The first partial amortisation of the Series A1 Bonds shall take place on the first Payment Date (March 21, 2005).

The final amortisation of the Series A1 Bonds shall occur on the Final Maturity Date (December 21, 2035 or the following Business Day if that is not a Business Day), notwithstanding the partial amortisations for which provision is made, and the fact that the Management Company may, for and on behalf of the Fund, proceed to the Early Amortisation of the Bond Issue before the Final Maturity Date.

The first partial amortisation of Series D Bonds shall occur once the Class A, the Series B and the Series C Bonds have been fully amortised. Income under items a), b) and f) above received by the Fund and credited to the Treasury Account from the preceding Determination Date, exclusive, until the relevant Payment Date, inclusive, shall not be included in the Available Funds on the relevant Payment Date, and that amount shall remain credited to the Treasury Account to be included in the Available Funds on the following Payment Date.

Additionally, albeit not included in the Available Funds, the Fund shall avail of and use for paying Series A2(G) interest only in the 3rd priority in paragraph 2 below, the amount drawn under the State Guarantee paid to the Fund from the preceding Payment Date until the relevant Payment Date.

2. Application.

The Available Funds shall be applied on each Payment Date, from the first Payment Date, inclusive, and until the last Payment Date or final liquidation of the Fund, exclusive, to meeting payment or withholding obligations falling due on each Payment Date in the following priority of payments, irrespective of the time of accrual, other than the application established in item number 1, which may be made at any time as and when due:

1. Payment of the Fund's properly supported taxes and ordinary and extraordinary expenses, whether or not they were disbursed by the Management Company, including the management fee due to the latter, and all other expenses and service fees, including those derived from the Paying Agent Agreement and the Pass-Through Certificate Custody Agreement. 3.
 - Payment of interest due on the Series A1 Bonds.

Depending on the liquidity existing on each Payment Date, the amount actually applied to amortising Bond principal shall be included among the Available Funds for Amortisation and be applied in accordance with the rules for Distribution of Available Funds for Amortisation between each Series established hereinafter in section 0.6.1.2.

15. Payment of the financial intermediation margin established as variable remuneration under the Financial Intermediation Agreement.

When accounts payable for different items exist in a same priority order number on the Payment Date and the Available Funds are not sufficient to settle the amounts due under all of them, the application of the remaining Available Funds shall be prorated among the amounts payable under each such item, and the amount applied to each item shall be distributed in the priority in which the accounts payable fall due.

0.6.1.2 Available Funds for Amortisation: source and application.

1. Source.

The available funds for amortisation on each Payment Date (the “**Available Funds for Amortisation**”) shall be the Amortisation Withholding amount applied in 7th place of the Available Funds on the relevant Payment Date.

Additionally, and not included among the Available Funds for Amortisation, the Fund shall avail of and use for repaying Series A2(G) principal only, the amount drawn upon enforcing the State Guarantee paid to the Fund from the preceding Payment Date until the relevant Payment Date.

2. Distribution of Available Funds for Amortisation between each Series.

The Available Funds for Amortisation shall be applied on each Payment Date to amortising each of the Series in accordance with the following rules (“**Distribution of Available Funds for Amortisation between each Series**”):

1. The Available Funds for Amortisation shall be sequentially applied firstly to amortising Class A and repaying amounts due to the State upon enforcing the Guarantee for amortising Series A2(G) until they are fully amortised and repaid, secondly to amortising Series B until it is fully amortised, thirdly to amortising Series C until it is fully amortised and fourthly to amortising Series D until it is fully amortised, notwithstanding the provisions of rules 3 and 4 below for pro rata amortisation of the different Series.
2. The Available Funds for Amortisation applied to amortising Class A and repaying amounts due to the State upon enforcing the Guarantee for amortising Series A2(G), both under rule 1 above and under rules 3 and 4 below, shall be applied as follows:

2.1 Ordinary application in the following order:

1. Repayment of Series A1 Bond principal.
2. Repayment of Series A2(G) Bond principal and repayment to the State of amounts paid to the Fund upon the Guarantee being drawn down for repaying Series A2(G) Bond principal, once the Series A1 Bonds have been fully amortised.

The amount of the Available Funds for Amortisation applied on a Payment Date to both items (repayment of Series A2(G) Bond principal and repayment to the State of amounts due upon enforcing the Guarantee for amortising Series A2(G)) shall be applied as follows:

- (i) If there is an Amortisation Deficiency on the then-current Payment Date, firstly to amortising Series A2(G) and secondly, in the remaining amount, if any, to repayment to the State of amounts due upon enforcing the Guarantee for amortising Series A2(G).
- (ii) Otherwise, firstly to repayment to the State of amounts due upon enforcing the Guarantee for amortising Series A2(G) and secondly, in the remaining amount, if any, to amortising Series A2(G).

2.2 Exceptional pro rata application of Class A ("**Pro Rata Amortisation of Class A**"): The application priority of paragraph 2.1 above shall be stopped on any Payment Date if on the Determination Date immediately preceding the relevant Payment Date the ratio of (i) the Outstanding Balance of Loans in good standing in payment of amounts due and payable or, if delinquent, with an arrears of less than three (3) months, increased by the amount of the Loan principal repayment income received during the Determination Period preceding the relevant Payment Date, to (ii) the Outstanding Principal Balance of Class A, is less than or equal to 1.

In that event, on the relevant Payment Date, the Available Funds for Amortisation applied shall be distributed among the items set out in paragraph 2.1 above as follows:

- a) The Amortisation Withholding amount applied of the Available Funds on the relevant Payment Date shall be prorated directly in proportion to (i) the Outstanding Principal Balance of Series A1 and (ii) the Outstanding Principal Balance of Series A2(G) increased by the balance of amounts due to the State upon enforcing the Guarantee for amortising Series A2(G).
 - b) The Amortisation Withholding amount assigned to the Series A1 Bonds in accordance with item (i) of paragraph a) above, shall be applied to repayment of the Series A1 Bonds.
 - c) The Amortisation Withholding amount assigned to the Series A2(G) Bonds and amounts due upon enforcing the Guarantee for amortising Series A2(G), in accordance with item (ii) of paragraph a) above, shall be applied to repayment of the Series A2(G) Bonds and repayment to the State of those amounts due in accordance with the provisions of paragraph 2.2.1 above.
3. However, even if Class A has not been fully amortised, the Available Funds for Amortisation shall also be applied to amortising Series B and/or Series C and/or Series D on the Payment Date which is not the last Payment Date or the Fund liquidation date on which the following circumstances are satisfied ("**Conditions for Pro Rata Amortisation**"):
- a) In order to amortise Series B, Series C and Series D:
 - i) that the Pro Rata Amortisation of Class A does not apply;
 - ii) that on the preceding Payment Date, the Cash Reserve shall have been provisioned up to the Required Cash Reserve on that Payment Date; and
 - iii) on the Determination Date preceding the relevant Payment Date, the amount of the Outstanding Balance of the Loans is equal to or greater than 10 percent of the face amount of the Bond Issue.

 - ii) the Outstanding Balance of Delinquent Loans does not exceed 1.00% of the Outstanding Balance of Non-Doubtful Loans.
 - d) In order to amortise Series D, that on the Determination Date preceding the relevant Payment Date:
 - i) the Outstanding Principal Balance of Series D is equal to or greater than 4.112% of the Outstanding Principal Balance of the Bond Issue; and

- ii) the Outstanding Balance of Delinquent Loans does not exceed 1.00% of the Outstanding Balance of Non-Doubtful Loans.
4. In the event that the amortisation of Series B and/or Series C and/or Series D should apply on a Payment Date as provided for in rule 3 above, the Available Funds for Amortisation shall also be applied to amortising Series B and/or Series C and/or Series D in such a way that the ratio of the Outstanding Principal Balance of Series B or of Series C or of Series D to the Outstanding Principal Balance of the Bond Issue is respectively kept at 13.645% or 6.729% or 4.112%, or higher percentages closest thereto.

0.6.2 Fund Liquidation Priority of Payments.

The Management Company shall proceed to liquidate the Fund in accordance with the provisions of section III.7 of the Offering Circular, by applying the available funds to the following items (the “**Liquidation Available Funds**”): (i) the Available Funds, (ii) the amounts obtained by the Fund from time to time upon disposing of the remaining assets and, as the case may be, (iii) the amount drawn under the credit facility for final amortisation of the Bonds, in accordance with the provisions of section III.7.1, in the following priority of payments (the “**Liquidation Priority of Payments**”):

1. Reserve to meet the final tax, administrative or advertising termination and liquidation expenses.
2. Payment of the Fund’s properly supported taxes and ordinary and extraordinary expenses, whether or not they were disbursed by the Management Company, including the management fee due to the latter, and all other expenses and service fees, including those derived from the Paying Agent Agreement and the Pass-Through Certificate Custody Agreement. Only expenses prepaid or disbursed on the Fund’s behalf by and amounts reimbursable to each Servicer, provided they are all properly supported, shall be made to the Servicer under the Servicing Agreement in this priority.
3. Payment of amounts, if any, due upon termination of the Interest Swap and, only in the event of termination of that Agreement following a breach by the Fund, or because the Fund is the party affected by objective circumstances subsequently occurring, payment of the amount to be settled by the Fund comprising the settlement payment.
4.
 - Payment of interest due on the Series A1 Bonds.
 - Payment of interest due on the Series A2(G) Bonds.
 - Repayment to the State of amounts paid to the Fund by drawing under the Guarantee, for payment of interest on the guaranteed Series A2(G) Bonds.
5. Repayment of Series A1 and A2(G) Bond principal and repayment to the State of amounts paid to the Fund upon the Guarantee being drawn down for repaying Series A2(G) Bond principal.
6. Payment of interest due on the Series B Bonds.
7. Repayment of Series B Bond principal.
8. Payment of interest due on the Series C Bonds.
9. Repayment of Series C Bond principal.
10. Payment of interest due on the Series D Bonds.
11. Repayment of Series D Bond principal.
12. Payment of the amount payable by the Fund comprising the settlement payment under the Interest Swap Agreement other than in the events provided for in 3rd place above.
13. Payment of interest due and repayment of principal on the Start-Up Loan.
14. Payment of interest due and repayment of principal on the Subordinated Loan.
15. Payment to each Servicer under the Servicing Agreement of the Loan servicing fee.

In the event that any other institution should replace any Loan Servicer, payment of the servicing fee accrued by the other institution, to wit the new Servicer, shall take the place of paragraph 1 above, along with the other payments included therein, other than in the event that the new Servicer is BANCO COOPERATIVO, in which case payment of the servicing fee shall remain in this same 15th place.

16. Payment of the financial intermediation margin established as variable remuneration under the Financial Intermediation Agreement.

When accounts payable for different items exist in a same priority order number on the Final Maturity Date or on the Payment Date on which the Early Liquidation occurs and the Liquidation Available Funds are not sufficient to settle the amounts due under all of them, the application of the remaining Liquidation Available Funds shall be prorated among the amounts payable under each such item, and the amount applied to each item shall be distributed in the priority in which the accounts payable fall due.

0.7 Liquidation and termination of the Fund.

Termination of the Fund.

The Fund shall terminate in the following circumstances:

- (i) Upon the Loans pooled therein being fully amortised.
- (ii) Upon the Bonds issued being fully amortised.
- (iii) Upon the Early Liquidation procedure ending, subject to the requirements and procedures contained in section III.7.1 of the Offering Circular.
- (iv) At all events, upon the Fund being finally liquidated on the Final Maturity Date, on December 21, 2035 or the following Business Day if that is not a Business Day.
- (v) Upon the Fund constitution terminating in the event that the Rating Agency should not confirm any of the assigned provisional ratings as final ratings by the start of the Subscription Period or in the event of termination of the Bond Issue Management, Underwriting and Placement Agreement.

0.8 Risks inherent in the Bonds.

a) Risk of default on the Loans.

The holders of the Bonds issued by the Fund shall bear the risk of default on the Loans pooled in the Fund.

b) Limited Hedging.

A high level of delinquency of the Loans might reduce or indeed exhaust the limited hedging against Loan portfolio losses that the Bonds have as a result of the existence of the credit enhancement transactions described in section V.3 of this Offering Circular. That risk of default is additionally hedged for the holders of Series A2(G) Bonds by the State Guarantee described in section II.15.2 of the Offering Circular, although the amounts requested upon every enforcement of the Guarantee shall be paid to the Fund within not more than ninety (90) days from the date of request by the Management Company and, therefore, the amounts required to satisfy interest payable and/or principal repayment might not be paid to the Series A2(G) Bondholders on the relevant Payment Date, and will in any event be paid to them on the Payment Date immediately following the day on which they are paid to the Fund by the Directorate-General of the Treasury and Financial Policy.

The degree of subordination in payment of interest and repayment of principal between the Bonds in the different Series, derived from the Priority of Payments and the Liquidation Priority of Payments of the Fund, is a mechanism for distinctly hedging the different Series.

c) Loan prepayment risk.

There will be a prepayment of the Loans pooled in the Fund when the Loan Obligors prepay the portion of principal pending repayment or in the event that the Originators should be substituted in the relevant Mortgage Loans by any other financial institution licensed to do so or in any other event having the same effect.

That prepayment risk shall in certain circumstances pass quarterly on each Payment Date to the Bondholders by the partial amortisation of the Bonds.

d) Liquidity.

There is no assurance that the Bonds will be traded on the market with a minimum frequency or volume.

There is no undertaking that any institution will be involved in secondary trading, giving the Bonds liquidity by offering consideration.

Moreover, the Fund may in no event repurchase the Bonds from Bondholders. Nevertheless, the Bonds may be fully subject to early amortisation in the event of Early Liquidation of the Fund.

e) Yield.

Loan repayment performance is influenced by a number of economic and social factors such as market interest rates, the Obligors' employment and economic status and the general level of economic activity, preventing their predictability.

Calculation of the internal rate of return, average life and duration of the Bonds in each Series is subject, inter alia, to assumed Loan prepayment and delinquency rates that may not be fulfilled, and to future market interest rates, given the floating Nominal Interest Rate of each Series.

f) Late-payment interest.

Late payment of interest or repayment of principal to the Bondholders shall under no circumstances result in late-payment interest accruing to their favour.

g) Risk of sector concentration of the Obligors' business.

Section IV.4.i) of the Offering Circular shows the distribution by business sectors in accordance with the Spanish Business Activity Code (CNAE) in which the corporate obligors for the selected loans which shall be mostly assigned to the Fund upon being constituted are doing business. The business sectors carrying most weight are Retail trade, repair of motor vehicles, motorcycles and mopeds and personal and household items (16.63%), Building (12.70%) and Agriculture, stockbreeding, hunting and silviculture (14.25%).

0.9 No right of action.

The Bondholders and the remaining creditors of the Fund shall have respectively no recourse whatsoever against Obligors who may have defaulted on their Loan payment obligations. Any such rights shall lie with the Management Company, representing the Fund.

The Bondholders and the remaining creditors of the Fund shall respectively have no actions against the Originator or against the Management Company other than as derived from breaches of their respective duties and, therefore, at no event as a result of the existence of default or prepayment of the Loans, a breach by the counterparties to the transactions entered into for and on behalf of the Fund, or shortfall of the financial hedging transactions for servicing the Bonds in each Series.

Mr Mario Masiá Vicente, of full age, who holds Spanish Tax Identification number 50,796,768-A, acting for and on behalf of EUROPEA DE TITULIZACIÓN S.A. SOCIEDAD GESTORA DE FONDOS DE TITULIZACIÓN (the “**Management Company**”), the company sponsoring RURALPYME 1 FTPYME FONDO DE TITULIZACIÓN DE ACTIVOS (the “**Fund**”), takes responsibility for the contents of this Offering Circular.

Mr Mario Masiá Vicente is acting as General Manager of the Management Company using the authorities conferred by the Board of Directors at its meetings held on January 19, 1993 and January 28, 2000, and expressly for constituting the Fund pursuant to authorities conferred by the Board of Directors' Executive Committee at its meeting held on July 27, 2004.

I.2 Supervisory Bodies.

The constitution of the Fund and issue of the Asset-Backed Bonds (hereinafter also the “**Bonds**”) are subject to the condition precedent of registration in the Official Registers of the Comisión Nacional del Mercado de Valores (the “**CNMV**”) of this Offering Circular and other supporting documents, in accordance with the provisions of article 5.1.e) of Royal Decree 926/1998.

This full Offering Circular regarding the constitution of the Fund and issue of the Bonds has been entered in the Official Registers of the CNMV on November 18, 2004.

Registration of this Offering Circular by the CNMV does not imply recommending subscription for or purchase of the securities referred to therein, nor indeed any statement whatsoever as to the solvency of the Fund or yield of the issued or offered securities.

I.3 Audit report on the assets securitised through the Fund.

Appendix 4 to this Offering Circular contains the Audit Report on a selection of portfolio loans of the Originators, which shall mostly be assigned to the Fund upon being constituted. That Report was drawn up by the firm PricewaterhouseCoopers Auditores, S.L. (“**PricewaterhouseCoopers**”), entered in the Official Register of Auditors (ROAC) under number S0242 and having its registered office in Madrid, Paseo de la Castellana number 43.

That audit was made using sampling techniques consisting of analysing a number of transactions fewer (sample) than the full selection of loans (population), allowing a conclusion to be arrived at regarding that population. The verification deals with a number of both quantitative and qualitative attributes regarding the

sample transactions and specifically regarding: nature of the loan and obligor, title, identification of the obligor, transfer, SME nature, date of origination, date of maturity, repayment term (at origination) not shorter than one year, initial loan amount, current balance (outstanding principal), reference index or interest rate, interest rate spread, arrears in payment, insolvency status, and additionally for loans with mortgage security, arrangement in a deed and mortgage security. Loans in respect of which incidents are detected in verifying the sample shall not be assigned to the Fund by the Originators.

c) Registration by the CNMV.

The constitution of the Fund and issue of the Bonds are subject to the condition precedent of registration by the CNMV of an Offering Circular.

This Offering Circular regarding the constitution of the Fund and issue of the Bonds has been entered by the CNMV in its Official Registers on November 18, 2004.

d) Execution of the Fund public deed of constitution.

(either “**Systems Company**” or “**Iberclear**”), and, once the Bonds have been paid up, for this Bond issue to be included on AIAF Fixed-Income Market (“**AIAF**”), which is a recognised official secondary securities market pursuant to Transitional Provision six of Securities Market Act Reform Act 37/1998, November 16, in order for the Bonds to be traded, cleared and settled in accordance with the operating rules which may be established now or henceforth by Iberclear and AIAF.

II.2 Prior administrative authorisations of the Bond Issue.

No prior administrative authorisation other than registration of the Offering Circular by the CNMV is required. The CNMV has made no warning or consideration whatsoever concerning the constitution of the Fund and the Bond Issue.

Registration of the Offering Circular by the CNMV does not imply recommending subscription for the Bonds, nor indeed any statement whatsoever as to the solvency of the Fund or yield of the Bond Issue.

II.3 Assessment of the risk inherent in the securities issued by the Fund by a rating firm recognised by the CNMV.

The Management Company has entrusted the assessment of the Bond credit risk to the rating agency Moody's Investors Service España, S.A., which rating agency (the “**Rating Agency**”) is recognised by the CNMV, for the purposes of the provisions of article 2.3.b) of Royal Decree 926/1998.

Moody's Investors Service España, S.A. is an affiliated Spanish company operating in accordance with the methodology, standards and quality control of Moody's Investors Service Limited (each of them "**Moody's**" without distinction).

On November 17, 2004, Moody's Investors Service España, S.A. assigned the following provisional ratings to each of the Bond Series, and expects to assign the same final ratings by the start of the Bond Subscription Period. The provisional Aaa rating assigned to Series A2(G) is prior to the Spanish State guarantee thereon.

Bond Series	Moody's Ratings
Series A1	Aaa
Series A2(G)	Aaa
Series B	A2
Series C	Baa3
Series D	Ba1

If the Rating Agency should not confirm any of the assigned provisional ratings as final by the start of the Subscription Period, this circumstance would forthwith be notified to the CNMV and be publicised in the manner for which provision is made in section III.4.2.b).2 of this Offering Circular. Furthermore, this circumstance would result in the Fund constitution, the Bond Issue and the assignment of the Loans terminating.

Appendix 5 to this Offering Circular contains a copy of the letter notifying the provisional ratings assigned by Moody's.

Ratings given by Moody's.

The following are Moody's rating scales for long- and short-term debt issues:

	Long-Term		Short-Term
Investment Grade	Aaa	→	Prime-1 (P-1)
	Aa1		
	Aa2		
	Aa3	→	Prime-2 (P-2)
	A1		
	A2		
	A3	→	Prime-3 (P-3)
	Baa1		
	Baa2		
	Baa3		
Speculative Grade	Ba1	→	Not Prime (NP)
	Ba2		
	Ba3		
	B1	→	Not Prime (NP)
	B2		
	B3		
	Caa1	→	Not Prime (NP)
	Caa2		
	Caa3		
	Ca	→	Not Prime (NP)
	C		

The following is the meaning ascribed by Moody's to the long- and short-term ratings used in this Offering Circular and the intermediates between them.

Long-Term

- Aaa** Bonds which are rated "Aaa" are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as "gilt-edged". Interest payments are protected by a large or by an exceptionally stable margin and the principal is secure.
- Aa** Bonds which are rated "Aa" are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high-grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risk appear somewhat larger than the Aaa securities.
- A** Bonds which are rated "A" possess many favourable investment attributes and are to be considered as upper-medium-grade obligations. Factors giving security to principal and interest payments are considered adequate, but elements may be present which suggest a susceptibility to impairment some time in the future.
- Baa** Bonds which are rated "Baa" are considered as medium-grade obligations. Interest payments and principal security appear adequate for the present but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.
- Ba** Bonds which are rated "Ba" are judged to have speculative elements; their future cannot be considered as well-assured. Often the protection of interest and principal payments may be very moderate, and thereby not well safeguarded during both good and bad times over the future.

Moody's applies numerical modifiers 1, 2, and 3 in each long-term rating category from Aa through Caa, inclusive. Modifier 1 indicates that the security ranks in the higher end of its rating category; modifier 2 indicates a mid-range ranking; and modifier 3 indicates a ranking in the lower end.

Short-Term

- P-1** Superior ability to repay short-term debt obligations.

Rating considerations.

The ratings assigned to each of the Bond Series by Moody's measure the expected loss before the Final Maturity Date. In Moody's opinion, the structure allows prompt payment of interest and payment of principal during the life of the transaction and, in any event, before the Final Maturity Date.

The rating takes into account the structure of the Bond Issue, the legal aspects thereof and of the issuing Fund, the characteristics of the loans selected to be assigned to the Fund and the regularity and continuity of the operating flows.

The Rating Agency's ratings are not an assessment of the likelihood of obligors prepaying principal, nor indeed of the extent to which such prepayments differ from what was originally forecast. The ratings are not by any means a rating of the level of actuarial performance.

The ratings assigned, and any revision or suspension of the ratings:

- (i) are assigned by the Rating Agency based on manifold information received with respect to which it gives no assurance, nor even as to their accuracy or wholeness, wherefore the Rating Agency may in no event be deemed to be responsible therefor; and
- (ii) are not and cannot therefore be howsoever construed as an invitation, recommendation or encouragement for investors to proceed to carry out any transaction whatsoever on the Bonds and, in particular, acquire, keep, charge or sell those Bonds.

The Rating Agency may revise, suspend or withdraw the final ratings assigned at any time, based on any information that may come to its notice. Those events, which shall not constitute early liquidation events of the Fund, shall forthwith be notified to both the CNMV and the Bondholders, in accordance with the provisions of section III.5.3.

In carrying on the rating and monitoring process, the Rating Agency relies on the accuracy and wholeness of the information provided by the Originators, the Management Company, auditors, lawyers and other experts.

Undertakings by the Management Company.

The Management Company, on behalf of the Fund, agrees to report regularly to the Rating Agency as to the status of the Fund and the performance of the Loans in order that it can monitor the rating of the bonds. It shall also report when reasonably required to do so and in any event whenever there is a change in the conditions of the Fund, in the agreements entered into by the Fund through its Management Company or in the parties concerned.

II.4 Nature and denomination of the Bonds.

The amount of the issue of Asset-Backed Bonds (the “**Bond Issue**” or generically the “**Bonds**”) totals a face value of EUR two hundred and fourteen million (214,000,000.00) and consists of two thousand one hundred and forty (2,140) Bonds denominated in euros and pooled in four Bond Classes distributed into five Series (Series A1, Series A2(G), Series B, Series C and Series D) as detailed in section II.6 below.

II.4.1 Legal system of the Bonds, specifying the procedures guaranteeing the certainty and effectiveness of the rights of their first and subsequent holders.

The constitution of and the Bond Issue by the Fund are subject to Spanish Law and in particular are carried out pursuant to the Order of December 28, 2001, and in accordance with the legal system provided for by (i) Royal Decree 926/1998 and implementing regulations, (ii) Act 19/1992 failing a provision in Royal Decree 926/1998 and to the extent applicable, (iii) Act 3/1994, April 14, adapting Spanish law in regard to credit institutions to the Second Banking Co-ordination Directive and introducing other changes relating to the financial system (“**Act 3/1994**”), (iv) Financial System Reform Measures Act 44/2000 (in particular article 18 thereof regulating pass-through certificates), (v) the Securities Market Act, and (vi) all other legal and statutory provisions in force and applicable from time to time.

The Bonds shall legally qualify as marketable fixed-income securities with an explicit yield and are subject to the system prescribed in the Securities Market Act and implementing regulations.

As provided in section II.5 of this chapter, the Bonds shall be represented by means of book entries. The Bondholders will be identified as such when entered in the accounting record kept by Iberclear, and the relevant member may issue certificates of title when so requested by the Bondholder and at the Bondholder's expense; the provisions of the Securities Market Act and of Title I, Chapter I, section four of the Book Entries and Stock Exchange Transaction Clearing and Settlement Royal Decree 116/1992, February 14, (“**Royal Decree 116/1992**”) will apply in this connection.

The Bonds may be freely transferred by any means admissible at Law and in accordance with the rules of the market on which they are traded. A transfer in the accounts will convey the ownership of each Bond. The effects of entering the conveyance to the transferee in the accounting record shall be the same as handing over the certificates and the transfer shall thereupon be enforceable on third parties. In this sense, no claim may be lodged against a third party acquiring the Bonds represented by book entries for valuable consideration from whoever has capacity to transfer the same, according to the book entries, unless he acted in bad faith or with gross negligence at the time of the acquisition, in accordance with article 12 of Royal Decree 116/1992.

The Bondholders are bound in respect of interest payment and principal repayment of the Bonds in each Series by the Priority of Payments and the Liquidation Priority of Payments of the Fund.

II.4.2 Servicing implications in each of the Bond Series of the compulsory connection between the schedule of principal and interest payments on those Bonds and the cash flows of the assets securitised through the Fund.

In order to cover timing differences between the scheduled flows of principal and interest on the Loans and on the Bonds in each Series, the Management Company, on behalf of the Fund, shall enter into a Guaranteed Interest Rate Account (Treasury Account) Agreement whereby the amounts received by the Fund from the Loans, as both repayment of principal and interest, as well as the amounts referred to in section V.3.1 of this

Offering Circular, will be invested until the following Bond Payment Date. Furthermore, the Fund has other financial hedging transactions covering up to a limit the risk of shortfall of the Fund's resources to service to a different extent the Bonds in each Series and which have been deemed sufficient by the Rating Agency to assign each Bond Series the rating referred to in section II.3 of this Offering Circular.

II.4.3 Other implications and risks that might, due to the legal and economic nature of the assets pooled in the Fund, affect servicing of the Bonds.

a) Risk of default on the Loans.

The holders of the Bonds shall bear the risk of default on the Loans pooled in the Fund.

The Originators shall have no liability whatsoever for the Obligors' default of principal, interest or any other amount they may owe under the Loans. Under article 348 of the Commercial Code, the Originators are liable to the Fund exclusively for the existence and lawfulness of the Loans on the terms and conditions declared in the Deed of Constitution, and for the personality with which the assignment is made. The Originators will have no liability whatsoever to directly or indirectly guarantee that the transaction will be properly performed nor give any guarantees or security, nor indeed agree to repurchase the Loans, other than the undertakings contained in section IV.1.6 of this Offering Circular regarding the substitution of Loans or Pass-Through Certificates that failed to conform, upon the Fund being constituted, to the representations contained in section IV.1.4 of this Offering Circular and in the Deed of Constitution, or the specific characteristics of the Loans notified by the Originators to the Management Company.

The Bonds issued by the Fund neither represent nor constitute an obligation of the Originators or the Management Company. Excepting the State Guarantee, no other guarantees have been granted by any public or private organisation whatsoever, including the Originators, the Management Company and any of their affiliated or associated companies.

b) Limited Hedging.

A high level of delinquency of the Loans might reduce or indeed exhaust the limited hedging against Loan portfolio losses that the Bonds have as a result of the existence of the credit enhancement transactions described in section V.3 of this Offering Circular. That risk of default is additionally hedged for the holders of Series A2(G) Bonds by the State Guarantee described in section II.5.2 of this Offering Circular, although the amounts requested upon every enforcement of the Guarantee shall be paid to the Fund within not more than ninety (90) days from the date of request by the Management Company and, therefore, the amounts required to satisfy interest payable and/or principal repayment might not be paid to the Series A2(G) Bondholders on the relevant Payment Date, and will in any event be paid to them on the Payment Date immediately following the day on which they are paid to the Fund by the Directorate-General of the Treasury and Financial Policy.

The degree of subordination in payment of interest and repayment of principal between the Bonds in the different Series derived from the Priority of Payments and the Liquidation Priority of Payments of the Fund is a mechanism for distinctly hedging the different Series.

c) Loan prepayment risk.

There will be a prepayment of the Loans pooled in the Fund when the Obligors prepay the portion of principal pending repayment or in the event that the Originators should be substituted in the relevant Mortgage Loans by any other financial institution licensed to do so or in any other event having the same effect.

That prepayment risk shall pass on each Payment Date to the Bondholders by the partial amortisation of the Bonds, in accordance with the provisions of section II.11.3.1 of this Offering Circular.

d) Liquidity.

There is no assurance that the Bonds will be traded on the market with a minimum frequency or volume.

There is no undertaking that any institution will be involved in secondary trading, giving the Bonds liquidity by offering consideration.

Moreover, the Fund may in no event repurchase the Bonds from Bondholders. Nevertheless, the Bonds may be fully subject to early amortisation in the event of Early Liquidation of the Fund, on the terms established in section III.7 of this Offering Circular.

e) Yield.

Loan repayment performance is influenced by a number of economic and social factors such as market interest rates, the Obligors' employment and economic status and the general level of economic activity, preventing their predictability.

Calculation of the internal rate of return, average life and duration of the Bonds in each Series is subject, inter alia, to assumed Loan prepayment rates that may not be fulfilled, and to future market interest rates, given the floating nature of the Nominal Interest Rate of each Series.

f) Late-payment interest.

Late payment of interest or repayment of principal to the Bondholders shall under no circumstances result in late-payment interest accruing to their favour.

g) Risk of sector concentration of the Obligors' business.

Section IV.4.i) of the Offering Circular shows the distribution by business sectors in accordance with the Spanish Business Activity Code (CNAE) in which the corporate obligors for the selected loans which shall be mostly assigned to the Fund upon being constituted are doing business. The business sectors carrying most weight are Retail trade, repair of motor vehicles, motorcycles and mopeds and personal and household items (16.63%), Building (12.70%) and Agriculture, stockbreeding, hunting and silviculture (14.25%).

II.5 Form of representation and name and place of business of the institution in charge of the accounting record.

The Bonds issued by the Fund will be exclusively represented by means of book entries, and will become such Bonds when entered at Iberclear, the institution in charge of the accounting record, in accordance with article 11 of Royal Decree 116/1992. In this connection, and for the record, the Deed of Constitution shall have the effects prescribed by article 6 of the Securities Market Act.

Iberclear shall be the institution designated in the Deed of Constitution to account for the Bonds in order for the Bonds to be cleared and settled in accordance with the operating rules regarding securities listed on the AIAF, and represented by book entries, established now or henceforth by Iberclear or AIAF. Such designation shall be entered in the official registers of the CNMV.

Bondholders shall be identified as such when entered in the accounting record kept by the members of Iberclear.

Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores, S.A., has its place of business at Calle Pedro Teixeira, no. 8, Madrid.

II.6 Face amount of the Bond Issue.

The amount of the Bond Issue totals a face value of EUR two hundred and fourteen million (214,000,000.00) and consists of two thousand one hundred and forty (2,140) Bonds denominated in euros and comprised of four Bond Classes, distributed into five Series as follows:

- a) Class A comprising two Series having a face amount of EUR one hundred and eighty-seven million eight hundred thousand (187,800,000.00) (either "**Class A**" or the "**Class A Bonds**"):
 - i) Series A1 having a total face amount of EUR one hundred and thirty-four million one hundred thousand (134,100,000.00) comprising one thousand three hundred and forty-one (1,341) Bonds having a unit face value of EUR one hundred thousand (100,000), represented by means of book entries (either "**Series A1**" or the "**Series A1 Bonds**").

- iii) Series A2(G) having a total face amount of EUR fifty-three million seven hundred thousand (53,700,000.00) comprising five hundred and thirty-seven (537) Bonds having a unit face value of EUR one hundred thousand (100,000), represented by means of book entries (either “**Series A2(G)**” or the “**Series A2(G) Bonds**”).
- b) Class B comprising a single Series B having a total face amount of EUR fourteen million six hundred thousand (14,600,000.00) comprising one hundred and forty-six (146) Bonds having a unit face value of EUR one hundred thousand (100,000), represented by means of book entries (either “**Series B**” or the “**Series B Bonds**”).
- c) Class C comprising a single Series C having a total face amount of EUR seven million two hundred thousand (7,200,000.00) comprising seventy-two (72) Bonds having a unit face value of EUR one hundred thousand (100,000), represented by means of book entries (either “**Series C**” or the “**Series C Bonds**”).
- d) Class D comprising a single Series D having a total face amount of EUR four million four hundred thousand (4,400,000.00) comprising forty-four (44) Bonds having a unit face value of EUR one hundred thousand (100,000), represented by means of book entries (either “**Series D**” or the “**Series D Bonds**”).

Payment of interest and repayment of principal on the Series B Bonds is deferred with respect to the Class A Bonds, as provided in the Priority of Payments and in the Liquidation Priority of Payments of the Fund.

Payment of interest and repayment of principal on the Series C Bonds is deferred with respect to the Class A and Series B Bonds, as provided in the Priority of Payments and in the Liquidation Priority of Payments of the Fund.

Payment of interest and repayment of principal on the Series D Bonds is deferred with respect to the Class A and the Series B and C Bonds, as provided in the Priority of Payments and in the Liquidation Priority of Payments of the Fund.

Subscribing for or holding Bonds in one Series does not imply subscribing for or holding Bonds in the other Series.

II.7 Face and actual amounts of each Bond.

The Bonds are issued at 100 percent of their face value. The issue price of the Bonds in all the Series shall be EUR one hundred thousand (100,000) per Bond, clear of taxes and subscription costs for the subscriber through the Fund.

The expenses and taxes attaching to the Bond issue shall be borne by the Fund.

II.8 Fees and related expenses of every description that must be borne by the investors upon subscribing for the Bonds.

The Fund, as Bond issuer, shall neither shift to nor charge the investor any expense item whatsoever for subscribing for the Bonds. The issue price detailed in section II.7 above is clear of taxes and subscription costs for the subscriber through the Fund.

II.9 Fees borne by the Bondholders.

The expenses of including and excluding the Bond Issue in and from the accounting record of Iberclear shall be borne by the Fund and may not be shifted to the Bondholders. Iberclear has established no fee whatsoever for maintaining a balance.

In accordance with the laws in force for the time being, the members of Iberclear may nevertheless establish such fees and expenses to be charged to the Bondholder, for managing securities, as they may freely determine, and duly notified to the Bank of Spain or the CNMV, being their supervisory bodies.

II.10 Interest rate clause.

II.10.1 Bond nominal interest rate.

The Bonds in each Series shall accrue a yearly nominal interest, from the Closing Date until they mature fully, variable and payable quarterly, which shall be the result of applying the policies established hereinafter for each of the Series.

The resultant yearly nominal interest rate (hereinafter the “**Nominal Interest Rate**”) for each of the Series shall be payable quarterly in arrears on each Payment Date on the Outstanding Principal Balance of the Bonds in each Series on the preceding Payment Date, provided that the Fund has sufficient liquidity in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

The withholdings, interim payments, contributions and taxes established or to be established in the future on the principal, interest or return of the Bonds, shall be borne exclusively by the Bondholders, and their amount shall be deducted, as the case may be, by the Management Company, for and on behalf of the Fund, or through the Paying Agent, as provided by law.

II.10.1.1 Interest Accrual.

For interest accrual purposes, the duration of each Bond Series shall be divided into successive interest accrual periods (“**Interest Accrual Periods**”) comprising the exact number of days elapsed between two consecutive Payment Dates, each Interest Accrual Period including the beginning Payment Date but not including the ending Payment Date. Exceptionally, the duration of the first Interest Accrual Period shall be equivalent to the exact number of days elapsed between the Closing Date, November 26, 2004, inclusive, and the first Payment Date, to wit March 21, 2005, exclusive.

The Nominal Interest Rate shall accrue on the exact number of days in each Interest Accrual Period for which it was determined, calculated based upon a 360-day year.

II.10.1.2 Nominal Interest Rate.

The Nominal Interest Rate applicable to the Bonds in each of the Series determined for each Interest Accrual Period shall be the result of adding:

- (i) the Reference Rate as established in the following paragraph, and
- (ii) a margin for each Series as follows:

- **Series A1:** margin ranging between 0.12% and 0.17%, both inclusive.
- **Series A2(G):** margin ranging between 0.00% and 0.02%, both inclusive.
- **Series B:** margin ranging between 0.35% and 0.55%, both inclusive.
- **Series C:** margin ranging between 1.00% and 1.50%, both inclusive.
- **Series D:** margin ranging between 2.50% and 3.50%, both inclusive.

The margin applicable to each of the Series, expressed as a percentage, shall be determined with one accord among the Lead Managers by 10am (CET time) on the day of the Subscription Period (November 24, 2004).

Failing an agreement, the Management Company shall fix the specific margin for the Series in respect of which no margin was agreed, as follows:

- **Series A1:** 0.17% margin.
- **Series A2(G):** 0.02% margin.
- **Series B:** 0.55% margin.
- **Series C:** 1.50% margin.
- **Series D:** 3.50% margin.

The resultant Nominal Interest Rate shall be expressed as a percentage rounded to the nearest thousandth of a whole number or rounded up to the nearest one where the differences of rounding up or down to the nearest thousandths are identical.

II.10.1.3 Reference Rate and determining the same.

The reference rate ("**Reference Rate**") for determining the Nominal Interest Rate applicable to each of the Bond Series is as follows:

- i) Other than for the first Interest Accrual Period, Euribor, "Euro Interbank Offered Rate", calculated and distributed by the BRIDGE financial information system under an FBE ("Federation Bancaire de l'Union Europeene") mandate, with a three- (3-) month maturity, fixed at 11am (CET time "Central European Time") on the Interest Rate Fixing Date described below, which is currently published on electronic pages EURIBOR01 supplied by Reuters, and 248 supplied by Dow Jones Markets (Bridge Telerate), or any other page taking their stead in providing these services.

Exceptionally, the Reference Rate for the first Interest Accrual Period shall be the result of a straight-line interpolation between the three- (3-) month Euribor rate and the six- (6-) month Euribor rate, fixed at 11am (CET time) on the second Business Day preceding the Closing Date, bearing in mind the number of days in the first Interest Accrual Period. The Reference Rate for the first Interest Accrual Period shall be calculated in accordance with the following formula:

$$IR = [((D-90)/90) \times E6] + [(1-((D-90)/90)) \times E3]$$

Where:

- IR = Reference Rate for the first Interest Accrual Period.
- D = Number of days in the first Interest Accrual Period.
- E3 = Three- (3-) month Euribor rate.
- E6 = Six- (6-) month Euribor rate.

The Euribor rate is currently the term interbank deposit offered rate in euros calculated as the daily average of the quotations supplied by a panel consisting of 57 Banks, from among the most active banks in the Euro zone. The rate is quoted based on a count of the actual days to maturity and a 360-day year, and is fixed at 11am (CET time), accurate to three (3) decimal places.

The Euribor rate definitions approved by the FBE and the Financial Markets Association (ACI) supplementing the current Euribor rate definition shall be considered introduced for the purpose of the Euribor Reference Rate without having to amend the present terms of the Reference Rate or have the Management Company notify the Bondholders.

- ii) In the event that the Euribor rate established in paragraph (i) above should not be available or be impossible to obtain, the substitute Reference Rate shall be the interest rate resulting from finding the simple arithmetic mean of the interbank offered interest rates for non-transferable deposit transactions in euros with a three- (3-) month maturity in an amount equivalent to the Outstanding Principal Balance of the Bond Issue, declared by four (4) prime banks in the Euro zone, following a simultaneous request to the headquarters of each of them made by the Paying Agent after and around 11am (CET time) on the Interest Rate Fixing Date.

Exceptionally, the substitute Reference Rate for the first Interest Accrual Period shall be the rate resulting from the straight-line interpolation between the interest rate resulting from finding the simple arithmetic mean of the interbank offered interest rates for non-transferable deposit transactions in euros with a three- (3-) month maturity and the interest rate resulting from finding the simple arithmetic mean of the interbank offered interest rates for non-transferable deposit transactions in euros with a six- (6-) month maturity, both in an amount equivalent to the face amount of the Bond Issue, declared by the banks in accordance with the provisions of paragraph one above, following a simultaneous request to the headquarters of each of them made by the Paying Agent after and around 11am (CET time) on the second Business Day preceding the Closing Date.

In the event that it should be impossible to apply the above substitute Reference Rate, due to the failure by any or several of the banks to provide written quotations as provided for in paragraph one of this section, the interest rate resulting from applying the simple arithmetic mean of the interest rates declared by at least two of the other banks shall be applicable.

- iii) If the rates established in paragraphs i) and ii) above should not be available or be impossible to obtain, the last Reference Rate applied to the last Interest Accrual Period shall apply, and so on for successive Interest Accrual Periods whilst matters remain the same.

On each of the Interest Rate Fixing Dates, the Paying Agent shall notify the Management Company of the Reference Rate determined in accordance with paragraphs i), ii) and iii) above. The Management Company shall keep the listings and supporting documents on which the Paying Agent shall notify it the Reference Rate determined.

II.10.1.4 Interest Rate Fixing Date.

The Nominal Interest Rate applicable to each of the Bond Series for every Interest Accrual Period shall be determined by the Management Company, for and on behalf of the Fund, as provided in sections II.10.1.2 and II.10.1.3 above, on the second Business Day before each Payment Date (the “**Interest Rate Fixing Date**”) and will apply for the following Interest Accrual Period.

Exceptionally, the Management Company shall determine the Nominal Interest Rate of the Bonds in each of the Series for the first Interest Accrual Period as provided in sections II.10.1.2 and II.10.1.3 above, on the second Business Day preceding the Closing Date, and shall notify the same in writing by the start of the Subscription Period to the Lead Managers and to the Underwriters and Placement Agents in order to be reported to investors interested in subscribing for the Bonds. The Management Company will also notify this to the CNMV, the Paying Agent, the AIAF and Iberclear.

The nominal interest rates determined for each of the Bond Series for successive Interest Accrual Periods shall be communicated to the Bondholders within the time period and in the manner for which provision is made in sections III.4.2 of this Offering Circular.

II.10.1.5 Formula for calculating the interest.

Interest settlement for the Bonds in each of the Series, payable on each Payment Date for each Interest Accrual Period, shall be calculated for each Series in accordance with the following formula:

$$I = P \times \frac{R}{100} \times \frac{d}{360}$$

Where:

I = Interest payable on a given Payment Date, rounded up to the nearest eurocent.

P = Outstanding Principal Balance of the Bonds in the Series on the Determination Date preceding that Payment Date.

R = Nominal interest rate of the Series expressed as a yearly percentage.

d = Number of days actually corresponding to each Interest Accrual Period.

a) Example for fixing the Nominal Interest Rate.

As established in this section and for a better understanding by the subscriber of the system for fixing the nominal interest rate and the interest amount receivable on each Bond in each Series on the first Payment Date, the manner of calculating the same for the following event is shown below:

(Amounts in EUR)	Series A1 Bonds	Series A2(G) Bonds	Series B Bonds	Series C Bonds	Series D Bonds
1 Outstanding Principal Balance per Bond	100,000.00	100,000.00	100,000.00	100,000.00	100,000.00
2 Interest Accrual Period days	115	115	115	115	115
3 3- to 6-month interpolated Euribor rate*	2.17322	2.17322	2.17322	2.17322	2.17322
4 Margin **	0.145	0.010	0.450	1.250	3.000
5 Nominal interest rate: rounded to the nearest thousandth of a percentage point	2.318	2.183	2.623	3.423	5.173
6 Calculation of interest amount payable per Bond (1)x(2)x(5)/36000	740.47	697.35	837.90	1,093.46	1,652.49

* 3-month Euribor 2.161% and 6-month Euribor 2.205%, as of November 4, 2004.

** Average margin within the range established for each Series in accordance with section II.10.1.2 of this Offering Circular.

b) Informative table on the evolution of the reference rate to be used.

For merely illustrative purposes, below are details of the three- (3-) month Euribor rates published on certain dates over the last two years, which, other than the first date, would have matched the Interest Rate Fixing Dates on the EURIBOR01 electronic page supplied by Reuters, and the Nominal Interest Rate that would have resulted if applied to each of the Bond Series, in the event that the applicable margins should be the average margins in the range established for each Series, in accordance with section II.10.1.2 (0.145% for Series A1, 0.010% for Series A2(G), 0.450% for Series B, 1.250% for Series C and 3.000% for Series D):

II.10.2 Dates, place, institutions and procedure for paying interest.

Interest on the Bonds in all the Series will be paid until they are finally amortised by Interest Accrual Periods in arrears on March 21, June 21, September 21 and December 21 in each year, or the following Business Day if any of those is not a Business Day (each of those dates, a **"Payment Date"**), and interest for the then-current Interest Accrual Period will accrue until said first Business Day, not inclusive, on the terms established in section II.10.1. of this Offering Circular.

The first interest Payment Date for the Bonds in each of the Series shall be March 21, 2005, and interest will accrue at the applicable Nominal Interest Rate between the Closing Date, November 26, 2004, inclusive, and March 21, 2005, exclusive.

For the purposes of the Bond Issue, business days (**"Business Days"**) shall be deemed to be all days other than a:

- Saturday,
- Sunday,
- public holiday in Madrid, or

- non-business day in the TARGET calendar (Trans European Automated Real-Time Gross Settlement Express Transfer System).

Both interest resulting for the Bondholders in each of the Series and the amount, if any, of interest accrued and not paid, shall be notified to the Bondholders as described in section III.4.2 of this Offering Circular, at least one (1) calendar day in advance of each Payment Date.

Interest accrued on the Bonds shall be paid on each Payment Date provided that the Fund has sufficient liquidity to do so in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

In the event that on a Payment Date the Fund should be unable to make full or partial payment of the interest accrued by the Bonds in any of the Series, in the Priority of Payments, the amounts that the Bondholders should not have received shall be accumulated on the following Payment Date to the interest on the Series proper that, as the case may be, should be paid on that same Payment Date, and will be paid in the Priority of Payments and applied by order of maturity if it should be impossible once again not to pay the same fully due to a shortfall of Available Funds, other than as established in section II.15.2.1 of this Offering Circular for payment of interest on the guaranteed Series A2(G).

Deferred interest amounts shall accrue for the holders an interest equivalent to that applied to the Bonds in their respective Series during the Interest Accrual Period(s) until the Payment Date on which they are paid, without late-payment interest and without this entailing a capitalisation of the debt.

The Fund, through its Management Company, may not defer Bond interest payment beyond the Final Maturity Date, December 21, 2035, or the following Business Day if that is not a Business Day.

The Bond issue shall be serviced through the Paying Agent, to which end the Management Company shall, for and on behalf of the Fund, enter into a Paying Agent Agreement with BANCO COOPERATIVO.

II.10.3 Simple reference to the priority of the interest payment of the Bonds in the Fund priority of payments.

Payment of interest accrued by the Series A1 and A2(G) Bonds is (i) third (3rd) in the application of Available Funds in the Priority of Payments established in section V.4.2.1.2 of this Offering Circular, and (ii) fourth (4th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

Payment of interest accrued by the Series B Bonds is (i) fourth (4th) in the application of Available Funds in the Priority of Payments established in said section V.4.2.1.2 of this Offering Circular, and (ii) sixth (6th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

Payment of interest accrued by the Series C Bonds is (i) fifth (5th) in the application of Available Funds in the Priority of Payments established in said section V.4.2.1.2 of this Offering Circular, and (ii) eighth (8th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

Payment of interest accrued by the Series D Bonds is (i) sixth (6th) in the application of Available Funds in the Priority of Payments established in said section V.4.2.1.2 of this Offering Circular, and (ii) tenth (10th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

II.11 Amortisation of the Bonds.

II.11.1 Bond redemption price.

The redemption price of the Bonds in each of the Series shall be EUR one hundred thousand (100,000) per Bond, equivalent to 100 percent of their face value, payable as established in section II.11.2 of this Chapter.

Each and every one of the Bonds in a same Series shall be amortised in an equal amount by reducing the face amount of each of the Bonds.

II.11.2 Specific characteristics of the Amortisation of each of the Bond Series.

II.11.2.1 Amortisation of Series A1 Bonds.

Series A1 Bond principal shall be amortised by partial amortisation on each of the Payment Dates after their amortisation begins until their total face amount has been fully amortised, in an amount equal to the Available Funds for Amortisation applied on each Payment Date to amortising Series A1, in accordance with the rules for Distribution of Available Funds for Amortisation between each Series, prorated between the Bonds in Series A1 proper by reducing the face amount of each Series A1 Bond. The first partial amortisation of the Series A1 Bonds shall take place on the first Payment Date (March 21, 2005).

The final amortisation of the Series A1 Bonds shall occur on the Final Maturity Date (December 21, 2035 or the following Business Day if that is not a Business Day), notwithstanding the partial amortisations for which provision is made, and the fact that the Management Company may, for and on behalf of the Fund, proceed to the Early Amortisation of the Bond Issue before the Final Maturity Date.

II.11.2.2 Amortisation of Series A2(G) Bonds.

Series A2(G) Bond principal shall be amortised by partial amortisation on each of the Payment Dates after their amortisation begins until their total face amount has been fully amortised, in an amount equal to the Available Funds for Amortisation applied on each Payment Date to amortising Series A2(G), in accordance with the rules for Distribution of Available Funds for Amortisation between each Series contained in sections II.11.3.1.6 and V.4.2.2.2 of this Offering Circular, prorated between the Bonds in Series A2(G) proper by reducing the face amount of each Series A2(G) Bond.

The first partial amortisation of the Series A2(G) Bonds shall take place once the Series A1 Bonds have been fully amortised. Nevertheless, the Series A2(G) Bonds will also be amortised on the Payment Dates on which the Pro Rata Amortisation of Class A applies as provided for in the rules for Distribution of Available Funds for Amortisation between each Series.

The final amortisation of the Series A2(G) Bonds shall occur on the Final Maturity Date (December 21, 2035 or the following Business Day if that is not a Business Day), notwithstanding the partial amortisations for which provision is made and the fact that the Management Company may, for and on behalf of the Fund, and in accordance with the provisions of section II.11.3.2 of this Offering Circular, proceed to the Early Amortisation of the Bond Issue before the Final Maturity Date.

II.11.2.3 Amortisation of Series B Bonds.

Series B Bond principal shall be amortised by partial amortisation on each of the Payment Dates after their amortisation begins until their total face amount has been fully amortised, in an amount equal to the Available Funds for Amortisation applied on each Payment Date to amortising Series B, in accordance with the rules for Distribution of Available Funds for Amortisation between each Series contained in sections II.11.3.1.6 and V.4.2.2.2 of this Offering Circular, prorated between the Bonds in Series B proper by reducing the face amount of each Series B Bond.

The first partial amortisation of Series B Bonds shall occur once the Class A Bonds have been fully amortised. However, even if Class A has not been fully amortised, the Available Funds for Amortisation shall also be applied to amortising Series B on the Payment Date on which the Conditions for Pro Rata Amortisation are satisfied in accordance with the rules for Distribution of Available Funds for Amortisation between each Series, in such a way that the ratio of the Outstanding Principal Balance of Series B to the Outstanding Principal Balance of the Bond Issue is kept at 13.645%, or higher percentage closest thereto.

The final amortisation of the Series B Bonds shall occur on the Final Maturity Date (December 21, 2035 or the following Business Day if that is not a Business Day), notwithstanding the partial amortisations for which provision is made and the fact that the Management Company may, for and on behalf of the Fund, and in accordance with the provisions of section II.11.3.2 of this Offering Circular, proceed to the Early Amortisation of the Bond Issue before the Final Maturity Date.

II.11.2.4 Amortisation of Series C Bonds.

Series C Bond principal shall be amortised by partial amortisation on each of the Payment Dates after their amortisation begins until their total face amount has been fully amortised, in an amount equal to the Available Funds for Amortisation applied on each Payment Date to amortising Series C, in accordance with the rules for Distribution of Available Funds for Amortisation between each Series contained in sections II.11.3.1.6 and V.4.2.2.2 of this Offering Circular, prorated between the Bonds in Series C proper by reducing the face amount of each Series C Bond.

The first partial amortisation of Series C Bonds shall occur once the Class A and the Series B Bonds have been fully amortised. However, even if Class A and Series B have not been fully amortised, the Available Funds for Amortisation shall also be applied to amortising Series C on the Payment Date on which the Conditions for Pro Rata Amortisation are satisfied in accordance with the rules for Distribution of Available Funds for Amortisation between each Series, in such a way that the ratio of the Outstanding Principal Balance of Series C to the Outstanding Principal Balance of the Bond Issue is kept at 6.729%, or higher percentage closest thereto.

The final amortisation of the Series C Bonds shall occur on the Final Maturity Date (December 21, 2035 or the following Business Day if that is not a Business Day), notwithstanding the partial amortisations for which provision is made in the section and the fact that the Management Company may, for and on behalf of the Fund, and in accordance with the provisions of section II.11.3.2 of this Offering Circular, proceed to the Early Amortisation of the Bond Issue before the Final Maturity Date.

II.11.2.5 Amortisation of Series D Bonds.

Series D Bond principal shall be amortised by partial amortisation on each of the Payment Dates after their amortisation begins until their total face amount has been fully amortised, in an amount equal to the Available Funds for Amortisation applied on each Payment Date to amortising Series D, in accordance with the rules for Distribution of Available Funds for Amortisation between each Series contained in sections II.11.3.1.6 and V.4.2.2.2 of this Offering Circular, prorated between the Bonds in Series D proper by reducing the face amount of each Series D Bond.

The first partial amortisation of Series D Bonds shall occur once the Class A, the Series B and the Series C Bonds have been fully amortised. However, even if Class A, Series B and Series C have not been fully amortised, the Available Funds for Amortisation shall also be applied to amortising Series D on the Payment Date on which the Conditions for Pro Rata Amortisation are satisfied in accordance with the rules for Distribution of Available Funds for Amortisation between each Series, in such a way that the ratio of the Outstanding Principal Balance of Series D to the Outstanding Principal Balance of the Bond Issue is kept at 4.112%, or higher percentage closest thereto.

The final amortisation of the Series D Bonds shall occur on the Final Maturity Date (December 21, 2035 or the following Business Day if that is not a Business Day), notwithstanding the partial amortisations for which provision is made in the section and the fact that the Management Company may, for and on behalf of the Fund, and in accordance with the provisions of section II.11.3.2 of this Offering Circular, proceed to the Early Amortisation of the Bond Issue before the Final Maturity Date.

II.11.3 Common characteristics applicable for amortising the Bonds in each of the Bond Series.

II.11.3.1 Partial amortisation.

Irrespective of the Final Maturity Date and without prejudice to the Early Amortisation of the Bond Issue in the event of Early Liquidation of the Fund, the Fund shall, through its Management Company, proceed to make partial amortisations of the Bonds in each Series on the Payment Dates in accordance with the specific amortisation terms for each of the Series as established in sections II.11.2.1 to II.11.2.5 of this Offering Circular and on the terms described hereinafter in this section common to the five Series.

II.11.3.1.1 Determination Dates and Determination Periods.

The Determination Dates will be the dates falling on the fifth (5th) Business Day preceding each of the Payment Dates on which the Management Company on behalf of the Fund will make all necessary calculations to distribute or withhold the Available Funds and the Available Funds for Amortisation which the Fund shall dispose of on the relevant Payment Date, in the Priority of Payments.

The Determination Periods shall be the periods comprising the exact number of days elapsed between every two consecutive Determination Dates, excluding in each Determination Period the initial Determination Date and including the final Determination Date. Exceptionally, the duration of the first Determination Period shall be equal to the days elapsed between the Fund constitution date, inclusive, and the first Determination Date, March 14, 2005, inclusive.

II.11.3.1.2 Outstanding Principal Balance of the Bonds.

The Outstanding Principal Balance of a Series shall be the sum of the principal pending repayment (outstanding balance) on a given date of all the Bonds in that Series.

By addition, the Outstanding Principal Balance of Class A shall be the sum of the Outstanding Principal Balance of Series A1 and Series A2(G) making up Class A, and the Outstanding Principal Balance of the Bond Issue shall be the sum of the Outstanding Principal Balance of the five Series making up the Bond Issue.

II.11.3.1.3 Outstanding Balance of the Loans.

The outstanding balance of a Loan shall be the sum of the capital or principal not yet due and the capital or principal due and not paid into the Fund on the specific Loan on a given date.

The Outstanding Balance of the Loans on a given date shall be the sum of the outstanding capital and the capital due and not paid to the Fund on each and every one of the Loans on that date.

Delinquent Loans shall be deemed to be Loans that are delinquent on a given date with an arrears in excess of three (3) months in payment of overdue amounts, excluding Doubtful Loans.

Doubtful Loans shall be deemed to be Loans that are delinquent on a given date with a period of arrears equal to or greater than eighteen (18) months in payment of overdue amounts or classified as bad debts by the Management Company because there are reasonable doubts as to their full repayment. Non-Doubtful Loans shall be deemed to be Loans that are not deemed to be Doubtful Loans on a given date.

II.11.3.1.4 Amortisation Withholding on each Payment Date and Amortisation Deficiency.

On each Payment Date, the Available Funds shall be used in 7th place in the priority of payments for withholding the amount designed for amortising the Bonds as a whole, without distinguishing between Series (“**Amortisation Withholding**”), in an amount equal to the positive difference, if any, on the Determination Date preceding the relevant Payment Date between (i) the Outstanding Principal Balance of the Bond Issue, increased by amounts outstanding payable to the State upon enforcing the Guarantee for amortising Series A2(G), and (ii) the Outstanding Balance of Non-Doubtful Loans.

Depending on the liquidity existing on each Payment Date, the amount actually applied of the Available Funds for Amortisation shall be included among the Available Funds for Amortisation and be applied in accordance with the rules for Distribution of Available Funds for Amortisation between each Series established hereinafter in section V.4.2.2.

The amortisation deficiency (the “**Amortisation Deficiency**”) on a Payment Date shall be the positive difference, if any, between (i) the Amortisation Withholding amount, and (ii) the amount actually applied of the Available Funds for Amortisation to the Amortisation Withholding.

II.11.3.1.5 Available Funds for Amortisation on each Payment Date.

The available funds for amortisation on each Payment Date (the “**Available Funds for Amortisation**”) shall be the Amortisation Withholding amount applied in 7th place of the Available Funds on the relevant Payment Date.

Additionally, and not included among the Available Funds for Amortisation, the Fund shall avail of and use for repaying Series A2(G) principal only, the amount drawn upon enforcing the State Guarantee paid to the Fund from the preceding Payment Date until the relevant Payment Date.

II.11.3.1.6 Distribution of Available Funds for Amortisation between each Series.

The Available Funds for Amortisation shall be applied on each Payment Date to amortising each of the Series in accordance with the following rules ("**Distribution of Available Funds for Amortisation between each Series**"):

1. The Available Funds for Amortisation shall be sequentially applied firstly to amortising Class A and repaying amounts due to the State upon enforcing the Guarantee for amortising Series A2(G) until they are fully amortised and repaid, secondly to amortising Series B until it is fully amortised, thirdly to amortising Series C until it is fully amortised and fourthly to amortising Series D until it is fully amortised, notwithstanding the provisions of rules 3 and 4 below for pro rata amortisation of the different Series.
2. The Available Funds for Amortisation applied to amortising Class A and repaying amounts due to the State upon enforcing the Guarantee for amortising Series A2(G), both under rule 1 above and under rules 3 and 4 below, shall be applied as follows:

2.1 Ordinary application in the following order:

1. Repayment of Series A1 Bond principal.
2. Repayment of Series A2(G) Bond principal and repayment to the State of amounts paid to the Fund upon the Guarantee being drawn down for repaying Series A2(G) Bond principal, once the Series A1 Bonds have been fully amortised.

The amount of the Available Funds for Amortisation applied on a Payment Date to both items (repayment of Series A2(G) Bond principal and repayment to the State of amounts due upon enforcing the Guarantee for amortising Series A2(G)) shall be applied as follows:

- (i) If there is an Amortisation Deficiency on the then-current Payment Date, firstly to amortising Series A2(G) and secondly, in the remaining amount, if any, to repayment to the State of amounts due upon enforcing the Guarantee for amortising Series A2(G).
- (ii) Otherwise, firstly to repayment to the State of amounts due upon enforcing the Guarantee for amortising Series A2(G) and secondly, in the remaining amount, if any, to amortising Series A2(G).

- 2.2 Exceptional pro rata application of Class A ("**Pro Rata Amortisation of Class A**"): The application priority of paragraph 2.1 above shall be stopped on any Payment Date if on the Determination Date immediately preceding the relevant Payment Date the ratio of (i) the Outstanding Balance of Loans in good standing in payment of amounts due and payable or, if delinquent, with an arrears of less than three (3) months, increased by the amount of the Loan principal repayment income received during the Determination Period preceding the relevant Payment Date, to (ii) the Outstanding Principal Balance of Class A, is less than or equal to 1.

In that event, on the relevant Payment Date, the Available Funds for Amortisation applied shall be distributed among the items set out in paragraph 2.1 above as follows:

- a) The Amortisation Withholding amount applied of the Available Funds on the relevant Payment Date shall be prorated directly in proportion to (i) the Outstanding Principal Balance of Series A1 and (ii) the Outstanding Principal Balance of Series A2(G) increased by the balance of amounts due to the State upon enforcing the Guarantee for amortising Series A2(G).
- b) The Amortisation Withholding amount assigned to the Series A1 Bonds in accordance with item (i) of paragraph a) above, shall be applied to repayment of the Series A1 Bonds.
- c) The Amortisation Withholding amount assigned to the Series A2(G) Bonds and amounts due upon enforcing the Guarantee for amortising Series A2(G), in accordance with item (ii) of paragraph a) above, shall be applied to repayment of the Series A2(G) Bonds and repayment to the State of those amounts due in accordance with the provisions of paragraph 2.2.1 above.
3. However, even if Class A has not been fully amortised, the Available Funds for Amortisation shall also be applied to amortising Series B and/or Series C and/or Series D on the Payment Date which is not the last Payment Date or the Fund liquidation date on which the following circumstances are satisfied ("**Conditions for Pro Rata Amortisation**"):

- a) In order to amortise Series B, Series C and Series D:
 - i) that the Pro Rata Amortisation of Class A does not apply;
 - ii) that on the preceding Payment Date, the Cash Reserve shall have been provisioned up to the Required Cash Reserve on that Payment Date; and
 - iii) on the Determination Date preceding the relevant Payment Date, the amount of the Outstanding Balance of the Loans is equal to or greater than 10 percent of the face amount of the Bond Issue.
 - b) In order to amortise Series B, that on the Determination Date preceding the relevant Payment Date:
 - i) the Outstanding Principal Balance of Series B is equal to or greater than 13.645% of the Outstanding Principal Balance of the Bond Issue; and
 - ii) the Outstanding Balance of Delinquent Loans does not exceed 1.50% of the Outstanding Balance of Non-Doubtful Loans.
 - c) In order to amortise Series C, that on the Determination Date preceding the relevant Payment Date:
 - i) the Outstanding Principal Balance of Series C is equal to or greater than 6.729% of the Outstanding Principal Balance of the Bond Issue; and
 - ii) the Outstanding Balance of Delinquent Loans does not exceed 1.00% of the Outstanding Balance of Non-Doubtful Loans.
 - d) In order to amortise Series D, that on the Determination Date preceding the relevant Payment Date:
 - i) the Outstanding Principal Balance of Series D is equal to or greater than 4.112% of the Outstanding Principal Balance of the Bond Issue; and
 - ii) the Outstanding Balance of Delinquent Loans does not exceed 1.00% of the Outstanding Balance of Non-Doubtful Loans.
4. In the event that the amortisation of Series B and/or Series C and/or Series D should apply on a Payment Date as provided for in rule 3 above, the Available Funds for Amortisation shall also be applied to amortising Series B and/or Series C and/or Series D in such a way that the ratio of the Outstanding Principal Balance of Series B or of Series C or of Series D to the Outstanding Principal Balance of the Bond Issue is respectively kept at 13.645% or 6.729% or 4.112%, or higher percentages closest thereto.

II.11.3.2 Early Amortisation of the Bond Issue.

Without prejudice to the Fund's obligation, through its Management Company, to proceed to the final amortisation the Bonds on the Final Maturity Date or the amortisations of each Series before the Final Maturity Date, the Management Company shall, after first notifying the CNMV, be authorised to proceed or shall as the case may be proceed to an Early Liquidation of the Fund and hence an Early Amortisation, on a Payment Date, of the entire Bond Issue in the Early Liquidation Events and subject to the requirements established in section III.7.1 of this Offering Circular and subject to the Liquidation Priority of Payments.

II.11.3.3 Final Maturity Date.

The Final Maturity Date and consequently the final amortisation of the Bonds is December 21, 2035 or the following Business Day if that is not a Business Day, without prejudice to the Management Company, for and on behalf of the Fund, and in accordance with the provisions of sections II.11.3.1 et seq. of this Offering Circular, proceeding to amortise the Bond Issue before the Final Maturity Date. Final amortisation of the Bonds on the Final Maturity Date shall be made subject to the Liquidation Priority of Payments.

II.11.4 Simple reference to the priority of Bond principal payments in the Fund priority of payments.

The Amortisation Withholding amount designed for amortising the Bonds as a whole, and without distinction between Series, is seventh (7th) in the application of Available Funds in the Priority of Payments established in section V.4.2.1.2 of this Offering Circular.

Repayment of Series A1, A2(G), B, C and D Bond principal shall take place in accordance with the rules for Distribution of Available Funds for Amortisation between each Series in the application of Available Funds for Amortisation contained in sections II.11.3.1.6 and V.4.2.2.2 of this Offering Circular.

Repayment of Series A1 and A2(G) Bond principal is fifth (5th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

Repayment of Series B Bond principal is seventh (7th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

Repayment of Series C Bond principal is ninth (9th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

Repayment of Series D Bond principal is eleventh (11th) in the application of the Liquidation Available Funds in the Liquidation Priority of Payments established in section V.4.3 of this Offering Circular.

II.12 Debt securities servicing table, including both interest payments and principal repayments, for each of the Bonds Series to be issued by the Fund.

The Bond Issue will be serviced through BANCO COOPERATIVO as the Paying Agent. Payment of interest and amortisations shall be notified to the Bondholders in the events and in such advance as may be provided for each case in section III.4.2 of this Offering Circular. Interest and amortisations shall be paid to the Bondholders by the relevant members of Iberclear and to the latter in turn by Iberclear, the institution responsible for the accounting record.

a) Bond Issue servicing tables.

The main characteristic of the Bonds in this Issue is that their periodic amortisation depends on the aggregate performance of Loan repayment.

The average life, yield, term and final maturity of the Bonds in each Series depend on several factors, most significant among which are the following:

- i) The repayment schedule and system of each of the Loans established in the relevant contracts.
- ii) The Obligors' capacity to prepay the Loans in whole or in part and the aggregate repayment pace throughout the life of the Fund.
- iii) The floating interest rates which shall apply to each of the Loans, which shall result in the amount repaid on every instalment differing.
- iv) The Obligors' delinquency in payment of Loan instalments.

In this sense, Loan prepayments by Obligors, subject to continual changes, and estimated in this Offering Circular using several performance assumptions of the future effective constant annual early amortisation or prepayment rate (hereinafter also "**CPR**"), are very significant and shall directly affect the pace at which the Bonds are amortised, and therefore their average life and duration.

The following assumed values have been used for the above-mentioned factors in calculating the tables contained in this section:

- Loan interest rate: 3.58% weighted average interest rate as of October 25, 2004 of the portfolio of selected loans which has been used for calculating the repayment instalments and interest of each of the selected loans;
- Loan portfolio delinquency: 0.10% of the Outstanding Balance of the Loans, with 100% recoveries within 15 months of becoming delinquent, which delinquency rate is less than the delinquency rates contained in the table of section IV.3.2 of this Offering Circular;
- Loan portfolio defaults rated as bad debts: 0%;
- that the Loan prepayment rate remains constant throughout the life of the Bonds;
- that the Bond Closing Date is November 26, 2004;
- that there is no Amortisation Deficiency, and
- that there is no extension of the term of any of the Loans as provided for in section IV.2.1.6.b) of this Offering Circular.

Finally, the actual adjusted life of the Bonds will also depend on their floating interest rate. The following nominal interest rates are assumed for each Series for the first Interest Accrual Period:

	Series A1 Bonds	Series A2(G) Bonds	Series B Bonds	Series C Bonds	Series D Bonds
Nominal interest rate	2.318%	2.183%	2.623%	3.423%	5.173%

For successive Interest Accrual Periods, the floating interest rate of the Bonds in each Series is assumed to be constant as follows for each Series:

	Series A1 Bonds	Series A2(G) Bonds	Series B Bonds	Series C Bonds	Series D Bonds
Nominal interest rate	2.306%	2.171%	2.611%	3.411%	5.161%

Assuming that the Management Company shall exercise the Early Liquidation of the Fund and Early Amortisation of the Bond Issue option provided in section III.7.1 of this Offering Circular when the Outstanding Balance of the Loans is less than 10% of their initial amount upon the Fund being constituted, the average life, return (IRR), duration and final maturity of the Bonds for different CPRs, shall be as follows:

These figures have been calculated using the following formula:

Average life of the Bonds: for each of the Series, average of the time periods between the Closing Date and each of the Payment Dates, using for weighting purposes the weights the principal to be repaid on each Payment Date has on the total face amount of the Series, in accordance with the following expression:

$$V = \frac{\sum (P \times d)}{T} \times \frac{1}{365}$$

Where:

- V* = Average life in each Bond Series issued expressed in years.
P = Principal to be repaid in each Bond Series on each Payment Date, in accordance with the amount to be amortised in each Bond Series, as described in section II.11.3.2 of this Offering Circular.
d = Number of days elapsed between the Closing Date and the Payment Date at issue.
T = Total face amount in EUR in each Bond Series.

Internal rate of return (IRR): for each of the Series, interest rate equalling the restatement at present value of the total amortisation and interest amounts received on each Payment Date with the face value of the Bond.

$$N = \sum_{i=1}^n A_i (1+r)^{-(nd/365)}$$

Where:

- N* = face value of the Bond in each Series.
r = IRR expressed as an annual rate, per unit.
A_i = (*A₁* *A_n*). Total amortisation and interest amounts to be received by investors.
nd = Number of days comprised between the Closing Date of the issue and each of the *n* Payment Dates, not inclusive, during the life of the Bond.

Duration of the Bonds (adjusted Macaulay formula): for each of the Series, measure of Bond price sensitivity with respect to changes in yield.

$$D = \frac{\sum_{j=1}^n (a_j \times VA_j)}{PE} \times \frac{1}{(1+i)}$$

Where:

- D* = Duration in each Bond Series expressed in years.
a_j = Time elapsed (in years) between the Closing Date and each of the *n* Payment Dates at issue.
VA_j = Present value of each of the amounts comprising principal and gross interest, payable on each of the *n* Payment Dates discounted at the actual interest rate (IRR) in every Series.
PE = Issue price in every Bond Series.
i = Actual interest rate (IRR) in every Series, per unit.

Finally, the Management Company expressly states that the debt securities servicing tables described hereinafter are merely theoretical and given for illustrative purposes, and represent no payment obligation whatsoever, on the basis that:

- The CPRs are assumed to be constant respectively at 12% and 15% throughout the life of the debt securities and, as noted, actual prepayment rates change continually.
- The Outstanding Principal Balance of the Bonds on each Payment Date and hence the interest payable on each such dates shall depend on the actual prepayment rate of and delinquency and default on the Loans.

- The Bond interest rates are assumed to be constant for each Series, from the second Interest Accrual Period, whereas the interest rate of all the Series is variable.
- The assumed values referred to at the beginning of this section are at all events taken for granted.
- It is assumed that the Management Company, acting on the Fund's behalf, will exercise the early liquidation of the Fund and thereby the early amortisation of the Bond Issue option when the Outstanding Balance of the Loans is less than 10% of their initial amount upon the Fund being constituted, as provided in section III.8.1 of this Offering Circular.

II.13 Actual interest forecast for the Bond subscriber.

In the event that the nominal interest rates applicable to each of the Series, variable quarterly, should be maintained throughout the life of the Bond Issue, as established on the tables contained in section II.12.a) of this Offering Circular, these rates would result in Internal Rates of Return ("IRR") for the subscriber in each of the Series as shown on the following table, given the effect of quarterly interest payment, calculated without considering the tax effect, and assuming at all events the values and assumptions contained in said section for constant CPRs of 12% and 15%.

	Series A1 Bonds	Series A2(G) Bonds	Series B Bonds	Series C Bonds	Series D Bonds
Actual interest forecast (IRR)	2.361%	2.220%	2.674%	3.504%	5.336%

II.14 Actual interest forecast for the Fund at the time of Bond Issue, considering all the structuring and placement expenses incurred by the Fund, specifying the calculation method.

The actual interest has been calculated using the internal rate of return (IRR) formula described in section II.12.a) above, making the following assumptions:

- that the floating nominal interest rate of the Bonds should remain constant throughout the life of the debt securities at the rates of the table contained in section II.12.a) above;
- that the assumptions mentioned in section II.12.a) above are made; and
- that the expected Fund constitution and Bond issue expenses are deducted from the face value of the Bond Issue.

The actual interest forecast for the Fund would be 2.568% and 2.576% for CPRs respectively of 12% and 15%, making the assumptions contained in the preceding paragraph.

The expected Fund constitution and Bond issue expenses amount to EUR 508,159.87 (0.24% of the face amount of the Bond Issue), as follows:

	EUR
• Management Company Fee	80,000.00
• Notary's fees, audit, rating and legal advice	149,538.44
• CNMV fees (issue and listing)	36,380.00
• AIAF and Iberclear fees	13,683.36
• Bond Issue underwriting and placement fees	214,000.00
• Issue advertising, printing and other expenses	14,558.07
Total expenses	508,159.87

II.15 Existence or not of special guarantees on the Loans pooled in the Fund or on the Bonds issued by the Fund.

II.15.1 No guarantees by the Originators.

There are no special guarantees given by the Originators covering the Bonds issued by or on the Loans pooled in the Fund, beyond the undertakings by the Originators contained in section IV.1.6 of this Offering Circular in relation to the substitution of Loans and Pass-Through Certificates that failed upon the constitution of the Fund to conform to the representations contained in section IV.1.4 of this Offering Circular or the specific characteristics of the Loans notified by the Originators to the Management Company.

II.15.2 State Guarantee.

In a Ministerial Order, the Economy and Finance Ministry will provide the Fund with a guarantee (the "Guarantee" or "State Guarantee") whereby the Spanish State will secure, waiving the benefit of discussion established in Civil Code article 1830, payment of such economic obligations as may be enforceable on the

Fund deriving from the Series A2(G) Bonds (the “**Guaranteed Series**”) issued for a face amount of EUR fifty-three million seven hundred thousand (53,700,000.00).

II.15.2.1 General characteristics of the Guarantee.

- The Guarantee shall extend to both repayment of principal and payment of interest on the Bonds in the Guaranteed Series.
- The Guarantee shall remain in force and be fully effective until full repayment of the payment obligations derived from the Bonds in the Guaranteed Series. In any event, the Guarantee shall expire on December 21, 2035, or the following Business Day if that is not a Business Day.
- The enforceability of the Guarantee shall be conditional on (i) this Offering Circular being registered at the CNMV, (ii) execution of the Fund Deed of Constitution and registration thereof at the CNMV, (iii) confirmation by the start of the Bond Subscription Period of the provisional ratings assigned by the Rating Agency to each of the Bond Series as final ratings, and (iv) the Bond Issue Management, Underwriting and Placement Agreement not being terminated, and (v) submission of the documents mentioned in the following paragraph.

The Management Company shall send the Directorate-General of the Treasury and Financial Policy: (i) a copy of the Offering Circular, (ii) a certified copy of the Fund Deed of Constitution entered in the register of the CNMV, (iii) a certificate by the Originators representing that the Loans satisfy the requirements of the Framework Agreement attached to the Order of December 28, 2001, as amended by Order ECO/1064/2003, April 29, and that they are all loans granted to small and medium-sized enterprises (legal persons and sole traders) as defined by the European Commission (Recommendation of May 6, 2003 replacing the Recommendation of April 3, 1996 recommendation), (iv) a copy of the letter from the Rating Agency notifying the ratings assigned to each of the Bond Series, and (v) a certified copy of the notarial certificate recording payment of the Bond subscription executed by the Management Company.

- No fee shall accrue upon the Guarantee being perfected and given.
- The Management Company shall report to the Directorate-General of the Treasury and Financial Policy on each Guaranteed Series Bond Payment Date, the Outstanding Principal Balance of the Guaranteed Series and, at the end of each fiscal year, in addition to said Outstanding Principal Balance, an estimate of the financial burden of the Guaranteed Series for the following fiscal year.

II.15.2.2 Drawdown under the Guarantee.

- i) The Guarantee may be partially enforced without any limitation as to number of enforcements.

The Guarantee shall be enforced in the following events in the amounts determined for each one:

1. On any Payment Date or on the Final Maturity Date or on the date of Early Liquidation of the Fund, when the Available Funds or the Liquidation Available Funds, as the case may be, are not sufficient to pay interest due on the guaranteed Series A2(G), after making the payments in the preceding priority of payments in accordance with the application in the Priority of Payments or the Liquidation Priority of Payments.

In that event, the Guarantee shall be enforced in an amount equivalent to the Series A2(G) Bond interest amount payable and the amount applied to payment thereof, as the case may be, of the Available Funds on the relevant Payment Date or the Liquidation Available Funds on the date of liquidation of the Fund.

The amounts received by the Fund upon enforcing the Guarantee to meet payment of interest payable on the guaranteed Series A2(G) shall be allocated to payment of that interest.

2. On any Payment Date other than the Final Maturity Date or the Fund Early Liquidation date when the Available Funds are not sufficient to repay the Outstanding Principal Balance of guaranteed Series A2(G) in the relevant amount in accordance with the rules for Distribution of Available Funds for Amortisation between each Series because there is an Amortisation Deficiency.

In that event, the Guarantee shall be enforced in an amount equal to the difference between the Series A2(G) Bond principal amount to be amortised should no such Amortisation Deficiency occur

and the amount of the Available Funds for Amortisation actually applied to amortisation thereof on the relevant Payment Date.

The amounts received by the Fund upon enforcing the Guarantee to meet payment of the guaranteed Series A2(G) amount to be amortised shall be allocated to payment of that amortisation.

3. On the Final Maturity Date or the Fund Early Liquidation date when the Liquidation Available Funds are not sufficient to fully amortise the guaranteed Series A2(G).

In that event, the Guarantee shall be enforced in an amount equal to the difference between the Outstanding Principal Balance of Series A2(G) and the amount actually applied of the Liquidation Available Funds to amortisation thereof on the relevant date.

The amounts received by the Fund upon enforcing the Guarantee to meet payment of the guaranteed Series A2(G) Bond amount to be amortised shall be allocated to payment of that amortisation.

- ii) Each enforcement of the Guarantee shall be effected by a written notice from the Management Company to the Directorate-General of the Treasury and Financial Policy, declaring the occurrence of the events described of shortfall of Available Funds or Available Funds for Amortisation or Liquidation Available Funds in accordance with the provisions of the preceding paragraph, specifying the amounts claimed, as the case may be, for each of such items.
- iii) Payment of the required amounts under each enforcement of the Guarantee, shall be made, after being checked, by the Directorate-General of the Treasury and Financial Policy within not more than ninety (90) days, reckoned from the date of receipt of the written request from the Management Company, by crediting the Treasury Account.

Having regard to this period for payment to the Fund of the amounts requested upon every enforcement of the Guarantee to satisfy Series A2(G) interest payable and/or principal repayment in accordance with the provisions of paragraph i) of this section, those amounts might not be paid to the Series A2(G) Bondholders on the relevant Payment Date, and will in any event be paid to them on the Payment Date immediately following the day on which they are paid to the Fund by the Directorate-General of the Treasury and Financial Policy

- iv) The amounts paid by the State under the Guarantee shall constitute an obligation for the Fund in favour of the State. The amounts drawn on the Guarantee, whether drawn for paying interest or for repaying principal on the guaranteed Series A2(G) Bonds, shall be repaid on each of the following Payment Dates, until fully repaid, respectively using the Available Funds and the Available Funds for Amortisation, or using the Liquidation Available Funds, in the same places in the priority of payments as payment of accrued interest and repayment of principal of the guaranteed Series A2(G) in the Priority of Payments or the Liquidation Priority of Payments, as the case may be.

In the event that, in accordance with the preceding rules, on a Payment Date, in addition to repaying the amount drawn under the Guarantee, the Fund should need to draw a new amount for paying interest or repaying principal on the guaranteed Series A2(G) Bonds, the Management Company shall calculate and apply the net amount which, as the case may be, should be requested from or repaid to the State.

II.16 Bond circulation law, particularly noting whether there are restrictions on the free transfer of the securities or mentioning that no such restrictions exist.

The Bonds are not subject to specific restrictions on their free conveyance. They shall be conveyed subject to the statutory provisions applicable thereto and to the existing rules of the secondary market on which the Bonds are traded, as established in sections II.4.1, II.5 and II.17 of this Chapter.

In accordance with the provisions of sections II.4.1 and II.5 of this Chapter, the ownership of each Bond will be conveyed by means of a transfer in the accounts. The effects of entering the conveyance to the transferee in the accounting record shall be the same as handing over the certificates and the transfer shall thereupon be enforceable on third parties, in accordance with article 12 of Royal Decree 116/1992.

II.17 Organised secondary markets for which there is an undertaking to apply for listing of the Bonds and specific deadline by which that application shall be filed and all other documents required for listing to be achieved.

In fulfilment of the provisions of article 2.3 of Royal Decree 926/1998, the Management Company shall, upon the Bonds having been paid up, apply for this Bond Issue to be listed on the AIAF, which is a qualified official secondary securities market pursuant to transitional provision six of Act 37/1998, November 16, amending the Securities Market Act. The Management Company undertakes that definitive listing will be achieved not later than one month after the Closing Date and shall at all events take place by the First Payment Date (March 21, 2005).

The Management Company expressly represents that it is aware of the requirements and terms that must be observed for the securities to be eligible to be listed, remain listed and be excluded from listing on the AIAF, in accordance with the laws in force and the requirements of its governing bodies, and the Fund agrees through its Management Company to observe the same.

In the event that, by the deadline defined in the first paragraph of this section, the Bonds should not be so listed on the AIAF, the Management Company shall forthwith proceed to notify Bondholders thereof, moreover advising of the reasons resulting in such breach, using the extraordinary notice procedure provided for in section III.5.2 of this Offering Circular. This shall be without prejudice to the Management Company being held to be contractually liable, as the case may be.

II.18 Bond subscription or acquisition proposals.

II.18.1 Potential investors to whom the securities are offered, and reasons for electing them.

Placement of the Bonds in all the Series is targeted at institutional investors, both legal persons or entities devoid of legal personality, such as pension funds, collective-investment undertakings, insurers, credit institutions, firms of broker-dealers or undertakings qualified under articles 64 and 65 of the Securities Market Act to manage third-party portfolios, in the business of regularly and professionally investing in marketable securities

In the case of undertakings qualified to manage securities portfolios, subscription or acquisition proposals shall be made by those undertakings on behalf of investors having previously signed with such undertakings an appropriate securities portfolio management agreement.

In addition to its own analysis as to the quality of the securities offered to be subscribed in this Offering Circular, the potential investor also has the rating assigned by the Rating Agency set forth in section II.3 of this Chapter.

Once the issue has been fully placed and the Bonds are listed on the official AIAF secondary securities market, the Bonds may be freely purchased on that market in accordance with its own trading rules.

Effects of the subscription for Bondholders.

Subscription for the Bonds in any of the Series implies for each Bondholder an acceptance of the terms of the Deed of Constitution.

Tranches.

Each of the Series consists of one tranche only.

II.18.2 Legal status of the Bonds.

The following legal considerations shall apply to the Bonds subject of this issue in connection with their ownership by certain investors and once the Bonds are listed on the AIAF:

- (i) The Series A1 and A2(G) Bonds shall meet the selection policies to be admitted as assets securing transactions with the European Central Bank (European Central Bank regulation of August 31, 2000).

- (ii) They shall be eligible for investment by insurance companies in observance of their technical provision obligations, pursuant to article 50.5 of the Private Insurance Arrangement and Supervision Regulations approved by Royal Decree 2486/1998, November 20, amended by Royal Decree 297/2004, February 20.
- (iii) They shall be eligible for investment by the Mutual Guarantee Company Technical Provision Fund, in accordance with Act 1/1994, March 11, on the Legal System of Mutual Guarantee Companies, and Royal Decree 2345/1996, November 8, relating to the rules for the administrative authorisation of and solvency requirements for Mutual Guarantee Companies.

II.18.3 Subscription or acquisition date or period.

The subscription period for the Bonds in every Series (the “**Subscription Period**”) shall begin at 1pm (CET time) on November 24, 2004 and end at 3pm (CET time) on the same day.

II.18.4 Where and with whom may subscription or acquisition be processed?

In order to be taken into account, subscription proposals shall be made during the Subscription Period established in the preceding section, with BANCO COOPERATIVO, CALYON, DZ BANK, ICCREA BANCA, OKO BANK, RABOBANK and RZB, as underwriters and placement agents of the Bond Issue (the “**Underwriters and Placement Agents**”), and observing the procedures established hereinafter in the following sections.

ICCREA BANCA, OKO BANK, RABOBANK and RZB shall not however put in place any marketing activity or place Bonds within Spanish territory.

Subscribing for or holding Bonds in one Series does not imply subscribing for or holding Bonds in any of the other Series.

II.18.5 Placement and allocation of the Bonds.

The Underwriters and Placement Agents shall freely proceed to accept or turn down the subscription proposals received, making sure in any event that there is no discriminatory treatment between similarly characterised proposals. The Underwriters and Placement Agents may nevertheless give priority to proposals of those of their customers as they shall deem fit or appropriate and indeed subscribe on their own account, for themselves or group companies, for all or part of each Bond Series.

Each Underwriter and Placement Agent agrees to subscribe in its own name, at the close of the Subscription Period, for such amount of Bonds as may be necessary to complete the figure of their underwriting commitment as determined in section II.19.1 of this Chapter.

II.18.6 Pro rata placement and method.

Not applicable.

II.18.7 Payment method and dates.

The investors to whom the Bonds are allocated shall pay the relevant Underwriter and Placement Agent by 1pm (CET time) on November 26, 2004 (the "**Closing Date**"), for same day value, the relevant issue price (100% of the face amount) for each Bond allocated for subscription.

II.18.8 Method and deadline for delivery to the subscribers of copies of the subscription certificates or provisional slips, specifying the chances of their being traded and their maximum term of validity.

Unless previously entered in the accounting records of Iberclear, the Underwriters and Placement Agents shall provide the Bond subscribers with a document proving their subscription for the Bonds allocated and the actual amount paid for such subscription, though title to the Bonds taken shall be established by means of the appropriate entry in the accounting record.

This document shall not be marketable and will only be valid to justify subscription for the relevant Bonds, until and unless an entry is made in the accounting record as determined in section II.5 of this Offering Circular.

II.19 Institutions involved in the placement or marketing, giving their respective roles, describing the same specifically. Overall amount of the fees agreed between the various placement agents and the Management Company.

II.19.1 Bond Issue Underwriters and Placement Agents.

Placement of the Bonds in each Series shall be undertaken by BANCO COOPERATIVO, CALYON, DZ BANK, ICCREA BANCA, OKO BANK, RABOBANK and RZB, as Underwriters and Placement Agents, on the terms contained in section II.19.3 and in this section under the Bond Issue Management, Underwriting and Placement Agreement.

The following is the commitment by each Underwriter and Placement Agent in regard to their involvement in underwriting the placement of the Bonds in each Series:

The Underwriters and Placement Agents of each Series shall altogether receive from the Fund an underwriting and placement fee on the face amount of the Bonds in the relevant Series ranging between 0.07% and 0.10%, both inclusive.

The underwriting and placement fee applicable on the face amount of the Bonds in each of the Series shall be determined with one accord among the Lead Managers by 10am (CET time) on the day on which the Subscription Period begins (November 24, 2004). Failing an agreement between the Lead Managers, the Management Company shall fix the final underwriting and placement fee in respect of the Series where no such agreement was arrived at, at a 0.10% fee.

The underwriting and placement fee applicable to the Bonds in each of the Series fixed shall be notified by the Management Company by the start of the Subscription Period to the Underwriters and Placement Agents and to the CNMV.

The Lead Managers shall not be remunerated for managing the Bond Issue.

II.19.3

Institutions underwriting the Bond Issue, describing the characteristics of the relationship or Management, Underwriting and Placement Agreement, guarantees required of the issuer or offeror, types of risks taken, type of consideration agreed by the underwriter in the event of breach, and other relevant elements.

The Management Company shall, for and on behalf of the Fund, enter into a Bond Issue Management, Underwriting and Placement Agreement with BANCO COOPERATIVO, CALYON, Sucursal en España ("CALYON") and DZ BANK AG DEUTSCHE ZENTRAL-GENOSSENSCHAFTSBANK ("DZ BANK") as Lead Managers and Underwriters and Placement Agents, and with ICCREA BANCA SPA ("ICCREA BANCA"), COÖPERATIEVE CENTRALE RAIFFEISEN-BOERENLEENBANK, B.A. trading as Rabobank International London Branch ("RABOBANK"), OSUUSPANKKIEN KESKUSPANKKI OYJ ("OKO BANK") and RAIFFEISEN ZENTRALBANK ÖSTERREICH AG ("RZB") as Underwriters and Placement Agents.

The Bond Issue Underwriters and Placement Agents shall take on the obligations contained in the Management, Underwriting and Placement Agreement, which shall basically be the following: 1) securing placement by a third-party subscription for the Bond Issue; 2) an undertaking to subscribe on their own account for the Bonds not subscribed for by third parties during the Subscription Period, up to the amounts of their respective underwriting commitments; 3) payment by the Underwriters and Placement Agents CALYON, DZ BANK, ICCREA BANCA, OKO BANK, RABOBANK and RZB to the Paying Agent, by 2pm (CET time) on the Closing Date, for same day value, of the face amount of the Bonds placed by each of them and, as the case may be, subscribed for on their own account up to the face amount of their respective underwriting commitment, whereupon the Paying Agent shall proceed to pay to the Fund, by 3pm (CET time) on the same day, for same day value, the amount received from the remaining Underwriters and Placement Agents, plus the face amount of the Bonds it shall have placed as Underwriter and Placement Agent; 4) undertaking to pay late-payment interest covenanted in the agreement in the event of late payment of the amounts due; 5) providing subscribers with a document proving subscription; 6) providing the Paying Agent with Bond Issue placement dissemination control information and 7) all other aspects governing the underwriting and placement.

The underwriting commitments of each Underwriter and Placement Agent and the underwriting and Placement fee are specified in section II.19.1 of this Offering Circular. The Paying Agent shall pay each of the

Underwriters and Payment Agents on the Closing Date the amount of the underwriting and placement fee accrued for each of them, after they have in turn paid the face amount of the Bonds placed by each of them and, as the case may be, subscribed for on their own account up to their respective underwriting commitments.

BANCO COOPERATIVO, CALYON and DZ BANK shall be involved as Lead Managers in the Bond Issue. They shall not be howsoever remunerated for managing the Bond Issue.

The Management, Underwriting and Placement Agreement shall be fully terminated in the event that the Rating Agency should not confirm the provisional ratings assigned to each of the Series as final by the start of the Subscription Period.

II.20 Term and method for providing subscribers with certificates or documents establishing subscription for the securities.

The Bonds, represented by means of book entries, shall become such bonds upon being entered in the relevant accounting record, as provided in Royal Decree 116/1992, with the usual timing and procedures of the institution in charge of so doing, to wit Iberclear.

Unless entered in the accounting record of Iberclear in the actual subscriber's name, the relevant Underwriter and Placement Agent shall provide Bond subscribers, within not more than fifteen (15) days after the Closing Date, with a document certifying their subscription for the Bonds allocated, and the actual amount paid up on that subscription.

II.21 National laws governing the Bonds and jurisdiction in the event of litigation.

The constitution of the Fund and Bond Issue are subject to Spanish Law, and are specifically carried out in accordance with the provisions of the Order of December 28, 2001 and the provisions of (i) the Deed of Constitution; (ii) Royal Decree 926/1998 and implementing regulations; (iii) Act 19/1992, failing a provision in Royal Decree 926/1998, and to the extent applicable; (iv) Act 3/1994; (v) Act 44/2002 (in particular article 18 thereof); (vi) Securities Market Act 24/1988, as currently worded, and (vii) all other legal and statutory provisions in force and applicable from time to time.

The Deed of Constitution and the agreements for transactions covering financial risks and the rendering of services to be entered into by the Management Company on behalf of the Fund shall be governed by and construed in accordance with Spanish laws.

All matters, disagreements, actions and claims deriving from the Management Company's constitution, administration and legal representation of RURALPYME 1 FTPYME FONDO DE TITULIZACIÓN DE ACTIVOS and the Bond Issue by the same, shall be heard and ruled upon by the competent Spanish Courts and Tribunals.

The Bondholders and the remaining creditors of the Fund shall have no recourse whatsoever against Loan Obligors who may have defaulted on their payment obligations. Any such rights shall lie with the Management Company, representing the Fund.

The Bondholders and the remaining creditors of the Fund shall have no recourse whatsoever against the Fund or against the Management Company in the event of non-payment of amounts due by the Fund resulting from the existence of default or prepayment of the Loans, a breach by the counterparties to the transactions entered into for and on behalf of the Fund, or shortfall of the financial hedging transactions for servicing the Bonds in each Series.

The Bondholders and the remaining creditors of the Fund shall have no recourse against the Originators or against the Management Company other than as derived from a breach of their respective duties. Those actions shall be resolved in the relevant ordinary declaratory proceedings depending on the amount claimed.

II.22 Tax system derived from the securities offered.

A brief account is given hereinafter of the tax system applicable to the investments derived from this offering, in which connection only State laws in force for the time being and general aspects that might affect investors are taken into account; investors must bear in mind both their possible special tax circumstances and the rules applied territorially to a limited extent and contained in the laws in force at the time when the relevant income is obtained and returned.

Because the Bonds in this offering will be represented by book entries and an application will be made for the securities to be listed and traded on an official Spanish secondary securities market, which circumstances are relevant to determining taxation, the assumption made is that these requirements shall be met. It has moreover been considered that, upon being issued, the Bonds will be considered financial assets with an explicit yield, when this qualification is relevant for tax purposes.

The withholdings, interim payments and taxes established now or in the future on the Bond principal, interest or income shall be payable by the Bondholders, and their amount shall be deducted, as the case may be, in the manner statutorily prescribed.

It should finally be noted that the tax treatment described herein is general and has not therefore included the taxation applicable to income obtained through entities under an imputed income system, or the system applicable to all categories of investors, some of which (such as, for instance, financial institutions, Undertakings for Collective Investment, Co-operatives, etc.) may be subject to special rules.

II.22.1 Natural or legal persons resident in Spain.

Personal Income Tax.

Income obtained by Bondholders who are Personal Income Tax (IRPF) payers, both as interest and in connection with the transfer, repayment or amortisation of the Bonds, shall be considered income on investments obtained from the assignment of own capital to third parties, as defined in article 23.2 of Legislative Royal Decree 3/2004, March 5, approving the Consolidation of the Personal Income Tax Act.

In this sense, in the event of revenues derived from receipt of Bond coupons (interest), the aggregate income shall be determined by the amount of interest received, including the IRPF withholding made, as the case may be.

Furthermore, in the event of transfer, redemption or amortisation of the Bonds, the income on investments shall be deemed to be the difference between the transfer, redemption or amortisation value (less properly supported ancillary disposal expenses) and the acquisition or subscription value (plus properly supported ancillary acquisition expenses). When the taxpayer has acquired other homogeneous financial assets within two months before or after that transfer, negative income from the Bonds shall nevertheless be integrated as the homogenous Bonds remaining on the taxpayer's assets are transferred.

The net income on investments shall be found deducting the Bond servicing and custody expenses from the aggregate income, provided that those expenses do not derive from a discretionary and individualised management of the portfolio of investments. The net income from the transfer, redemption or amortisation of Bonds generated over a time-period in excess of two years shall be reduced by 40%.

Interest income received shall be subject to a 15% withholding tax on account of the beneficiary's IRPF.

There is however no withholding tax obligation on income derived from the transfer or repayment of the Bonds, because these are represented by means of book entries and are traded on an official Spanish securities market, other than for the part of the price equivalent to the matured coupon in transfers made within thirty days immediately preceding coupon maturity where (i) the transferee is a person or undertaking not resident in Spanish territory or a Corporation Tax obligor, and (ii) this explicit income is exempt from the obligation to withhold in relation to the transferee.

Corporation Tax.

Both interest income and income derived from the transfer, repayment or amortisation of the Bonds obtained by undertakings considered to be Corporation Tax payers, shall be added to the tax base as prescribed under Title IV of Legislative Royal Decree 4/2004, March 5, approving the Consolidation of the Corporation Tax Act.

The aforesaid income shall not be subject to a Corporation Tax withholding as provided by article 59.q) of Royal Decree 1777/2004, June 30, approving the Corporation Tax Regulations ("**Royal Decree 1777/2004**"), considering that the Bonds satisfy the following requirements -as this Bond Issue is expected to do:

1. That they are represented by means of book entries.
2. That they are traded on a Spanish official secondary securities market.

The procedure for the exclusion of withholding tax or prepayment on the Bond interest to be effective, in accordance with the Ministerial Order of 22nd December 1999, shall be subject to the following requirements:

1. The Management Company, for and on behalf of the Fund as the issuer, shall pay the custodians, through the Paying Agent, the liquid amount resulting from applying the general withholding rate in force on that date (currently 15%) to all the interest.
2. By the 10th of the month after the month of maturity of each coupon, the custodians shall provide the Management Company or the Paying Agent with an itemised list of the holders who must pay Corporation Tax, along with their identification particulars, ISIN code for the securities, the number of securities they held at the date of maturity of each coupon, the respective gross income and the amount withheld.
3. Bondholders who are Corporation Tax obligors shall certify that circumstance with the custodians of the securities by the 10th of the month after coupon maturity in order that the custodians may draw up the list specified in the preceding paragraph.
4. Forthwith upon receiving that list, the Management Company shall promptly pay the custodians through the Paying Agent the amount withheld from those obligors.
5. The custodians shall forthwith pay the amount withheld to the obligor holders.

For the purpose of establishing that they are Corporation Tax obligors, Bondholders may use any means of proof admissible at Law and must produce appropriate supporting documents which shall remain with the Bond custodian, at the disposal of the issuer (the Management Company on the Fund's behalf) to be checked and of the State Agency for Taxation Administration. In this connection, supporting documents shall be taken to mean a photocopy of the card establishing the Tax Identification Number.

II.22.2 Natural or legal persons not resident in Spain.

Income obtained by Bondholders who are Non-Resident Income Tax payers, both on interest and in connection with the transfer, repayment or amortisation of the Bonds, shall be considered to be income obtained in Spain, with or without a permanent establishment, on the terms of articles 12 and 13 of Legislative Royal Decree 5/2004, March 5, approving the Consolidation of the Non-Resident Income Tax Act (the "**IRNR Act**").

Income obtained through a permanent establishment.

Bond income obtained by a permanent establishment in Spain shall pay tax in accordance with the rules of Chapter III of the above-mentioned IRNR Act, notwithstanding the provisions of double-taxation Agreements of which Spain is a signatory, which might determine that the relevant income pays no tax or that reduced tax rates apply. The aforesaid income shall be subject to Non-Resident Income Tax withholding on the terms set out above for Spanish Corporation Tax obligors.

Income obtained other than through a permanent establishment.

Bond income obtained by persons or undertakings not resident in Spain acting for these purposes without a permanent establishment within Spanish territory shall pay tax in accordance with the rules of Chapter IV of the aforesaid IRNR Act, the following elements of the system of that Act being noteworthy, without prejudice to the provisions of double-taxation Agreements signed by Spain determining that the relevant income need pay no tax or, as the case may be, that reduced rates apply:

- The tax base shall be quantified as the full amount of the income obtained, calculated with reference to the rules of the IRNR Act, whereas the reductions of that Act will not apply.
- In the event of transfer, repayment or amortisation, expenses attaching to acquisition and disposition shall be taken into account for calculating the income, provided that they are properly supported. Taxation shall be separately effected for each total or partial taxable accrual of income, which may under no circumstances be set off against one another.
- Bond income obtained both as interest and in connection with transfer, repayment or amortisation of the Bonds shall be exempt when obtained without a permanent establishment by residents of another European Union Member State or by permanent establishments of those residents located in another European Union Member State (article 14.1.c) of the IRNR Act).
- Income derived from the transfer of such securities made on any of the official Spanish secondary securities markets obtained by non-resident natural persons or undertakings other than through a permanent establishment in Spanish territory, resident in a State having signed a double-taxation agreement with Spain with an information-exchange clause, will also be exempt.
- The two exemptions referred to shall by no means apply where the income is obtained through countries or territories statutorily qualified as tax havens.
- The Tax will be calculated applying a 15 percent rate to the tax base comprising Bond interest and other income unless an exemption or a lower rate applies in pursuance of the provisions of the internal law or in an Agreement signed by Spain. Where on account of the investor's residence a Double Taxation Agreement signed by Spain is applicable, the reduced tax rate or the exemption provided for in said Agreement for income of this kind shall be applied, as the case may be.
- The application of any exemption or reduced rate for which provision is made in the internal laws or in an Agreement signed by Spain shall require satisfactory proof of the investor's tax residence in the manners for which provision is made in Spanish laws.
- On the other hand, Bond coupons are in principle liable to a withholding, unless evidence is produced of Tax exemption or payment. The amount withheld is equivalent to the final Tax.
- In accordance with the Ministerial Order of April 13, 2000, where financial institutions domiciled, resident or represented in Spain that are custodians or manage collection of the income on those securities are involved in the Bond interest payment procedure, the exclusion from withholding tax or withholding at a reduced rate by applying the taxation limits established in double-taxation Agreements shall be put in place as described hereinafter:
 1. The Management Company shall, for and on behalf of the Fund as the issuer, through the Paying Agent, pay to the custodians the net amount resulting from applying the general withholding rate in force on that date to all the interest.
 2. By the 10th of the month after the month of maturity of each coupon, the custodians shall provide the Management Company or the Paying Agent by value/code and maturity/distribution date with an itemised list of the holders who are Non-Resident Income Tax obligors for obtaining income in Spanish territory without a permanent establishment with the ISIN code for the securities, type of income, type of person, tax residence country code, along with their identification particulars, the number of securities they held at the date of maturity of each coupon, the respective gross income and the excess percentage withheld from each holder.

3. Bondholders who are Non-Resident Income Tax payers without a permanent establishment in Spain shall have established to the custodians that they are entitled to have the taxation limits of an Agreement applied or to be excused from withholding. The custodians shall draw up the list referred to in the preceding paragraph including the holders of the securities who have established that right upon the list being issued to the Management Company.
4. Forthwith upon receiving the list referred to in paragraph 2 above, the Management Company shall promptly pay all the custodians through the Paying Agent the amount withheld from those obligors or taxpayers.
5. The custodians shall forthwith pay the excess amount withheld from holders who are Non-Resident Income Tax payers.
6. For the purpose of establishing the right to have the withholding made applying the taxation limits of an Agreement or to be excused therefrom, taxpayers shall prove their tax residence by means of the following documents:
 - When the withholding exclusion results from the application of internal Spanish regulations, by means of a residence certificate issued by the tax authorities of the country of residence.
 - When the withholding exclusion or the withholding is made at a reduced rate, under an Agreement with a certificate issued by the respective tax authority, expressly recording that the taxpayer is a resident within the meaning of the Agreement. Nevertheless, when a withholding is made applying a taxation limit laid down in an Agreement implemented by means of an Order establishing the use of a specific form, this shall be established therewith in lieu of the certificate.

The residence certificates referred to in the preceding paragraphs shall in principle be valid for one year after the date of issue.

In the event that tax residence may not be established, Bond income obtained both as interest and in connection with the transfer, repayment or amortisation of the Bonds, by non-resident holders shall be subject to taxation under the general system aforesaid, although a refund of the excess withholding or taxation may be applied for by means of the procedure for which provision is made in the laws in force for the time being.

- Furthermore, and whether or not they pay the Tax, Bond transfer or repayment income shall not be liable to withholding because the financial assets have an explicit yield, are represented by book entries and are traded on an official Spanish secondary securities market, on the terms and conditions for which provision is made in article 73.3.f) of Royal Decree 1775/2004, July 30, approving the Personal Income Tax Regulations, under an express renvoi made in article 10.3.b) of Royal Decree 1776/2004, July 30, approving the Non-Resident Personal Income Tax Regulations. The reference in the aforesaid article to the rule of the Personal Income Tax Regulations shall not expressly excuse the application of the so-called anti-coupon laundering rule where the investor is a non-resident without a permanent establishment in Spain¹. The foregoing shall be without prejudice to the joint and several liability of the Bond custodian or manager, and the actual non-resident holder's duties to return and pay the Tax in due course.

II.22.3 Indirect taxation on the transfer of the Bonds.

The issue, subscription for and transfer of the Bonds is exempt from paying Capital Transfer and Documents Under Seal Tax and Value Added Tax.

¹ The application of this rule would result in a withholding being made on the part of the price equivalent to the coupon accrued on transfers made within thirty days immediately preceding coupon maturity where (i) the purchaser is a person or an entity not resident in Spanish territory, or a Corporation Tax payer, and (ii) this return is excused from the obligation to withhold for the purchaser.

II.22.4 Wealth Tax.

Natural persons whose personal obligation it is to pay this Tax and have to submit a return on this Tax and who are Bondholders at December 31 of each year, shall include the Bonds in that Tax Base at their average trading value in the fourth quarter of each year.

Non-resident natural persons who are Bondholders at December 31 of each year shall be payers of the Tax by real obligation and will also have to pay Wealth Tax, other than as provided in the double-taxation Agreements. Nevertheless, residents in other European Union countries (other than those holding their financial assets through a tax haven) in regard to Bonds whose income is exempt in regard to Non-Resident Income Tax, on the terms set forth above, shall be exempt.

II.22.5 Inheritance and Gift Tax.

The transfer of the Bonds to natural persons by inheritance or donation shall be subject to the general rules of Inheritance and Gift Tax without prejudice to the provisions of double-taxation Agreements signed by Spain. In the event that the beneficiary should be a legal person, the income obtained would be taxed in accordance with the Corporation Tax or Non-Resident Personal Income Tax rules, in the event that the beneficiary is a non-resident entity for tax purposes in Spain, as the case may be, and without prejudice in the latter event to the provisions of double-taxation Agreements that may apply.

II.23 Purpose of the transaction.

The net amount of the Bond Issue will be fully allocated to paying to the Originators the price for the acquisition of the Non-Mortgage Loans and the Pass-Through Certificates pooled in the Fund assets.

II.24 Institutions that have agreed, as the case may be, to be involved in secondary trading, providing liquidity by offering consideration, specifying the extent and manner of their involvement.

There are no commitments for any institution to be involved in the secondary market of the Bonds, providing liquidity by offering consideration.

II.25 Natural or legal persons with a relevant involvement in structuring or providing advice for the constitution of the fund or in connection with any item of the significant information contained in the offering circular, including, as the case may be, underwriting the placement.

2. Extraordinary notices.

Extraordinary notices shall be given by publication in an extensively circulated business and financial or general newspaper in Spain, and those notices shall be deemed to be given on the date of that publication, any Business or other calendar day (as established in this Offering Circular) being valid for such notices.

Exceptionally, the final applicable margins for determining the Nominal Interest Rates in each Series and the Nominal Interest Rate determined for the Bonds in each Series for the first Interest Accrual Period shall be notified in writing by the Management Company by the start of the Subscription Period to the Lead Managers and to the Underwriters and Placement Agents in order to be reported to investors interested in subscribing for the Bonds. The Management Company will also notify this to the CNMV, the Paying Agent, the AIAF and Iberclear.

3. Notices and other information.

The Management Company may provide Bondholders with notices and other information of interest to them through its own Internet pages or other similarly characterised teletransmission means.

d) Information to the CNMV and the Rating Agency.

The Management Company shall proceed to advise the CNMV and the Rating Agency of both ordinary periodic and extraordinary publications made in accordance with the provisions of the preceding sections, and of such other information as may be required of it, irrespective of the above.

III.5 Tax system of the Fund.

A brief abstract follows of the tax system applicable to the Fund, in accordance with the provisions of article 1.2 of Royal Decree 926/1998; article 5.10 of Act 19/1992; article 7.1.h) of Legislative Royal Decree 4/2004, March 5, approving the Consolidation of the Corporation Tax Act (Corporation Tax Act); article 20.One.18 of Value Added Tax Act 37/1992, December 28, and article 59.k of Royal Decree 1777/2004, July 30, approving

the Corporation Tax Regulations; article 45.I.B).15 of Royal Decree 1/1993, September 24, approving the Consolidation of the Capital Transfer and Documents Under Seal Tax; article 16 of Royal Decree 3/1993, and Additional Provision Five of Act 3/1994.

- (i) The constitution of the Fund is exempt from the item “corporate transactions” of the Capital Transfer and Documents Under Seal Tax.
- (ii) The Bond issue is exempt from payment of Value Added Tax and Capital Transfer and Documents Under Seal Tax.
- (iii) The Fund is liable to pay Corporation Tax, determining the taxable income in accordance with the provisions of Title IV of the Corporation Tax Act, applying the general rate in force from time to time, which currently stands at 35%.
- (iv) As for returns on the Loans, including the Pass-Through Certificates, loans or other credit rights constituting Fund income, there shall be no Corporation Tax withholding or advance payment obligation.
- (v) The Fund management and custody services shall be exempt from Value Added Tax.

III.6 Amendment of the Fund Deed of Constitution.

The Deed of Constitution may be amended where that is necessary and provided that circumstances preventing the foregoing in accordance with the laws in force from time to time do not occur. In any event, those actions shall require that the Management Company first notify or secure the prior authorisation, if necessary, of the CNMV, or competent administrative body and notify the Rating Agency, and provided that such changes are not detrimental to the rating assigned to the Bonds by the Rating Agency. The amendment of the Deed of Constitution shall be notified by the Management Company to the CNMV as a relevant event or as a supplement to the Offering Circular, as the case may be. The Deed of Constitution can also be corrected as requested by the CNMV.

III.7 Liquidation and termination of the Fund.

III.7.1 Early Liquidation of the Fund.

Following notice served on the CNMV, the Management Company shall be entitled to proceed to an early liquidation (“**Early Liquidation**”) of the Fund and thereby an early amortisation (“**Early Amortisation**”), on a Payment Date, of the entire Bond Issue, in any of the following events (“**Early Liquidation Events**”):

- (i) When the amount of the Outstanding Balance of the Loans is less than 10 percent of the initial capital of the Loans on the Fund constitution date, in accordance with the authorisation established in article 5.3 of Act 19/1992 and provided that the payment obligations derived from the Bonds in each Series may be honoured and settled in full in the Liquidation Priority of Payments.

Payment obligations derived from the Bonds in each Series on the date of Early Liquidation of the Fund shall at all events be deemed to be the Outstanding Principal Balance on that date plus interest accrued and not paid until that date, deducting withholding tax, if any, which amounts shall be deemed to be due and payable on that date to all statutory intents and purposes.

- (ii) Where, in any event or circumstance whatsoever beyond the Fund’s control or own operations, a substantial alteration occurs or the financial balance of the Fund required by article 11.b) of Royal Decree 926/1998 is permanently invalidated. This event includes such circumstances as the existence of any change in the law or supplementary implementing regulations, the establishment of withholding obligations or other situations which might permanently affect the financial balance of the Fund.
- (iii) Mandatorily, in the event that the Management Company should be adjudged insolvent, or the statutory term to do so, or failing that term four months, should elapse without a new management company being designated in accordance with the provisions of section III.8.2 of this Offering Circular.

- (iv) When a default occurs indicating a major permanent imbalance in relation to any of the Bonds issued or any non-subordinated credit or is expected to occur.
- (v) Upon the lapse of eighteen (18) months from the date of the last maturity of the Loans, even if amounts are still due and payable.

The following requirements shall be necessary to proceed to that Early Liquidation of the Fund:

- (i) That Bondholders be given fifteen (15) Business Days' notice, as prescribed in section III.4.2 of this Offering Circular, of the Management Company's resolution to proceed to an early liquidation of the Fund.
- (ii) That the Management Company previously advise the CNMV and the Rating Agency of that notice.
- (iii) The notice of the Management Company's resolution to proceed to an Early Liquidation of the Fund shall contain a description (i) of the event or events for which an Early Liquidation of the Fund is effected, (ii) of the liquidation procedure, and (iii) of the manner in which the payment obligations derived from the Bonds are to be met and settled in the Liquidation Priority of Payments.

In order for the Fund, through its Management Company, to proceed to an Early Liquidation of the Fund and an Early Amortisation of the Bond Issue, the Management Company, for and on behalf of the Fund,:

- (i) Shall, notwithstanding the provisions of section (iv) below), proceed to sell the Loans, including the Pass-Through Certificates, remaining in the Fund for a price not below the sum of the value of the principal plus the interest accrued and not paid on the Loans pending repayment.
- (ii) Shall proceed to terminate such agreements as are not necessary for the Fund liquidation procedure.
- (iii) It will be entitled to arrange for a credit facility which shall be fully and forthwith allocated to the early amortisation of the Bond Issue. Repayment of that credit facility shall be guaranteed solely with the interest and principal flows derived from the Loans pending repayment and the proceeds from the sale of the other properties remaining on the assets of the Fund.
- (iv) Finally, both due to an insufficiency of the preceding actions and the existence of Loans or other remaining assets of the Fund, the Management Company shall proceed to sell them and shall therefore invite a bid from at least five (5) entities from among the most active in the purchase and sale of those assets who may, in its view, give a market value. The Management Company shall be bound to accept the best bid received for the assets.

In connection with actions (i), (iii) and (iv) above, each of the Originators shall have a pre-emptive right on the terms to be established by the Management Company, and will therefore have priority over third parties to acquire the Loans, including the Pass-Through Certificates issued by each of them, or other properties derived from the Loans remaining on the assets of the Fund, or to grant to the Fund the credit facility designed for the Early Amortisation of the Bond Issue. The Management Company shall therefore send the Originators a list of the assets and of third-party bids received, and any of the latter may use that right for all the assets offered by the Management Company or the credit facility within ten (10) Business Days of receiving said notice, and provided that their bid is at least equal to the best of the third-party bids.

Upon provisioning the reserve referred to in section III.7.2 below, the Management Company shall immediately apply all the proceeds from the sale of the Fund's assets to paying the various items, in such manner, amount and order as shall be requisite in the Liquidation Priority of Payments, other than the amounts, if any, drawn under the credit facility arranged, which shall be fully allocated to the Early Amortisation of the Bond Issue.

III.7.2 Termination of the Fund.

The Fund shall terminate in any of the following events:

- (i) Upon the Loans pooled therein being fully repaid.
- (ii) Upon the Bonds issued being fully amortised.

- (iii) When the Early Liquidation procedure established in section III.7.1 above is over.
- (iv) At all events, upon the final liquidation of the Fund on the Final Maturity Date, December 21, 2035 or the following Business Day if that is not a Business Day.
- (v) Upon the Fund constitution terminating in the event that the Rating Agency should not confirm any of the assigned provisional ratings as final ratings by the start of the Subscription Period or in the event of termination of the Bond Issue Management, Underwriting and Placement Agreement. In those events, the Management Company shall terminate the constitution of the Fund, the assignment of the Loans to the Fund and the Bond Issue.

Termination of the constitution of the Fund shall be notified to the CNMV as soon as such termination is confirmed, and shall be publicised by means of the procedure specified in section III.4.2.b) and c) of this Offering Circular. Within not more than one month after the occurrence of the event of termination, the Management Company shall execute a Statutory Declaration before a Notary Public declaring that the Fund's obligations have been settled and terminated and that the Fund has terminated. Notwithstanding the above, the Fund Management Company shall defray the Fund constitution expenses payable and specified in section II.14 of this Offering Circular with the Start-Up Loan, the agreement for which shall not be terminated but shall rather be cancelled after those amounts are settled, the repayment of principal being subordinated to fulfilment of all other obligations undertaken by the Management Company, acting for and on the Fund's behalf.

In the event that there should be any remainder upon the Fund being liquidated and after making all payments to the various creditors by distributing the Liquidation Available Funds in the set Liquidation Priority of Payments, that remainder shall be for the Originators on the terms established by the Management Company for liquidation based on the Loans assigned to the Fund by each Originator.

In any event, the Management Company, acting for and on behalf of the Fund, shall not proceed to terminate the Fund and strike it off the relevant administrative registers until the Fund's remaining assets have been liquidated and the Fund's Liquidation Available Funds have been distributed, in the Fund Liquidation Priority of Payments.

Other than in the event provided for in paragraph (v) above, upon a period of six (6) months elapsing from liquidation of the Fund's remaining assets and distribution of the Liquidation Available Funds, the Management Company shall execute a Statutory Declaration before a Notary Public declaring (i) that the Fund has terminated, and the events prompting its termination, (ii) how the Bondholders and the CNMV were given notice, and (iii) how the Fund's Liquidation Available Funds were distributed, in the Fund Liquidation Priority of Payments; notice of this shall be given in a nation-wide newspaper and all other appropriate administrative procedures will be observed. The Management Company will submit that statutory declaration to the CNMV.

III.8 Management and representation of the Fund and of the Bondholders.

III.8.1 Description of the duties and responsibilities taken on by the Management Company in managing and legally representing the Fund and the Bondholders.

The management and legal representation of the Fund shall lie with the Management Company, EUROPEA DE TITULIZACIÓN, S.A., SOCIEDAD GESTORA DE FONDOS DE TITULIZACIÓN, on the terms set in Royal Decree 926/1998, Act 19/1992, failing a provision in Royal Decree 926/1998 and to the extent applicable, and other applicable laws, and on the terms of the Deed of Constitution.

The Economy and Finance Ministry authorised the incorporation of the Management Company as a Mortgage Securitisation Fund Management Company on December 17, 1992 and, subsequently, on October 4, 1999 authorised its re-registration as a Securitisation Fund Management Company. It is moreover entered in the special register purposely kept by the CNMV under number 2. The information on the Management Company is contained in Chapter VI of this Offering Circular.

The Management Company shall discharge for the Fund the functions attached to it under Royal Decree 926/1998.

It is also the Management Company's duty, as the manager of third-party portfolios, to represent and defend the interests of the holders of the Bonds issued by the Fund and of all its other ordinary creditors. Consequently, the Management Company shall make its actions conditional on their protection and observe the provisions established for that purpose from time to time. The Bondholders and all other ordinary creditors of the Fund shall have no recourse against the Fund Management Company, other than for a breach of its duties or failure to observe the provisions of the Deed of Constitution and the Offering Circular.

The Management Company shall notify the Bondholders of all and any circumstances that may be relevant to them, by publishing appropriate notices on the terms established in section III.4.2 of this Chapter.

III.8.1.1 Administration and representation of the Fund.

The Management Company's obligations and actions in fulfilment of its duty to manage and legally represent the Fund are the following, for illustrative purposes only and without prejudice to any other actions provided in the Deed of Constitution and/or in this Offering Circular:

- (i) Keeping the Fund's accounts duly separate from the Management Company's own, rendering accounts and satisfying tax and any other statutory obligations of the Fund.
- (ii) Making such decisions as may be appropriate in connection with the liquidation of the Fund, including the decision to proceed to an Early Liquidation of the Fund and Early Amortisation of the Bond Issue, in accordance with the provisions of the Deed of Constitution and this Offering Circular. - (vii) Extending or amending the agreements entered into on behalf of the Fund. Substituting with another institution, as the case may be, each of the Fund service providers thereunder, and indeed, if necessary, entering into additional agreements, including new credit facility agreements, and amending the Deed of Constitution, provided that circumstances preventing the foregoing in accordance with the laws in force from time to time do not occur. In any event, those actions shall require that the Management Company first notify or secure the prior authorisation, if necessary, of the CNMV or competent administrative body and notify the Rating Agency, and provided that such actions are not detrimental to the rating assigned to the Bonds by the Rating Agency. Notice of amendment of the Deed of Constitution, of amendment of the agreements or of the execution of new agreements shall be given by the Management Company to the CNMV as a relevant event or as a supplement to the Offering Circular, as the case may be. The Deed of Constitution or the agreements may also be corrected upon a request by the CNMV.
- (viii) Exercising the rights attaching to the ownership of the Non-Mortgage Loans and the Pass-Through Certificates acquired by the Fund and, in general, carrying out all such acts of administration and disposition as may be required for properly managing and legally representing the Fund.
- (ix) Checking that the amount of income actually received by the Fund matches the amounts that must be received by the Fund, on the terms of the assignment of the Loans and on the terms of their relevant agreements, and that the amounts receivable on the Loans are provided by the Servicer to the Fund within the time-periods and on the terms provided for under the Servicing Agreement.

- (x) Determining on each Interest Rate Fixing Date and for each Interest Accrual Period thereafter, the Nominal Interest Rate to be applied for each Bond Series and calculating and settling the amounts payable on each Payment Date for interest accrued.
- (xi) Calculating and determining on each Determination Date the principal to be amortised and repaid on each Bond Series on the relevant Payment Date.

- (xiv) Taking the actions for which provision is made in relation to the debt ratings or the financial position of the Fund counterparties in the financial and service provision agreements listed in section III.2.4 of this Chapter.
- (xv) Watching that the amounts credited to the Treasury Account return the yield set in the respective agreements.
- (xvi) Calculating the Available Funds, the Available Funds for Amortisation, the Liquidation Available Funds and the payment or withholding obligations to be complied with, and applying the same in the Priority of Payments or the Liquidation Priority of Payments, as the case may be.
- (xvii) Instructing transfers of funds between the various borrowing and lending accounts, and issuing all relevant payment instructions, including those allocated to servicing the Bonds.

III.8.2 Resignation and substitution of the Management Company.

The Management Company shall be substituted in managing and representing the Fund, in accordance with articles 18 and 19 of Royal Decree 926/1998 set forth hereinafter and with subsequent rules statutorily established in that connection.

Resignation.

- (i) The Management Company may resign its management and legal representation function with respect to all or part of the funds managed whenever it deems this fit, applying to be substituted in a letter addressed to the CNMV, including a designation of the substitute management company. That letter shall enclose a letter from the new management company, declaring its willingness to take over that function and applying for the appropriate authorisation.
- (ii) The CNMV's substitution authorisation shall be subject to meeting of the following requirements:
 - (a) The substituted Management Company's delivery of the accounting records and data files to the new management company. That delivery will only be taken to have been made when the new management company is able to fully take over its function and that circumstance is notified to the CNMV.
 - (b) In the event that the securities issued by the funds managed by the substituted Management Company have been rated by a rating agency, the rating accorded to the securities should not fall as a result of the proposed substitution.
- (iii) The Management Company may in no event resign its duties until and unless all the requirements and formalities have been complied with in order for its substitute to take over its duties.
- (iv) The substitution expenses originated shall be borne by the resigning Management Company and may in no event be passed on to the Fund.
- (v) The substitution shall be published within fifteen days by means of a notice inserted in two nationwide newspapers and in the bulletin of the organised secondary market on which the Bonds issued by the

Fund are listed. Furthermore, the Management Company shall notify the Rating Agency of that substitution.

Forced substitution.

- (i) In the event that the Management Company should be adjudged insolvent, it shall find a substitute management company, in accordance with the provisions of the foregoing section.
- (ii) In the event for which provision is made in the preceding section, if the statutory period or otherwise four months should have elapsed from the occurrence determining the substitution and no new management company should have been found willing to take over management, there shall be an early liquidation of the Fund and an amortisation of the Bonds issued by the same, and of the loans, in accordance with the provisions of the public deed of constitution.

The Management Company agrees to execute such public and private documents as may be necessary for it to be substituted by another management company, in accordance with the system for which provision is made in the preceding paragraphs of this section. The substitute management company shall be substituted in the Management Company's rights and duties under the Deed of Constitution and this Offering Circular. Furthermore, the Management Company shall hand to the substitute management company such accounting records and data files as it may have to hand in connection with the Fund.

III.8.3 Subcontracting.

The Management Company shall be entitled to subcontract or delegate to solvent and reputable third parties the provision of any of the administrative services it has to provide as the manager of the Fund, as established in the Deed of Constitution, provided that this is legally possible, the services do not extend to the main management functions and the subcontractor or delegated party waives the right to take any action holding the Fund liable. In any event, subcontracting or delegating any service (i) may not result in an additional cost or expense for the Fund, (ii) shall have to be legally possible, (iii) there is no detriment to the rating accorded to each of the Bond Series by the Rating Agency, and (iv) shall be notified to the CNMV and, where statutorily required, will first be authorised by the CNMV. Notwithstanding any subcontracting or delegation, the Management Company shall not be exonerated or released, under that subcontract or delegation, from any of the liabilities undertaken in the Deed of Constitution which may legally be attributed or ascribed to it.

III.8.4 The Management Company's remuneration for discharging its functions.

In consideration of the functions to be discharged by the Management Company, the Fund will pay it a management fee consisting of:

- (i) An initial fee amounting to EUR eighty thousand (80,000.00) which shall accrue upon the constitution of the Fund and be payable on the Closing Date.
- (ii) A periodic fee equal to 0.0395% per annum on the Outstanding Principal Balance of the Bond Issue on the Payment Date preceding the relevant Payment Date, accruing daily on the exact number of days elapsed in each Interest Accrual Period from the date of constitution of the Fund until it terminates. This periodic fee shall be settled and payable by Interest Accrual Periods in arrears on each of the Payment Dates and be calculated based on a 360-day year. Exceptionally, the variable amount for the first Payment Date shall accrue from the Fund constitution date and be calculated on the face amount of the Bond Issue.

The variable amount payable on a given Payment Date shall be calculated in accordance with the following formula:

$$IV = B \times \frac{0.0395}{100} \times \frac{d}{360}$$

where :

IV = Variable amount payable on a given Payment Date.

B = Outstanding Principal Balance of the Bond Issue, on the preceding Payment Date or face amount of the Bond Issue for calculation on the first Payment Date.

d = Number of days elapsed during the relevant Interest Accrual Period or from the Fund constitution date until the first Payment Date for calculation on the first Payment Date.

In any event, the periodic fee amount on each of the Payment Dates may not be less than EUR eighteen thousand (18,000.00) or the equivalent prorated to the exact number of days in each Interest Accrual Period. In the event that, during the term of the Fund, the National General Retail Price Index published by the Spanish National Institute of Statistics for each calendar year should experience a positive variation, the minimum annual amount shall be reviewed cumulatively in the same proportion, from the year 2006, inclusive, and effective as of January 1 of each year.

This fee shall be paid provided that the Fund has sufficient liquidity in accordance with the Priority of Payments or, as the case may be, the Liquidation Priority of Payments. If on a Payment Date the Fund should not have sufficient liquidity to settle the above-mentioned fee, the amount due shall accrue an interest equal to the Reference Rate of the Bonds, payable on the following Payment Date, in the Priority of Payments.

This is a Certified Translation into English of the Spanish Offering Circular. No document other than the Spanish Offering Circular approved by the Comisión Nacional del Mercado de Valores may have any legal effect whatsoever or be taken into account with respect to the Bond Issue.

CHAPTER IV

INFORMATION ON THE CHARACTERISTICS OF THE ASSETS SECURITISED THROUGH THE FUND

IV.1 Description of assets pooled in the Fund.

The credit rights to be pooled in the Fund, represented by the Management Company, upon being constituted, shall exclusively consist of credit rights owned by the Originators (CAIXA POPULAR-CAIXA RURAL S.C.C.V., CAIXA RURAL DE BALEARS S.C.C., CAJA RURAL DE ARAGÓN C.C., CAJA RURAL DE NAVARRA S.C.C., CAJA RURAL DE TERUEL S.C.C., CAJA RURAL DE ZAMORA S.C.C. and CAJA RURAL DEL MEDITERRÁNEO, RURALCAJA, S.C.C.) derived from loans granted to non-financial small and medium-sized enterprises (legal persons and sole traders) registered in Spain (the "**Obligors**"), all of which are small and medium-sized enterprises ("**SMEs**") as defined by the European Commission (Recommendation of May 6, 2003, replacing the Recommendation of April 3, 1996) (the "**Loans**").

IV.1.1 Number and amount of the Loans to be pooled in the Fund.

The Loans that the Originators will assign to the Fund upon being constituted will make up a number that is as yet indeterminate and their total principal or capital shall be at least equal to EUR two hundred and fourteen million (214,000,000.00), the amount of the face value of this Bond Issue.

The Loans shall be taken from a selection comprised of 2,201 portfolio loans of the Originators, the outstanding principal of which amounted as of October 25, 2004 to EUR 256,291,083.47, with an overdue principal of EUR 268,199.30. The detailed characteristics of the loans selected are described in section IV.4 of this Chapter.

IV.1.2 Perfecting the assignment of the Loans.

The Management Company, for and on behalf of the Fund, and the Originators shall in the Deed of Constitution perfect the agreement assigning the Loans to the Fund, effective from that same date, as follows:

- (i) The assignment of the Mortgage Loans shall be perfected by means of the issue by CAIXA POPULAR-CAIXA RURAL S.C.C.V., CAIXA RURAL DE BALEARS S.C.C., CAJA RURAL DE ARAGÓN C.C., CAJA RURAL DE NAVARRA S.C.C., CAJA RURAL DE TERUEL S.C.C., CAJA RURAL DE ZAMORA S.C.C. and CAJA RURAL DEL MEDITERRÁNEO, RURALCAJA, S.C.C. of and the subscription by the Fund for the Pass-Through Certificates as established by Act 2/1981 and by additional provision five of Act 3/1994, as worded by article 18 of Financial System Reform Measures Act 44/2002, November 22 ("**Act 44/2002**").

The Pass-Through Certificates shall be represented by means of a registered multiple certificate which shall contain the minimum data provided in article 64 of Royal Decree 685/1982, March 17, implementing certain aspects of Mortgage Market Regulation Act 2/1981 ("**Royal Decree 685/1982**"), and specifically the registration particulars of the mortgaged properties securing the Mortgage Loans.

The Pass-Through Certificates may be transferred by a written statement on the very certificate and, in general, by any of the means admitted by Law. The transfer of the Pass-Through Certificate and the new holder's address shall be notified by the transferee to the issuer. They may only be acquired or held by institutional investors or professionals, and may not be acquired by the unspecialised public.

Both in the event that any Pass-Through Certificate should be substituted, as prescribed in section IV.1.6 of this Offering Circular, and in the event that the Management Company, acting for and on behalf of the Fund, should proceed to foreclose a Mortgage Loan, as prescribed in section IV.1.8 of this Offering Circular, and moreover if there should be an Early Liquidation of the Fund, in the events and on the terms of section III.7.1 of this Offering Circular, and said Pass-Through Certificates have to be sold, the Originators agree to split, as the case may be, any multiple certificate into such individual or multiple certificates as may be necessary, and to substitute or exchange the same for the above purposes.

The Originators, as the issuers, shall keep a special book in which it shall enter the Pass-Through Certificates issued and the changes of address notified by the Pass-Through Certificate holders, moreover including therein (i) the date of origination and maturity of the Mortgage Loan, the amount thereof and the settlement method; and (ii) the registration particulars of the mortgage securing the Mortgage Loan.

Given that the Fund is an institutional investor and that the Fund has subscribed for the Pass-Through Certificates, for the purposes of paragraph two of article 64.6 of Royal Decree 685/1982, the issue of the Pass-Through Certificates shall not be subject to a marginal note on each entry of the mortgage underlying each of the Mortgage Loans in the Land Registry.

- (ii) The Non-Mortgage Loans shall be assigned directly by CAIXA RURAL DE BALEARS S.C.C., CAJA RURAL DE ARAGÓN C.C., CAJA RURAL DE NAVARRA S.C.C., CAJA RURAL DE TERUEL S.C.C., CAJA RURAL DE ZAMORA S.C.C. and CAJA RURAL DEL MEDITERRÁNEO, RURALCAJA, S.C.C. without any underlying certificate being issued.

The terms and conditions of the assignment of the Loans are detailed hereinafter in the following subsections.

IV.1.3 Loan assignment terms.

1. The Loans will be fully and unconditionally assigned for the entire term remaining until maturity of each Loan.

In accordance with article 348 of the Commercial Code and 1529 of the Civil Code, the Originators will be liable to the Fund for the existence and lawfulness of the Loans, and for the personality with which the assignment is made, but shall not be liable for the solvency of the Obligor.

The Originators shall not bear the risk of default on the Loans and shall therefore have no liability whatsoever for default by the Obligors of principal, interest or any other amount whatsoever they may owe under the Loans, and shall not be answerable either for the enforceability of the securities collateral thereto. They will not be howsoever liable either to directly or indirectly guarantee that the transaction will be properly performed, nor give any guarantees or securities, nor indeed agree to repurchase or substitute the Loans, saving the provisions of section IV.1.6 of this Offering Circular.

2. The assignment of each Loan shall be made for all the outstanding principal pending repayment on the assignment date and for all the ordinary and late-payment interest on each Loan assigned.

Specifically, without limitation and for illustrative purposes only, , the assignment shall confer on the Fund the following rights in relation to each of the Loans:

- a) To receive all Loan capital or principal repayment amounts accrued.
- b) To receive all Loan principal ordinary interest amounts accrued.
- c) To receive all Loan late-payment interest amounts accrued.

- e) To receive all possible rights or compensations on the Loans accruing for the Originators and derived therefrom, including those derived from any right collateral to the Loans, including total or partial early cancellation fees.

The above-mentioned rights will all accrue for the Fund from the date of assignment of the Loans. Interest will also include interest accrued and not due from the last interest settlement date of each of the Loans, before or on the date of assignment, and interest due and not paid on that same date.

Returns on the Loans, including the Pass-Through Certificates, constituting Fund income shall not be subject to a Corporation Tax withholding as established in Royal Decree 537/1997, April 14, approving the Corporation Tax Regulations.

3. In the event of prepayment of the Loans upon a full or partial repayment of the principal, there will be no direct substitution of the affected Loans.
4. The rights of the Fund resulting from the Loans shall be linked to the payments made by the Obligors and are therefore directly affected by the evolution, late payments, prepayments or any other incident in connection therewith.
5. The Fund shall defray any and all expenses or costs resulting for the Originators derived from recovery actions in the event of a breach by the Obligors of their obligations, including enforcement proceedings against the same.
6. In the event of renegotiation consented to by the Management Company, for and on behalf of the Fund, of the Loans, or their due dates, the change in the terms shall affect the Fund in accordance with rule fifteen, section 2.d), of Bank of Spain Circular 4/91, June 16.

- (12) That it is not aware of any circumstance which might prevent foreclosure of the mortgage security.

IV.1.5 Loan sale or assignment price.

The sale or assignment price of the Loans shall be at par. The aggregate price payable by the Fund represented by the Management Company to each Originator for the assignment of the Loans shall be an amount equivalent to the sum of (i) the face value of the capital or principal outstanding on each Loan, and (ii) ordinary interest accrued and not due and overdue interest, if any, on each of the Loans on the assignment date (the “**accrued interest**”).

The Management Company shall pay the total Loan assignment price on behalf of the Fund as follows:

1. The part of the assignment price consisting of the face value of the capital of all the Loans, item (i) of the preceding paragraph, shall be paid on the Closing Date, for same day value, upon the subscription for the Bond Issue being paid up.

2. The part of the price consisting of interest accrued on each of the Loans, item (ii) of the preceding paragraph, shall be paid on the earlier of the collection date falling on the first interest settlement date of each of the Loans following constitution of the Fund or the date on which they are paid by the Obligor, and will not be subject to the Fund Priority of Payments.

If the Fund constitution and hence the assignment of the Loans should terminate, (i) the Fund's obligation to pay the total Loan acquisition price shall terminate, (ii) the Management Company shall be obliged to restore to the Originators any rights whatsoever accrued for the Fund upon acquiring the Loans, and (iii) the Originators shall once again enter the Loans among their balance-sheet assets and cancel the Pass-Through Certificates.

IV.1.6 Set rules for substituting Loans or the Pass-Through Certificates in the event of latent defects therein, or, otherwise, repayment to the Fund.

In the event that latent defects should appear in any of the Loans because it is found during their life that any of them or of the Pass-Through Certificates failed upon the constitution of the Fund to conform to the representations contained in section IV.1.4 of this Offering Circular or their specific characteristics communicated by the Originators to the Management Company, the Originators agree, subject to the Management Company's consent, to proceed to substitute the Loans and the Pass-Through Certificates in that situation, subject to the following rules:

1. The party becoming acquainted with the existence of a latent defect, be it an Originator or the Management Company, shall advise the other party of that circumstance in writing. The Originator shall have a period of five (5) Business Days from said notice to remedy that circumstance if it may be so remedied or proceed to a partial or full substitution of the affected Loans or Pass-Through Certificates, notifying the Management Company of the characteristics of the loans and of the pass-through certificates intended to be assigned to take their stead, which shall fulfil the representations contained in section IV.1.4 of this Offering Circular and be of the same kind as the Loans and the Pass-Through Certificates to be replaced, in order for the financial balance of the Fund not to be affected by such substitution, nor indeed the rating of the Bonds in relation to the provisions of section II.3 of this Offering Circular. Once the Management Company has checked the appropriateness of the substitute loan and pass-through certificate, and after advising the Originator expressly of loans and pass-through certificates suitable for such substitution, such substitution shall be made by terminating the assignment of the affected Loans and, as the case may be, cancelling the relevant Pass-Through Certificate, and simultaneously assigning the new substitute loans and issuing the new substitute pass-through certificates.

The substitution shall be recorded in a public deed subject to the same formalities established for the acquisition of the Loans upon the Fund being constituted, in accordance with the specific characteristics of the new loans assigned. The Management Company shall provide the CNMV, the undertaking in charge of the Bond accounting record, the AIAF Governing Body and the Rating Agency with a copy of that agreement.

2. Secondly to the obligation undertaken under rule 1 above, in the event that there should be no total substitution of the affected Loans, the assignment of the affected Loans not substituted shall be terminated and, as the case may be, the relevant Pass-Through Certificate will be cancelled. That termination shall take place by a repayment in cash to the Fund by the Originator of the outstanding principal of the affected Loans not substituted, interest accrued and not due, calculated until the repayment date, and interest due and not paid and any other amount owing to the Fund under those Loans.
3. In the event of termination of the assignment of the affected and, as the case may be, cancellation of the relevant Pass-Through Certificates due to both substitution and repayment, the Originator shall once again record the relevant Loans among its balance sheet assets on the date of substitution or repayment of the affected Loans, and shall be vested in all the rights attaching to those Loans accruing from the substitution or repayment date or accrued and not due, and overdue amounts on that same date.

IV.1.7 Pass-Through Certificate representation and custody.

The Pass-Through Certificates shall be represented by multiple or individual registered certificates, which shall contain at least the particulars prescribed for mortgage certificates in article 64 of Royal Decree 685/1982,

along with the registration particulars of the properties securing the Mortgage Loans. The Pass-Through Certificates which shall be issued to be pooled in the Fund upon being constituted shall be represented in a multiple registered certificate.

Both in the event that the Management Company should, for and on behalf of the Fund, proceed to foreclose a Mortgage Loan, as provided for in section IV.1.8, and because of an Early Liquidation of the Fund, in the events and on the terms of section III.7.1, there is to be a sale of Pass-Through Certificates, and in any other event so requiring, each Originator agrees to split any multiple certificate issued representing Pass-Through Certificates into such unit or multiple certificates as may be required, replacing or exchanging the same for the attainment of the above purposes.

The multiple document representing the Pass-Through Certificates and, as the case may be, the unit certificates into which the same is split, shall be deposited at BANCO COOPERATIVO, and the relations between the Fund and BANCO COOPERATIVO shall be governed by the Pass-Through Certificate Custody Agreement to be entered into between BANCO COOPERATIVO and the Management Company for and on behalf of the Fund. That deposit shall be established for the benefit of the Fund and BANCO COOPERATIVO shall therefore safe-keep the documents representing the Pass-Through Certificates deposited following the Management Company's instructions.

IV.1.8 Remedies in the event of default on the Loans.

The Fund shall have right of action, through the Management Company, and the latter directly through the Servicer, against Obligors failing to meet their payment obligations derived from the Loans. Such action shall be brought using the appropriate court enforcement procedures prescribed in articles 517 et seq. of the Civil Procedure Act, satisfying, as the case may be, the requirements as to capacity enabling it to do so.

The Servicer shall take the actions provided for in the Servicing Agreement, described in section IV.2.1.7 of this Offering Circular, and shall use the same diligence and procedures for recovering amounts due and payable on the Loans it would in regard to its portfolio loans, and in particular shall institute all relevant recovery actions if, upon the expiration of the periods set down for actions designed for securing payment satisfactory to the Fund's interests, those actions should fail to have the required effect, and shall in any event proceed to file for recovery as aforesaid if the Management Company, on behalf of the Fund, after analysing the specific circumstances of the matter, should deem this fit, in agreement with the Servicer.

Additionally, the Servicer agrees to promptly advise of payment requests, legal actions and such other circumstances as may affect collection of amounts due and payable on the Loans. Moreover, the Servicer shall provide the Management Company with all such documents as the latter may request in relation to those Loans and, in particular, the documents required for the Management Company to institute legal actions, as the case may be.

1. In the event of default on the principal or interest of a Mortgage Loan following default by an Obligor, the Management Company, acting on behalf of the Fund, shall have the following remedies prescribed in article 66 of Royal Decree 685/1982:
 - (i) To demand the Originator as Servicer to apply for foreclosure.
 - (ii) To take part on an equal standing with the Originator, as issuer of the Pass-Through Certificates, in the foreclosure the latter shall have instituted against the obligor, intervening to that end in any foreclosure proceedings commenced by the former.
 - (iii) If the Originator should fail to take that action within sixty (60) calendar days of a notice served through a Notary demanding payment of the debt, the Management Company, for and on behalf of the Fund, shall be secondarily entitled to bring the action foreclosing the Mortgage Loan, claiming both principal and interest.
 - (iv) In the event that the proceedings instituted by the Originator should come to a standstill, the Fund, duly represented by the Management Company, may be subrogated in the position of the former and continue the foreclosure proceedings, without the above period having to elapse.

In the cases provided in paragraphs (iii) and (iv), the Management Company, on behalf of the Fund, may apply to the Judge or Notary with jurisdiction to commence or continue with the respective foreclosure proceedings, attaching to the application the original Pass-Through Certificate, the notice served through a Notary Public provided for in section (iii) above and an office certificate as to the registration and subsistence of the mortgage. The Originator shall be bound to issue a certification of the balance outstanding on the Mortgage Loan.

The Management Company, for and on behalf of the Fund as holder of the Pass-Through Certificates, may also take part with equal rights with the Originators in the foreclosure proceedings and may in this sense, on the terms for which provision is made in the Civil Procedure Act, request the award of the mortgaged property as payment of the Mortgage Loan. The Management Company shall proceed to sell the properties awarded within the shortest possible space of time and at arm's length.

2. In the event of a breach of the payment obligations derived from the Non-Mortgage Loans by the Obligor, the Management Company, acting on behalf of the Fund, shall have a recovery action against those Obligors, observing the formalities prescribed for that procedure in the Civil Procedure Act.
3. In the event that this should be required by law, and for the purposes of the provisions of the Civil Procedure Act, the Originators shall confer in the Deed of Constitution an irrevocable and as extensive and sufficient a power of attorney as may be required by Law in order for the Management Company, acting for and on behalf of the Originators, to demand through a Notary Public payment of the debt by the Obligor under any of the Loans.

Neither Bondholders nor any other creditor of the Fund shall have any right of action whatsoever against the Obligors who shall have failed to meet their payment obligations; that action shall rest with the Management Company, as the representative of the Fund, who shall have that action on the terms described in this section.

IV.2 Servicing and custody of the Loans.

The Originators of the Loans to be acquired by the Fund, as established in article 2.2.b) of Royal Decree 926/1998, and for the Pass-Through Certificates as established in article 61.3 of Royal Decree 685/1982, shall continue as attorneys for the Management Company to be responsible for servicing and managing the Loans they respectively assign to the Fund, the relations between the Originators (hereinafter in regard to this Agreement the "**Servicers**" or each of them individually the "**Servicer**"), BANCO COOPERATIVO, as potential replacement for the Servicers in certain circumstances, and the Fund, represented by the Management Company, being governed by the Loan Servicing and Management and Pass-Through Certificate Custody Agreement (the "**Servicing Agreement**") in relation to custody and servicing of the Loans.

Each Servicer shall accept the appointment received from the Management Company and thereby agrees as follows:

- (i) To service and manage the Loans acquired by the Fund subject to the system terms and ordinary servicing and management procedures established in the Servicing Agreement.
- (ii) To continue servicing the Loans, devoting the same time and effort to them as it would devote and use to service its own loans and in any event to exercise a suitable degree of skill, care and diligence in providing the services for which provision is made in the Servicing Agreement.
- (iii) That the procedures it applies and will apply to service and manage the Loans are and will continue to be in accordance with the laws and statutory regulations in force applicable thereto.
- (iv) To full faithfully observe the instructions issued by the Management Company.
- (v) To pay the Fund damages resulting from a breach of the obligations undertaken.

In any event, each Servicer waives the privileges and authorities conferred on it by law as the manager of collections for the Fund and as servicer of the Loans, and custodian of the relevant agreements, and in particular those for which provision is made in articles 1730 and 1780 of the Civil Code and 276 of the Commercial Code.

The most outstanding terms of the Servicing Agreement are set out hereinafter in the following subparagraphs of this section.

IV.2.1 Ordinary system and procedures for servicing and managing the Loans.

The following is the succinct and short description of the ordinary system and procedures (hereinafter the “**services**”) for service and custody of the Mortgage Loans governed by said Servicing Agreement:

1. Custody of deeds, agreements, documents and files.

The Servicer shall keep all deeds, agreements, documents and data files relating to the Loans and shall not give up their possession, custody or control other than with the Management Company's prior written consent for it to do so, unless a document should be required to institute proceedings to claim a Loan, or any other competent authority should so require informing the Management Company.

The Servicer shall allow the Management Company or the auditors of the Fund duly authorised thereby reasonable access at all times to said deeds, agreements, documents and records. Furthermore, whenever it is required to do so by the Management Company, it shall provide within two (2) Business Days of that request and clear of expenses, a copy or photocopy of any of such deeds, agreements and documents.

2. Collection management.

The Servicer shall continue managing collection of all amounts payable by the Obligors under the Loans, and any other item including under the insurance contracts of the mortgaged properties securing the Mortgage Loans. The Servicer shall act due diligently for payments to be made by the Obligors to be collected in accordance with the contractual terms and conditions of the Loans.

The amounts received by the Servicer derived from the Loans shall be paid by the Servicer in full into the Fund's Treasury Account on the day immediately after the date on which they were received by the Servicer, or the following business day, for same day value, if that is not a business day, into the Treasury Account or upon the same being moved or upon a Collection Account being opened, as the case may be, into such account as may be designated by the Management Company, in accordance with the set terms and conditions. In this connection, business days shall be taken to be all those that are business days in the banking sector in the city of Madrid.

The Management Company may change the periods, collection dates and payment method at any time during the term of the Servicing Agreement, previously notifying the Rating Agency and provided that this is not detrimental to the rating given to the Bonds by the Rating Agency.

The Servicer may at no event pay any amount whatsoever to the Fund not previously received from the Obligors as payment for the Loans.

3. Fixing the interest rate.

Because the Loans are floating-rate Loans, notwithstanding a possible renegotiation to a fixed rate, the Servicer shall continue fixing the interest rates applicable to each of the interest periods as established in the relevant Loan agreements, submitting such communications and notices as may be established therein.

4. Information.

The Servicer shall regularly communicate to the Management Company the information relating to the individual characteristics of each of the Loans, to fulfilment by the Obligors of their obligations under the Loans, to delinquency status and ensuing changes in the characteristics of the Loans, and to actions to demand payment in the event of late payment and court actions, the foregoing using the procedures and timing established in the Servicing Agreement.

Furthermore, the Servicer shall prepare and hand to the Management Company such additional information relating to the Loans or the rights attaching thereto as the Management Company may reasonably request, and in particular the documents required for the Management Company, as the case may be, to bring legal actions.

5. Loan subrogation.

The Servicer shall be authorised to permit substitutions in the position of the Obligor under the Loan agreements, exclusively where the characteristics of the new Obligor are similar to those of the former Obligor and those characteristics observe the policies for granting loans described in the memorandum on policies for granting credits and loans to companies attached as a schedule to the Fund Deed of Constitution, and moreover provided that the expenses derived from that change are fully borne by the Obligors. The Management Company may fully or partially limit this authority of the Servicer or lay down conditions therefor, in the event that those substitutions might adversely affect the ratings accorded to the Bonds by the Rating Agency.

Furthermore, in relation to the Mortgage Loans, the mortgagor may apply for subrogation to the Servicer in connection with the Mortgage Loans pursuant to Act 2/1994. Subrogation of a new creditor under the Mortgage Loan and the ensuing payment of the amount due shall result in a prepayment, as the case may be, of the Mortgage Loan and the respective Pass-Through Certificate.

6. Authorities and actions in relation to Loan renegotiation procedures.

The Servicer may not voluntarily cancel the Loans or their securities for any reason other than payment of the Loan, relinquish or settle in regard thereto, forgive the Loans in full or in part or extend the same, or in general do anything that may diminish the status, legal effectiveness or economic value of the Loans or of the securities, without prejudice to its heeding requests by the Obligors with the same diligence and procedure as if they were own loans.

Notwithstanding the above, the Management Company, as manager of third-party portfolios and bearing in mind the Obligors' requests to the Servicer directly or under Act 2/1994, may previously issue instructions to or authorise the Servicer to agree with the Obligor, subject to the terms and conditions for which provision is made in this section, for a novation changing the relevant Loan, either by an interest rate renegotiation or by an extension of the maturity period, and provided that those novations are not detrimental to the Mortgage Loans ranking as a first mortgage.

a) Renegotiating the interest rate.

1. The Servicer may under no circumstance entertain on its own account and without being so requested by the Obligor, interest rate renegotiations which may result in a decrease in the interest rate applicable to a Loan. In any event, whether or not it was generically authorised, any Loan interest rate renegotiation shall be taken on and settled bearing in mind the interests of the Fund.

Without prejudice to the provisions hereinafter, any renegotiation subscribed by the Servicer shall be made exclusively with the prior written consent of the Management Company, on behalf of the Fund, and the Servicer agrees to seek such consent from the Management Company as soon as it is aware that an Obligor has requested a renegotiation. The Management Company shall nevertheless initially authorise the Servicer to entertain and accept renegotiations of the interest rate applicable to the Loans, requested by the Obligors, without requiring the prior consent of the Management Company, subject to a number of general requirements established hereinafter in the following sections.

The Management Company may at any time during the term of the Agreement, on behalf of the Fund, cancel, suspend or change the requirements for the Servicer's authorisation to renegotiate which it may previously have determined for the Servicer.

2. The Servicer shall in renegotiating the Loan interest rate clause observe that the new interest rate terms are at arm's length and no different from those applied by the Servicer proper in renegotiating or granting its floating-rate loans. In this connection, arm's length floating interest rate shall be deemed to be the floating interest rate offered by the Servicer on the Spanish market for loans granted to SMES in an amount, class of mortgaged real property and terms substantially similar to the renegotiated Loan.
3. Renegotiating a decrease in the interest rate applicable to a Loan shall in no event result in (i) its being changed to a floating interest rate with a benchmark index for determination other than the

Euribor rate, and (ii) that the average margin or spread weighted by the outstanding principal of the Loans serviced by each Servicer is less than 90 basic percentage points.

b) Extending the period of maturity.

The final maturity or final amortisation date of the Mortgage Loans may be deferred ("**extending the term**") subject to the following rules and limitations:

- (i) The Servicer may in no case entertain on its own account, i.e. without it being so requested by the Obligor, a change in the final maturity date of the Loan which may result in an extension of that date. The Servicer, without encouraging an extension of the term, shall act in relation to such extension bearing in mind at all times the Fund's interests.
- (ii) The aggregate of the capital or principal assigned to the Funds of the Loans with respect to which the maturity date is extended may not exceed 10% of the face amount of the Bond Issue.
- (iii) The term of a specific Loan may be extended provided that the following requirements are met:
 - a) That the periodicity of repayment instalments of the capital or principal of the Loan is at all events maintained or reduced, albeit keeping the same repayment system in place.
 - b) That the new final maturity or final amortisation date does not extend beyond May 15, 2033.

The Management Company may at any time, on behalf of the Fund, cancel, suspend or change the eligibility and requirements for renegotiation by the Servicer established in this section or, in the event of a change, which it may previously have authorised the Servicer. In any event, whether or not it was generically authorised, any Loan interest rate renegotiation shall be taken on and settled bearing in mind the interests of the Fund.

If there should be any renegotiation of the interest rate of a Loan or its due dates, the Servicer shall forthwith notify the Management Company of the terms resulting from each renegotiation. Such notice shall be made through the software or data file provided for the terms of the Loans to be updated.

In the event of a renegotiation of the Loans, or their due dates, consented to by the Management Company, for and on behalf of the Fund, the change in the terms shall affect the Fund in accordance with rule fifteen, section 2.d) of Bank of Spain Circular 4/91, June 16.

The contractual documents supporting the novation of the renegotiated Loans will be kept by the Servicer, in accordance with the provisions of paragraph 1 of this section.

7. Action against Obligors in the event of default on the Loans.

Actions in the event of late payment.

The Servicer shall apply an identical diligence and procedure for claiming overdue amounts on the Loans as with the rest of its portfolio loans.

In the event of default by the Obligor of the payment obligations, the Servicer shall take the actions described in the Servicing Agreement, taking for that purpose the steps it would ordinarily take if they were its own portfolio loans and in accordance with standard banking usage and practice for collecting overdue amounts, and shall be bound to advance such expenses as may be necessary for those actions to be taken, without prejudice to its right to be reimbursed by the Fund. Needless to say, these actions include all such legal actions as the Servicer may deem necessary to claim and collect the amounts due by the Obligors.

Legal actions.

The Servicer, under the Servicing Agreement or using the power referred to in the following paragraph, shall take all relevant actions against Obligors failing to meet their payment obligations derived from the Loans. Such an action shall be brought using the appropriate court enforcement procedures prescribed in articles 517 et seq. of the Civil Procedure Act.

In the above connection and for the purposes prescribed in articles 581.2 and 686.2 of the Civil Procedure Act, and in the event that this should be necessary, the Management Company shall grant in the Deed of

Constitution as full and extensive a power of attorney as may be required at Law to the Servicers in order that the latter may, acting through any of their attorneys properly empowered for those purposes, for and on behalf of the Management Company, as the authorised representative of the Fund, demand by any judicial or other means the Obligor of any of the Loans to pay his debt and take legal action against the same, in addition to other authorities required to discharge its duties as Servicer. These authorities may be extended or amended in another deed where appropriate.

In relation to the credit rights derived from the Loans, the Servicer shall generally file a recovery action, if, for a period of six (6) months, a Loan Obligor having failed to honour his payment obligations should not resume payments to the Servicer and the latter, with the Management Company's consent, should not obtain a payment commitment satisfactory to the Fund's interests. The Servicer shall in any event forthwith proceed to file a recovery action if the Management Company, acting for the Fund, and after analysing the specific circumstances of the case, should deem this necessary.

If eight (8) months should elapse from the oldest default without the Obligor having resumed payments or arranged for a restructuring, and the Servicer should fail to file the recovery action without there being proper reasons therefor, the Management Company may, on behalf of the Fund, proceed directly to commence the appropriate legal proceedings to fully claim the debt.

In the event that the proceedings commenced by the Servicer should be stopped without there being proper reasons therefor, the Management Company may, as the case may be, on behalf of the Fund, take over from the latter and continue with the legal proceedings.

The Servicer agrees to promptly advise of payment demands, legal actions and any other circumstances affecting collection of overdue amounts on the Loans. Furthermore, the Servicer will provide the Management Company with all such documents as the latter may request in relation to said Loans and in particular the documents required for the Management Company to take legal actions, as the case may be.

8. Mortgage Loan mortgaged property damage insurance.

The Servicer shall not take or fail to take any action resulting in the cancellation of any property damage insurance policy covering the properties mortgaged under the Mortgage Loans or reducing the amount payable in any claim thereunder. The Servicer shall act due diligently and in any event use the rights conferred under the insurance policies or the Mortgage Loans in order to keep those policies in full force and effect in relation to the Mortgage Loan and the respective property.

The Servicer shall be bound to advance payment of policy premiums not paid by the Obligors whenever it is fully acquainted with this circumstance, without prejudice to its right to be reimbursed by the Fund for amounts so paid.

In the event of a claim, each Servicer shall coordinate actions for collecting compensations derived from the property damage insurance policies on the terms and conditions of the Mortgage Loans and the actual policies, paying the amounts received, if any, to the Fund.

9. Set-off.

In the event that any of the Obligors under the Loans should have a liquid credit right, due and payable vis-à-vis the Servicer, and any of the Loans should therefore be fully or partially set-off against that credit right, the Servicer shall remedy such circumstance or, if it cannot be remedied, the Servicer shall proceed to pay to the Fund the amount set off plus accrued interest which would have been payable to the Fund until the date on which the payment is made, calculated on the terms applicable to the relevant Loan.

10. Subcontracting.

The Servicer may subcontract any of the services it may have agreed to provide under the Servicing Agreement other than those that may not be so delegated in accordance with the laws in force for the time being. That subcontracting may in no event result in an additional cost or expense for the Fund or the Management Company, or be detrimental to the rating assigned to each of the Bond Series by the Rating Agency. Notwithstanding any subcontracting or delegation, the Servicer shall not be excused or released

under that subcontract or delegation from any of the liabilities undertaken in the Servicing Agreement which may legally be attributed or ascribed to it.

11. Notices.

In the event of insolvency, administration by the Bank of Spain, liquidation or substitution of any Servicer or because the Management Company deems this reasonably justified, the Management Company may demand the Servicer to notify Obligors of the assignment to the Fund of the outstanding Loans, and that the payments derived therefrom will only be effective as a discharge if made into the Treasury Account opened in the name of the Fund. However, both in the event of the requested Servicer failing to notify Obligors within five (5) Business Days of receiving the request from the Management Company and in the event of insolvency, administration by the Bank of Spain, liquidation or substitution of the Servicer, the Management Company itself shall directly or, as the case may be, through a new Servicer it shall have designated, notify the Obligors, without prejudice to the Servicer's potential liability upon failing to notify the Obligors.

IV.2.2 Term and substitution.

The services shall be provided by the Servicer until all the obligations undertaken by the Servicer as Originator of the Loans terminate, once all the Loans serviced have been repaid, or when the liquidation of the Fund concludes after it terminates, without prejudice to the possible early revocation of its appointment under the Servicing Agreement.

In the event of a breach by a Servicer of the obligations imposed on the Servicer under the Servicing Agreement or in the event of the Servicer's credit rating falling or the Servicer's financial status changing to an extent that may be detrimental to or place the financial structure of the Fund or the Bondholders' rights and interests at risk, the Management Company shall, in addition to demanding the Servicer to fulfil the obligations laid down in the Servicing Agreement, proceed to put in place, where this is legally possible, inter alia and after notifying the Rating Agency, any of the following actions in order for there to be no detriment to the rating given to the Bonds by the Rating Agency: (i) demanding the Servicer to subcontract or delegate to another undertaking the performance of the obligations and undertakings made in the Servicing Agreement; (ii) having another undertaking with a sufficient credit rating and quality secure all or part of the Servicer's obligations; (iii) terminating the Servicing Agreement, in which case the Management Company shall previously designate a new Servicer, provided that its credit quality is acceptable and is not detrimental to the rating given to the Bonds by the Rating Agency and the same accepts the obligations contained in the Servicing Agreement or, as the case may be, in a new servicing agreement; (iv) in the event that none of actions (i) to (iii) are possible, then the Management Company directly take over the performance of the services provided for in the Servicing Agreement.

In the event of actions (i), (ii) or (iii) provided for in the preceding paragraph having to be taken, BANCO COOPERATIVO shall, upon a written request from the Management Company and where that is legally possible and its credit quality is acceptable to the Rating Agency, take over the performance of the servicing and management functions of the Loans serviced by the Servicer, on terms and conditions identical to those contained in the Servicing Agreement. In that connection, the parties agree to enter into such documents as might be necessary.

Upon the early termination of the Servicing Agreement with any Servicer, the outgoing Servicer shall provide BANCO COOPERATIVO or the new Servicer, as the case may be, on demand by the Management Company and as determined thereby, with the necessary documents and data files for it to carry on the relevant activities.

The Servicing Agreement shall be fully terminated in the event that the Rating Agency should not confirm the provisional ratings assigned to each of the Series by the start of the Subscription Period or in the event of termination of the Bond Issue Management, Underwriting and Placement Agreement.

IV.2.3 Liability of the Servicer and indemnity.

The Servicer shall at no time have any liability whatsoever in relation to the obligations of the Management Company as manager of the Fund and manager of Bondholders' interests, nor in relation to the obligations of the Obligors derived from the Loans, without prejudice to the liabilities undertaken thereby in the Deed of Constitution as Originator of the Loans acquired by the Fund.

The Servicer takes on the obligation to indemnify the Fund or its Management Company for any damage, loss or expense resulting for the same on account of any breach by the Servicer of its obligations to service, manage and report on the Loans, established under the Servicing Agreement .

The Management Company shall, for and on behalf of the Fund, have a recovery action against the Servicer to enforce the principal and interest falling due or any other item due to the Fund under the Pass-Through Certificates, where the breach of the obligation to pay those amounts does not result from default by the Obligors of the Mortgage Loans, as well as the relevant actions in the case of the Non-Mortgage Loans.

Upon the Loans terminating, the Fund shall, through its Management Company, retain a right of action against the Servicer until fulfilment of its obligations.

Neither Bondholders nor any other creditor of the Fund shall have any direct right of action whatsoever against the Servicer; that action shall rest with the Management Company, as the representative of the Fund, who shall have that action on the terms described in this section.

IV.2.4 Remuneration of the Servicers for servicing and managing the Loans.

In consideration of the servicing and management of the Loans each of the Servicers shall be entitled to receive in arrears on each of the Payment Dates and during the term of the Servicing Agreement, a subordinated servicing fee equal to 0.01% per annum, inclusive of VAT if there is no exemption, which shall accrue on the exact number of days elapsed and on the mean daily Outstanding Balance of the Loans serviced during each Determination Period. If any of the Servicers should be replaced in that servicing task, the Management Company will be entitled to change the above percentage fee in favour of the new Servicer, which may not be in excess of that agreed with the Servicer in the agreement. Furthermore, in the event that the Management Company should be directly responsible for servicing and managing the Loans, the Loan servicing fee shall accrue for the Management Company during all the time in which it actually discharges those functions. The servicing fee shall be paid on the relevant Payment Date, provided that the Fund has sufficient liquidity in according with the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

If the Fund should, through its Management Company, due to a shortage of liquidity in the Fund Priority of Payments, fail to pay on a Payment Date all the fee due to the Servicer, the amounts overdue shall accumulate without any penalty whatsoever on the fee payable on the next Payment Dates, until fully paid.

Furthermore, on each Payment Date, the Servicer shall be entitled to a reimbursement of all Loan servicing and management expenses of an exceptional nature incurred, such as in connection with legal and/or recovery actions or managing the sale of the assets or properties awarded to the Fund, and after first justifying the same. Those expenses will be paid whenever the Fund has sufficient liquidity and in the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

IV.3 General policies for granting and terms for perfecting established in regard to the assets pooled in the Fund by the Originator of those assets.

IV.3.1 Procedures established by the Originator of the Loans for analysing risks and granting the Loans.

The loans selected to be assigned to the Fund have been granted by the Originators in accordance with their usual procedures for analysing and assessing the credit risk for granting loans to companies. The Originators' current procedures will be described in the schedules to the Deed of Constitution entitled "Memorandum on the policies for granting credits and loans to companies".

IV.3.2 Statistical information on the evolution of the Originator's credit activity in relation to the assets pooled in the Fund.

The following table shows the evolution in recent years of a segment of the Originators credit investment representing the loans granted to small and medium-sized enterprises (legal persons and sole traders) selected to be assigned to the Fund.

** As set forth in section IV.1.5.2 of this Offering Circular.

V.1.1 Assumptions made in relation to the main or most likely rates of such factors as early amortisation, late payments, delinquencies and defaults, with respect to the Loans pooled in the Fund.

The tables shown in section V.1.3 of this Offering Circular relate to one of the possible scenarios that could, in relation to the income and payments made and received by the Fund, arise during the term of the Fund and this Bond Issue.

The following assumptions have been made in preparing these Bond servicing and Fund cash flow tables:

a) Loans (Non-Mortgage Loans and Pass-Through Certificates).

- Outstanding principal of the portfolio as of October 25, 2004 from which the Loans assigned to the Fund will be taken: EUR 256,291,083.47 (outstanding principal).
- Interest Rate: 3.58% (% weighted average interest rate of the selected loan portfolio as of October 25, 2004), assumed constant throughout the life of the transaction.
- CPR: 12.00% per annum and 15.00% per annum.

- (iv) Delinquency rate: 0.10% of the Outstanding Balance of the Loans, with 100% recoveries within 15 months of becoming delinquent.
- (v) Defaults: 0%.

b) Bonds.

- (i) Total amount: EUR 214,000,000.00.

	Face Amount (EUR)
Series A1 Bonds	134,100,000.00
Series A2(G) Bonds	53,700,000.00
Series B Bonds	14,600,000.00
Series C Bonds	7,200,000.00
Series D Bonds	4,400,000.00
Total	214,000,000.00

- (ii) Interest Rate: floating interest rate for the outstanding balances of each of the Series.

The following are the interest rates in each Series assumed for the first Interest Accrual Period, as specified in sections II.10.1.5.a) and II.12.a) of this Offering Circular:

	Series A1 Bonds	Series A2(G) Bonds	Series B Bonds	Series C Bonds	Series D Bonds
Nominal Interest Rate	2.318%	2.183%	2.623%	3.423%	5.173%

For successive Interest Accrual Periods, the following are the floating interest rates for the Bonds in each Series, which are assumed constant, as specified in section II.12.a) of this Offering Circular:

	Series A1 Bonds	Series A2(G) Bonds	Series B Bonds	Series C Bonds	Series D Bonds
Nominal Interest Rate	2.306%	2.171%	2.611%	3.411%	5.161%

- (iii) It is assumed that the principal in each of the Bond Series will be repaid in accordance with the rules established in section II.11.3 of this Offering Circular and that the Management Company will exercise the early amortisation option of the Bonds in each of the Series when the Outstanding Balance of the Loans is less than 10% of their initial amount.

c) Ancillary agreements.

- (i) **Treasury Account.**

It is assumed that the Treasury Account shall be maintained at BANCO COOPERATIVO.

Interest rate: it is assumed to remain constant at 2.101% for remunerating all amounts credited to the Treasury Account.

- (ii) **Start-Up Loan Agreement.**

- Amount: EUR 810,000.00 which shall be allocated to financing the expenses of setting up the Fund and issuing the Bonds (approximately EUR 508,159.87), to partially financing acquisition of the Loans (up to EUR 51,840.13) and the remainder to covering the timing difference existing between Loan interest collection and Bond interest payment (EUR 250,000.00).
- Interest rate: it is assumed to remain constant at 3.161%.
- Repayment: the principal will be repaid in twenty (20) equal, consecutive quarterly instalments on each Payment Date, from the first and the following Payment Dates until the Payment Date falling on December 21, 2009, inclusive.

(iii) Subordinated Loan Agreement.

- Amount: EUR 10,486,000.00.
- Ordinary interest rate: it is assumed to remain constant at 3.161%.
- The loan shall be repaid on each of the Payment Dates in an amount equivalent to the reduction of the Required Cash Reserve.

(iv) State Guarantee.

The assumption made is that it will not be necessary to enforce the State Guarantee based on the assumed performance of the Loans set forth in subparagraphs (iv) and (v) of paragraph a) above.

d) Cash Reserve.

- (i) Amount: EUR 10,486,000.00.
- (ii) Reduction: it is assumed that its amount decreases down to the Required Cash Reserve on each Payment Date.

e) Expenses, fees and margin.

- i) Loan Servicing fee: 0.01% per annum on the average daily Outstanding Balance of the Loans during each relevant Interest Accrual Period, inclusive of VAT if there is no exemption.
- ii) Financial Intermediation Margin: variable remuneration settled quarterly on each Payment Date, and to accrue upon the expiration of each quarterly period in an amount equal to the positive difference, if any, between the Fund's income and expenditure on the last day of the calendar month preceding each Payment Date.
- iii) Management Company Fee: variable amount equal to 0.0395% per annum on the Outstanding Principal Balance of the Bond Issue and with a minimum annual periodic fee of EUR 18,000.00.
- iv) Pass-Through Certificate Custody Fee: 0.01 per thousand, inclusive of tax, if any, on the mean Outstanding Balance of the Pass-Through Certificates during each Interest Accrual Period, payable on each Payment Date.
- v) Annual expenses of the Fund for maintaining the rating of the Bonds and auditing the accounts: EUR 8,584 on each Payment Date, assuming a yearly Retail Price Index of 2.5%.
- vi) Bond Paying Agent Fees: EUR 600 on each Payment Date.

V.1.2 Analysis of and comments on the impact that potential changes in the assumptions described in the preceding point would have on the financial balance of the Fund.

In order to hedge the contingent credit risk due to delinquency and default on the Loans, it has been resolved to set up a Cash Reserve, initially provisioned by drawing under the Subordinated Loan in order to fulfil on each Payment Date, upon a shortfall of Available Funds or Liquidation Available Funds, certain of the Fund's payment or withholding obligations, which include payment of interest and principal on the Bonds. Nevertheless, the State Guarantee (section 12.5.2 of this Offering Circular) covers that credit risk for the Bonds in the guaranteed Series A2(G) Bonds. Moreover, the deferred interest payment and principal repayment between the Bonds in the different Series derived from their position in the application of the Available Funds and from the rules for Distribution of Available Funds for Amortisation between each Series in the Priority of Payments or in the application of the Liquidation Available Funds in the Liquidation Priority of Payments, is a mechanism for distinctly hedging the Series.

The base interest risk resulting in the Fund between Loan interest, floating with different benchmark indices (mortgage market 1-year Mibor/Euribor), or fixed, as the case may be, as a result of subsequent renegotiations, and different revision periods and instalment settlement date, and the floating interest on the Bond Issue based on 3-month Euribor and with quarterly accrual and settlement periods, is neutralised by means of the Interest Swap, which does not neutralise the credit risk remaining in the Fund, since calculation

of amounts payable and receivable by the Fund is based on a single notional which excludes the Outstanding Balance of Loans with a default in excess of ninety (90) days.

As for the incidence the prepayment of Loans might have on the Bonds, section II.12.a) of this Offering Circular contains a table showing the performance as to average life and duration of the Bonds for different effective constant annual early amortisation or prepayment rates (CPRs).

In general, the quality of the Loans and the mechanisms and financial hedge transactions in place for maintaining the financial balance of the Fund are such that they have been considered sufficient by the Rating Agency to assign the ratings to each of the Bond Series contained in section II.3 of this Offering Circular. These ratings express the Rating Agency's opinion about the Fund's capacity to meet interest payments as they fall due on each set Payment Date and principal repayment during the life of the Fund and, in any event, by the Final Maturity Date of the Fund.

V.1.3 Number outline of the cash flows of funds.

The number outline set forth hereinafter relates to collections and payments derived from the application of a cash policy, for ease of understanding of the investor, though in accordance with the provisions of section V.2 of this Offering Circular, the Fund will apportion income and expenditure in time in accordance with the accruals principle.

This outline is based not only on the assumptions referred to in section V.1.1 above but also on those assumptions remaining constant throughout the life of the Fund, whereas it is well-known that the relevant variables, particularly interest rates of the Bonds in all Series, and actual prepayment rates of the Loans are subject to continual changes.

Now, therefore, the value of that number outline is merely illustrative.

V.2 Accounting policies used by the fund.

The income and expenditure will be accounted for by the Fund in accordance with the accruals principle, i.e. when the actual flow of the goods and services they represent occurs, irrespective of the time when they are collected and paid.

The expenses of setting up the Fund and issuing the Bonds detailed in section II.4 of this Offering Circular will be subject to a straight-line depreciation during the months elapsing since the constitution of the Fund until November 30, 2009, inclusive.

The Fund's fiscal year shall match a calendar year. However, the first fiscal year will exceptionally begin on the date of constitution of the Fund and the last fiscal year will end on the date on which the Fund terminates.

V.3 Description of the financial and service transactions arranged by the Management Company on behalf of the Fund.

In order to consolidate the financial structure of the Fund, enhance the safety or regularity in payment of the Bonds, cover the timing differences between the scheduled principal and interest flows on the Loans and the Bonds, or, generally, transform the financial characteristics of the Loans, and supplement management of the Fund, the Management Company shall, on behalf of the Fund, upon executing the Deed of Constitution, proceed to formally enter into the financial and service provision transactions established hereinafter, in accordance with the provisions of article 6.1 of Royal Decree 926/1998.

In addition, the Economy and Finance Ministry shall, in a Ministerial Order, grant the State Guarantee to the Fund before it is constituted.

The Management Company, acting for and on behalf of the Fund, may extend or amend the agreements entered into on the Fund's behalf, substitute, as the case may be, each of the service providers to the Fund under those agreements and indeed, if necessary, enter into additional agreements, including new credit facility agreements, provided that the circumstances preventing the foregoing in accordance with the laws in force from time to time do not occur. In any event, those actions shall require that the Management Company first notify or secure the prior authorisation, if necessary, of the CNMV or competent administrative body and notify the Rating Agency, and provided that such changes are not detrimental to the rating assigned to the Bonds by the Rating Agency.

The individual description of the most relevant terms of the Bond Issue Management, Underwriting and Placement Agreement and of the Loan Servicing and Management Agreement may be respectively found in sections II.19.3 and IV.2 of this Offering Circular, in addition to the more thorough description of the State Guarantee that may be found in section II.15.2 of this Offering Circular. The description of the rest of the agreements may be found in this section V.3.

V.3.1 Guaranteed Interest Rate Account (Treasury Account) Agreement.

The Management Company, acting for and on behalf of the Fund, and BANCO COOPERATIVO shall enter into a Guaranteed Interest Rate Account (Treasury Account) Agreement whereby BANCO COOPERATIVO will guarantee a variable yield on the amounts paid by the Fund through its Management Company into a financial account. The Guaranteed Interest Rate Account (Treasury Account) Agreement shall specifically determine that all amounts received by the Fund will be paid into a financial account in euros (the "**Treasury Account**") opened at BANCO COOPERATIVO, in the name of the Fund by the Management Company, which amounts shall mostly consist of the following items:

- (i) cash amount received upon subscription for the Bond Issue being paid up;
- (ii) Loan principal repayment and interest collected;
- (iii) any other amounts relating to the Loans and from the sale or utilisation of the properties or assets awarded or under administration or interim possession in foreclosure proceedings;

- (iv) Subordinated Loan principal drawn down and amounts making up the Cash Reserve from time to time;
- (v) Start-Up Loan principal drawn down;
- (vi) Interest Swap amounts paid to the Fund;
- (vii) amounts, if any, drawn down upon enforcing the State Guarantee;
- (viii) the amounts of the returns obtained on the balances existing on the actual Treasury Account and on the Collection Account, as the case may be; and
- (ix) the amounts of withholdings on account of the return on investments to be effected on each relevant Payment Date on the Bond interest paid by the Fund, until due for payment to the Tax Administration.

BANCO COOPERATIVO shall pay the Fund an annual nominal interest rate, variable quarterly and settled quarterly, other than for the first interest accrual period, the duration and interest settlement of which shall be subject to the duration of that period, applicable for each interest accrual period (differing from the Interest Accrual Period established for the Bonds) to the positive balances if any on the Treasury Account, equivalent to the interest rate resulting from decreasing (i) the Bond Reference Rate determined for each Interest Accrual Period (ii) by a 0.06% margin. Interest shall be settled and be payable upon the expiration of each interest accrual period, on each of the Determination Dates of the Fund (on the fifth (5th) Business Day preceding each Payment Date), and shall be calculated based on: (i) the exact number of days in each interest accrual period, and (ii) a three-hundred-and-sixty (360-) day year. The first interest settlement date shall be March 14, 2005, the first Determination Date.

In the event that the rating of the non-subordinated and unsecured short-term debt of BANCO COOPERATIVO should, at any time during the life of the Bond Issue, fall below P-1 in Moody's rating scale, the Management Company shall within not more than thirty (30) days from the time of the occurrence of such circumstance put in place, after notifying the Rating Agency, any of the options described hereinafter allowing a suitable level of guarantee to be maintained with respect to the commitments derived from this Agreement in order for the rating given to the Bonds by the Rating Agency not to be adversely affected:

- a) Obtaining from an institution having a credit rating for its non-subordinated and unsecured short-term debt of at least P-1 in Moody's rating scale, and subject at all times to the prior communication to the Rating Agency, a first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by BANCO COOPERATIVO of its obligation to repay the amounts deposited in the Treasury Account, during the time over which the loss of the P-1 rating is maintained by BANCO COOPERATIVO.
- b) Transferring the Fund's Treasury Account to an institution whose non-subordinated and unsecured short-term debt has a rating of at least P-1 in Moody's rating scale, arranging the highest possible yield for its balances, which may differ from that arranged with BANCO COOPERATIVO under the Agreement.
- c) If options a) and b) above are not possible, obtaining from the Originators, BANCO COOPERATIVO or a third party collateral security in favour of the Fund on financial assets with a credit quality of not less than that of Spanish State Government Debt (*Deuda Pública del Estado Español*), in an amount sufficient to guarantee the commitments established in the Agreement.
- d) Moreover, if it should not be possible to transfer the Treasury Account on the terms set forth above, the Management Company may invest the balances for periods not extending beyond the following Payment Date, in short-term fixed-income assets in euros issued by institutions having a rating of at least P-1 for non-subordinated and unsecured short-term debt in Moody's rating scale, including short-term securities issued by the Spanish State, in which case the yield obtained could also differ from that obtained initially with BANCO COOPERATIVO under the Agreement.
- e) In events b) or d), the Management Company may subsequently transfer the balances back to BANCO COOPERATIVO under the Guaranteed Interest Rate Account (Treasury Account) Agreement, in the event that BANCO COOPERATIVO's non-subordinated and unsecured short-term debt should again attain the P-1 rating in Moody's rating scale.

The Guaranteed Interest Rate Account (Treasury Account) Agreement partly mitigates the risk relating to the timing difference between the Fund's receipts of principal and interest on the Loans, the periodicity of which differs from the quarterly amortisation and interest payment on the Bonds.

V.3.2 Collection Accounts.

In the event that any of the Originators should obtain at any time during the life of the Bonds a minimum rating for non-subordinated and unsecured debt short-term debt of P-1 assigned by Moody's, or any other rating accepted by this Rating Agency with the same effects, the Management Company shall, upon a request by the relevant Originator, proceed to open a financial account at the Originator (the "**Collection Account(s)**") which the latter shall credit after being opened with the amounts received derived from the Loans serviced by the Servicer under the Servicing Agreement. The Management Company, for and on behalf of the Fund, and the relevant Originator, shall enter into a guaranteed interest rate account agreement regulating the operation of the Collection Account and the financial terms, on the same terms as the terms laid down in the Guaranteed Interest Rate Account (Treasury Account) Agreement.

The balance on the Collection Account(s), including the returns obtained on the balances on the Collection Accounts proper, shall be transferred to the Treasury Account on each of the Determination Dates, for same day value.

In the event that the rating of the non-subordinated and unsecured short-term debt of the relevant Originator should subsequently fall below P-1 in Moody's rating scale or any other rating accepted by this Rating Agency with the same effects, the Management Company shall transfer the relevant Collection Account balance to the Treasury Account and the relevant Originator shall once again proceed to credit the amounts received derived from the Loans serviced thereby to the Treasury Account.

V.3.3 Subordinated Loan Agreement.

The Management Company shall, for and on behalf of the Fund, enter with the Originators into a commercial subordinated loan agreement (the "**Subordinated Loan Agreement**") amounting to EUR ten million four hundred and eighty-six thousand (10,486,000.00). The Subordinated Loan amount shall be delivered on the Closing Date and shall be applied to setting up the Cash Reserve on the terms for which provision is made in section III.2.3 of this Offering Circular, although the granting of the Loan by no means secures a guarantees performance of the Loans.

Repayment.

Subordinated Loan principal shall be repaid on each of the Payment Dates in an amount equal to the positive difference existing between the Required Cash Reserve on the preceding Payment Date and the Required Cash Reserve on the relevant Payment Date, and in the application priority established for that event in the Priority of Payments and provided that the requirements established for the Cash Reserve to be reduced in due course in section III.2.3 of this Offering Circular are met.

In the event that the Fund should not have sufficient liquidity to proceed to the relevant repayment of the Subordinated Loan on a Payment Date, in the Priority of Payments, the portion of the principal not repaid shall be repaid on the following Payment Date along with the amount that should be repaid, as the case may be, on that same Payment Date, until it is fully repaid.

The Subordinated Loan shall at all events be repaid on the Final Maturity Date subject to the Liquidation Priority of Payments of the Fund.

Financial yield.

The Subordinated Loan outstanding principal shall accrue an annual nominal interest, determined quarterly in each Interest Accrual Period, which shall be the result of adding: (i) the Bond Reference Rate determined for each Interest Accrual Period, and (ii) a 1.00% margin. This interest will be payable only if the Fund should have sufficient liquidity in the Priority of Payments or the Liquidation Priority of Payments, as the case may be. Interest accrued shall be settled and payable on the date of expiration of each Interest Accrual Period on each of the Payment Dates, and shall be calculated based on: (i) the exact number of days in each Interest Accrual Period and (ii) a three-hundred-and-sixty- (360-) day year. The first interest settlement date shall fall on March 21, 2005. Interest will be paid on the relevant Payment Date provided that the Fund has sufficient liquidity in accordance with the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

Ordinary interest accrued and not paid on a Payment Date shall be accumulated to the Subordinated Loan principal, earning additional interest at the same ordinary interest rate applicable for the Interest Accrual Period at issue, and shall be paid, provided that the Fund has sufficient liquidity, on the following Payment Date and in the same number provided for payment of ordinary Subordinated Loan interest in the Priority of Payments.

The Subordinated Loan Agreement shall be fully terminated in the event that the Rating Agency should not confirm the provisional ratings assigned to each of the Series as final by the start of the Subscription Period.

V.3.4 Start-Up Loan Agreement.

The Management Company shall, for and on behalf of the Fund, enter with the Originators into a commercial loan agreement amounting to EUR eight hundred and ten thousand (810,000.00) (the “**Start-Up Loan Agreement**”). The Start-Up Loan amount shall be delivered on the Closing Date and be allocated to financing the expenses of setting up the Fund and issuing the Bonds and financing partially the acquisition of the Loans and to covering the timing difference between Loan interest collection and Bond interest payment on the First Payment Date.

The outstanding Start-Up Loan principal will accrue an annual nominal interest, determined quarterly for each Interest Accrual Period, which shall be the result of adding: (i) the Bond Reference Rate determined for each Interest Accrual Period, and (ii) a 1.00% margin. This interest will be payable only if the Fund should have sufficient liquidity in the Priority of Payments or the Liquidation Priority of Payments, as the case may be. Interest accrued shall be settled and payable on the date of expiration of each Interest Accrual Period on each of the Payment Dates, and shall be calculated based on: (i) the exact number of days in each interest accrual period and (ii) a three-hundred-and-sixty- (360-) day year. The first interest settlement date shall be March 21, 2005. Interest will be paid on the relevant Payment Date provided that the Fund has sufficient liquidity in accordance with the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

Interest accrued and not paid on a Payment Date will be accumulated and accrue a late-payment interest at the same ordinary interest rate applicable to the Start-Up Loan for the relevant Interest Accrual Period and will be paid, provided that the Fund has sufficient liquidity, and in the Priority of Payments, on the following Payment Date and in the same place provided for payment of ordinary interest on the Start-Up Loan in accordance with the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

The Start-Up Loan principal shall be repaid in twenty (20) consecutive quarterly instalments in an equal amount, on each Payment Date, the first of which shall be the first Payment Date, March 21, 2005, and the following until the Payment Date falling on December 21, 2009, inclusive.

In the event that the Fund should not have sufficient liquidity, in the Priority of Payments, on a Payment Date to proceed to the partial repayment falling due on the Start-Up Loan, then the portion of principal not repaid shall be repaid on the following Payment Date along with the amount that should be repaid on that same Payment Date, as the case may be, until it is fully repaid.

Payment of amounts not paid on preceding Payment Dates shall take precedence over amounts falling due under the Start-Up Loan on that Payment Date, satisfying in the first place overdue interest and secondly repayment of principal, in the Fund Priority of Payments.

V.3.5 Interest Swap Agreement.

The Management Company shall, for and on behalf of the Fund, enter with BANCO COOPERATIVO, into a floating interest rate swap agreement (the “**Interest Swap Agreement**” or the “**Interest Swap**”) based on the standard Master Financial Transaction Agreement (CMOF) of the Spanish Banking Association, the most relevant characteristics of which are described below.

Under the Interest Swap Agreement, the Fund will make payments to BANCO COOPERATIVO calculated on the Loan reference rate, and in consideration BANCO COOPERATIVO will make payments to the Fund calculated on the Reference Rate determined for the Bond Series, the foregoing as described hereinafter.

Party A : The Fund, represented by the Management Company.

Party B : BANCO COOPERATIVO.

1. Settlement dates.

The settlement dates shall fall on the Bond Payment Dates, i.e. on March 21, June 21, September 21 and December 21 in every year, or the following Business Day if any of these dates is not a Business Day. The first settlement date shall be March 21, 2005.

2. Settlement periods.

Party A:

The settlement periods for Party A shall be the exact number of days elapsed between two consecutive Determination Dates, including the first but not including the last date. Exceptionally, the length of the first settlement period for Party A shall be equivalent to the exact number of days elapsed between the date of constitution of the Fund (inclusive) and March 14, 2005 (exclusive), first Determination Date.

Party B:

The settlement periods for Party B shall be the exact number of days elapsed between two consecutive Determination Dates, including the first but not including the last date. Exceptionally, the length of the first settlement period for Party B shall be equivalent to the exact number of days elapsed between the Bond Issue Closing Date (inclusive) and March 14, 2005 (exclusive), the first Determination Date.

3. Face Amount.

This shall be the daily average during the settlement period falling due of the Outstanding Balance of Non-Doubtful Loans.

4. Party A amounts payable.

This shall be the result of applying the Party A Interest Rate to the Face Amount according to the number of days in the settlement period of Party A.

4.1 Party A Interest Rate.

On each settlement date this shall be the annual interest rate resulting from dividing (i) the difference between (a) the total ordinary interest amount falling due resulting from the application of the Loan interest rate or, as the case may be, of their maximum applicable interest rate, during the settlement period falling due and which, on the relevant Determination Date, are in good standing in payment of amounts due or, if delinquent, have an arrears of less than eighteen (18) months, whether or not they were paid by the Obligors, and b) interest comprising the margin above the reference rate, by (ii) the Face Amount, multiplied by the result of dividing 360 by the number of days in the settlement period.

In this connection:

- (i) Ordinary interest will be reduced in the interest accrued payable by the Fund in connection with the acquisition of the Non-Mortgage Loans and the subscription for the Pass-Through Certificates.
- (ii) As the case may be, ordinary interest due will also be deemed to comprise the accrued interest received by the Fund both on the sale of the Non-Mortgage Loans or of Pass-Through Certificates and on their early amortisation by the Originators in accordance with the rules laid down for substituting the Non-Mortgage Loans and the Pass-Through Certificates.

5. Party B amounts payable.

This shall be the result of applying the Party B Interest Rate to the Face Amount according to the number of days in the settlement period of Party B.

5.1 Party B Interest Rate.

For each settlement period, this shall be the Bond Reference Rate determined for the then-current Interest Accrual Period as of the relevant Determination Date.

Termination of the Swap Interest Agreement

If it should occur on the settlement date that the Fund (Party A) does not have sufficient liquidity to make payment of the aggregate amount payable to Party B, the amount not paid by Party A shall be settled on the following settlement date provided that the Fund has sufficient liquidity in the Priority of Payments. If this event of non-payment by Party A should occur on two consecutive settlement dates, the Swap Agreement shall be terminated.

Without prejudice to the foregoing, other than in an extreme event of permanent financial imbalance of the Fund, the Management Company shall endeavour, for and on behalf of the Fund, to enter into new swap agreement(s).

Fall in the credit rating of Party B

Party B shall irrevocably agree that, if at any time throughout the life of the Bond Issue, the rating of the non-subordinated and unsecured long-term debt of Party B should fall below A1 in Moody's rating scale, it shall take any of the following options within not more than thirty (30) Business Days from the date of the occurrence of any such circumstance, on such terms and conditions as the Management Company shall see fit, after notifying the Rating Agency, in order for there to be no detriment to the ratings assigned to the Bonds in each of the Series by the Rating Agency: (i) that a third-party institution with a rating for its non-subordinated and unsecured long-term debt equal to or in excess of A1 in Moody's rating scale, will secure fulfilment of its contractual obligations, (ii) that a third-party institution with the same rating required for option (i) above will take over its contractual position and substitute it before terminating the Swap Agreement for Party B, or, as the case may be, under a new swap agreement; or (iii) that a deposit in cash or securities will be made in favour of the Fund securing fulfilment of Party B's contractual obligations covering the Swap market value and, as the case may be and based on the rating assigned to the counterparty (Party B) to the Interest Swap Agreement, put in place either of options (i) and (ii) above. All and any costs, expenses and taxes incurred in connection with compliance with the foregoing obligations shall be borne by Party B.

Nevertheless, for as long as the rating of the non-subordinated and unsecured long-term debt of Party B assigned by Moody's is A2, as it is now, and in lieu of the provisions of the immediately preceding paragraph, Party B shall be bound to make a cash deposit, as the case may be, payable into the Fund's Treasury Account, for such period and value that there is no detriment to the ratings assigned to the Bonds in each of the Series by the Rating Agency. The Fund, represented by the Management Company, may only draw the cash of such deposit in the event of a breach by Party B of the Interest Swap Agreement.

The occurrence, as the case may be, of an early termination of the Interest Swap Agreement will not in itself be an Early Amortisation event of the Bond Issue and an Early Liquidation event of the Fund referred to in sections II.11.3.2 and III.7.1 of this Offering Circular, unless in conjunction with other events or circumstances related to the net asset value of the Fund, its financial balance should be materially or permanently altered.

All matters, discrepancies, lawsuits and claims deriving from the Interest Swap Agreement shall be referred for arbitration to the Chamber of Commerce of Madrid.

The Interest Swap Agreement shall be fully terminated in the event that the Rating Agency should not confirm any of the provisional ratings assigned to each of the Series as final by the start of the Subscription Period.

The execution of the Interest Swap Agreement derives from the need to eliminate or mitigate the interest rate risk occurring in the Fund because the Loans are subject to floating interest with different benchmark indices and different review and settlement periods at the floating interest established for the Bonds based on 3-month Euribor and with quarterly accrual and settlement periods.

V.3.6 Bond Paying Agent Agreement.

The Management Company shall, for and on behalf of the Fund, enter with BANCO COOPERATIVO into a paying agent agreement to service the Bonds issued by the Fund (the "**Paying Agent Agreement**").

The obligations to be taken on by BANCO COOPERATIVO (the "**Paying Agent**") under this Agreement are summarily as follows:

- (i) Paying the Fund by 3pm (CET time) on the Closing Date, by crediting the Treasury Account, for same day value, the aggregate amount of the subscription for the Bond Issue received from the remaining

Underwriters and Placement Agents in accordance with the provisions of the Bond Issue Management, Underwriting and Placement Agreement plus the face amount of the Bonds placed and, as the case may be, subscribed for on its own account, as Underwriter and Placement Agent.

- (ii) Paying each of the Underwriters and Payment Agents on the Closing Date the amount of the underwriting and placement fee amount accrued in favour of each one, after they have in turn paid it the face amount of the Bonds they shall each have placed and, as the case may be, subscribed for on their own account up to their respective underwriting commitment.
- (iii) Handing to the Management Company Bond Issue placement dissemination control information based on the information provided in that connection by the Underwriters and Placement Agents, using for that purpose the form duly established by the CNMV.
- (iv) On each of the Bond Payment Dates, paying interest and repaying principal on the Bonds through Iberclear, as the institution in charge of the Bond accounting record, deducting the total amount of the tax withholding for return on investments that the Management Company should make, on the Fund's behalf, in accordance with applicable tax laws.
- (v) On each of the Interest Rate Fixing Dates, notifying the Management Company of the Reference Rate determined to be used as the basis for calculating the nominal interest rate applicable to each of the Bond Series.

In the event of the credit ratings assigned to BANCO COOPERATIVO falling or for any other duly justified reason which may be detrimental to the ratings granted to the Bonds by the Rating Agency, the Management Company may revoke the appointment of BANCO COOPERATIVO as Paying Agent, and shall thereupon designate a substitute institution. Should BANCO COOPERATIVO be replaced as Paying Agent, the Management Company shall be entitled to change the fee payable to the substitute institution, which may be higher than that established with BANCO COOPERATIVO under the Paying Agent Agreement.

In consideration of the services provided by the Paying Agent, the Fund shall pay it on each Payment Date during the term of the agreement, a fee of EUR six hundred (600.00), inclusive of taxes as the case may be, payable on each Bond Payment Date. This fee shall be paid provided that the Fund has sufficient liquidity and in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

In the event that the Fund should not have sufficient liquidity on a Payment Date to pay said full fee, then the amounts accrued and not paid shall be accumulated without any penalty whatsoever to the fee falling due on the following Payment Date, unless that absence of liquidity should continue, in which case the amounts due shall build up until fully paid on the Payment Date on which that situation is no longer current.

The Paying Agent Agreement shall be fully terminated in the event that the Rating Agency should not confirm the provisional ratings assigned to each of the Series as final by the start of the Subscription Period.

V. 3.7 Financial Intermediation Agreement.

The Management Company shall, for and on behalf of the Fund, enter with the Originators into a Financial Intermediation Agreement designed to remunerate these Institutions for the financial intermediation process carried out, enabling the financial transformation defining the Fund's activity, the assignment to the Fund of the Loans and the satisfactory rating assigned to each of the Bond Series.

Those institutions shall be entitled to receive from the Fund a variable subordinated remuneration which shall be determined and shall accrue upon the expiration of every quarterly period, comprising, other than for the first period, the three calendar months preceding the month of each Payment Date, in an amount equal to the positive difference, if any, between the income and expenditure, including losses brought forward from previous years, accrued by the Fund with reference to its accounts and before the close of the months of February, May, August and November, these being the last month in each quarterly period. Exceptionally, the first period shall comprise between the Fund constitution date until February 28, 2005, inclusive, this being the last day of the month preceding the first Payment Date, March 21, 2005.

The variable remuneration accrued at the close of the months of February, May, August and November shall be settled on the Payment Date immediately following the last day of each of said months, provided that the Fund has sufficient liquidity in the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

If the Fund should not have sufficient liquidity on a Payment Date in the Priority of Payments to pay the full remuneration, the variable remuneration amount accrued not paid shall accumulate without any penalty whatsoever on the remuneration payable on the following Payment Date until it is paid in full.

The Financial Intermediation Agreement shall be fully terminated in the event that the Rating Agency should not confirm any of the provisional ratings assigned to each of the Bond Series as final by the start of the Subscription Period or in the event of termination of the Bond Issue Management, Underwriting and Placement Agreement.

V.3.8 Pass-Through Certificate Custody Agreement.

The Management Company shall, for and on behalf of the Fund, enter with BANCO COOPERATIVO into a Pass-Through Certificate Custody Agreement. That deposit shall be established for the benefit of the Fund and BANCO COOPERATIVO shall therefore safe-keep the Pass-Through Certificates deposited following the Management Company's instructions.

In consideration of the services to be provided by the Custodian, the Fund shall pay a fee of 0.01 per thousand, inclusive of tax, if any, on the mean Outstanding Balance of the Pass-Through Certificates during each Interest Accrual Period, and during the term of the agreement, payable on each Bond Payment Date, provided that the Fund has sufficient liquidity in the Priority of Payments or in the Liquidation Priority of Payments, as the case may be.

If the Fund, through its Management Company, should not have sufficient liquidity in the Fund Priority of Payments and fail on a Payment Date to pay the full fee due, the unpaid amounts shall accumulate without any penalty whatsoever on the fee payable on the following Payment Dates, whereupon it shall be paid.

The Pass-Through Certificate Custody Agreement shall be fully terminated in the event that the Rating Agency should not confirm the provisional ratings assigned to each of the Bond Series as final by the start of the Subscription Period or in the event of termination of the Bond Issue Management, Underwriting and Placement Agreement.

V.4 Priority rules established in Fund payments.

V.4.1 Source and application of funds on the Bond Closing Date and until the first Payment Date, exclusive.

The source and application of the amounts available for the Fund on the Bond Issue Closing Date shall be as follows:

1. **Source:** the Fund shall have the following funds:
 - a) Bond subscription payment.
 - b) Drawdown of the Start-Up Loan principal.
 - c) Drawdown of the Subordinated Loan principal.
2. **Application:** in turn, the Fund will apply the funds described above to the following payments:

2.1 Ordinary application in the following order:

3. However, even if Class A has not been fully amortised, the Available Funds for Amortisation shall also be applied to amortising Series B and/or Series C and/or Series D on the Payment Date which is not

the last Payment Date or the Fund liquidation date on which the following circumstances are satisfied (**"Conditions for Pro Rata Amortisation"**):

- a) In order to amortise Series B, Series C and Series D:

CHAPTER VII

SMALL AND MEDIUM-SIZED ENTERPRISE FINANCING

VII.1 Small and Medium-Sized Enterprise Financing.

The Loans assigned by the Originators to the Fund upon being constituted are rights owned by the Originators derived from loans granted to non-financial small and medium-sized enterprises (legal persons and sole traders) registered in Spain, originated in a public deed or public document, as defined by the European Commission (Recommendation of May 6, 2003, replacing the Recommendation of April 3, 1996), i.e. enterprises having fewer than 250 employees, an annual turnover not exceeding EUR 50 million or an annual balance-sheet total not exceeding EUR 43 million, and conforming to the criterion of independence from one large enterprise: 25% or more of its capital or voting rights cannot belong to another enterprise, or jointly to several enterprises falling outside the definition of SME or small enterprise.

The characteristics of the loans selected from the portfolio of the Originators, which shall be mostly assigned to the Fund, are detailed in section IV.4 of this Offering Circular.

VII.2 The State Guarantee under the Order of December 28, 2001.

The Ministerial Order dated December 28, 2001 lays down the requirements to benefit from the State guarantee for securing fixed-interest securities issued by Asset Securitisation Funds in order to promote the organisation of Asset Securitisation Funds to foster business financing, as prescribed in article 52 of 2004 General State Budget Act 61/2003, December 30.

Having verified the requirements referred to in the preceding paragraph, including registration of this Offering Circular by the CNMV and constitution of the Fund, the Economy and Finance Ministry shall issue a guarantee for the Series A2(G) Bonds, which shall extend to both the principal and interest of the Bonds in those Series.

VII.3 Implications that might derive from the performance of the Loans.

In order to eliminate or mitigate the interest rate risk occurring in the Fund because the Loans are subject to floating interest rates with different benchmark indices and different review and settlement periods or fixed interest rates, the Fund has agreed an Interest Swap with BANCO COOPERATIVO.

The Loans have a floating interest rate, based on the information contained in section IV.4.e) of this Offering Circular, and are adjusted from time to time to market interest rate variations. Because of this, a high prepayment rate of the Loans is not to be expected. The provisions established for the renegotiation for determining the interest rate of Loans that might be in upper ranges in relation to the market level from time to time should also be borne in mind.

As for the obligors' creditworthiness, as set forth in section IV.4.k), some of the provisional portfolio loans which shall be the basis for the Loans to be assigned to the Fund, were liable as of October 25, 2004 for arrears in payment of amounts due, which situation was checked, as explained in the audit report attached as Appendix 4 to this Offering Circular. The Loans that will finally be assigned to the Fund shall have no overdue amounts on the date of issue for a period in excess of one (1) month, pursuant to the representation by the Originators contained in section IV.1.4.2 (11) of this Offering Circular.
