Rating Action: Moody's upgrades rating of senior Notes in BBVA Consumo 9, FT, a Spanish Consumer ABS transaction

28 Oct 2020

Madrid, October 28, 2020 -- Moody's Investors Service ("Moody's") has today upgraded the rating of the senior Notes in BBVA Consumo 9, FT. The rating action reflects an increase in credit enhancement.

...EUR 1251.2M Class A Notes, Upgraded to Aa1 (sf); previously on Apr 23, 2019 Upgraded to Aa2 (sf)

BBVA Consumo 9, FT is a cash securitisation of consumer loans extended to obligors in Spain by Banco Bilbao Vizcaya Argentaria, S.A. (BBVA) (A2/P-1; A3(cr)/P-2(cr)).

The maximum achievable rating is Aa1 (sf) for structured finance transactions in Spain, driven by the corresponding local currency country ceiling of the country.

RATINGS RATIONALE

The upgrade action is prompted by an increase in credit enhancement for the affected Notes.

As a result of sequential amortization and ongoing deleveraging, the credit enhancement for the tranche affected by today's rating action, the Class A Notes, increased to 29.5% from 16.2% as of the latest rating action.

As part of the rating action, Moody's maintained the assumptions unchanged.

Principal Methodology

The principal methodology used in this rating was "Moody's Approach to Rating Consumer Loan-Backed ABS" published in July 2020 and available at https://www.moody's.com/researchdocumentcontentpage.aspx?docid=PBS_1230138. Alternatively, please see the Rating Methodologies page on www.moody's.com for a copy of this methodology.

The coronavirus outbreak, the government measures put in place to contain it, and the weak global economic outlook continue to disrupt economies and credit markets across sectors and regions. Our analysis has considered the effect on the performance of consumer assets from the current weak Spanish economic activity and a gradual recovery for the coming months. Although an economic recovery is underway, it is tenuous and its continuation will be closely tied to containment of the virus. As a result, the degree of uncertainty around our forecasts is unusually high.

We regard the coronavirus outbreak as a social risk under our ESG framework, given the substantial implications for public health and safety.

Factors that would lead to an upgrade or downgrade of the rating:

Factors or circumstances that could lead to an upgrade of the rating include (1) a decrease in sovereign risk; (2) performance of the underlying collateral that is better than Moody's expected; (3) deleveraging of the capital structure; and (4) improvements in the credit quality of the transaction counterparties.

Factors or circumstances that could lead to a downgrade of the rating include (1) an increase in sovereign risk; (2) performance of the underlying collateral that is worse than Moody's expects; (3) deterioration in the Notes' available credit enhancement; and (4) deterioration in the credit quality of the transaction counterparties.

REGULATORY DISCLOSURES

For further specification of Moody's key rating assumptions and sensitivity analysis, see the sections Methodology Assumptions and Sensitivity to Assumptions in the disclosure form. Moody's Rating Symbols and Definitions can be found at: https://www.moody's.com/researchdocumentcontentpage.aspx?docid=PBC_79004.

The analysis relies on an assessment of collateral characteristics to determine the collateral loss distribution, that is, the function that correlates to an assumption about the likelihood of occurrence to each level of possible losses in the collateral. As a second step, Moody's evaluates each possible collateral loss scenario using a model that replicates the relevant structural features to derive payments and therefore the ultimate potential losses for each rated instrument. The loss a rated instrument incurs in each collateral loss scenario, weighted by assumptions about the likelihood of events in that scenario occurring, results in the expected loss of the rated instrument.

Moody's quantitative analysis entails an evaluation of scenarios that stress factors contributing to sensitivity of ratings and take into account the likelihood of severe collateral losses or impaired cash flows. Moody's weights the impact on the rated instruments based on its assumptions of the likelihood of the events in such scenarios occurring.

For ratings issued on a program, series, category/class of debt or security this announcement provides certain regulatory disclosures in relation to each rating of a subsequently issued bond or Note of the same series, category/class of debt, security or pursuant to a program for which the ratings are derived exclusively from existing ratings in accordance with Moody's rating practices. For ratings issued on a support provider, this announcement provides certain regulatory disclosures in relation to the credit rating action on the support provider and in relation to each particular credit rating action for securities that derive their credit ratings from the support provider's credit rating. For provisional ratings, this announcement provides certain regulatory disclosures in relation to the provisional rating assigned, and in relation to a definitive rating that may be assigned subsequent to the final issuance of the debt, in each case where the transaction structure and terms have not changed prior to the assignment of the definitive rating in a manner that would have affected the rating. For further information please see the ratings tab on the issuer/entity page for the respective issuer on www.moodys.com.

For any affected securities or rated entities receiving direct credit support from the primary entity(ies) of this credit rating action, and whose ratings may change as a result of this credit rating action, the associated regulatory disclosures will be those of the guarantor entity. Exceptions to this approach exist for the following disclosures, if applicable to jurisdiction: Ancillary Services, Disclosure to rated entity, Disclosure from rated entity.

The rating has been disclosed to the rated entity or its designated agent(s) and issued with no amendment resulting from that disclosure.

This rating is solicited. Please refer to Moody's Policy for Designating and Assigning Unsolicited Credit Ratings available on its website www.moodys.com.

Regulatory disclosures contained in this press release apply to the credit rating and, if applicable, the related rating outlook or rating review.

Moody's general principles for assessing environmental, social and governance (ESG) risks in our credit analysis can be found at https://www.moodys.com/researchdocumentcontentpage.aspx?docid=PBC_1133569.

At least one ESG consideration was material to the credit rating action(s) announced and described above.

Please see www.moodys.com for any updates on changes to the lead rating analyst and to the Moody's legal entity that has issued the rating.

Please see the ratings tab on the issuer/entity page on www.moodys.com for additional regulatory disclosures for each credit rating.
