Overview

We have updated our assumptions for auto and consumer ABS transactions to reflect the effect of the spread of COVID-19 and the associated government measures to contain it.

The changes include updated liquidity, credit, and residual value assumptions.

Following the application of our updated assumptions and all our relevant structured finance criteria, we have placed on CreditWatch negative our ratings on seven classes in four German, French, and Spanish ABS transactions.

FRANKFURT (S&P Global Ratings) May 11, 2020--S&P Global Ratings today placed on CreditWatch negative its ratings on seven classes of notes issued by four German, French, and Spanish ABS transactions (see list below).

Today's rating actions follow our updated credit and cash flow assumptions that we apply in our European auto and consumer ABS analysis (see "European Auto And Consumer ABS: Analysis Adjusted To Reflect COVID-19 Effects (/en_US/web/guest/article/-/view/sourceld/11482573)," published May 11, 2020). The adjustments reflect the effects of COVID-19 and the associated lockdown and social distancing measures introduced across Europe by the respective governments since early March.

Following the application of our COVID-19 adjustments on European auto and consumer ABS transactions we rate, we have placed on CreditWatch negative seven ratings in four transactions. In our analysis, we have increased our base-case default rate assumptions for each transaction. As we do not currently believe that the expected level of macroeconomic stress warrants an overarching revision to the stressed default assumptions at the 'BBB' rating level or higher, we left these assumptions unchanged. We have also tested the impact of forbearance measures, like payment holidays, and disruptions in recovery processes in these transactions.

Based on our updated credit and cash flow analysis, tranches rated 'BBB-' and below in these transactions are exposed to a decline in transaction performance due to the lower structural credit enhancement available. Further, all four transactions are still in their revolving phase, and consequently all rated notes did not benefit from an increase of credit enhancement since closing.

For ABS tranches rated 'B-' and below, in addition to the above factors, we apply our 'CCC' criteria (see "Criteria For Assigning 'CCC+', 'CCC', 'CCC-', And 'CC' Ratings (/en_US/web/guest/article/-/view/sourceld/7554329)," published on Oct. 1, 2012). Our rating analysis makes additional considerations before assigning ratings in the 'CCC' category or 'B-' ratings.

S&P Global Ratings acknowledges a high degree of uncertainty about the rate of spread and peak of the coronavirus outbreak. Some government authorities estimate the pandemic will peak about midyear, and we are using this assumption in assessing the economic and credit implications. We believe the measures adopted to contain COVID-19 have pushed the global economy into recession (see our macroeconomic and credit updates here: www.spglobal.com/ratings). As the situation evolves, we will update our assumptions and estimates accordingly.

We will continue to review the ratings on our remaining transactions in light of these macroeconomic events and transaction performance. We will take further rating actions, including CreditWatch placements, as we deem appropriate. We will seek to resolve the CreditWatch placements within the next 90 days.

Information Specific To Structured Finance And Securitization Instruments

'sf' Identifier

The 'sf' identifier is assigned to ratings on structured finance or securitization instruments when required to comply with an applicable law or regulatory requirement or when S&P Global Ratings believes it appropriate. The addition of the 'sf' identifier to a rating does not change that rating's definition or our opinion about the issue's creditworthiness. For detailed information on the instruments assigned the 'sf' identifier, please see the appendix to "S&P Global Ratings Definitions" (https://www.standardandpoors.com/en_US/web/guest/article/-/view/sourceld/504352) for the types of instruments that carry the 'sf' identifier. To see if a credit rating has a 'sf' identifier, visit the [standardandpoors.com](https://www.standardandpoors.com) website and search for the rated entity.
