day if that is not a business day, for same day value. In this connection, business days shall be taken to be all those that are business days in the banking sector in the city of Madrid.

Nevertheless, in the event that the rating of the Servicer's short-term unsecured and unsubordinated debt should fall below F2, P-1 or A-2 respectively in Fitch's, Moody's and S&P's rating scales or that the Servicer's credit quality could result in the ratings given by the Rating Agencies to each of the Bond Series falling, the Management Company shall, in a written notice to the Servicer, issue instructions for those amounts to be previously paid into the Treasury Account which may indeed be on the day next succeeding the day on which they were received by the Servicer.

The Servicer may at no event pay any amount whatsoever to the Fund not previously received from the Obligors as payment for the Credit Rights.

The variable amounts payable by Party A and by Party B for each respective settlement period shall be netted and be paid by the paying Party to the receiving Party on each Payment Date.

2. Settlement periods.

Party A:

The settlement periods for Party A shall be the exact number of days elapsed between two consecutive Determination Dates, not including the first but including the last date. Exceptionally, a) the length of the first settlement period for Party A shall be equivalent to the exact number of days elapsed between the date of establishment of the Fund, inclusive, and February 14, 2006, the first Determination Date, inclusive, and b) the length of the last settlement period for Party A shall be equivalent to the exact number of days elapsed between the Determination Date preceding the date on which the Interest Swap Agreement terminates, exclusive, and the date on which termination occurs, inclusive.

Party B:

The settlement periods for Party B shall be the exact number of days elapsed between two consecutive settlement dates, including the first but not including the last date. Exceptionally, a) the length of the first settlement period for Party B shall be equivalent to the exact number of days

elapsed between the Bond Issue Closing Date, inclusive, and February 20, 2006, exclusive, and b) the length of the last settlement period for Party B shall be equivalent to the exact number of days elapsed between the Payment Date preceding the date on which the Interest Swap Agreement terminates, exclusive, and the date on which termination occurs, inclusive.

3. Face Amount.

This shall be on each settlement date the daily average during the next preceding Party A settlement period of the Outstanding Balance of Credit Rights with no arrears in payment of amounts due in excess of three (3) months, increased, until the settlement date falling on Revolving Period ending date, inclusive, by the result of multiplying a) the daily average during the Party A settlement period falling due of the balance of the Principal Account and the Surplus Account, as the case may be, transferred from the Principal Account, and b) the average margin applicable for determining the Nominal Interest Rate of the Bond Series weighted by the Outstanding Principal Balance of each Series during the then-current Interest Accrual Period, matching the Party B settlement period falling due, plus 0.10%, and c) the result of dividing one (1) by the Party B Interest Rate determined for the Party B settlement period falling due.

4. Party A amounts payable.

This shall be on each settlement date the result of applying the Party A Interest Rate, determined for the next preceding Party A settlement period, to the Face Amount according to the number of days in the Party A settlement period and based on a three-hundred-and-sixty- (360-) day year.

4.1 Party A Interest Rate.

For each Party A settlement period this shall be the annual interest rate resulting from dividing (i) the sum of total interest amount received on the Credit Rights and paid into the Fund during the Party A settlement period, decreased by the amount of interest accrued on the Credit Rights assigned paid by the Fund, as the case may be, during the same Party A settlement period, by (ii) the Face Amount, multiplied by the result of dividing 360 by the number of days in the Party A settlement period.

5. Party B amounts payable.

This shall be on each settlement date the result of adding (i) the amount resulting from applying the Party B Interest Rate, determined for the Party B settlement period falling due, to the Face Amount according to the number of days in the Party B settlement period falling due, and based on a three-hundred-and-sixty- (360-) day year, and (ii) the amount on the relevant settlement date of the fee accrued under the Servicing Agreement or under a new servicing agreement in the event of substitution.

5.1 Party B Interest Rate.

For each Party B settlement period this shall be the annual interest rate resulting from adding (i) the Nominal Interest Rate applicable to each Bond Series determined for the then-current Interest Accrual Period coinciding with each Party B settlement period, weighted by the Outstanding Principal Balance in each Series during that then-current Interest Accrual Period and (ii) 3.00%.

6. Maturity Date.

This shall be the earlier of the dates on which the events (i) to (iv) listed for termination of the Fund occurs in accordance with the provisions of section 4.4.4 of the Registration Document.

7. If on a Payment Date the Fund (Party A) should not have sufficient liquidity to make payment of the full net amount, if any, payable to Party B, the portion of this net amount not paid shall be settled on the following Payment Date provided that the Fund has sufficient liquidity in the Priority of Payments. Should such event of non-payment occur on two consecutive Payment Dates, the Financial Swap Agreement shall be terminated. In this event, the Fund (Party A) shall accept the obligation to pay the settlement amount established to which it is bound on the terms of the Financial Swap Agreement, the foregoing in the Priority of Payments. Should the settlement amount under the Financial Swap Agreement be a payment obligation for Party B and not for the Fund (Party A), Party B shall take over the obligation to pay the settlement amount provided for in the Financial Swap Agreement.

It shall also be determined that if on a Payment Date Party B should not make payment of the full amount payable to the Fund (Party A), the Management Company, for and on behalf of the Fund, may choose to terminate the Financial Swap Agreement. In that event, Party B shall accept the obligation to pay the settlement amount established in the Financial Swap Agreement. Should the settlement amount under the Financial Swap Agreement be due by the Fund (Party A) and not by Party B, payment thereof by the Fund (Party A) shall be made in the Priority of Payments.

Subject to the above, other than in an event of permanent financial imbalance of the Fund, the Management Company shall endeavour, for and on behalf of the Fund, to enter into a new financial swap agreement on terms substantially identical with the Financial Swap Agreement.

8. Party B shall irrevocably agree that, if at any time throughout the life of the Bond Issue, the rating of the unsubordinated and unsecured debt of Party B should fall below A or A for long-term debt respectively in Fitch's and Moody's rating scales or A-1 for short-term debt in S&P's rating scale, it shall put in place any of the following options within not more than thirty (30) days from the date of the occurrence of any such circumstances, on such terms and conditions as the Management Company shall see fit, after notifying the Rating Agencies, in order for there to be no detriment to the ratings assigned to each Series by the Rating Agencies to be maintained:
- (i) that a third-party institution with a rating for its unsubordinated and unsecured debt equal to or in excess of A and A1 for its long-term debt respectively in Fitch's and Moody's rating scales and A-1 for its short-term debt in S&P's rating scale, will secure fulfilment of its contractual obligations under the Financial Swap Agreement,
 - (ii) that a third-party institution with the same ratings required for option (i) above will take over its contractual position and substitute it under the Financial Swap Agreement, or, as the case may be, that a new interest financial swap agreement be entered into with that third-party institution on the same terms and conditions as the Financial Swap Agreement; or
 - (iii) that a deposit in cash or securities will be made, at an institution having a rating for its short-term debt of P-1 in Moody's rating scale, pledged in favour of the Fund, if Party B has an unsecured and unsubordinated debt rating of F2 for its short-term debt in Fitch's rating scale, and of BBB for its long-term debt in S&P's rating scale, securing fulfilment of the contractual obligations of Party B in an amount calculated, among other factors, based on the Financial Swap market value in order for there to be no detriment to the ratings given to the Bonds by the Rating Agencies and, as the case may be and based on the rating assigned by Party B, additionally putting in place either of options (i) and (ii) above. The procedure for calculating the market value for S&P purposes shall among other factors be in accordance with S&P's criteria published in articles respectively of December 2003 and February 2004.
 - (iv) In the event that the unsecured and unsubordinated debt obligations of Party B should be downgraded below BBB- by S&P, within not more than ten (10) Business Days from the date on which any such event should occur, Party B shall be replaced in its contractual position by an institution with a rating for its short-term unsecured and unsubordinated debt obligations of at least A-1 in S&P's rating scale.

All and any costs, expenses and taxes incurred in connection with the compliance with the foregoing obligations shall be borne by Party B.

9. The occurrence, as the case may be, of an early termination of the Swap Agreement will not in itself be an Early Amortisation event of the Bond Issue and an Early Liquidation event of the Fund referred to in sections 4.4.3 of the Registration Document and 4.9.3.2 of the Securities Note, unless in conjunction with other events or circumstances related to the net asset value of the Fund, its financial balance should be materially or permanently altered.

All matters, discrepancies, lawsuits and claims deriving from the Financial Swap Agreement shall be referred for arbitration to the Chamber of Commerce of Madrid.

Party B agrees not to take any action whatsoever holding Party A liable.

The Financial Swap Agreement shall be fully terminated in the event that the Rating Agencies should not confirm the provisional ratings assigned to each Series as final ratings by the start of the Subscription Period.

It is also the Management Company's duty, as the manager of third-party portfolios, to represent and enforce the interests of the holders of the Bonds issued by the Fund and of all its other ordinary creditors. Consequently, the Management Company shall make its actions conditional on their protection and observe the provisions established for that purpose from time to time. In any event, those actions shall require that the Management Company first notify and secure the prior authorisation, if necessary, of the CNMV or competent administrative body and notify the Rating Agencies, and provided that such actions are not detrimental to the rating assigned to the Bonds by the Rating Agencies. The Deed of Constitution or the agreements may also be corrected upon a request by the CNMV.

- (xiv) Calculating and determining on each Determination Date the principal to be amortised and repaid on each Bond Series on the relevant Payment Date.

3.7.1.3 Resignation and substitution of the Management Company.

The Management Company shall be substituted in managing and representing the Fund, in accordance with articles 18 and 19 of Royal Decree 926/1998 set forth hereinafter and with subsequent rules statutorily established in that connection.

Resignation.

- (i) The Management Company may resign its management and legal representation function with respect to all or part of the funds managed whenever it deems this fit, applying to be substituted in a letter addressed to the CNMV, including a designation of the substitute management company. That letter shall enclose a letter from the new management company, declaring its willingness to take over that function and applying for the appropriate authorisation.
- (ii) The CNMV's substitution authorisation shall be subject to meeting of the following requirements:
 - (a) The substituted Management Company's delivery of the accounting records and data files to the new management company. That delivery will only be taken to have been made when the new management company is able to fully take over its function and that circumstance is notified to the CNMV.
 - (b) The rating accorded to the Bonds by the Rating Agencies should not fall as a result of the proposed substitution.
- (iii) The Management Company may in no event resign its duties until and unless all requirements and formalities have been complied with in order for its substitute to take over its duties.
- (iv) The substitution expenses originated shall be borne by the resigning Management Company and may in no event be passed on to the Fund.
- (v) The substitution shall be published within fifteen days by means of a notice inserted in two nationwide newspapers and in the bulletin of the organised secondary market where the Bonds issued by the Fund are listed. Furthermore, the Management Company shall notify the Rating Agencies of that substitution.

Forced substitution.

- (i) In the event that the Management Company should be adjudged insolvent, it shall find a substitute management company, in accordance with the provisions of the foregoing section.
- (ii) In the event for which provision is made in the preceding section, if four months should have elapsed from the occurrence determining the substitution and no new management company should have

been found willing to take over management, there shall be an early liquidation of the Fund and a redemption of the Bonds issued by the same, and of the loans, in accordance with the provisions of this Prospectus.

The Management Company agrees to execute such public and private documents as may be necessary for it to be substituted by another management company, in accordance with the system for which provision is made in the preceding paragraphs of this section. The substitute management company shall be substituted in the Management Company's rights and duties under this Prospectus. Furthermore, the Management Company shall hand to the substitute management company such accounting records and data files as it may have to hand in connection with the Fund.

3.7.1.4 Subcontracting.

The Management Company shall be entitled to subcontract or subdelegate to solvent and reputable third parties the provision of any of the services it has to provide as the manager and authorised representative of the Fund, as established in this Prospectus, provided that the subcontractor or delegated party waives the right to take any action holding the Fund liable. In any event, subcontracting or delegating any service (i) may not result in an additional cost or expense for the Fund, (ii) shall have to be legally possible, (iii) shall not result in the rating accorded to each of the Bond Series by the Rating Agencies being adversely reviewed, and (iv) shall be notified to the CNMV and, where statutorily required, first be authorised by the CNMV. Notwithstanding any subcontracting or subdelegation, the Management Company shall not be exonerated or released, under that subcontract or subdelegation, from any of the liabilities undertaken in this Prospectus which may legally be attributed or ascribed to it.

3.7.1.5 Management Company's remuneration.

In consideration of the functions to be discharged by the Management Company, the Fund will pay it a management fee consisting of:

- (i) An initial fee amounting to EUR ninety thousand (90,000.00) which shall accrue upon the Fund being established and be payable on the Closing Date.
- (ii) Periodic fee: equal to 0.0190% per annum, accruing on the exact number of days elapsed in each Interest Accrual Period, from the date of establishment of the Fund until it terminates, and payable quarterly in arrears on each Payment Date, calculated on the Outstanding Principal Balance of the Bond Issue on the Payment Date preceding the relevant Payment Date. The periodic fee for the first Payment Date shall accrue from the date of establishment of the Fund and shall be calculated on the face amount of the Bond Issue.

The fee payable on a given Payment Date shall be calculated in accordance with the following formula:

$$C = B \times \frac{0.0190}{100} \times \frac{d}{360}$$

where :

C = Fee payable on a given Payment Date.

B = Outstanding Principal Balance of the Bond Issue, on the preceding Payment Date.

d = Number of days elapsed during the relevant Interest Accrual Period.

In any event, the amount of this periodic fee on each Payment Date may not be respectively greater or lower than the following maximum and minimum amounts.

- a) Maximum amount of EUR thirty-seven thousand five hundred (37,500.00).

Exceptionally, the maximum periodic fee for the first Payment Date shall accrue from the date on which the Fund is set up and shall be calculated on the exact number of days elapsed based on the following formula:

$$Ic \max = 37,500 \times \frac{d}{90}$$

where :

Icmax= Maximum periodic fee amount payable on the first Payment Date.

d = Number of days elapsed between the date of establishment of the Fund and the first Payment Date.

- b) Minimum amount of EUR seven thousand five hundred (7,500.00). In the event that, during the term of the Fund, the National General Retail Price Index published by the Spanish National Institute of Statistics for each calendar year should experience a positive variation, the minimum annual amount shall be cumulatively reviewed in the same proportion, from the year 2007, inclusive, and effective as of January 1 of each year.

If on a Payment Date the Fund should not have sufficient liquidity to settle the above-mentioned fee, the amount due shall accrue interest equal to the Bond Reference Rate, payable on the following Payment Date, in the Priority of Payments.

3.7.2 Servicing and custody of the securitised assets.

BBVA, Originator of the Credit Rights to be acquired by the Fund, as established in article 2.2.b) of Royal Decree 926/1998, shall continue as attorney for the Management Company to be responsible for servicing and managing the Loans, and the relations between BBVA and the Fund, represented by the Management Company, shall be governed by the Credit Right Servicing Agreement (the “**Servicing Agreement**”) in relation to custody and servicing of the Loans.

BBVA (the “**Servicer**” in that Agreement) shall accept the appointment received from the Management Company and thereby agrees as follows:

- (i) To service and manage the Loans acquired by the Fund subject to the system terms and ordinary servicing and management procedures established in the Servicing Agreement.
- (ii) To continue servicing the Loans, devoting the same time and efforts to them as it would devote and use to service its own loans and in any event on the terms for which provision is made in the Servicing Agreement.
- (iii) That the procedures it applies and will apply to service and manage the Loans are and will continue to be in accordance with the laws and statutory regulations in force applicable thereto.
- (iv) To full faithfully observe the instructions issued by the Management Company.
- (v) To pay the Fund damages resulting from a breach of the obligations undertaken, although the Servicer shall not be liable for actions put in place on the Management Company’s instructions.

In any event, the Servicer waives the privileges and authorities conferred on it by law as the manager of collections for the Fund and as servicer of the Loans, and custodian of the relevant agreements, and in particular those for which provision is made in articles 1730 and 1780 of the Civil Code and 276 of the Commercial Code.

3.7.2.1 Ordinary system and procedures for servicing and custody of the Loans.

1. Custody of agreements, documents and files.

The Servicer shall keep all Loan agreements, documents and data files under safe custody and shall not give up their possession, custody or control other than with the Management Company’s prior written consent for it to do so, unless a document should be required to institute proceedings to enforce a Loan, or any competent authority should so require and after first informing the Management Company.

The Servicer shall allow the Management Company or the auditors of the Fund duly authorised thereby reasonable access at all times to said loan agreements, documents and records. Furthermore,

whenever it is required to do so by the Management Company, it shall provide within two (2) Business Days of that request and clear of expenses, a copy or photocopy of any of such loan agreements and documents.

2. Collection management.

The Servicer shall continue managing collection of all amounts payable by the Obligor under the Loans, including both principal and interest and any other item. The Servicer shall act due diligence for payments to be made by the Obligor to be collected in accordance with the contractual terms and conditions of the Loans.

The amounts received by the Servicer derived from the Loans shall be paid by the Servicer into the Fund's Treasury Account on the seventh day after the date on which they were received by the Servicer, or the following business day, for same day value, if that is not a business day, in accordance with the set terms and conditions. In this connection, business days shall be taken to be all those that are business days in the banking sector in the capital city of Madrid.

Nevertheless, in the event that the rating of the Servicer's short-term unsecured and unsubordinated debt should fall below F2, P-1 or A-2 respectively in Fitch's, Moody's and S&P's rating scales, the Management Company shall, in a written notice to the Servicer, issue instructions for those amounts to be previously paid into the Treasury Account which may indeed be on the day next succeeding the day on which they were received by the Servicer.

The Servicer may in no event pay any amount whatsoever to the Fund not previously received as payment for the Loans.

4. Information.

The Servicer shall regularly communicate to the Management Company the information concerning the individual characteristics of each Loan, fulfilment by the Obligor of their obligations under the Loans, delinquency status, changes in the characteristics of the Loans, actions in the event of late payment, legal actions and auction of assets, the foregoing subject to the procedures and within the time-periods established in the Servicing Agreement.

Furthermore, the Servicer shall prepare and hand to the Management Company such additional information concerning the Loans or the rights attaching thereto as the Management Company may reasonably request, and in particular the documents required for the Management Company, as the case may be, to bring legal actions.

5. Authorities and actions in relation to Loan renegotiation procedures.

The Servicer may not voluntarily forgive the Loans in full or in part or extend the same, or in general do anything that may diminish the enforceability at law or economic value of the Loans, without prejudice to its proceeding to heed requests by the Obligor using the same efforts and procedure as if the loans should not have been assigned.

Notwithstanding the above, the Management Company may, as manager of third-party funds, previously issue instructions to or authorise the Servicer to agree with the Obligor such terms and conditions as it shall see fit for a novation changing the relevant Loans.

a) Renegotiating the interest rate.

1. The Servicer may under no circumstance entertain on its own account and without being so requested by the Obligor, interest rate renegotiations which may result in a decrease in the interest rate applicable to a Loan. In any event, whether or not it was generically authorised, any Loan interest rate renegotiation shall be taken on and settled bearing in mind the interests of the Fund.
2. Without prejudice to the provisions hereinafter, any renegotiation subscribed by the Servicer shall be made exclusively with the written consent of the Management Company, on behalf of the Fund, and the Servicer agrees to seek such consent from the Management Company as soon as it is aware that an Obligor has requested a renegotiation. The Management Company

may nevertheless authorise the Servicer to entertain and accept renegotiations of the interest rate applicable to the Loans, requested by the Obligors, without requiring the written consent of the Management Company, subject to the following requirements:

- a) The Servicer shall in renegotiating the Loan interest rate clause observe that the terms include a fixed interest rate at arm's length and are no different from those applied by the Servicer proper in renegotiating or granting its fixed-rate loans. In this connection, arm's length fixed interest rate shall be deemed to be the fixed interest rate offered by the Servicer on the Spanish market for loans granted to individuals resident in Spain for financing the purchase of new motor cars, the amounts and terms being substantially similar to the renegotiated Loan.
 - b) The fixed interest rate of a Loan shall under no circumstances be renegotiated down in the event that the average interest rate of all the Loans weighted by the outstanding principal of each of the Loans is below 5.00%.
3. The Management Company may, acting for the Fund, at any time during the term of the Agreement and subject to prior written notice to the Servicer, cancel, suspend or change the requirements for the Servicer's authorisation to renegotiate which it may previously have determined for the Servicer.

b) Extending the period of maturity.

The final maturity or final amortisation date of the Loans may be extended (hereinafter "**extending the term**") subject to the criteria established in this section.

The Servicer may in no case entertain on its own account, i.e. without it being so requested by the Obligor, a change in the final maturity date of the Loan which may result in an extension of that date. The Servicer, without encouraging an extension of the term, shall act in relation to such extension bearing in mind at all times the Fund's interests, and subject to the following rules and limitations:

- (i) The aggregate of the capital or principal assigned to the Fund of the Loans with respect to which the maturity date is extended may not exceed 10.00% of the face amount of the Bond Issue.
- (ii) The term of a specific Loan may be extended provided that the following requirements are met:
 - a) That Loan capital or principal repayment instalment frequency is at all events maintained or reduced, albeit keeping the same repayment system in place.
 - b) That the new final maturity or final amortisation date does not extend beyond September 30, 2017.
 - c) That the average life of all the Loans weighted by the outstanding principal of each Loan is not in excess of: (i) eighty-four (84) months, or (ii) when the Revolving Period is over, the time in months resulting from reducing eighty-four (84) months by the number of months to have elapsed from the last Payment Date in the Revolving Period until the effective date of the extension of the term.

The Management Company may at any time during the term of the Servicing Agreement, on the Fund's behalf, cancel or suspend the Servicer's authorisation to extend the term.

If there should be any renegotiation of the interest rate of a Loan or its due dates, the Servicer shall forthwith notify the Management Company of the terms resulting from each renegotiation. Such notice shall be made through the software or data file provided for the terms of the Credit Rights to be updated. Both the loan agreements and the private agreements pertaining to a novation of the terms of

the Credit Rights will be kept by the Servicer, in accordance with the provisions of paragraph 2 of this section.

6. Action against the Obligors in the event of default on the Loans.

Actions in the event of late payment.

The Servicer shall use the same efforts and the same procedure for claiming overdue amounts on the Loans applied to the rest of its portfolio loans.

In the event of default by the Obligor of the payment obligations, the Servicer shall put in place the actions described in the Servicing Agreement, taking for that purpose the steps it would ordinarily take if they were its own portfolio loans and in accordance with standard banking usage and practice for collecting overdue amounts, and shall be bound to advance such expenses as may be necessary for those actions to be taken, without prejudice to its right to be reimbursed by the Fund. Needless to say, these actions include all such legal and other actions as the Servicer may deem necessary to claim and collect the amounts due by the Obligors.

Legal actions.

The Servicer, under the Servicing Agreement or using the power referred to in the following paragraph, shall take all relevant actions against Obligors failing to meet their payment obligations derived from the Loans. Such an action shall be brought using the appropriate court enforcement procedures, which may be enforcement or exchange proceedings or, as the case may be, by means of the appropriate declaratory proceedings.

For the above purposes and in relation to Loans originated by means of a loan agreement certified by a commissioner for oaths, and for the purposes of the provisions of articles 581.2 and 686.2 of the Civil Procedure Act and if this should be necessary, the Management Company grants in the Deed of Constitution as full and extensive a power of attorney as may be required at Law to BBVA in order that the latter may, acting through any of its attorneys properly empowered for those purposes, as instructed by the Management Company, for and on behalf of the latter, or in its own name albeit on behalf of the Management Company, as the authorised representative of the Fund, demand by any judicial or other means the obligor of any Loan to pay the debt and take legal action against the same, in addition to other authorities required to discharge its duties as Servicer. These authorities may be extended or amended in another deed where appropriate.

In relation to Loans originated by means of a private agreement with a non-negotiable blank promissory note, the Management Company, acting for the Fund, shall confer in the Deed of Constitution powers on BBVA in order for the latter to take action in its own name, but acting for the Fund, in recovering the amounts due by the Obligor, as the case may be, by entering the necessary details for enforcing such promissory note.

The Servicer shall as a general rule commence the relevant legal proceedings if, for a period of six (6) months, a Loan Obligor in default of payment obligations should fail to resume payments or the Servicer, and the latter with the Management Company's consent, should fail to obtain a payment undertaking satisfactory to the interests of the Fund. In order for actions for payment to be swifter, the Management Company may generally confer authorisations on the Servicer, on such terms and subject to such limits as shall be deemed fit.

If more than six (6) months should have elapsed from the oldest default without the Obligor resuming payments or without a debt restructuring agreement, and the Servicer should delay bringing of the relevant action in each case without due cause, the Management Company shall, acting for the Fund, directly proceed to commence the appropriate legal proceedings to claim the debt in full. Moreover, in the event that the proceedings instituted by the Servicer should come to a standstill without due cause, the Management Company may, acting for the Fund, take over the position of the former and continue the legal proceedings, duly notifying the relevant Obligor.

In this connection, BBVA shall in the Deed of Constitution confer powers to the fullest extent required by Law in order that the Management Company, acting for the Fund, may notify assignment to the Obligors of any of the Loans whenever it deems this appropriate.

Additionally, the Servicer will provide the Management Company with all such documents as the latter may request in relation to the Loans and in particular the documents required for the Management Company to take legal actions, as the case may be.

7. Set-off.

In the event that any of the Obligors under the Loans should have a liquid credit right, due and payable vis-à-vis the Servicer, and, because the assignment is made without the Obligor being aware, any of the Loans should be fully or partially set-off against that credit, the Servicer shall remedy such circumstance or, if it cannot be remedied, the Servicer shall proceed to pay to the Fund the amount set off plus the accrued interest which would have been payable to the Fund until the date on which the payment is made, calculated on the terms applicable to the relevant Loan.

8. Subcontracting.

The Servicer may subcontract any of the services it may have agreed to provide under the Servicing Agreement other than those that may not be so delegated in accordance with the laws in force for the time being. That subcontracting may in no event result in an additional cost or expense for the Fund or the Management Company, and may not result in the rating assigned to each Bond Series by the Rating Agencies being adversely reviewed. Notwithstanding any subcontracting or subdelegation, the Servicer shall not be excused or released under that subcontract or subdelegation from any of the liabilities undertaken in the Servicing Agreement which may legally be attributed or ascribed to it.

3.7.2.2 Term and substitution.

The services shall be provided by the Servicer until all the obligations undertaken by the Servicer as Originator of the Credit Rights terminate, once all the Loans acquired by the Fund have been repaid, or when the liquidation of the Fund concludes after it terminates, without prejudice to the possible early revocation of its appointment under the Servicing Agreement.

In the event of a breach by the Servicer of the obligations imposed on the Servicer under the Servicing Agreement or in the event of the Servicer's credit rating falling or being lost to an extent that may be detrimental to or place the financial structure of the Fund or Bondholders' rights and interests at risk, the Management Company shall, in addition to demanding the Servicer to fulfil the obligations laid down in the Servicing Agreement, proceed to put in place, where this is legally possible, inter alia and after notifying the Rating Agencies, any of the following actions in order for the rating assigned to the Bonds by the Rating Agencies not to be adversely affected: (i) demanding the Servicer to subcontract or subdelegate to another institution the performance of the obligations and undertakings made in the Servicing Agreement; (ii) having another institution with a sufficient credit rating and quality secure all or part of the Servicer's obligations; and (iii) terminating the Servicing Agreement, in which case the Management Company shall previously designate a new Servicer having a sufficient credit quality and accepting the obligations contained in the Servicing Agreement or, as the case may be, in a new servicing agreement. Any additional expense or cost derived from those previous actions shall be covered by the Servicer and at no event by the Fund or the Management Company. In the event of bankruptcy of the Servicer, only action (iii) above shall be valid. Any additional expense or cost derived from the aforesaid actions shall be covered by the Servicer and at no event by the Fund or the Management Company.

Furthermore, in the event of insolvency, or indications thereof, administration by the Bank of Spain, liquidation or substitution of the Servicer or because the Management Company deems this reasonably justified, the Management Company may demand the Servicer to notify Obligors of the transfer to the Fund of the outstanding Loans, and that the payments derived therefrom will only be effective as a discharge if made into the Treasury Account opened in the name of the Fund. However, both in the event of the Servicer failing to notify Obligors within five (5) Business Days of receiving the request and in the event of insolvency or liquidation of the Servicer, the Management Company itself shall notify Obligors directly or, as the case may be, through a new Servicer it shall have designated.

Upon the early termination of the Servicing Agreement, the outgoing Servicer shall provide the new Servicer, on demand by the Management Company and as determined thereby, with the necessary documents and data files it may have in order for the new Servicer to carry on the relevant activities.

The Servicing Agreement shall be fully terminated in the event that the Rating Agencies should not confirm the provisional ratings assigned to each Series as final ratings by the start of the Subscription Period.

3.7.2.3 Liability of the Servicer and indemnity.

The Servicer shall at no time have any liability whatsoever in relation to the obligations of the Management Company as manager of the Fund and manager of Bondholders' interests, nor in relation to the obligations of the Obligors derived from the Loans, without prejudice to the liabilities undertaken thereby as Originator of the Credit Rights acquired by the Fund.

The Servicer takes on the obligation to indemnify the Fund or its Management Company for any damage, loss or expense resulting for the same on account of any breach by the Servicer of its duties to custody, service and report on the Loans, established under the Servicing Agreement or in the event of breach as provided for in paragraph 3 of section 2.2.9 of this Building Block.

The Management Company shall, for and on behalf of the Fund, have an action against the Servicer where the breach of the obligation to pay any and all principal repayment and interest and other amounts paid by the Obligors under the Loans corresponding to the Fund does not result from default by the Obligors and is attributable to the Servicer.

Upon the Loans terminating, the Fund shall, through its Management Company, retain a right of action against the Servicer until fulfilment of its obligations.

Neither Bondholders nor any other creditor of the Fund shall have any direct right of action whatsoever against the Servicer; that action shall lie with the Management Company, as the representative of the Fund, who shall have that action on the terms described in this section.

3.7.2.4 Servicer's remuneration.

In consideration of the custody, servicing and management of the Loans, the Servicer shall be entitled to receive in arrears on each Payment Date during the term of the Servicing Agreement, a servicing fee equal to 0.01% per annum, inclusive of VAT if there is no exemption, which shall accrue on the exact number of days elapsed in each Determination Period preceding the Payment Date and on the mean daily Outstanding Balance of the Credit Rights serviced during that Determination Period. If BBVA should be replaced in that servicing task, the Management Company will be entitled to change the above percentage fee for the new Servicer, which may be in excess of that agreed with BBVA. The servicing fee will be paid on the relevant Payment Date provided that the Fund has sufficient liquidity in the Priority of Payments or, as the case may be, in the Liquidation Priority of Payments.

If the Fund should, through its Management Company, due to a shortage of liquidity in the Fund Priority of Payments, fail to pay on a Payment Date the full fee due to the Servicer, the overdue amounts shall accumulate without any penalty whatsoever on the fee payable on the following Payment Dates, until fully paid.

Furthermore, on each Payment Date, the Servicer shall be entitled to reimbursement of all Loan servicing and management expenses of an exceptional nature incurred, such as in connection with legal and/or recovery actions, including procedural expenses and costs, or managing and overseeing the sale of assets or properties awarded to the Fund, after first justifying the same. Those expenses will be paid whenever the Fund has sufficient liquidity and in the Priority of Payments or, as the case may be, in the Liquidation Priority of Payments.
