- **Serie B:** **AAA (sf)** (anterior, **AA (high) (sf)**)
- **Serie C:** **AA (high) (sf)** (anterior, **AA (low) (sf)**)

Se adjunta la comunicación emitida por DBRS Morningstar.

Madrid, 7 de marzo de 2025.

Morningstar DBRS Upgrades Credit Ratings on Two BBVA Consumo Transactions

CONSUMER LOANS & CREDIT CARDS

DBRS Ratings GmbH (Morningstar DBRS) upgraded its credit ratings on the notes issued by BBVA Consumo 10 FT (BBVA C10) and BBVA Consumo 11 FT (BBVA C11) (together, the Issuers), as follows:

BBVA C10:

- Series A Notes upgraded to AAA (sf) from AA (high) (sf)
- Series B Notes upgraded to AAA (sf) from AA (high) (sf)
- Series C Notes upgraded to AA (high) (sf) from AA (low) (sf)

BBVA C11:

- Series A Notes upgraded to AAA (sf) from AA (high) (sf)
- Series B Notes upgraded to AA (sf) from AA (low) (sf)

The upgrades follow an annual review of the transactions and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies, defaults, and losses as of the December 2024 payment dates of each transaction.
- Probability of default (PD), loss given default (LGD), and expected loss assumptions on the remaining receivables, and
- Current available credit enhancements to the rated notes to cover the expected losses at their respective rating levels.

The transactions are securitisations of Spanish consumer loan receivables originated and serviced by Banco Bilbao Vizcaya Argentaria, S.A. (BBVA). BBVA C10 closed in July 2019 with an initial revolving period of 18 months, which ended with the December 2020 payment date. BBVA C11 closed in March 2021 and had no revolving period.

PORTFOLIO PERFORMANCE

BBVA C10

As of the December 2024 payment date, loans that were two to three months in arrears represented 0.3% of the outstanding portfolio balance while the 90+ days delinquency ratio was 2.3%. The cumulative default ratio was 3.8% with cumulative recoveries of 20.9% to date.

BBVA C11

As of the December 2024 payment date, loans that were two to three months in arrears represented 0.3% of the outstanding portfolio balance while the 90+ days delinquency ratio was 0.5%. The cumulative default ratio was 3.2% with cumulative recoveries of 22.3% to date.

PORTFOLIO ASSUMPTIONS AND KEY DRIVERS

Morningstar DBRS conducted a loan-by-loan analysis of both pools of receivables and has maintained its base case PD and LGD assumptions at 4.1% and 73.7%, respectively, for both transactions.

CREDIT ENHANCEMENT

The credit enhancements to the rated notes are provided by the subordination of the junior classes of notes and the respective reserve funds.

BBVA C10

As of the December 2024 payment date, credit enhancement to the Series A, Series B, and Series C Notes were 60.3%, 41.9%, and 15.9%, respectively, up from 34.5%, 24.1%, and 9.4%, respectively, in December 2023.

BBVA C11

As of the December 2024 payment date, credit enhancement to the Series A and Series B Notes were 44.6% and 15.4%, respectively, up from 30.1% and 12.6%, respectively, in December 2023.

The Issuers also benefit from the reserve funds, as described below.

BBVA C10

The transaction benefits from a reserve fund which is available to cover senior expenses and interest shortfalls on the rated notes. The reserve fund started amortising upon the end of the revolving period and the amortisation of the Series A Notes. The reserve fund's target balance equals 0.5% of the outstanding balance of the notes, floored at EUR 2.5 million. As of the December 2024 payment date, the reserve was at its floor level.

BBVA C11

The transaction benefits from a reserve fund which is available to cover senior expenses and interest on the Series A Notes, as well as principal payments due on the Series A Notes, and as such can be used to offset defaults. Once the Series A Notes have fully amortised, the cash reserve will cover interest and principal payments due on the Series B Notes.

BBVA acts as the account bank for both transactions. Based on the account bank's reference credit rating of AA (low), one notch below the Morningstar DBRS Long-Term Critical Obligations Rating of AA, the downgrade provisions outlined in the transactions documents, and other mitigating factors inherent in the transactions structures, Morningstar DBRS considers the risk arising from the exposure to the account bank to be consistent with the credit ratings assigned to the notes of both transactions, as described in Morningstar DBRS' "Legal and Derivative Criteria for European Structured Finance Transactions" methodology.

Morningstar DBRS' credit rating on the applicable class addresses the credit risk associated with the identified financial obligations in accordance with the relevant transaction documents. Where applicable, a description of these financial obligations can be found in the transactions' respective press releases at issuance.

Morningstar DBRS' long-term credit ratings provide opinions on risk of default. Morningstar DBRS considers risk of default to be the risk that an issuer will fail to satisfy the financial obligations in accordance with the terms under which a long-term obligation has been issued.

ENVIRONMENTAL, SOCIAL, GOVERNANCE CONSIDERATIONS

There were no Environmental/Social/Governance factors that had a significant or relevant impact on the credit analysis.

A description of how Morningstar DBRS considers ESG factors within the Morningstar DBRS analytical framework can be found in the "Morningstar DBRS Criteria: Approach to Environmental, Social, and Governance Factors in Credit Ratings" at <https://>

dbrs.morningstar.com/research/437781.

Morningstar DBRS analysed the transactions structures in Intex DealMaker.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable to the credit rating is the "Master European Structured Finance Surveillance Methodology" (4 February 2025), <https://dbrs.morningstar.com/research/447080>.

Other methodologies referenced in these transactions are listed at the end of this press release.

Morningstar DBRS has applied the principal methodology consistently and conducted a review of the transactions in accordance with the principal methodology.

A review of the transactions legal documents was not conducted as the legal documents have remained unchanged since the most recent credit rating action.

For a more detailed discussion of the sovereign risk impact on Structured Finance credit ratings, please refer to "Appendix C: The Impact of Sovereign Ratings on Other Morningstar DBRS Credit Ratings" of the "Global Methodology for Rating Sovereign Governments" at: <https://dbrs.morningstar.com/research/436000>.

The sources of data and information used for these credit ratings include transaction reports provided by Europea de Titulización, S.A., S.G.F.T., and loan-level data provided by the European DataWarehouse GmbH.

Morningstar DBRS did not rely upon third-party due diligence in order to conduct its analysis.

At the time of the initial credit ratings, Morningstar DBRS was supplied with third-party assessments. However, this did not impact the credit rating analysis.

Morningstar DBRS considers the data and information available to it for the purposes of providing these credit ratings to be of satisfactory quality.

Morningstar DBRS does not audit or independently verify the data or information it receives in connection with the credit rating process.

The last credit rating actions on the transactions took place on 5 March 2024, as follows:

BBVA C10

- Series A Notes confirmed at AA (high) (sf)
- Series B Notes upgraded to AA (high) (sf) from AA (sf)
- Series C Notes upgraded to AA (low) (sf) from A (high) (sf)

BBVA C11

- Series A Notes confirmed at AA (high) (sf)
- Series B Notes confirmed at AA (low) (sf)

The lead analyst responsibilities for this transaction have been transferred to Daniel Rakhmimov.

Information regarding Morningstar DBRS credit ratings, including definitions, policies, and methodologies is available at dbrs.morningstar.com.

Sensitivity Analysis: to assess the impact of changing the transactions parameters on the credit ratings, Morningstar DBRS considered the following stress scenarios as compared with the parameters used to determine the credit rating (the Base Case):

- Morningstar DBRS expected a lifetime base case PD and LGD for the pools based on a review of the current assets. Adverse changes to asset performance may cause stresses to base case assumptions and therefore have a negative effect on credit ratings.
- The base case PD and LGD of the current pools of loans for both transactions are 4.1% and 73.7%.
- The risk sensitivity overview below illustrates the credit ratings expected if the PD and LGD increase by a certain percentage over the base case assumption.

BBVA C10

Series A Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD, expected credit rating of AAA (sf)
- 50% increase in PD, expected credit rating of AAA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)

Series B Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD, expected credit rating of AAA (sf)
- 50% increase in PD, expected credit rating of AAA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)

Series C Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in LGD, expected credit rating of AA (high) (sf)
- 25% increase in PD, expected credit rating of AA (high) (sf)
- 50% increase in PD, expected credit rating of AA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of A (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of A (high) (sf)

BBVA C11

Series A Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in LGD, expected credit rating of AAA (sf)

- 25% increase in PD, expected credit rating of AAA (sf)
- 50% increase in PD, expected credit rating of AAA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)

Series B Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (sf)
- 50% increase in LGD, expected credit rating of AA (sf)
- 25% increase in PD, expected credit rating of AA (sf)
- 50% increase in PD, expected credit rating of AA (low) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AA (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AA (low) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of A (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of A (sf)
