Transaction Summary

The transactions comprise residential mortgages originated and serviced by Bankinter, S.A..

KEY RATING DRIVERS

Counterparty Dependency

Bankinter 9T class C notes are capped at the level of the account bank provider's deposit rating (Banco Santander S.A., A-/Stable/F2, deposit rating A). The rating cap reflects the excessive counterparty dependence on the SPV account bank holding the cash reserves, as the sudden loss of these amounts could imply a downgrade of 10 or more notches of the notes in accordance with Fitch's Structured Finance and Covered Bonds Counterparty Rating Criteria.

Credit Enhancement (CE) Trends

Fitch expects CE ratios to continue increasing in the short term for Bankinter 9P due to sequential amortisation. However, CE ratios could decrease if the pro-rata amortisation mechanism is activated as the notes will amortise in reverse order of seniority until their share reduces to the double of the initial share. The switch to pro-rata amortisation will significantly reduce the current level of protection.

Bankinter 9T is already amortising in reverse order of seniority as the conditions to amortise pro-rata are met. However, once the portfolio factor falls below 10% (currently 12.6% and 18.3% respectively) they will amortise fully sequentially. Fitch has conducted a sensitivity in its cash flow model, which shows the ratings will not be materially affected by the reduction of CE resulting from the amortisation in reverse order of seniority during the pro-rata phase.

Resilient to Additional Stresses

The rating affirmations and the Stable Outlooks on the notes reflects Fitch's view that the securitisation notes are sufficiently protected by CE and excess spread to absorb the additional projected losses as defined within the agency reports: EMEA RMBS: Criteria Assumptions Updated due to Impact of the Coronavirus Pandemic and Spain RMBS: Criteria Assumptions Updated Due to Decree Law in Catalonia.

The rating actions also reflect a broadly stable asset performance outlook, driven by the low share of loans in payment moratoria schemes, and the improved macro-economic outlook for Spain as described in Fitch's latest Global Economic Outlook dated June 2021. Fitch does not expect the level of late-stage arrears to materially increase, and therefore no arrears adjustment has been made in our analysis. Moreover, the analysis is not influenced by the Covid-19 downside scenario in line with the agency's report "Fitch Ratings Retires Coronavirus Baseline and Downside Scenarios" dated 15 June 2021.

Payment Interruption Risk Mitigated

Fitch views the transactions as sufficiently protected against payment interruption risk. In a scenario of servicer disruption, liquidity sources provide a sufficient buffer to cover senior fees and interest payment obligations on the senior notes while an alternative servicing arrangement is implemented.

RATING SENSITIVITIES

Factors that could, individually or collectively, lead to positive rating action/upgrade:

For Bankinter 9P class A notes and Bankinter 9T class A and B notes are rated at the highest level on Fitch's scale and therefore cannot be upgraded.

For Bankinter 9T class C notes, an upgrade of the SPV account bank's long-term deposit rating could trigger a corresponding upgrade of the notes. This is because the notes' ratings are capped at the bank rating given the excessive counterparty risk exposure.

Factors that could, individually or collectively, lead to negative rating action/downgrade:

For Bankinter 9P class A notes and Bankinter 9T class A and B notes, a downgrade to Spain's Long-Term Issuer Default Rating (IDR) that could lower the maximum achievable rating for Spanish structured finance transactions. This is because the class A and B notes are rated at 'AAAsf', the maximum achievable rating in Spain, six notches above the sovereign IDR.

For Bankinter 9T class C notes, a downgrade of the SPV account bank's long-term deposit rating could trigger a corresponding downgrade of the notes. This is because the notes' ratings are capped at the bank rating given the excessive counterparty risk exposure.

A longer-than-expected economic downturn that erodes macroeconomic fundamentals and the performance of the RMBS market in Spain beyond Fitch's current base case. CE ratios unable to fully compensate the credit losses and cash flow stresses associated with higher stresses than those modelled in the current ratings scenarios, all else being equal.

Best/Worst Case Rating Scenario

International scale credit ratings of Structured Finance transactions have a best-case rating upgrade scenario (defined as the 99th percentile of rating transitions, measured in a positive direction) of seven notches over a three-year rating horizon; and a worst-case rating downgrade scenario (defined as the 99th percentile of rating transitions, measured in a negative direction) of seven notches over three years. The complete span of best- and worst-case scenario credit ratings for all rating categories ranges from 'AAAsf' to 'Dsf'. Best- and worst-case scenario credit ratings are based on historical performance. For more information about the methodology used to determine sector-specific best- and worst-case scenario credit ratings, visit <https://www.fitchratings.com/site/re/10111579>.

CRITERIA VARIATION

For Bankinter 9P, the test for excessive counterparty exposure (ECE) to the account bank, which holds the reserve fund that forms an essential share of the CE for the class B and C notes yielded a downgrade of the model-implied rating (MIR) of more than 10 notches for the class B and C bonds, implying a rating cap for the class B and C bonds at the account bank rating.

We have not capped the rating of class B at the account bank's deposit rating of 'A' because of our

expectation that the ECE test will result in a less pronounced rating impact once the transaction starts amortising sequentially, which we expect in about 20 months.

This represents a variation to the Structured Finance and Covered Bonds Counterparty Rating Criteria, with a positive impact of three notches for the class B bonds.

USE OF THIRD PARTY DUE DILIGENCE PURSUANT TO SEC RULE 17G -10

Form ABS Due Diligence-15E was not provided to, or reviewed by, Fitch in relation to this rating action.

DATA ADEQUACY

Fitch has checked the consistency and plausibility of the information it has received about the performance of the asset pools and the transactions. There were no findings that affected the rating analysis. Fitch has not reviewed the results of any third-party assessment of the asset portfolio information or conducted a review of origination files as part of its ongoing monitoring.

Fitch did not undertake a review of the information provided about the underlying asset pools ahead of the transactions' initial closing. The subsequent performance of the transactions over the years is consistent with the agency's expectations given the operating environment and Fitch is therefore satisfied that the asset pool information relied upon for its initial rating analysis was adequately reliable. Overall, Fitch's assessment of the information relied upon for the agency's rating analysis according to its applicable rating methodologies indicates that it is adequately reliable.

REFERENCES FOR SUBSTANTIALLY MATERIAL SOURCE CITED AS KEY DRIVER OF RATING

The principal sources of information used in the analysis are described in the Applicable Criteria.

PUBLIC RATINGS WITH CREDIT LINKAGE TO OTHER RATINGS

Bankinter 9T class C note rating is capped at the account bank counterparty's long-term deposit rating of 'A'.

ESG Considerations

Unless otherwise disclosed in this section, the highest level of ESG credit relevance is a score of '3'. This means ESG issues are credit-neutral or have only a minimal credit impact on the entity, either due to their nature or the way in which they are being managed by the entity. For more information on Fitch's ESG Relevance Scores, visit www.fitchratings.com/esg

For Bankinter 9T, Fitch is changing the ESG.RS to '3' from '5' for Transaction Parties & Operational Risk

as we only consider a '5' when the counterparty constraint is at a senior class level.

In issuing and maintaining its ratings and in making other reports (including forecast information), Fitch relies on factual information it receives from issuers and underwriters and from other sources Fitch believes to be credible. Fitch conducts a reasonable investigation of the factual information relied upon by it in accordance with its ratings methodology, and obtains reasonable verification of that information from independent sources, to the extent such sources are available for a given security or in a given jurisdiction. The manner of Fitch's factual investigation and the scope of the third-party verification it obtains will vary depending on the nature of the rated security and its issuer, the requirements and practices in the jurisdiction in which the rated security is offered and sold and/or the issuer is located, the availability and nature of relevant public information, access to the management of the issuer and its advisers, the availability of pre-existing third-party verifications such as audit reports, agreed-upon procedures letters, appraisals, actuarial reports, engineering reports, legal opinions and other reports provided by third parties, the availability of independent and competent third-party verification sources with respect to the particular security or in the particular jurisdiction of the issuer, and a variety of other factors. Users of Fitch's ratings and reports should understand that neither an enhanced factual investigation nor any third-party verification can ensure that all of the information Fitch relies on in connection with a rating or a report will be accurate and complete. Ultimately, the issuer and its advisers are responsible for the accuracy of the information they provide to Fitch and to the market in offering documents and other reports. In issuing its ratings and its reports, Fitch must rely on the work of experts, including independent auditors with respect to financial statements and attorneys with respect to legal and tax matters. Further, ratings and forecasts of financial and other information are inherently forward-looking and embody assumptions and predictions about future events that by their nature cannot be verified as facts. As a result, despite any verification of current facts, ratings and forecasts can be affected by future events or conditions that were not anticipated at the time a rating or forecast was issued or affirmed.

The information in this report is provided "as is" without any representation or warranty of any kind, and Fitch does not represent or warrant that the report or any of its contents will meet any of the requirements of a recipient of the report. A Fitch rating is an opinion as to the creditworthiness of a security. This opinion and reports made by Fitch are based on established criteria and methodologies that Fitch is continuously evaluating and updating. Therefore, ratings and reports are the collective work product of Fitch and no individual, or group of individuals, is solely responsible for a rating or a report. The rating does not address the risk of loss due to risks other than credit risk, unless such risk is specifically mentioned. Fitch is not engaged in the offer or sale of any security. All Fitch reports have shared authorship. Individuals identified in a Fitch report were involved in, but are not solely responsible for, the opinions stated therein. The individuals are named for contact purposes only. A report providing a Fitch rating is neither a prospectus nor a substitute for the information assembled, verified and presented to investors by the issuer and its agents in connection with the sale of the securities. Ratings may be changed or withdrawn at any time for any reason in the sole discretion of Fitch. Fitch does not provide investment advice of any sort. Ratings are not a recommendation to buy, sell, or hold any security. Ratings do not comment on the adequacy of market price, the suitability of any security for a particular investor, or the tax-exempt nature or taxability of payments made in

respect to any security. Fitch receives fees from issuers, insurers, guarantors, other obligors, and underwriters for rating securities. Such fees generally vary from US\$1,000 to US\$750,000 (or the applicable currency equivalent) per issue. In certain cases, Fitch will rate all or a number of issues issued by a particular issuer, or insured or guaranteed by a particular insurer or guarantor, for a single annual fee. Such fees are expected to vary from US\$10,000 to US\$1,500,000 (or the applicable currency equivalent). The assignment, publication, or dissemination of a rating by Fitch shall not constitute a consent by Fitch to use its name as an expert in connection with any registration statement filed under the United States securities laws, the Financial Services and Markets Act of 2000 of the United Kingdom, or the securities laws of any particular jurisdiction. Due to the relative efficiency of electronic publishing and distribution, Fitch research may be available to electronic subscribers up to three days earlier than to print subscribers.

For Australia, New Zealand, Taiwan and South Korea only: Fitch Australia Pty Ltd holds an Australian financial services license (AFS license no. 337123) which authorizes it to provide credit ratings to wholesale clients only. Credit ratings information published by Fitch is not intended to be used by persons who are retail clients within the meaning of the Corporations Act 2001

Fitch Ratings, Inc. is registered with the U.S. Securities and Exchange Commission as a Nationally Recognized Statistical Rating Organization (the "NRSRO"). While certain of the NRSRO's credit rating subsidiaries are listed on Item 3 of Form NRSRO and as such are authorized to issue credit ratings on behalf of the NRSRO (see <https://www.fitchratings.com/site/regulatory>), other credit rating subsidiaries are not listed on Form NRSRO (the "non-NRSROs") and therefore credit ratings issued by those subsidiaries are not issued on behalf of the NRSRO. However, non-NRSRO personnel may participate in determining credit ratings issued by or on behalf of the NRSRO.

Endorsement policy

Fitch's international credit ratings produced outside the EU or the UK, as the case may be, are endorsed for use by regulated entities within the EU or the UK, respectively, for regulatory purposes, pursuant to the terms of the EU CRA Regulation or the UK Credit Rating Agencies (Amendment etc.) (EU Exit) Regulations 2019, as the case may be. Fitch's approach to endorsement in the EU and the UK can be found on Fitch's [Regulatory Affairs](#) page on Fitch's website. The endorsement status of international credit ratings is provided within the entity summary page for each rated entity and in the transaction detail pages for structured finance transactions on the Fitch website. These disclosures are updated on a daily basis.
