Madrid, 28 de abril de 2026

Morningstar DBRS Confirms Credit Ratings on Three Rural Hipotecario Transactions

RMBS

DBRS Ratings GmbH (Morningstar DBRS) confirmed its credit ratings on the rated notes issued by Rural Hipotecario XIV, FTA, Rural Hipotecario XIX, FT, and Rural Hipotecario XX, FTA (collectively, the Issuers), as follows:

Rural Hipotecario XIV, FTA (RH XIV):

- Series A Notes at AAA (sf)
- Series B Notes at AA (sf)

Rural Hipotecario XIX, FT (RH XIX):

- Class A Notes at AAA (sf)

Rural Hipotecario XX, FTA (RH XX):

- Series A Notes at AA (high) (sf)
- Series B Notes at A (low) (sf)

CREDIT RATING RATIONALE

The confirmations follow an annual review of the transactions and are based on the following analytical considerations:

- Portfolio performance, in terms of delinquencies, defaults, and losses, as of February 2026 (RH XIV and RH XIX) and March 2026 (RH XX) payment dates;
- Updated probability of default (PD), loss given default (LGD), and expected loss assumptions for the aggregate collateral pools; and
- Current available credit enhancement to the rated notes to cover the expected losses at their respective credit rating levels.

The Issuers are securitisations of prime Spanish residential mortgages originated and serviced by various Spanish savings banks, with Banco Cooperativo Español S.A. acting as the backup servicer. The transactions closed in July 2013 (RH XIV), June 2020 (RH XIX), and April 2024 (RH XX).

PORTFOLIO PERFORMANCE

The three portfolios are performing within Morningstar DBRS' expectations. As of the latest payment dates, delinquency ratios related to loans more than 90 days in arrears are as follows:

- RH XIV: 0.4%, down from 0.8% at the last annual review;
- RH XIX: 0.2%, down from 3.0% at the last annual review; and
- RH XX: 0.4%, up from 0.3% at the last annual review.

As of the latest payment dates, the gross cumulative default ratios expressed as a percentage of the initial portfolio balances were as follows:

- RH XIV: 0.6%;
- RH XIX: 0.3%; and
- RH XX: 0.0%.

PORTFOLIO ASUMPTIONS AND KEY DRIVERS

Morningstar DBRS conducted a loan-by-loan analysis on the remaining receivables, and updated its base case PD and LGD assumptions as follows:

- RH XIV: 0.9% and 1.6%, respectively;
- RH XIX: 1.4% and 0.8%, respectively; and
- RH XX: 1.4% and 2.5%, respectively.

CREDIT ENHANCEMENT

The credit enhancement for the Class A Notes in the three transactions is provided by the subordination of the Class B Notes and by the reserve fund. The notes amortise on a fully sequential basis. The credit enhancement for the Class B Notes in RH XIV and RH XX is currently zero; however, the respective reserve funds will begin to provide them support once the Class A Notes are fully repaid.

Current levels of credit enhancement for the three Class A Notes are as follows:

- RH XIV: 76.6%, up from 64.6% at the last annual review;
- RH XIX: 31.5%, up from 28.0% at the last annual; and
- RH XX: 16.8%, up from 14.7% at the last annual.

The three transactions benefit from reserve funds, which were funded at respective closing dates from the proceeds of subordinated loans.

-- For RH XIV, the primary reserve fund is available to cover senior fees and expenses, all interests due on Series A and Series B Notes, the amount needed to maintain the required secondary cash reserve, and the principal amounts due on Series A Notes. In addition, a secondary cash reserve provides liquidity to senior fees and Series A Notes interest payments.

-- For RH XIX and XX, the reserve funds are available to cover senior fees and expenses and all interest and principal amounts due on Series A Notes.

As of the February 2026 (RH XIV and RH XIX) and March 2026 (RH XX) payment dates, the reserve funds were at their respective target balance, as follows:

- RH XIV: EUR 11.3 million, or 5.0% of the initial balance of the notes. The reserve fund does not amortise throughout the life of the transaction;
- RH XIX: EUR 17.0 million, or 9.0% of the outstanding balance of the notes; and
- RH XX: EUR 29.3 million, or 4.5% of the initial balance of the notes. The reserve fund is not currently amortising, as the transaction is still within the first three years of its life.

Société Générale S.A., Sucursal en España (SocGen Spain) acts as the account bank for the three transactions. Based on Morningstar DBRS private credit rating on SocGen Spain, the downgrade provisions outlined in the transaction documents, and other mitigating factors inherent in the transactions structures, Morningstar DBRS considers the risk arising from the exposure to the account bank to be consistent with the credit ratings assigned to the notes, as described in Morningstar DBRS' "Legal Criteria for European and Asia-

Pacific Structured Finance Transactions" methodology.

Morningstar DBRS' credit ratings on the applicable classes address the credit risk associated with the identified financial obligations in accordance with the relevant transaction documents. Where applicable, a description of these financial obligations can be found in the transactions' respective press releases at issuance.

Morningstar DBRS' long-term credit ratings provide opinions on risk of default. Morningstar DBRS considers risk of default to be the risk that an issuer will fail to satisfy the financial obligations in accordance with the terms under which a long-term obligation has been issued.

ENVIRONMENTAL, SOCIAL, AND GOVERNANCE CONSIDERATIONS

There were no Environmental/Social/Governance factors that had a significant or relevant effect on the credit analysis.

A description of how Morningstar DBRS considers ESG factors within the Morningstar DBRS analytical framework can be found in the Morningstar DBRS Criteria: Approach to Environmental, Social, and Governance Factors in Credit Ratings (16 May 2025) <https://dbrs.morningstar.com/research/454196>.

Morningstar DBRS analysed the transactions structures in Intex Dealmaker.

Notes:

All figures are in euros unless otherwise noted.

The principal methodology applicable to the credit ratings is the Master European and Asia-Pacific Structured Finance Surveillance Methodology (10 March 2026) <https://dbrs.morningstar.com/research/476049>.

Other methodologies referenced in these transactions are listed at the end of this press release.

Morningstar DBRS has applied the principal methodology consistently and conducted a review of the transaction in accordance with the principal methodology.

A review of the transactions' legal documents was not conducted as the legal documents have remained unchanged since the most recent credit rating actions.

For a more detailed discussion of the sovereign risk impact on Structured Finance credit ratings, please refer to "Appendix C: The Impact of Sovereign Credit Ratings on Other Morningstar DBRS Credit Ratings" of the "Global Methodology for Rating Sovereign Governments" at: <https://dbrs.morningstar.com/research/457952>.

The sources of data and information used for these credit ratings include reports and information provided by the Management Company, Europea de Titulización, S.A., S.G.F.T., and loan-level data provided by the European DataWarehouse GmbH.

Morningstar DBRS did not rely upon third-party due diligence in order to conduct its analysis.

At the time of the initial credit ratings, Morningstar DBRS was supplied with third-party assessments for the three transactions. However, these did not affect the credit rating analysis.

Morningstar DBRS considers the data and information available to it for the purposes of providing these credit ratings to be of satisfactory quality.

Morningstar DBRS does not audit or independently verify the data or information it receives in connection with the credit rating process.

Morningstar DBRS expects Structured Finance issuers and originators of Structured Finance products to make all relevant information regarding these products available to investors to conduct their own analyses.

The last credit rating action on these transactions took place on 29 April 2025, when Morningstar DBRS took the following credit rating actions:

- RH XIV: Morningstar DBRS confirmed its AAA (sf) and AA (sf) credit ratings on Series A and Series B Notes, respectively.
- RH XIX: Morningstar DBRS confirmed its AAA (sf) credit rating on Class A Notes.
- RH XX: Morningstar DBRS upgraded its credit ratings on Series A Notes to AA (high) (sf) from AA (sf), and on Series B Notes to A (low) (sf) from BBB (high) (sf).

The lead analyst responsibilities for these transactions have been transferred to Pascale Kallas.

Information regarding Morningstar DBRS credit ratings, including definitions, policies, and methodologies, is available on dbrs.morningstar.com.

Sensitivity Analysis: To assess the impact of changing the transaction parameters on the credit ratings, Morningstar DBRS considered the following stress scenarios as compared with the parameters used to determine the credit ratings (the base case).

-- The base case PD and LGD of the pools of loans for the Issuers are as follows:

- RH XIV: 0.9% and 1.6%, respectively;
- RH XIX: 1.4% and 0.8%, respectively; and
- RH XX: 1.4% and 2.5%, respectively.

-- The Risk Sensitivity overview below illustrates the credit ratings expected if the PD and LGD increase by a certain percentage over the base case assumption.

RH XIV:

Series A Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD, expected credit rating of AAA (sf)
- 50% increase in PD, expected credit rating of AAA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)

Series B Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (sf)
- 50% increase in LGD, expected credit rating of AA (sf)
- 25% increase in PD, expected credit rating of AA (sf)
- 50% increase in PD, expected credit rating of AA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AA (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AA (sf)

RH XIX:

Class A Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD, expected credit rating of AAA (sf)
- 50% increase in PD, expected credit rating of AAA (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AAA (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AAA (sf)

RH XX:

Series A Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in LGD, expected credit rating of AA (high) (sf)
- 25% increase in PD, expected credit rating of AA (high) (sf)
- 50% increase in PD, expected credit rating of AA (high) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of AA (high) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of AA (high) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of AA (high) (sf)

Series B Notes Risk Sensitivity:

- 25% increase in LGD, expected credit rating of A (low) (sf)
- 50% increase in LGD, expected credit rating of A (low) (sf)
- 25% increase in PD, expected credit rating of A (low) (sf)
- 50% increase in PD, expected credit rating of A (low) (sf)
- 25% increase in PD and 25% increase in LGD, expected credit rating of A (low) (sf)
- 25% increase in PD and 50% increase in LGD, expected credit rating of A (low) (sf)
- 50% increase in PD and 25% increase in LGD, expected credit rating of A (low) (sf)
- 50% increase in PD and 50% increase in LGD, expected credit rating of A (low) (sf)
