Overview

- We have reviewed the performance of seven BBVA-originated Spanish ABS SME transactions.
- As a result, we have placed our ratings on certain classes of notes in six BBVA transactions on CreditWatch negative.
- We have additionally lowered and placed on CreditWatch negative our ratings on the class C notes in two of these transactions, BBVA-6 FTPYME and BBVA-7 FTGEncAT.
- Lastly, we have affirmed our ratings in the most seasoned transaction BBVA-3 FTPYME.
- A pool of loans BBVA has granted to Spanish SMEs backs each transaction.

MADRID (Standard & Poor's) May 7, 2010--Standard & Poor's Ratings Services today placed on CreditWatch negative its credit ratings on certain classes of notes in six Banco Bilbao Vizcaya Argentaria, S.A. (BBVA) securitizations of loans to small and midsize enterprises (SMEs). In addition we have lowered and placed on CreditWatch negative our ratings on the class C notes in two of these transactions, BBVA-6 FTPYME Fondo de Titulizacion de Activos and BBVA-7 FTGEncAT Fondo de Titulizacion de Activos. The ratings on all other classes of notes in the six transactions remain unaffected.

At the same time, we have affirmed our ratings on all outstanding notes in a seventh transaction: BBVA-3 FTPYME, Fondo de Titulizacion de Activos (see ratings list below).

Today's rating actions are a result of an initial analysis of each transaction's current performance compared with its actual capital structure.
and the subsequent credit enhancement available to each class of notes.

We based our affirmation of the ratings on BBVA-3 FTPYME's notes on the high level of credit support available to these notes and the performance of the underlying collateral.

Our analysis also indicates that the other six transactions are exposed to a risk that current arrears will become defaulted loans in the near future. Most likely, these transactions do not currently have enough credit support to maintain the current outstanding ratings on the junior classes.

Finally, we have lowered and placed on CreditWatch negative our ratings on BBVA-6 FTPYME and BBVA-7 FTGENCAT's junior notes. Indeed, after amortizing their senior notes, three transactions--BBVA-5 FTPYME (which is wrapped by a European Investment Fund guarantee), BBVA-6 FTPYME, and BBVA-7 FTGENCAT--have accumulated a principal deficiency of €1.8 million, €0.9 million, and €0.37 million, respectively.

The following table reports the summary information for each transaction as per the last investor reports available.

We will complete our updated credit and cash flow analyses to assess whether current credit enhancement levels are commensurate with current ratings. We will maintain contact with the originator to monitor the delinquent loans and obtain updated loan level data.

A portfolio of loans BBVA has granted to SMEs across Spain back the notes in these seven transactions (as an exception, BBVA-7 FTGENCAT's pool is fully concentrated in Catalunya).
