RISK FACTORS

BBVA CONSUMO 10 FONDO DE TITULIZACIÓN (the “Fund” and/or the “Issuer”) is a separate fund devoid of legal personality and, pursuant to Part III of Law 5/2015 of 27 April on promoting corporate financing (*Ley 5/2015, de 27 de abril, de Fomento de la Financiación Empresarial*) (“Law 5/2015”) setting out the legal regulation of securitisations, is managed by a securitisation funds management company, EUROPEA DE TITULIZACIÓN, S.A., SOCIEDAD GESTORA DE FONDOS DE TITULIZACIÓN (the “Management Company” or “EUROPEA DE TITULIZACIÓN”). The Fund shall only bear liability for its obligations to its creditors with its assets.

1 Risks derived from the assets backing the issue

a) Receivable default risk

The holders of the Notes issued by the Fund and the lenders to the Fund shall bear the risk of default on the Receivables pooled in the Fund.

BANCO BILBAO VIZCAYA ARGENTARIA, S.A. (BBVA or the “Originator”), as Originator, shall accept no liability whatsoever for the Obligors’ default of principal, interest or any other amount they may owe under the Receivables. Under Article 348 of the Commercial Code and Article 1529 of the Civil Code, BBVA shall be liable to the Fund exclusively for the existence and lawfulness of the Loans, and for the personality with which the assignment is made. It will have no responsibility to warrant the successful outcome of the transaction and will not issue guarantees or security, nor undertake to repurchase the Receivables, other than the undertakings contained in section 2.2.9 of the Additional Building Block regarding substitution or repayment of Receivables failing to conform, on the date of assignment to the Fund, to the representations contained in section 2.2.8 of the Additional Building Block.

b) Limited liability

The Notes issued by the Fund neither represent nor constitute an obligation of BBVA or of the Management Company. No guarantees have been granted by any public or private organisation whatsoever, including BBVA, the Management Company or any of their subsidiary or affiliated companies.

c) Limited hedging

A high level of delinquency of the Receivables might reduce or indeed exhaust the limited hedging against Receivable losses that the Notes in each Class have as result of the existence of the credit enhancement transactions described in section 3.4.2 of the Additional Building Block.

The degree of subordination in interest payment and principal repayment between the Notes in each Class derived from the Distribution of Principal Available Funds (sections 4.9.3.1.5 of the Securities Note and 3.4.6.2.2.2 of the Additional Building Block), the Priority of Payments (section 3.4.6.2.1 of the Additional Building Block) and the Liquidation Priority of Payments (section 3.4.6.3 of the Additional Building Block) is a mechanism for differentiated hedging of the different Classes.

d) Receivable prepayment risk

There will be a prepayment of the Receivables pooled in the Fund when Obligors prepay the outstanding principal of the Receivables.

Upon the Revolving Period ending, that prepayment risk shall pass quarterly on each Payment Date to Noteholders in each Class by the partial amortisation of the Notes, to the extent applicable to them in accordance with the provisions of the rules for Distribution of Principal Available Funds contained in section 4.9.3.1.5 of the Securities Note. Constant annual early amortisation or prepayment rate (hereinafter also “CPR”) of the Receivables, based on the performance over the last twelve months of similarly characterised loans previously securitised by the Originator has been between 12% and 14%.

e) Geographical concentration risk

As detailed in section 2.2.2.1 i) of the Additional Building Block, the Autonomous Communities having the largest concentration of the address of obligors of the loans selected to be assigned to the Fund upon being established are, as a percentage of the outstanding principal, as follows: Catalonia (20.76%), Andalusia (18.01%), Madrid (11.37%) and Valencian Community (10.05%) and, altogether representing 60.20%. At this extent, any significant event (political, social, natural disaster, etc.) occurring in these Autonomous Communities could affect adversely to the creditworthiness of the obligors and therefore in its capacity to repay the loans backing the Notes.

Moreover, paragraph 2 of section 2.2.2.3 of the Additional Building Block sets down the following Global Criteria in relation to geographical concentration by Autonomous Communities to be altogether satisfied by the Receivables, including the Additional Receivables, in order to be assigned to the Fund:

- That on each assignment date, the Outstanding Balance of the Receivables for Obligors domiciled in a same Autonomous Community is not in excess of twenty-four percent (24.00%) of the total Outstanding Balance of the Receivables.
- That on each assignment date, the Outstanding Balance of the Receivables for Obligors from the three (3) Autonomous Communities with the highest representation (Outstanding Balance) is not in excess of fifty six percent (56.00%) of the total Outstanding Balance of the Receivables.

f) Risk resulting from the loan origination date concentration

As detailed in section 2.2.2.1 c) of the Additional Building Block, the largest concentration according to the year of origination of the loans selected to be assigned to the Fund upon being established are, as a percentage of the outstanding principal, as follows: year 2018 (64.46%) and year 2017 (33.29%), altogether representing 97.75%. Given this concentration and based on experience, it is expected that their delinquency rate shall not yet have reached its highest value and it is therefore possible that in the coming months the delinquency rate could rise. The weighted average age of the selected loans is 15.04 months at 8 June 2019, the portfolio selection date.

2 Risks derived from the securities

a) Issue Price and Notes' Eurosystem eligibility

The issue of all Classes of Notes is made in order to be fully subscribed for by the Originator in order to have liquid assets available which may be used as security for Eurosystem transactions (in the case of the Class A Notes) or be subsequently sold in the market, and, consequently, the terms of the issue of all Classes of Notes are not an estimate of the prices at which those Notes could be sold in the secondary market or of the Eurosystem's valuations in due course for the purpose of using them as security instruments in its lending transactions to the banking system.

The Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility. This means that the Class A Notes are intended upon issue to be deposited with *Sociedad de Gestión de los Sistemas de Registro, Compensación y Liquidación de Valores S.A.U.* ("**IBERCLEAR**") but does not necessarily mean that the Class A Notes will be recognised as eligible collateral for Eurosystem monetary policy and intraday credit operations by the Eurosystem ("**Eurosystem Eligible Collateral**") either upon issue or at any or all times during their life.

Such recognition will, inter alia, depend upon satisfaction of the Eurosystem eligibility criteria set out in the Guideline of the European Central Bank (the "**ECB**") of 19 December 2014 on the implementation of the Eurosystem monetary policy framework (ECB/2014/60) (recast) as amended and applicable from time to time (the "**Guideline**").

In addition, the Management Company (based on information supplied by the Loan Servicer) will, for as long as the Class A Notes are intended to be held in a manner which will allow Eurosystem eligibility, make loan-level data available in such manner as required by the ECB to comply with the Eurosystem eligibility criteria, subject to applicable data protection rules. Non-compliance with the eligibility criteria set out in the Guideline or with provision of loan-level data to the standards required will lead to the Class A Notes not qualifying as eligible collateral for the Eurosystem.

Neither the Fund, nor the Management Company, nor the Originator give any representation, warranty, confirmation or guarantee to any potential investor in the Class A Notes that the Class A Notes will, either upon issue, or at any or at all times during their life, satisfy all or any requirements for Eurosystem eligibility and be recognized as Eurosystem Eligible Collateral for any reason whatever. Any potential investor in the Class A Notes should make its own conclusions and seek its own advice with respect to whether or not the Class A Notes constitute Eurosystem Eligible Collateral.

b) Liquidity

Although application will be made for the Notes to be admitted to the AIAF Fixed-Income Market and trading on its regulated market, there is no assurance that the Notes will be traded on the market with a minimum frequency or volume.

In addition, there is no undertaking that any institution will be involved in secondary trading to give the Notes liquidity by offering any consideration.

c) Yield and duration

Calculation of the yield (internal rate of return) of the Notes in each Class contained in section 4.10 of the Securities Note is subject, inter alia, to the assumed Receivable prepayment and delinquency rates that may not be fulfilled.

Calculation of the average life and duration of the Notes in each Class contained in section 4.10 of the Securities Note is subject to fulfilment of Receivable repayment and, inter alia, to assumed Receivable prepayment rates that may not be fulfilled. Receivable repayment performance is influenced by a number of economic and social factors such as market interest rates, the Obligors' financial circumstances and the general level of economic activity, preventing their predictability.

No guarantee can be given as to the level of prepayments (in part or in full) that the Receivables may experience.

d) Securitisation Regulation: simple, transparent and standardised securitisation

The Regulation (EU) 2017/2402 of the European Parliament and of the Council of 12 December 2017 laying down a general framework for securitisation and creating a specific framework for simple, transparent and standardised securitisation, and amending Directives 2009/65/EC, 2009/138/EC and 2011/61/EU and Regulation (EC) No 1060/2009 and (EU) No 648/2012 (the "**Securitisation Regulation**") applies to the fullest extent to the Notes.

Pursuant to Article 18 of the Securitisation Regulation a number of requirements must be met if the Originator and the SSPE wish to use the designation 'STS' or 'simple, transparent and standardised' for securitisation transactions initiated by them. The Originator will submit a STS notification to ESMA in accordance with Article 27 of the Securitisation Regulation, pursuant to which compliance with the requirements of Articles 19 to 22 of the Securitisation Regulation shall be notified with the intention that the securitisation transaction described in this Prospectus is to be included in the list administered by ESMA within the meaning of Article 27 of the Securitisation Regulation. However, none of the Management Company, on behalf of the Fund, nor BBVA (in its capacity as the Originator) gives any explicit or implied representation or warranty as to (i) inclusion in the list administered by ESMA within the meaning of Article 27 of the Securitisation Regulation, and (ii) that this securitisation transaction shall be recognised or shall continue to be recognised or designated as 'STS' or 'simple, transparent and standardised' within the meaning of Article 18 of the Securitisation Regulation after the date of notification to ESMA.

Additionally, Spain has not designated the competent authority to supervise the compliance of originators, sponsors and SSPEs with Articles 18 to 27 of the Securitisation Regulation which should not be an impediment for the transaction to be considered STS.

e) Securitisation Regulation: due diligence and transparency requirements

In general, investors should make themselves aware of due-diligence requirements set out in Article 5 of Securitisation Regulation, where applicable to them, in addition to any other regulatory requirements applicable to them with respect to their investment in the Notes.

Additionally, there is at present some uncertainty in relation to some of the requirements of Securitisation Regulation, including in particular with regard to the transparency obligations as described in section 4.1.1 e) of the Additional Building Block. Therefore, the final scope of its application and impact of the conformity of the Receivables to the final regulatory technical standards is not assured (and such non-conformity may adversely and materially impact the value or liquidity of the Notes). Prospective investors must make their own decisions in this regard.

3 Risks derived from the Issuer's legal nature and operations

a) Forced substitution of the Management Company.

If the Management Company is declared insolvent or its authorisation to operate as a management company of securitisation of funds is revoked, without prejudice to the effects of such insolvency as described below, the Management Company, it shall find a substitute management company. In such event, if four months elapse from the occurrence determining the substitution and no new management company has been found willing to take over management, the Fund shall be liquidated early and the Notes issued by the same shall be amortised early, as provided for in the Deed of Incorporation and in this Prospectus.

b) Limitation of actions

Noteholders and all other creditors of the Fund shall have no recourse whatsoever against Receivable Obligor who have defaulted on their payment obligations or against BBVA. Any such rights shall lie with the Management Company, representing the Fund, without prejudice to the instructions that can be given to the Management Company by virtue of a resolution of the meeting of creditors ("**Meeting of Creditors**"), as detailed in section 4.11 of the Securities Note.

Noteholders and all other creditors of the Fund shall have no recourse whatsoever against the Fund or against the Management Company in the event of non-payment of amounts due by the Fund resulting from the existence of Receivable default or prepayment, a breach by the Originator of its obligations or by the counterparties to the transactions entered into for and on behalf of the Fund, or shortfall of the financial hedging transactions for servicing the Notes in each Class.

Noteholders and all other creditors of the Fund shall have no recourse whatsoever against the Management Company other than as derives from breaches of its obligations or failure to comply with the provisions of this Prospectus, the Deed of Incorporation and the other transaction agreements. Those actions shall be resolved in the relevant ordinary declaratory proceedings depending on the amount claimed.

4.4.3.1 Following notice served on the CNMV, the Management Company shall be entitled to proceed to early liquidation of the Fund ("**Early Liquidation**") and thereby early amortisation of the entire Note Issue ("**Early Amortisation**") on any date (which may not fall on a Payment Date) and in any of the following events (the "**Early Liquidation Events**"):

- (i) When the amount of the Outstanding Balance of the Receivables yet to be repaid is less than ten (10) percent of the Outstanding Balance of the Initial Receivables upon the Fund being incorporated, and provided that the payment obligations derived from the Notes in each Class if outstanding, may be honoured and settled in full in the Liquidation Priority of Payments.

Payment obligations derived from the Notes in each Class on the Early Liquidation date of the Fund shall at all events be deemed to be the Outstanding Principal Balance of the Class on that date plus interest accrued and not paid until that date, which amounts shall be deemed to be due and payable on that date to all statutory intents and purposes.

- (ii) Where, in any event or circumstance whatsoever unrelated to the Fund's operations, a substantial alteration occurs or the financial balance of the Fund is permanently damaged to an extent affecting Note payment obligations. This event includes such circumstances as the existence of any change in the law or supplementary implementing regulations, the establishment of withholding obligations or other situations which might permanently affect the financial balance of the Fund.
- (iii) Mandatorily, in the event that the Management Company is adjudged insolvent and/or have its licence to operate as a securitisation fund management company revoked by the CNMV, and if within a period of four months a new management company has not been designated in accordance with the provisions of section 3.7.1.3 of the Additional Building Block.
- (iv) If the Management Company has the express consent and acceptance of all Noteholders and of all lenders, as regards both payment of amounts resulting from, and the procedure for, Early Liquidation.
- (v) When a default occurs indicating a serious permanent imbalance in relation to any Note Class or is about to occur.
- (vi) Upon the lapse of eighteen (18) months from the date of the last maturity of the Receivables, even if they still have overdue amounts.
- (vii) Mandatorily, if the Meeting of Creditors approves the Early Liquidation with the relevant majority in accordance with Article 23.2.b) of Law 5/2015.

4.4.3.2 The following requirements shall have to be satisfied to proceed to that Early Liquidation of the Fund:

- (i) That Noteholders and lenders to the Fund be given not less than fifteen (15) Business Days' notice, as prescribed in section 4.1.3.2 of the Additional Building Block, of the Management Company's resolution to proceed to Early Liquidation of the Fund.
- (ii) That the Management Company previously advise the CNMV and the Rating Agencies of the notice indicated in the preceding paragraph.
- (iii) The notice of the Management Company's resolution to proceed to Early Liquidation of the Fund shall contain a description (i) of the event or events triggering Early Liquidation of the Fund, (ii) of the liquidation procedure, and (iii) of the manner in which the Note payment obligations are to be honoured and settled in the Liquidation Priority of Payments.

4.4.3.3 In order for the Fund, through its Management Company, to proceed to the Early Liquidation of the Fund and the Early Amortisation of the Note Issue, the Management Company shall, for and on behalf of the Fund:

- (i) Proceed to sell the Receivables remaining in the Fund at a price initially not less than the sum of the principal still outstanding plus interest accrued and not paid on the relevant Receivables, subject to the provisions of paragraph (iv) below.
- (ii) Proceed to terminate the agreements that are not necessary for the Fund liquidation procedure.
- (iii) Be entitled to arrange for a loan, which shall be fully allocated to early amortisation of the Notes in Classes A, B, C, D and E then outstanding. Financial expenses due shall be paid and loan principal shall be repaid in accordance with the Liquidation Priority of Payments.
- (iv) Finally, both due to the preceding actions falling short and the existence of Receivables or other remaining assets of the Fund, the Management Company shall proceed to sell them and shall therefore invite a bid from at least three (3) entities who may, in its view, give a fair price if the Early Liquidation Events should be other than (i) of section 4.4.3.1 above. The Management Company shall be bound to accept the best bid received for the Receivables and for the assets on offer. In order to set the fair price, the Management Company may secure such valuation reports as it shall deem necessary. In no case will the underlying assets be automatically liquidated at market value.

In (i) and (iv) above, the Originator shall have a pre-emptive right and will therefore have priority over third parties, on such terms as may be established by the Management Company, to voluntarily acquire the Receivables and other of their assets still on the assets of the Fund, and in (iii) above, the Originator shall have priority to grant to the Fund, as the case may be, the loan intended for early amortisation of the Notes in the Classes A, B, C, D and E then outstanding. To that end, the Management Company shall send the Originator a list of the assets and of third-party bids received, if any, and the latter may use that pre-emptive right for all of the Receivables and other remaining assets offered by the Management Company or the loan, within ten (10) Business Days of receiving said notice from the Management Company, and provided that its bid is at least equal to the best of the third-party bids, if any. The Originator shall notify the Management Company that the exercise of the pre-emptive right was subject to its usual credit review procedures and that the exercise of the right is not designed to implicitly support securitisation.

4.4.3.4 The Management Company shall forthwith apply all proceeds obtained from time to time from the sale of the remaining Fund's assets to paying the various items, in such manner, amount and order as shall be requisite in the Liquidation Priority of Payments, other than the amounts, if any, drawn under the loan arranged for early amortisation and the payment of the interest of the Notes in the Classes A, B, C, D and E then outstanding, which shall be applied to honouring the payment obligations for the Notes in those Classes.

4.4.4 Termination of the Fund

The Fund shall terminate in any case, and after the relevant legal procedure is carried out and concluded, as a consequence of the following circumstances:

- (i) The Receivables pooled therein have been fully repaid and the sale or liquidation of any other remaining assets of the Fund has been completed.
- (ii) Upon the Class A, B, C, D and E Notes being fully amortised and repaid.
- (iii) When the Early Liquidation procedure established in section 4.4.3 above is over.
- (iv) When all the liabilities have been fully paid.
- (v) At all events, upon final liquidation of the Fund on the Final Maturity Date (on 18 September 2033 or the following Business Day if that is not a Business Day).
- (vi) Upon termination of the Fund's incorporation in the event that DBRS or S&P do not confirm any of the provisional ratings assigned to the Notes as final ratings by 1pm (CET) on 9 July 2019. In this event, the

Management Company shall cancel the incorporation of the Fund, the assignment to the Fund of the Initial Receivables and the Note Issue.

In this case, termination of the incorporation of the Fund shall be notified to the CNMV as soon as such is confirmed, and shall be publicised by means of the procedure specified in section 4.1.3.2 of the Additional Building Block. Within not more than one (1) month after the occurrence of this event of termination, the Management Company shall execute a statutory declaration before a notary declaring that the Fund's obligations have been settled and terminated and that the Fund has terminated. However, the Management Company shall defray the Fund set-up and Note Issue expenses payable with the Start-Up Loan, and the Start-Up Loan agreement shall not be terminated because of the termination of the incorporation of the Fund, but shall rather be cancelled after those amounts are settled, principal repayment being subordinated to fulfilment of all other obligations undertaken by the Management Company, acting for and on behalf of the Fund.

In the event that there should be any remainder upon the Fund being liquidated and after making all payments to the various creditors by distributing the Liquidation Available Funds in the Liquidation Priority of Payments, that remainder shall be for the Originator on the liquidation terms established by the Management Company. If that remainder is not a liquid amount, since relating to Receivables that are pending the outcome of court or out-of-court proceedings instituted as a result of default by the Receivable Obligor, both their continuation and the proceeds of their termination shall be for the Originator.

In any event, the Management Company, acting for and on behalf of the Fund, shall not proceed to terminate the Fund and strike it off the relevant administrative registers until the Receivables and the Fund's remaining assets have been liquidated and the Fund's Liquidation Available Funds have been distributed, in the Fund Liquidation Priority of Payments.

Upon a period of three (3) months elapsing from liquidation of the Fund's remaining assets and distribution of the Liquidation Available Funds and in any case before the Final Maturity Date, the Management Company shall execute a statutory declaration before a notary declaring (i) that the Fund has terminated, and the events prompting its termination, (ii) if applicable, how Noteholders, lenders and the CNMV were notified, and (iii) how the Liquidation Available Funds were distributed in the Liquidation Priority of Payments; and all other appropriate administrative procedures being observed. The Management Company will submit that statutory declaration to the CNMV.

4.5.1 Tax system of the Fund.

There follows a brief summary of the general tax regulations applicable to the Fund. This must be construed without prejudice to the particular nature of each local jurisdiction and of the regulations which may apply at the time the relevant income is obtained or declared.

The tax regime applicable to securitisation funds ("*fondos de titulización*") consists of the general provisions contained in Law 27/2014 of 27 November of Corporate Income Tax (*Ley 27/2014, de 27 de noviembre, del Impuesto sobre Sociedades*) ("**Law 27/2014**") and its implementing provisions of Law 5/2015 as well as the other provisions referred to below and the other applicable rules, which may be summarised as follows:

- (i) Securitisation funds are liable to corporate income tax according to Article 7.1.h) of Law 27/2014, subject to the general rules for determining the tax base, and to the general rate of 25 percent, and to the common rules for deductions, set-off of losses and other substantive elements of the tax.

Rule 13 of Circular 2/2016 stipulates that securitisation funds must endow provisions for the impairment of financial assets. According to Article 13.1 of Law 27/2014, regulations will be developed to establish the rules governing the circumstances used to determine the deductibility of value corrections due to impairment of the debt instruments measured at amortised cost owned by securitisation funds. Chapter III of Title I of the Corporate Income Tax Regulations approved by Royal Decree 634/2015, of 10 July (*Real Decreto 634/2015, de 10 de julio, por el que se aprueba el Reglamento del Impuesto sobre Sociedades*) (the "**Corporate Income Tax Regulation**") governs the circumstances that allow deducting the impairment of the debt instruments measured at amortised cost owned by securitisation funds. Royal Decree 683/2017, of June 30, modified Article 9 of the Corporate Income Tax Regulation and introduced a transitional regime for the impairment of debt instruments of securitisation funds. In this regard, provided that the original text of Circular 2/2016 is maintained, the deductibility of the impairments corresponding to them shall be determined by applying the criteria established under Article 9 of the Corporate Income Tax Regulation in their current version as of 31 December 2015.

According to Article 16.6.a of Law 27/2014, securitisation funds are not subject to the limitation of the tax deductibility of financial expenses.

- (ii) Investment income from securitisation funds is subject to the general rules on withholdings on account of Corporate Income Tax, with the particularity that Article 61 k) of the Corporate Income Tax Regulation stipulates that withholding does not apply to "income from mortgage participating units, mortgage loans and other credit rights that constitute revenue items for the securitisation funds". Consequently, the income from the securitised Receivables is exempt from the withholding obligation insofar as they form part of the ordinary business activity of the said funds.
- (iii) The incorporation of the Fund, as well as all the transactions carried out by the Fund which are normally considered as "corporate transactions" item of Transfer Tax and Stamp Duty, are exempt from the "corporate transactions" item of Transfer Tax and Stamp Duty, according to the provisions of Article 45.I.B) number 20.4 of the Revised Text of the Transfer Tax and Stamp Duty Act (the "**Transfer Tax and Stamp Duty Act**"), approved by Legislative Royal Decree 1/1993, on 24 September (*Real Decreto Legislativo 1/1993, de 24 de septiembre, por el que se aprueba el Texto refundido de la Ley del Impuesto sobre Transmisiones Patrimoniales y Actos Jurídicos Documentados*).
- (iv) The assignment of the Receivables to the Fund provided for in the Receivables purchase agreement, in the manner described in the Additional Building Block, is a transaction that is subject to but qualifies for an exemption from Value Added Tax ("**VAT**"), in accordance with the provisions of Article 20.One.18º e) of Law 37/1992, of 28 December, on Value Added Tax (*Ley 37/1992, de 28 de diciembre, del Impuesto sobre el Valor Añadido*) (the "**VAT Act**").

The assignment of the Receivables to the Fund provided for in the Receivables purchase agreement, in the manner described in the Additional Building Block, is a transaction that is not subject to

Transfer Tax. Likewise, it would not be subject to Stamp Duty as long as the requirements foreseen in Article 31.2 of the Transfer and Stamp Duty Act are not fulfilled.

- (v) The Fund will be subject to the general rules of VAT, with the sole particularity that the management services provided to the Fund by the Management Company will be exempt from VAT, pursuant to the provisions of Article 20.One. 18º n) of the VAT Act, and are not subject to other indirect taxes in Spain.
- (vi) The issue, subscription, transfer, reimbursement and redemption of the Notes is not subject to or exempt, as the case may be, from VAT and Transfer Tax and Stamp Duty (Article 45.I.B, number 15 of the Transfer Tax and Stamp Duty Act).
- (vii) The Fund will be subject to the information obligations set forth in the First Additional Provision of Law 10/2014 of 26 June on regulation, supervision and solvency of credit institutions (*Ley 10/2014, de 26 de junio, de ordenación, supervisión y solvencia de entidades de crédito*).

The procedure for complying with the said information obligations has been developed by Royal Decree 1065/2007, of 27 July, approving the General Regulations regarding tax management and inspection courses of action and procedures and developing the common rules of tax application procedures (*Real Decreto 1065/2007, de 27 de julio, por el que se aprueba el Reglamento General de las actuaciones y los procedimientos de gestión e inspección tributaria y de desarrollo de las normas comunes de los procedimientos de aplicación de los tributos*), as amended.

Interest settlement for each Note Class, payable on each Payment Date or on the Fund liquidation date for each Interest Accrual Period, shall be calculated for each Class in accordance with the following formula:

$$I = P \times \frac{R}{100} \times \frac{d}{360}$$

Where:

I = Interest payable on a given Payment Date or on the settlement date.

P = Outstanding Principal Balance of the Class at the Determination Date preceding that Payment Date or on the settlement date.

R = Nominal Interest Rate of the Class expressed as a yearly percentage.

d = Exact number of days in each Interest Accrual Period.

4.8.2 **Dates, place, institutions and procedure for paying interest**

Interest on the Notes in each Class will be paid until their final maturity in Interest Accrual Periods in arrears a) on 18 March, 18 June, 18 September and 18 December of each year, or the following Business Day if any of those is not a Business Day (each of those dates, a "**Payment Date**"), and interest for the then-current Interest Accrual Period will accrue until the aforementioned first Business Day, not inclusive, and b) on the Fund liquidation date, on the terms established in section 4.8.1 of this Securities Note.

Both interest resulting for Noteholders in each Class and the amount, if any, of interest accrued and not paid, shall be notified to Noteholders as described in section 4.1.1.a) of the Additional Building Block, at least two (2) Business Days in advance of each Payment Date.

Interest accrued on the Notes shall be paid on each Payment Date provided that the Fund has sufficient liquidity to do so in the Priority of Payments or on the date on which the Fund is liquidated in the Liquidation Priority of Payments.

In the event that on a Payment Date the Fund is unable to make full or partial payment of interest accrued on the Notes in either Class, in the Priority of Payments, unpaid interest amounts shall be aggregated on the following Payment Date with interest in the same Class, if any, payable on that same Payment Date, and will be paid in the Priority of Payments and applied by order of maturity if it should be impossible once

again not to pay the same fully due to a shortfall of Available Funds or, in the event of liquidation of the Fund, in the Liquidation Priority of Payments.

Overdue interest amounts shall not earn additional or late-payment interest and shall not be aggregated with the Outstanding Principal Balance of the Notes in the relevant Class.

The Fund, through its Management Company, may not defer Note interest payment beyond 18 September 2033, the Final Maturity Date, or the following Business Day if that is not a Business Day.

Notwithstanding partial or total amortisation resulting from partial amortisation as provided for in the preceding paragraph, final amortisation of Class D Notes shall occur on the Final Maturity Date (18 September 2033 or the following Business Day if that is not a Business Day), or before the Final Maturity Date, in accordance with the provisions of section 4.9.3.2 of this Securities Note, upon Early Liquidation and Early Amortisation of the Note Issue, in both cases in the Liquidation Priority of Payments.

4.9.2.5 **Amortisation of Class E Notes**

Class E Note principal shall be amortised by partial amortisation on each Payment Date, in an amount equal to the Principal Available Funds applied on each Payment Date to amortising Class E in accordance with the rules for Distribution of Principal Available Funds given in sections 4.9.3.1.4 and 4.9.3.1.5 below, prorated between the Notes in Class E proper by reducing the face amount of each Class E Note.

The first partial amortisation of Class E Notes shall not occur until Class D Notes have been fully amortised.

Notwithstanding partial or total amortisation resulting from partial amortisation as provided for in the preceding paragraph, final amortisation of Class E Notes shall occur on the Final Maturity Date (18 September 2033 or the following Business Day if that is not a Business Day), or before the Final Maturity Date, in accordance with the provisions of section 4.9.3.2 of this Securities Note, upon Early Liquidation and Early Amortisation of the Note Issue, in both cases in the Liquidation Priority of Payments.

4.9.2.6 **Amortisation of Class Z Notes**

Class Z Note principal shall be amortised by partial or total amortisation on each Payment Date:

- a) From the Payment Date falling on 18 March 2021 or on a previous Payment Date in the event of early termination of the Revolving Period, inclusive, to the Payment Date in which the amount of the Outstanding Balance of the Receivables yet to be repaid is less than ten (10)% of the Outstanding Balance of the Initial Receivables upon the Fund being incorporated, exclusive: in an amount equal to the positive difference existing between (i) the Outstanding Principal Balance of Class Z Notes on the Determination Date preceding the relevant Payment Date and (ii) the Required Cash Reserve amount on the relevant Payment Date, in accordance with the provisions of section 3.4.2.2 of the Building Block transcribed hereinafter, and in the application priority established for that event in the application of Available Funds in the Priority of Payments, prorated between the Notes in Class Z proper by reducing the face amount of each Class Z Note:

“2. Subsequently to being set up, on each Payment Date, the Cash Reserve shall be provisioned until it reaches the Required Cash Reserve amount established herein out of the Available Funds in the Fund Priority of Payments.

The required Cash Reserve amount on each Payment Date (the “**Required Cash Reserve**”) shall be EUR ten million (€10,000,000.00) during the Revolving Period and, after the Revolving Period ends, the higher of:

- a) 0.50% of the Outstanding Principal Balance of the Class A, B and C Notes.
- b) EUR two million five hundred thousand (€2,500,000).

Notwithstanding the above, the Required Cash Reserve amount will be equal to zero once the Class A, B and C Notes are fully repaid.”

- b) From the Payment Date in which the amount of the Outstanding Balance of the Receivables yet to be repaid is less than ten (10)% of the Outstanding Balance of the Initial Receivables upon the Fund being incorporated, inclusive: in an amount equal to the lower of (i) the remaining Available Funds after the payments rank first (1st) to twelfth (12th) in the Priority of Payments and (ii) the Outstanding Principal Balance of the Class Z Notes in the Determination Date previous to the referred Payment Date, prorated between the Notes in Class Z proper by reducing the face amount of each Class Z Note.

Notwithstanding partial or total amortisation resulting from partial amortisation as provided for in the preceding paragraphs, final amortisation of Class Z Notes shall occur on the Final Maturity Date (18 September 2033 or the following Business Day if that is not a Business Day), or before the Final Maturity Date, in accordance with the provisions of section 4.9.3.2 of this Securities Note, upon Early Liquidation and Early Amortisation of the Note Issue, in both cases in the Liquidation Priority of Payments.

4.9.3 **Common characteristics applicable to Note amortisation in each Class**

4.9.3.1 **Partial amortisation**

Irrespective of the Final Maturity Date and subject to Early Amortisation of the Note Issue in the event of Early Liquidation of the Fund, the Fund shall, through its Management Company, proceed to partial amortisation of the Notes in each Class A, B, C, D, E and Z, after the Revolving Period ends, on each Payment Date on the specific amortisation terms for each Class established in section 4.9.2 of this Securities Note and on the terms described in this section common to these Classes.

4.9.3.1.1 **Determination Dates and Determination Periods**

Determination dates (the “**Determination Dates**”) means 28 (or 29 if leap-year) February, 31 May, 31 August and 30 November of each year preceding each Payment Date to determine the Determination Periods on which the Management Company on behalf of the Fund will determine the position and revenues of the Receivables and rest of Available Funds comprising such Determination Periods, regardless the Collection Dates in which the payments made by the obligors are credited in the Treasury Account of the Fund by the Servicer. The first Determination Date shall be 31 August 2019.

Determination periods (the “**Determination Periods**”) shall be periods comprising the exact number of days elapsed between every two consecutive Determination Dates, each Determination Period excluding the beginning Determination Date and including the ending Determination Date. Exceptionally:

- (i) the duration of the first Determination Period shall be equal to the days elapsed between the Date of Incorporation, inclusive, and the first Determination Date, 31 August 2019, inclusive, and
- (ii) the duration of the last Determination Period shall be equal to the days elapsed a) until the Final Maturity Date or the date on which Early Liquidation of the Fund is carried out, as provided for in section 4.4.3 of the Registration Document, b) from the Determination Date immediately preceding the Payment Date preceding the date referred to in a), not including the date referred to in b) and including the date referred to in a).

4.9.3.1.2 **Outstanding Principal Balance of the Notes**

The outstanding principal balance (the “**Outstanding Principal Balance**”) of a Class shall be the sum of the principal pending repayment (outstanding balance) at a date of all the Notes making up that Class.

By addition, the “**Outstanding Principal Balance of the Note Issue**” shall be the sum of the Outstanding Principal Balance of Classes A, B, C, D, E and Z making up the Note Issue and the “**Outstanding Principal Balance of the Collateralised Notes**” shall be the sum of the Outstanding Principal Balance of Classes A, B, C, D and E.

4.9.3.1.3 **Principal Withholding on each Payment Date**

On each Payment Date, the Available Funds shall be applied in seventh (7th) place in the Priority of Payments for withholding the amount designed for acquiring Additional Receivables and, after the Revolving Period ends, for amortising the Class A, B, C, D and E Notes as a whole (“**Principal Withholding**”), in an amount equal to the positive difference, if any, on the Determination Date preceding the relevant Payment Date, between (i) the Outstanding Principal Balance of the Collateralised Notes, and (ii) the sum of a) the Outstanding Balance of Non-Doubtful Receivables and b) the Principal Account balance.

Depending on the liquidity existing on each Payment Date, the amount of the Available Funds actually applied to Principal Withholding shall be included among the Principal Available Funds and be applied in accordance with the rules for Distribution of Principal Available Funds established in section 4.9.3.1.5 below.

4.9.3.1.4 **Principal Available Funds on each Payment Date**

The principal available funds on each Payment Date (the “**Principal Available Funds**”) shall be the following:

- a) the Principal Withholding amount actually applied in seventh (7th) place of the Available Funds on the relevant Payment Date, and
- b) until the Payment Date next succeeding the end of the Revolving Period, inclusive, the Principal Account balance.

4.9.3.1.5 **Distribution of Principal Available Funds**

The Principal Available Funds shall be applied on each Payment Date in accordance with the following rules (“**Distribution of Principal Available Funds**”):

1. During the Revolving Period, the Principal Available Funds shall be applied to payment of the assignment price comprising the nominal value of the outstanding principal of the Additional Receivables acquired by the Fund on the relevant Payment Date.

The remaining Principal Available Funds not used for acquiring Additional Receivables shall remain credited to the Principal Account.

2. After the Revolving Period ends, the Principal Available Funds shall be sequentially applied first to amortising Class A until fully amortised, second to amortising Class B Notes until fully amortised, third to amortising Class C Notes until fully amortised, fourth to amortising Class D Notes until fully amortised and fifth and lastly to amortising Class E Notes until fully amortised.

4.9.3.2 **Early Amortisation of the Note Issue**

Subject to the Fund’s obligation, through its Management Company, to proceed to final amortisation of the Notes on the Final Maturity Date or partial amortisation of each Class before the Final Maturity Date, the Management Company shall be authorised to proceed, as the case may be, to Early Liquidation of the Fund and hence Early Amortisation of the entire Note Issue in the Early Liquidation Events and subject to the requirements established in section 4.4.3 of the Registration Document and subject to the Liquidation Priority of Payments.

4.9.3.3 Final Maturity Date

The Final Maturity Date and consequently final amortisation of the Notes is 18 September 2033 or the following Business Day if that is not a Business Day, without prejudice to the Management Company, for and on behalf of the Fund, and in accordance with the provisions of sections 4.9.3.1 and 4.9.3.2 of this Securities Note, proceeding to amortise the entire Note Issue before the Final Maturity Date. Final amortisation of the Notes on the Final Maturity Date shall be made subject to the Liquidation Priority of Payments.

4.10 Indication of yield

The average life, yield, term and final maturity of the Notes in each Class depend on several factors, most significant among which are the following:

- i) Acquisition by the Fund of Additional Receivables during the Revolving Period in order to replace the decrease in the amounts of the Receivables.
- ii) The repayment schedule and system of each Receivable established in the relevant Loan agreements.
- iii) The Obligors' capacity to prepay the Receivables in whole or in part and the aggregate prepayment pace throughout the life of the Fund. In this sense, Receivable prepayments by Obligors, subject to continual changes, and estimated in this Prospectus using several performance assumptions of the future effective CPR, are very significant and shall directly affect the pace at which Notes are amortised, and therefore their average life and duration.
- iv) Changes, if any, in Receivable interest rates resulting in every instalment repayment amount differing.
- v) Obligors' delinquency in payment of Receivable instalments.

The following assumed values have been used for the above-mentioned factors in calculating the amounts tabled in section 4.10.1:

- Loan (Receivables) interest rate: the interest rate in force for each selected loan at 8 June 2019 has been used in calculating the repayment instalments and interest of each of the selected loans;
- Delinquency (in arrears in excess of 3 months) rate of Receivables: 3.86% (delinquency rate for consumer loans of similar features of those granted by BBVA as of 31 March 2019) of the Receivables outstanding balance, after 12 quarters since the Fund was incorporated (constant quarter increases of the outstanding balance of the Delinquent Loans since the Fund was incorporated up to the aforesaid 3.86%). The assumption is that the Receivable is not recovered, becoming Doubtful the totality of the Receivables;
- Doubtful (in arrears in excess of 12 months) rate of Receivables: 3.86% (arrived at on the delinquency rate commented in the preceding paragraph) after 15 quarters since the Date of Incorporation, with 30% being recovered within 18 months of becoming doubtful, resulting in a cumulative Doubtful rate since the incorporation of the Fund with respect to the initial outstanding balance of the loans of 7.15%, 6.89% and 6.65% for a 12.00%, 14.00% and 16.00% CPR, respectively (with these doubtful and recovery rates there would be no deferral of interest on Class B, C and D Notes);
- That the Receivable prepayment rate remains constant throughout the life of the Notes;
- That the Note Closing Date is 11 July 2019;
- That the Revolving Period ends on 18 December 2020; and
- That the final maturity of the additional Receivables acquired during the Revolving Period is less than 10 years.

4.10.1 Estimated average life, yield or return, duration and final maturity of the Notes.

Assuming that the Management Company shall exercise the Early Liquidation of the Fund and Early Amortisation of the Note Issue option provided in section 4.4.3.1(i) of the Registration Document when the Outstanding Balance of the Receivables is less than 10% of their initial Outstanding Balance upon the Fund being established, the average life, return (IRR) for the Note subscribers, duration and final maturity of the Notes for different CPRs of the Receivables, based on the performance over the last twelve months of similarly characterised loans previously securitised by the Originator, would be as follows:

The Management Company expressly states that the servicing tables described herein for each Class are merely theoretical and given for illustrative purposes, and represent no payment obligation whatsoever, on the basis that:

- Whereas Receivable CPRs are assumed to be constant respectively at 12%, 14% and 16% throughout the life of the Note Issue, as explained above the actual prepayment rate changes continually.
- The Outstanding Principal Balance of each Note Class on each Payment Date and hence interest payable on each such dates shall depend on the actual Receivable prepayment, delinquency and default rates.
- It is assumed that the Management Company will exercise the Early Liquidation option of the Fund and thereby Early Amortisation of the Note Issue when the Outstanding Balance of the Receivables is less than 10% of the Outstanding Balance of the Initial Receivables upon the Fund being incorporated, as provided in section 4.4.3 (i) of the Registration Document.

Additionally, the Meeting of Creditors shall be established upon and by virtue of the Deed of Incorporation and shall remain in force and in effect until repayment of the Notes in full or cancellation of the Fund.

A Written Resolution shall take effect as if it were an Extraordinary Resolution.

- (xii) to amend this definition of Reserved Matters.

11.2 The following are “**Allowed Modifications**”:

The Management Company may agree without the consent of the Noteholders and the Other Creditor to (i) any modification of any of the provisions of the Deed of Incorporation, the Notes or any other Transaction Document which is of a formal, minor or technical nature or is made to correct a manifest error, and (ii) any other modification, and any waiver or authorisation of any breach or proposed breach, of any of the provisions of the Deed of Incorporation, the Notes or any other Transaction Document which is in the opinion of the Management Company not materially prejudicial to the interests of the Noteholders and the Other Creditor provided that Rating Agencies confirmations are available in respect of such modification, authorisation or waiver. Article 12

to such Class (unless the Management Company considers that none of the holders of the other Class of Notes ranking senior to such Class would be materially prejudiced by the absence of such sanction); and

- (b) any Resolution or Extraordinary Resolution passed at a Meeting of Creditors of one or more Classes of Notes duly convened and held in accordance with these Rules and the Deed of Incorporation shall be binding upon all Noteholders of such Class or Classes, whether or not present at such meeting and whether or not voting.

Article 13

Relationships between Noteholders and the Other Creditor

- 13.1 Any resolution passed at a Meeting of Creditors duly convened and held in accordance with these Rules and the Deed of Incorporation shall be binding upon all Noteholders and the Other Creditor.
- 13.2 In addition, so long as any Notes are outstanding and there is, in the Management Company's sole opinion, a conflict between the interests of the Noteholders and the Other Creditor, the Management Company shall have regard solely to the interests of the Noteholders in the exercise of its discretion.

4.12 Resolutions, authorisations and approvals for issuing the securities

a) Corporate resolutions

Resolution to set up the Fund and issue the Notes:

The Executive Committee of EUROPEA DE TITULIZACIÓN's Board of Directors resolved on 4 June 2019 that:

- i) BBVA CONSUMO 10 FONDO DE TITULIZACIÓN to be set up in accordance with the legal framework provided for by Law 5/2015, and all other legal and regulatory provisions in force and applicable from time to time, including Securitisation Regulation.
- ii) Receivables assigned by BBVA under loans carried as assets of BBVA granted to Spanish individuals resident in Spain for financing consumer activities (such consumer activities to be broadly construed, and including, but not limited to, financing of obligor expenses, purchase of

goods, including motor cars or services) contributions to pension plans or for the acquisition of equities, either the initial receivables at inception or, thereafter, the additional receivables during the revolving period, to be pooled in the Fund.

iii) The Notes to be issued by the Fund.

Resolution to assign the Receivables:

BBVA's Standing Executive Committee resolved at its meeting held on 25 April 2019 to authorise the assignment, once or several times, of receivables from loans and/or credits without mortgage security, granted by BBVA for consumer financing of individuals.

In addition, that resolution provides that a revolving period of not more than 24 months may be established upon the securitisation fund or funds being set up during which BBVA may assign additional receivables amounting to not more than the amounts of the receivables assigned and repaid during the revolving period.

b) Registration by the CNMV

A condition precedent for the Fund to be established, inter alia, is that this Prospectus be approved by and entered at the CNMV, in accordance with the provisions of Article 22.1 d) of Law 5/2015.

This Prospectus has been entered in the CNMV's Official Registers.

c) Execution of the Fund public deed of incorporation

Upon the CNMV registering this Prospectus, the Management Company shall proceed, with BBVA, as Originator of the Receivables, to execute on 8 July 2019 a public deed whereby BBVA CONSUMO 10 FONDO DE TITULIZACIÓN will be incorporated and the Fund will issue the Asset-Backed Notes, and the relevant notarised certificate whereby BBVA will assign the Initial Receivables to the Fund.

The Management Company represents (i) that the contents of the Deed of Incorporation and the notarised certificates assigning the Initial Receivables shall match, in essence, the documents it has submitted to the CNMV, and (ii) the terms of the Deed of Incorporation or the notarised certificate assigning the Initial Receivables shall at no event contradict, change, alter or invalidate the contents of this Prospectus.

The Management Company shall submit a copy of the Deed of Incorporation and the notarised certificate whereby BBVA will assign the Initial Receivables to the Fund, to the CNMV to be entered in the Official Registers.

4.13 Issue date of the securities

Issuance of the Notes shall be effected by the Deed of Incorporation on 8 July 2019.

4.13.1 Pool of potential investors to whom the Notes are offered

BBVA shall subscribe for the whole Note Issue, as detailed in section 4.1.3 of this Securities Note.

4.13.2 MIFID II/ MIFIR and PRIIPs

The new regulatory framework established by Directive 2014/65/UE of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Directive 2002/92/EC and Directive 2011/61/EU ("MIFID II") and by Regulation 600/2013/UE of the European Parliament and of the Council of 15 May 2014 on markets in financial instruments and amending Regulation (EU) No 648/2012 ("MIFIR") has been mainly implemented in Spain through Royal Decree 14/2018, of 28 September and Royal Decree 1464/2018, of 21 December. The potential investors in the Notes must carry out their own analysis on the risks and costs which MIFID II/ MIFIR or their future technical standards may imply for the investment in Notes.

Solely for the purposes of manufacturer's (BBVA) product approval process, the target market assessment in respect of the Notes has led to the conclusion that: (i) the target market for the Notes is eligible counterparties and professional clients only, each as defined in MiFID II; (ii) who have informed or advanced knowledge and/or experience in financial products; (iii) who can bear losses up to the initially invested capital; (iv) have, among others, the objectives and needs of growth or income; (vi) have a long term investment horizon; and (v) all channels for distribution of the Notes are appropriate. Such target market assessment indicates that the Notes are incompatible with the needs, characteristic and objectives of clients which are retail clients (as defined in MiFID II) and accordingly the Notes shall not be offered or sold to any retail clients. Any person subsequently offering, selling or recommending the Notes (a "distributor") should take into consideration the manufacturers' target market assessment. However, a distributor subject to MiFID II is responsible for undertaking its own target market assessment in respect of the Notes (by either adopting or refining the manufacturers' target market assessment) and determining appropriate distribution channels.

Therefore, the Notes shall not be offered, sold or otherwise made available to any retail investor in the European Economic Area ("EEA"). For these purposes, a "retail investor" means a person who is one (or more) of: (i) a retail client as defined in point (11) of Article 4(1) of MiFID II; or (ii) a customer within the meaning of Directive 2002/92/EC (the Insurance Mediation Directive), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II. Consequently, no key information document (KID) required by Regulation (EU) No 1286/2014 of the European Parliament and of the Council of 26 November 2014 on key information documents for package retail and insurance-based investment products (the "PRIIPs Regulation") for offering or selling the Notes or otherwise making them available to retail investors in the EEA has been prepared and therefore offering or selling the Notes or otherwise making them available to any retail investor in the EEA may be unlawful under the PRIIPs Regulation.

4.13.3 **Date or period for subscribing for or acquiring the Notes**

BBVA shall subscribe for the whole of the Class A, B, C, D, E and Z Notes issue on 8 July 2019, as detailed in section 4.1.3 of this Securities Note.

4.13.4 **Method and dates for paying for the subscription**

BBVA shall pay the total price of the face value of the Notes on the Closing Date, prior to 1 pm (CET), for same value date.

4.14 **Restrictions on the free transferability of the securities**

There are no restrictions on the free transferability of the Notes. They may be freely transferred by any means admissible at Law and in accordance with the rules of the AIAF Mercado de Renta Fija ("AIAF") where their admission to trading shall be applied for by the Management Company. A transfer in the accounts (book entry) will convey the ownership of each Note. The effects of entering the conveyance to the transferee in the accounting record shall be the same as handing over the certificates and the transfer shall thenceforth be enforceable on third parties.

5 **ADMISSION TO TRADING AND DEALING ARRANGEMENTS**

5.1 **Market where the securities will be traded**

The Management Company shall, upon the Notes having been paid up, apply for this Note Issue to be admitted to trading on AIAF, which is a qualified official secondary securities market pursuant to Article 43.2 d) of the Securities Market Law. The Management Company undertakes to carry out any action that may be necessary in order for that definitive admission to trading be achieved not later than one (1) month after the Closing Date.

The Management Company expressly represents that it is aware of the requirements and terms that must be observed for the Notes to be eligible for being or remain listed and be delisted on the AIAF, in

accordance with the laws in force and the requirements of its governing bodies, and the Fund agrees through its Management Company to abide by the same.

In the event that, by the end of the one (1) month period referred to in the first paragraph of this section, the Notes are not admitted to trading on the AIAF, the Management Company shall forthwith proceed to notify Noteholders thereof, moreover advising of the reasons for such breach, using the extraordinary notice procedure provided for in section 4.1.2 of the Additional Building Block. This shall be without prejudice to the Management Company being held to be contractually liable, as the case may be, if the delay is due to events attributable to the same.

It is not expected that there will be an agreement with any entity to provide liquidity for the Notes during the term of the issue.

5.2 Paying agents and depository agents

5.2.1 Note Issue Paying Agent

The Note Issue will be serviced through BBVA as Paying Agent. Payment of interest and repayments shall be notified to Noteholders in the events and in such advance as may be provided for each case in section 4.1.1 of the Additional Building Block. Interest and amortisation of principal shall be paid to Noteholders by the relevant IBERCLEAR members and to the latter in turn by IBERCLEAR, the institution responsible for the accounting record.

The Management Company shall, for and on behalf of the Fund, enter with BBVA into a paying agent agreement (the “**Note Issue Paying Agent Agreement**”) to service the Note Issue, the most significant terms of which are given in section 3.4.7.1 of the Additional Building Block.

6 EXPENSE OF THE OFFERING AND OF ADMISSION TO TRADING

The expected expenses deriving from setting up the Fund and issue and admission to trading of the Notes amount to EUR six hundred sixty thousand (€660,000.00). These expenses include, inter alia, the initial Management Company fee, notary's fees, rating and legal advice fees, CNMV fees, AIAF and IBERCLEAR fees, initial Moody's Analytics fee, the Third Party Verification Agent (STS) initial fee and the initial fee payable to EDW.

7 ADDITIONAL INFORMATION

7.1 Statement of the capacity in which the advisers connected with the issue mentioned in the Securities Note have acted.

PCS has been designated as the Third Party Verification Agent (STS)

7.2 Other information in the Securities Note which has been audited or reviewed by auditors

Not applicable.

7.3 Statement or report attributed to a person as an expert

Deloitte has prepared the special securitisation report on the most significant features of a sample of the selected loans on the terms set forth in section 2.2 of the Additional Building Block.

7.4 Information sourced from a third party

Not applicable.

7.5 Credit ratings assigned to the securities by rating agencies

DBRS, S&P and Scope have, on the registration date of this Prospectus, assigned the following provisional ratings to the following Note Classes, and expect to assign the same final ratings by 1pm (CET) on 9 July 2019.

Note Class	DBRS Ratings	S&P Ratings	Scope Ratings
Class A	AA (sf)	AA (sf)	AA _{SF}
Class B	AA(low) (sf)	A- (sf)	BBB+ _{SF}
Class C	BBB(high) (sf)	B (sf)	BB+ _{SF}

Classes D, E and Z Notes have not been rated.

If by 1pm (CET) on 9 July 2019 DBRS or S&P do not confirm as final any of the assigned provisional ratings, this circumstance shall forthwith be notified to the CNMV and be publicised in the manner provided for in section 4.1.2.2 of the Additional Building Block. Furthermore, this circumstance would result in the incorporation of the Fund, the Note Issue and the assignment of the Initial Receivables terminating, as provided for in section 4.4.4 (v) of the Registration Document.

Rating considerations

The meaning of the ratings assigned to the Notes by DBRS, S&P and Scope can be viewed at those Rating Agencies' websites: respectively www.dbrs.com, www.standardandpoors.com and www.scooperatings.com.

The Rating Agencies' ratings are not an assessment of the likelihood of Obligors prepaying principal, nor indeed of the extent to which such prepayments differ from what was originally forecast and should not prevent potential investors from conducting their own analyses of the notes to be acquired. The ratings are not by any means a rating of the level of actuarial performance.

The Rating Agencies may revise, suspend or withdraw the final ratings assigned at any time, based on any information that may come to their notice. Those events, which shall not constitute early liquidation events of the Fund, shall forthwith be notified to both the CNMV and the Noteholders, in accordance with the provisions of section 4.1 of the Additional Building Block.

ADDITIONAL BUILDING BLOCK OF THE SECURITIES NOTE
(Annex VIII to Commission Regulation (EC) No. 809/2004 of 29 April 2004)

1. SECURITIES

1.1 Minimum denomination of the issue

The Fund shall be set up with the Initial Receivables which BBVA will assigned to the Fund upon being established and their total principal shall be equal to or slightly under EUR two thousand million (€2,000,000,000.00), the aggregate face value amount of the Class A, B, C, D and E Notes.

In addition, the Fund shall issue a Class Z of Notes with an aggregate face value of EUR ten million (€10,000,000.00), which shall be used to set up the Initial Cash Reserve and be deposited in the Treasury Account.

1.2 Confirmation that the information relating to an undertaking or obligor not involved in the issue has been accurately reproduced

Not applicable.

2. UNDERLYING ASSETS

2.1 Confirmation that the securitised assets have capacity to produce funds to service any payments due and payable on the securities

Based on the selected loan information supplied by the Originator and the requirements laid down for replacement with other loans, the Management Company confirms that, having regard to their contractual characteristics, the flows of principal, interest and any other amounts generated by the securitised Receivables allow the payments due and payable on the Notes issued to be satisfied.

Nevertheless, in order to hedge potential defaults on payment by the Obligors of the securitised Receivables, a number of credit enhancement transactions have been arranged allowing the amounts payable on the Notes in each Class to be covered to a different extent. In exceptional circumstances, the enhancement transactions could actually fall short. The credit enhancement transactions are described in section 3.4.2, 3.4.3 and 3.4.4 of this Additional Building Block.

Not all the Notes issued have the same risk of default. Hence the different credit ratings assigned by the Rating Agencies to the Notes, detailed in section 7.5 of the Securities Note.

Upon the occurrence of a (i) substantial alteration or permanent financial imbalance of the Fund due to an event or circumstance of any nature unrelated to the Fund's operations or (ii) default indicating a serious permanent imbalance in relation to any of the Note Class or suggesting that it will occur, the Management Company may proceed to Early Liquidation of the Fund and thereby Early Amortisation of the Note Issue on the terms laid down in section 4.4.3 of the Registration Document.

2.2 Assets backing the issue

The Receivables to be pooled in the Fund, represented by the Management Company, shall exclusively consist of Receivables owned by and carried as assets of BBVA under consumer Loans granted to Spanish individuals resident in Spain for financing consumer activities (such consumer activities to be broadly construed, and including, but not limited to, financing of obligor expenses, purchase of goods, including motor cars or services), contributions to pension plans or for the acquisition of equities, comprising the Initial Receivables assigned to the Fund upon being established and the Additional Receivables later assigned during the Revolving Period.

The requirements to be met by the Receivables to be assigned to the Fund, the characteristics of the Initial Receivables and the system for subsequent assignments of Additional Receivables during the Revolving Period, are described below in this section in accordance with the provisions of the Deed of Incorporation.

Maximum Receivable Amount

The maximum amount of the Outstanding Balance of the Receivables pooled in the Fund shall be EUR two thousand million (€2,000,000,000.00) (the “**Maximum Receivable Amount**”), equivalent to the aggregate face value of the Class A, B, C, D and E Notes.

2.2.1 Legal jurisdiction by which the pool of assets is governed

The securitised assets are governed by Law 16/2011, of June 24, on consumer credit agreements (*Ley 16/2011, de 24 de junio, de contratos de crédito al consumo*) (“**Law 16/2011**”) or, as applicable, depending on the date of each loan agreement, by Law 7/1995, of March 23, on consumer credit agreement (*Ley 7/1995, de 23 de marzo, de Crédito al Consumo*) (“**Law 7/1995**”).

The main novelties of Law 16/2011 lie in the definition of consumer credit, information duties, related contracts, the right to withdrawal, and arbitration as a means for resolving disputes. These statutory novelties are the result of the transposition into Spanish Law of Directive 2008/48/EC of the European Parliament and of the Council of 23 April 2008 on credit agreements for consumers and repealing Council Directive 87/102/EEC of the Council.

Some of the Loans have been originated in an agreement certified by a notary for oaths, whereas the others, namely those not exceeding a given amount (EUR 20,000 if the loan finances the purchase of a motor car and EUR 10,000 for all other loans), may have been originated in a private document. BBVA does not support in its database the Loans originated by means of agreement certified by a notary for oaths or private document.

2.2.2 Description of the general characteristics of the obligors, as well as global statistical data referred to the securitised assets

Simultaneously upon executing the Deed of Incorporation and by executing a notarised receivables assignment certificate, the Management Company, for and on behalf of the Fund, and the Originator shall perfect the agreement to assign to the Fund an undetermined number of Initial Receivables whose total principal shall be equal to the Maximum Receivable Amount (EUR 2,000,000,000.00) or a slightly lower amount closest thereto, given how difficult it is to exactly adjust to that amount because each of the Receivables will be assigned at each of their total outstanding principal upon being assigned. The difference between the Maximum Receivable Amount and the amount of the Initial Receivables shall be credited to the Principal Account.

The notarised assignment certificate, to be executed concurrently with the Deed of Incorporation, shall itemise each of the Initial Receivables assigned to the Fund, giving the main features allowing them to be identified.

The selected loan portfolio from which the Initial Receivables shall be taken comprises 226,990 loans, with outstanding principal at 8 June 2019 of EUR 2,237,615,680.63 and overdue principal of EUR 546,619.46.

Out of the selected portfolio loans, 100%, in terms of outstanding principal, are loans granted to individuals with Spanish citizenship.

The contract terms of 97.63%, in terms of outstanding principal, of the fixed-rate selected loans (96.36% of the selected portfolio loans, in terms of outstanding principal), include a potential reduction of the interest rate applicable to the loan provided that the obligor is in good standing in payments under the loan or other transactions entered into with BBVA and has purchased the products and/or services listed below:

- Payroll. Direct deposit of pay, pension, unemployment benefit or direct debit of self-employed worker contribution: rebate of up to not more than 1.00% of the interest rate.
- Loan repayment insurance purchased from BBVA Seguros, S.A.: rebate of up to not more than 2.00% of the interest rate.

The contract terms of 90.08%, in terms of outstanding principal, of the floating-rate selected loans (1.16% of the selected portfolio loans, in terms of outstanding principal), include a potential reduction of the interest rate applicable to the loan by reducing the margin over the 1-year Euribor provided that the obligor is in good standing in payments under the loan or other transactions entered into with BBVA and has purchased the products/services listed below:

- Payroll. Direct deposit of pay, pension, unemployment benefit or direct debit of self-employed worker contribution: rebate of up to not more than 1.00% of the margin rate.
- Loan repayment insurance purchased from BBVA Seguros, S.A.: rebate of up to not more than 2.00% of the interest rate.

If the maximum interest rate rebates referred to in the preceding paragraphs should apply, the average rate weighted by the selected portfolio principal at 8 June 2019 would be 5.96% instead of 6.53% as set out in subparagraph 2.2.2.1 e) below.

BBVA does not have the payment protection insurance associated with the loan identified in its database.

Review of the selected assets securitised through the Fund upon being established.

Deloitte has reviewed a sample of the 226,990 selected loans from which the Initial Receivables shall be taken. Additionally Deloitte has verified the data disclosed in the following stratification tables in respect of 226,990 selected loans.

The results, applying a confidence level of at least 95%, are set out in a special securitisation report prepared by Deloitte for the purposes of complying with Article 22.2 of the Securitisation Regulation. The Originator confirms that no significant adverse findings have been detected.

The Management Company has requested from the CNMV the exemption from the contribution of the special securitisation report according to the second paragraph of Article 22.1 c) of Law 5/2015.

2.2.2.1 Initial Receivables: General characteristics of the obligors and the economic environment, as well as global data referred to the securitised assets

*Interest rate and margin are averages weighted by the outstanding principal of the interval

BBVA has advised the Management Company that in the event that the benchmark index should be negative, in order to determine the interest rate applicable to the floating-rate loan (i) the provisions of the relevant agreement would govern; and (ii) in the event that the loan agreement should not refer specifically to any such event and the benchmark index should be negative, the interest rate applicable to the loan would be the result of adding the negative benchmark index to the margin, notwithstanding which the applicable interest rate could at no event be less than zero (0).

2. By 9am (CET) on the Offer Date, the Originator shall send the Management Company a written notice offering to assign Additional Receivables, along with a data file detailing the selected loans and their characteristics included in the assignment offer and which shall satisfy the Individual Criteria and the other characteristics given in section 2.2.8.2 of this Additional Building Block.
3. By the second (2nd) Business Day preceding the Payment Date, the Management Company shall send the Originator a written notice accepting the assignment of Additional Receivables, along with a data file with the details of the Additional Receivables accepted and their characteristics notified by the Originator.

In determining which Additional Receivables to include in the assignment acceptance, the Management Company shall:

- (i) Check that the Loans listed in the assignment offer satisfy the Individual Criteria numbered from 2 to 12 and 14 and the Global Criteria according to the characteristics notified by the Originator,

without this entailing checking compliance with the other characteristics of the Loans given in section 2.2.8.2 of this Building Block, which shall be reaffirmed by the Originator upon the purchase of Additional Receivables.

- (ii) Determine the Additional Receivables that are acceptable and eligible for assignment to the Fund for a total amount equal or as near as possible to the Acquisition Amount.

2.2.2.2.6 **Annual review of the Additional Receivables.**

The Management Company shall, on the Fund's behalf, annually commission a review, using sampling techniques, of Additional Receivables acquired during the years 2019 and 2020, this being the Revolving Period, and which remain outstanding as of 31 December 2020.

The review of the Additional Receivables in the sample shall refer to the same attributes as the audit made of the loans selected for assignment to the Fund upon being established.

That review shall be undertaken by an audit firm.

2.2.2.3 **Outstanding Balance of the Receivables**

The outstanding balance (the "**Outstanding Balance**") of a Receivable shall be the sum of the principal not yet due and the principal due and not paid to the Fund on the specific Loan at a date.

The Outstanding Balance of the Receivables at a date shall be the sum of the Outstanding Balance of each and every one of the Receivables at that date.

Delinquent Receivables (the "**Delinquent Receivables**") are Receivables that are delinquent at a date with a period of arrears in excess of three (3) months in payment of overdue amounts, excluding Doubtful Receivables. Non-delinquent Receivables (the "**Non-Delinquent Receivables**") shall be deemed to be Receivables that are not deemed to be either Delinquent Receivables or Doubtful Receivables at a date.

Doubtful Receivables (the "**Doubtful Receivables**") are Receivables that are delinquent at a date with a period of arrears equal to or greater than twelve (12) months in payment of overdue amounts or classified as bad debts by the Management Company because there are reasonable doubts as to their full repayment based on indications or information obtained from the Loan Servicer. Non-doubtful Receivables (the "**Non-Doubtful Receivables**") shall be deemed to be Receivables that are not deemed to be Doubtful Receivables at a date.

Default Receivables (the "**Default Receivables**") shall be deemed to be Receivables, whether or not overdue, the recovery of which is considered by the Management Company unlikely after an individualised analysis and Doubtful Receivables considered as such for a period in excess of thirty (30) months and which are then written off the Fund's assets. Default Receivables shall have previously been classified as Doubtful Receivables.

2.2.3 **Legal nature of the pool of assets**

The selected loans to be securitised through the Fund are loans granted by BBVA to Spanish individuals resident in Spain to finance consumer activities (such consumer activities to be broadly construed, and including, but not limited to, financing of obligor expenses, purchase of goods, including motor cars or services) contributions to pension plans or for the acquisition of equities, without special security.

The assignment of the Receivables (credit rights in the Loans) to the Fund shall be done directly by means of sale by the Originator and acquisition by the Fund in accordance with the provisions of section 3.3 of the Additional Building Block.

2.2.4 **Expiry or maturity date(s) of the assets**

The selected loans each have a final maturity date without prejudice to periodic partial repayment instalments, on the specific terms applicable to each of them.

Obligors may at any time during the life of the Loans prepay all or part of the outstanding principal, in which case the accrual of interest on the part prepaid will cease as of the date on which repayment occurs.

The final maturity date of the loans selected to be assigned to the Fund upon being established lies between 25 May 2019 and 31 December 2028. The final maturity date of the Loans assigned to the Fund upon acquisitions in successive acquisitions during the Revolving Period may not extend beyond ten (10) years after the date of assignment to the Fund.

2.2.5 Amount of the assets

The Maximum Amount of the Outstanding Balance of the Receivables pooled in the Fund shall be EUR two thousand million (€2,000,000,000.00), equivalent to the face value of the Class A, B, C, D and E Notes.

2.2.6 Loan to value ratio or level of collateralisation

The selected loans have no real estate mortgage security and the information as to the loan to value ratio does not therefore apply.

There is no overcollateralisation in the Fund since the Maximum Receivable Amount shall be EUR two thousand million (€2,000,000,000.00), the face value amount of the Class A, B, C, D and E Notes.

2.2.7 Method of creation of the assets.

The loans selected to be assigned to the Fund have been granted by BBVA following its usual credit risk analysis and assessment procedures for granting loans and credits without mortgage security to individuals for financing retail transactions or purchase of goods, including motor cars. A summary of the procedures currently in place at BBVA is described below. Any material change in the underwriting standards subsequent to the issue of this Prospectus that affects the Additional Receivables will be fully disclosed to investors and potential investors, as an extraordinary notice, pursuant to section 4.1.2 and 4.1.3 of the Additional Building Block.

1. Introduction.

BBVA has a multi-channel distribution model, with the following marketing channels, inter alia:

- **Network of branches**

BBVA has an extensive network of branches covering the entire territory of Spain. This is a consolidated and widely experienced marketing channel, with a proactive management model targeting customers and non-customers.

The BBVA network of branches is the basic point in selling consumer credit, and is the main channel for receiving transactions and is therefore the basic reference for customers, and in turn the branches are the ultimate recipient of all personal credit transactions arriving through the other distribution channels.

- **Online personal loan**

For processing and pre-authorising over the internet credits applied for by customers and non-customers over the telephone, which are always originated at the network of branches.

2. Approval System.

Transactions are assessed by means of two systems:

- *Proactive Scoring.*

Based on internal information of BBVA, risk limits are assigned, among other products, for consumer loans. This is used as an instrument supporting management and sale of lending products offering financing.

This tool scores each customer, within the consumer unit in which the customer is integrated, based on the customer's performance and relationships with BBVA, scoring the risk and assigning risk limits to the products: consumer, credit cards and current account overdrafts. If at the time of the application the customer has a sufficient available limit, the scoring opinion is positive. Otherwise, reactive scoring is used for the assessment.

- *Reactive Scoring.*

This system analyses each party involved having regard to their social and demographic and employment characteristics, and the economic situation of the family unit (income and expenditure).

The system provides a joint valuation for all parties involved and for the transaction and issues an opinion that may be:

Positive: favourable profile of the applicants/transaction and sufficient payment capacity.

Doubtful: Weak points in the borrowers and/or the transaction.

Negative: derives from unfavourable aspects in the applicants and/or the transaction mainly due to a lack of payment capacity or more unstable social, employment or economic risk profiles.

The family unit's payment capacity is arrived at by dividing the cash balance by the loan payment.

The cash balance is the difference between monthly income and expenditure.

The income is arrived at by weighting the proved net fixed and variable income according to the type of occupation. Expenditure is established based on the expenses declared by the applicant and the system estimate considering the level of income, the family unit size, the province of residence, etc.

The system relates the scoring opinion to internal and external filters and policy rules and issues a final automatic opinion which may be:

Positive: positive scoring, no internal and external filters and satisfies risk acceptance requirements.

Doubtful: positive scoring with mild default filters or doubtful scoring and/or mild default filters.

Negative: positive or doubtful scoring with worrying filters or negative scoring.

The account manager's/analyst's capacity to authorise these transactions shall be determined by the empowerment figures conferred (in regard to both customer and product).

3. Origination of consumer loan transactions.

Transactions shall be originated in contractual documents created ad hoc which are automatically printed out from the IT application. Transactions shall always be originated at the branch to which customers are naturally linked, based on:

Applicants' usual family residence (or workplace).

Previous relationships with that Branch.

The following paragraphs summarise key sections of risk decision principles, procedures and operation in consumer loan transactions.

Empowerment for risks.

Empowerment is personally conferred based on the officer's experience and qualification and need to be so empowered for discharging his or her duties, having regard to the characteristics of the unit in which he or she belongs. Since it is conferred on the individual as opposed to the position, the empowerment figure can vary when various individuals hold the same positions.

The empowerment for accepting risks originates in BBVA Group's political bodies and is cascaded down the hierarchic line. The empowerment figure shall be determined based on the officer's capability and the characteristics of the assigned market and segment.

Empowerment is conferred and used personally and accountability for its use shall also be personal. This personal liability is not lost or diluted even where decisions are made on the risks committee, which decisions shall never be collegiate decisions. Liability for the decision extends not only to the outcome but also to the appropriateness of the route chosen to study the decision and the documents provided.

Transactions which are not covered by the empowerment because of their amount, form or term or relating to customers for whom there is no empowerment shall be submitted to the next immediate empowerment level or whoever the same shall have established.

Along with the empowerment for accepting customer risks which may be generically given, there may be specific empowerments for given products or risk forms, the characteristics of which as to amount, term and method of analysis shall be defined on a case by case basis.

Certificate – Record of Transactions / Committees

This document shall list in chronological order all transactions proposed, whether they are authorised, or refused using the empowerment or submitted to be analysed and for a decision to be made by higher levels.

Studying / Authorising the Transaction:

Although the administrative procedure for these credit transactions is now digitised, the risk must be studied independently of the support procedure for analysis and the decision obtained with the scoring procedure.

It must be taken into account whether the amount, term, purpose or use, the class of customer applying, etc., comply with acceptable standards and are within the patterns established by BBVA for granting those credits.

Upon receiving a loan application, the system is provided with the necessary details on-line. The system will analyse personal and economic particulars (scoring) and check whether the applicant is already a BBVA customer or is included in any list of defaulters, issuing an automatic opinion that may be positive, negative or doubtful.

Transactions with a negative opinion are not delegated to branches.

Branches may decide on transactions receiving positive-doubtful opinions with amounts fitting in the figures for which the respective branches are empowered.

File minimum

A file shall at least have the following documents:

Group Platform application / proposal form (the applicants' signature must be affixed to the Group Platform application or proposal form).

Identity Documents: Spanish ID, etc. (checked against the originals).

Proof of income (payslip, personal income tax return, etc.).

Title deeds (where appropriate).

Pro forma invoice/Quote.

Proof of entries in any credit registries (RAI, CIRBE, ASNEF, etc.).

4. Recovery Procedure

4.1 General

The recovery philosophy at BBVA for unpaid loans consists of defining a working system allowing irregular situations to be swiftly and efficiently corrected. This is based on a highly personalised management in which the recovery agent plays a key role and in which the latter liaises permanently with the debtor. In any case, the collection management and recovery procedure shall comply with the criteria set forth in the Servicing Agreement, as described in section 3.7.2.1, sub-sections 4, 5 and 6, of this Prospectus.

4.2 Irregular investment debt

Before becoming delinquent and from the first day of default, a check is made using daily lists of failed payments (irregular investment). The client is contacted and progress is regularly monitored. In addition, letters claiming debts are sent out at different times.

4.3 Debt in Arrears

If the above steps are unsuccessful and the debt finally falls in arrears, proactive steps are simultaneously taken with the debtors in order for the arrears to be made good through the outsourcing unit.

Lastly, if the debt remains outstanding and this is deemed to be useful, all documents are immediately prepared to institute legal procedures: settlement and closure of accounts, notarised payment request and notice of legal actions (operations unit) and drawing up of the complaint with the lawyer (judicial unit).

The legal procedure to be used shall be whichever is most appropriate in view of the circumstances and the Civil Procedure Law.

The procedural stages for enforcement are the following:

- Submission of the complaint.
- Issue or admission of enforcement.
- Court summons to the debtor for payment (attachment of assets).
- Auction: application, scheduling of date for auction to be held and notice to debtor, following publication of edicts as provided for by Law.

The duration of these stages varies and overly depends on each procedure, the average being around 18 months.

4.3.1 Units involved and tools available to them

Recovery actions at BBVA are undertaken through different IT applications and centres.

There are three types of recovery units or centres:

- Operations centre: centrally carries out all tasks involved in the pre-judicial stage (preparing the judicial case file), managing friendly recovery with debtors (where appropriate), and administering and booking all collections and payments in arrears.
- Outsourcing centre: controls and monitors all matters not outsourced to external companies.
- Recovery Centres (CER): focussed on friendly collection from customers with most recent and largest debts.

These centres may act independently, each within their sphere, working with each other combining actions by one centre and the other.

The recovery procedure relies on the following tools:

- Arrears/bad debts application: manages the accounts of all matters that are deemed doubtful assets in accordance with Bank of Spain Circular 4/2016.
- Recovery management agenda: this tool is designed to boost recovery management, monitoring and control of matters rated doubtful assets/bad debts. It allows, inter alia, the exact management

status of a particular matter to be known, the steps taken to be updated, management portfolios to be set up, alerts systems to be activated, accounting movements to be looked up, etc.

To do so, it takes accounting information from the arrears/bad debts application and in turn transmits information to other tools.

- IMAS: workflow managing and ordering the pre-judicial procedure.
- Outsourcing applications: Set of applications automatically assigning and removing matters to and from external collection agencies.
- Information centre: collects information assigned by the recovery management agenda relating to delinquent accounts and legal proceedings in order to combine the same and to allow different searches to be made. It manages both daily and monthly information, providing statistical summaries and inventories of accounts. It also stands out because of its specific alerts menu for delinquent accounts or legal proceedings with arrears.

The following table shows the historical performance of consumer loans originated by BBVA with similar characteristics to selected loans with the aim to inform potential investors of the performance of the consumer loan portfolio.

Rules for substituting the Receivables or repayment to the Fund

1. In the event of early redemption of the Receivables due to prepayment of the relevant Loan principal, there will be no substitution of the Receivables affected thereby, without prejudice to the Fund’s acquisition of Additional Receivables during the Revolving Period.
2. In the event that it should be observed throughout the life of the Receivables that any of them failed on the assignment date to meet the characteristics contained in sections 2.2.8.2 or 2.2.2.2.3 of this Additional Building Block, the Originator agrees, subject to the Management Company’s consent, to proceed forthwith to remedy and, if that is not possible, substitute or redeem the affected Receivable not substituted, by automatically terminating the assignment of the affected Receivables, subject to the following rules:
 - a) The party becoming aware of the existence of a non-conforming Receivable, whether the Originator or the Management Company, shall notify the other party thereof. The Originator shall have not more than fifteen (15) Business Days from said notice to proceed to remedy that circumstance if it may be remedied or to proceed to a substitution thereof.
 - b) Substitution shall be made for the outstanding principal plus interest accrued and not paid and any amount owing to the Fund until that date on the relevant substituted Receivable.

In order to proceed to substitution, the Originator shall notify the Management Company of the characteristics of the Receivables proposed to be assigned satisfying the characteristics given in section 2.2.8.2 of this Additional Building Block and the (Individual and Global) Eligibility Criteria, and similarly characterised as to purpose, term, interest rate and outstanding principal balance. Once the Management Company has checked that the (Individual and Global) Eligibility Criteria are satisfied and expressly stated to the Originator that the Loans to be assigned are eligible, the Originator shall proceed to terminate the assignment of the affected Receivable and assign a new or new replacement Receivables.

- c) In the event of failure to substitute a Receivable on the terms set in rule b) of this section, the Originator shall proceed to automatically terminate the assignment of the affected Receivable not

replaced. That termination shall take place by a cash repayment to the Fund of the outstanding principal, interest accrued and not paid, and any other amount theretofore owing to the Fund on the relevant Receivable, which shall be paid into the Treasury Account.

- d) In the event of termination of Receivables due to substitution or repayment, the Originator shall be inured to all of the rights attaching to those Receivables accruing from the termination date or accrued and not due or overdue on that same date.

Upon any such breach occurring, the Fund may, through the Management Company: (i) demand payment of the relevant damages and losses and (ii) request replacement or repayment of the affected Receivables, in accordance with the procedure provided for in paragraph 2 above, which shall not result in the Originator as Loan Servicer guaranteeing that the transaction will be successfully completed, but only the requisite redress of the effects resulting from the breach of its duties, in accordance with Article 1124 of the Civil Code.

The expenses originated by the actions to remedy the Originator's breach shall be borne by the Originator and cannot be charged to the Fund or the Management Company. 3.3 Description of the method and date of the sale, transfer, novation or assignment of the assets or of any rights and/or obligations in the assets to the Issuer

3.3.1 Perfecting the assignment of the Receivables

3.3.1.1 Assignment of the Initial Receivables

The Originator shall, upon the Fund being established and concurrently upon the Deed of Incorporation being executed, assign the Initial Receivables to the Fund by virtue of a receivables assignment agreement, perfected in a certificate executed before a notary (*póliza notarial*).

3.3.1.2 Assignment of the Additional Receivables

Each new acquisition by the Fund of Additional Receivables shall be executed in a contract signed by the Management Company, for and on behalf of the Fund, and BBVA on each assignment date. All expenses and taxes generated from execution of the successive assignments of Additional Receivables shall be borne by the Fund.

In each new acquisition of Additional Receivables, the Management Company shall send to the CNMV on the assignment date via CIFRADOC/CNMV service:

- (i) An itemisation of all the Additional Receivables assigned to the Fund with the main features allowing them to be identified.
- (ii) A written statement by the Management Company, also signed by BBVA, that the Additional Receivables meet all the Eligibility Criteria (Individual and Global) stipulated for their assignment to the Fund and the representations and warranties set out in section 2.2.8.2 of this Additional Building Block.

3.3.1.3 The Originator's assignment of the Receivables to the Fund shall not be notified to the Obligors except if required by law.

Notwithstanding the above, in the event of insolvency, liquidation, substitution of the Loan Servicer, or a resolution process under Law 11/2015, or because the Management Company deems it reasonably justified, the Management Company may demand the Loan Servicer to notify Obligors of the transfer to the Fund of the outstanding Receivables, and that Loan payments will only be effective as a discharge if made into the Treasury Account opened in the name of the Fund. However, both in the event of the Loan Servicer failing to notify Obligors within five (5) Business Days of receiving the request and in the event of the Loan Servicer becoming insolvent, the Management Company itself shall directly or, as the case may be, through a new servicer it shall have designated, notify the relevant Obligors. BBVA (in its role as Originator) will assume the expenses involved in notifying the Obligors even when notification is made by the Management Company.

3.3.2 Receivable assignment terms

1. The Receivables will be fully and unconditionally assigned for the entire term remaining until maturity of each Loan.
2. The Originator shall be liable to the Fund for the existence and lawfulness of the Receivables to the same extent laid down in Articles 348 of the Commercial Code and 1529 of the Civil Code.
3. The Originator shall not bear the risk of default on the Receivables and shall therefore have no liability whatsoever for Obligors' default on principal, interest or any other amount they may owe in respect of the Loans. The Originator will also have no liability whatsoever to directly or indirectly guarantee that the transaction will be properly performed, and will give no guarantees or security, nor indeed agree to replace or repurchase the Receivables, other than as provided in section 2.2.9 of this Additional Building Block.
4. The Receivables under each Loan shall be assigned for all outstanding principal yet to be repaid at the assignment date and for all ordinary and late-payment interest on each Loan, and for the rights derived from the insurance policies with a payment protection plan with BBVA as the beneficiary, if any, related to the Loans.

Specifically, for illustration, without limitation, assignment of the Receivables shall provide the Fund with the following rights in relation to each Loan:

- (i) To receive all Loan principal repayment amounts due.
- (ii) To receive all Loan ordinary interest amounts due.
- (iii) To receive all Loan late-payment interest amounts due.
- (iv) To receive from Obligors and, as the case may be, from guarantors or collateral, any other amounts, assets or rights received as payment for Loan principal, interest or expenses.
- (v) To receive all possible Loan rights or compensations accruing for the Originator under the Loans, including those derived from any ancillary right attached to the Loans and under loan-related insurance policies, but not including prepayment or early cancellation fees if any such should be established for each Loan, which shall remain for the benefit of the Originator.

The above-mentioned rights will all accrue for the Fund from the respective date of assignment of the Receivables. Interest shall moreover include interest accrued and not due since the last interest settlement date on each Loan, on or before the assignment date, and overdue interest, if any, at that same date.

Loan returns constituting Fund income shall not be subject to a Corporation Tax withholding as established in Article 61.k) of Corporation Income Tax Regulations.

5. The Fund's rights resulting from the Receivables are linked to the Obligors' payments and are therefore directly affected by Loan evolution, delays, prepayments or any other Loan-related incident.
6. The Fund shall bear any and all expenses or costs paid by the Originator as Loan Servicer in connection with the recovery actions in the event of default by the Obligors on their obligations, including bringing the relevant action against the same.
7. In the event of a renegotiation of the Loans or their due dates, consented to by the Management Company, for and on behalf of the Fund, the change in the terms shall affect the Fund.
8. The Originator may be declared insolvent and insolvency of the Originator could affect its contractual relationships with the Fund, in accordance with the provisions of Insolvency Law 22/2003 of 9 July as currently worded (*Ley 22/2003, de 9 de julio, Concursal*) (the "**Insolvency Law**").

As for the transaction involving the assignment of the Receivables, the Receivables cannot be the subject of restitution other than by an action brought by the Originator's receivers, in accordance with the provisions of the Insolvency Law and after proving the existence of fraud in that transaction, all as set down in Article 16.4 of Law 5/2015. The Originator has its place of registered office in Spain. Therefore, and unless proof to the contrary, it is presumed that the centre of main interests, for the Originator is Spain in accordance with Article 3 of Regulation (EU) 2015/848 of the European Parliament and of the Council of 20 May 2015 on insolvency proceedings (recast).

In the event of the Originator being decreed insolvent, in accordance with the Insolvency Law, the Fund, acting through the Management Company, shall have a right of separation with respect to the Receivables, on the terms provided for in Articles 80 and 81 of the Insolvency Law. In addition, the Fund, acting through its Management Company, shall be entitled to obtain from the insolvent Originator the resulting Receivable amounts from the date on which insolvency is decreed, for those amounts will be considered to be the Fund's property, through its Management Company, and must therefore be transferred to the Fund, represented by the Management Company. This right of separation would not necessarily extend to the monies received and kept by the insolvent Originator on behalf of the Fund before that date, for they might be earmarked as a result of the insolvency given the essential fungible nature of money.

Notwithstanding the above, both the Prospectus and the Deed of Incorporation make provision for certain mechanisms in order to mitigate the aforesaid effects in relation to money because it is by nature a fungible asset.

Section 3.3.1.3 above provides that the Originator's assignment of the Receivables to the Fund will not be notified to the Obligors except if required by law.

Notwithstanding the above, in order to mitigate the consequences of the Originator being decreed insolvent on the rights of the Fund, in particular within the meaning of Article 1527 of the Civil Code, in the event of insolvency, liquidation or substitution of the Originator as Loan Servicer, or a resolution process under Law 11/2015, or because the Management Company deems it reasonably justified, the Management Company may demand the Loan Servicer to notify Obligors of the transfer to the Fund of the outstanding Receivables, and that Loan payments will only be effective as a discharge if made into the Treasury Account opened in the name of the Fund. However, both in the event of the Loan Servicer failing to notify Obligors within five (5) Business Days of receiving the request and in the event of the Loan Servicer becoming insolvent, the Management Company itself shall directly or, as the case may be, through a new servicer it shall have designated, notify the relevant Obligors.

3.3.3 Loan Receivable sale or assignment price

The sale or assignment price of the Receivables shall be the nominal value of the Loan principal. The aggregate amount payable by the Fund to the Originator for the assignment of the Receivables shall be an amount equivalent to the sum of (i) the nominal value of the principal outstanding on each Loan, and (ii) ordinary interest accrued and not due and overdue interest, if any, on each Loan at the assignment date (the "**accrued interest**").

The Management Company shall pay the total Receivable assignment price on behalf of the Fund to the Originator as follows:

1. The part consisting of the nominal value of the principal of all Loans, subparagraph (i) of paragraph one of this section, shall be paid by the Fund on the following dates:
 - a) Payment of the nominal value of the Initial Receivables shall be fully made on the Closing Date, for same value date, upon the subscription for the Note Issue being paid up, by means of an instruction given by the Management Company to BBVA to proceed to debit the Treasury Account opened on behalf of the Fund. BBVA shall receive no interest for the deferment of payment until the Closing Date.

- b) Payment of the nominal value of the Additional Receivables shall be made in full on the relevant Payment Date on which the assignment occurs, for same value date, by debiting the Treasury Account opened on behalf of the Fund.
2. The part consisting of interest accrued on each Receivable, subparagraph (ii) of paragraph one of this section, shall be paid by the Fund on each Collection Date, as described in section 3.4.1 below, falling on the first interest settlement date of each Receivable, and will not be subject to the Fund Priority of Payments.

If the incorporation of the Fund and hence the assignment of the Initial Receivables should terminate, in accordance with the provisions of section 4.4.4.(v) of the Registration Document, (i) so will the Fund's obligation to pay for the assignment terminate, and (ii) the Management Company shall be obliged to restore to BBVA any rights whatsoever accrued for the Fund upon the Initial Receivables being assigned.

3.3.4 Compliance with Securitisation Regulation

3.3.4.1 Risk retention under the Securitisation Regulation

The Originator will undertake in the Deed of Incorporation and in the Management and Subscription Agreement, to retain, on an ongoing basis, a material net economic interest of not less than 5 per cent. in the securitisation transaction described in this Prospectus in accordance with article 6 of the Securitisation Regulation and Article 22 of Delegated Regulation (EU) 625/2014 of 13 March 2014 supplementing CRR by way of regulatory technical standards specifying the requirements for investor, sponsor, original lenders and originator institutions relating to exposures to transferred credit risk (the “**Delegated Regulation 625/2014**”), applicable until the new regulatory technical standards to be adopted by the Commission apply, pursuant to Article 43(7) of Securitisation Regulation. As at the Closing Date, such material net economic interest will be held in accordance with Article 6 of the Securitisation Regulation and Article 22 of Delegated Regulation 625/2014 and will comprise of randomly selected exposures, equivalent to not less than 5 % of the nominal value of the securitised exposures, where such non-securitised exposures would otherwise have been securitised in the securitisation, provided that the number of potentially securitised exposures is not less than 100 at origination, pursuant to paragraph 3(c) of Article 6 of Securitisation Regulation and Article 7 of Delegated Regulation 625/2014. The material net economic interest shall not be split amongst different types of retainers and not be subject to any credit-risk mitigation or hedging.

This retention option and the methodology used to calculate the net economic interest will not change, unless such change is required due to exceptional circumstances, in which case such change will be appropriately disclosed to Noteholders and published on the following website: <https://accionistaseinversores.bbva.com/renta-fija/emisiones-y-programas/titulizaciones/>.

The Deed of Incorporation will include a representation and warranty and undertaking of the Originator as to its compliance with the requirements set forth in article 6(1) up to and including (3) of the Securitisation Regulation. In addition to the information set out herein and forming part of this Prospectus, the Originator has undertaken to make available materially relevant information to investors so that investors are able to verify compliance with Article 6 of the Securitisation Regulation in accordance with Article 7 of the Securitisation Regulation, as set out in section 4.1.1 of this Additional Building Block. In particular, the quarterly reports shall include information about the risk retained, including information on which of the modalities of retention has been applied pursuant to paragraph 1.(e)(iii) of article 7 of the Securitisation Regulation.

Each prospective investor is required to independently assess and determine the sufficiency of the information described above for the purposes of complying with article 5 of the Securitisation Regulation and none of the Management Company, on behalf of the Fund nor BBVA (in its capacity as the Originator) makes any representation that the information described above is sufficient in all circumstances for such purposes.

3.3.4.2 STS-securitisation

Pursuant to Article 18 of the Securitisation Regulation a number of requirements must be met if the Originator and the SSPEs wish to use the designation 'STS' or 'simple, transparent and standardised' for securitisation transactions initiated by them. Before the Closing Date, the Originator will submit a STS notification to ESMA in accordance with Article 27 of the Securitisation Regulation, pursuant to which compliance with the requirements of Articles 19 to 22 of the Securitisation Regulation shall be notified with the intention that the securitisation transaction described in this Prospectus is to be included in the list administered by ESMA within the meaning of Article 27 of the Securitisation Regulation. However, none of the Management Company, on behalf of the Fund, nor BBVA (in its capacity as the Originator) gives any explicit or implied representation or warranty as to (i) inclusion in the list administered by ESMA within the meaning of Article 27 of the Securitisation Regulation, and (ii) that this securitisation transaction shall be recognised or shall continue to be recognised or designated as 'STS' or 'simple, transparent and standardised' within the meaning of Article 18 of the Securitisation Regulation after the date of notification to ESMA.

BBVA, as originator, shall immediately notify ESMA and inform its competent authority (when duly appointed) when the transaction no longer meets the requirements of Articles 19 to 22 of the Securitisation Regulation.

3.3.4.3 STS Verification

An application has been made to PCS for the securitisation transaction described in this Prospectus to receive a report from PCS verifying compliance with the criteria stemming from Articles 18, 19, 20, 21 and 22 of the Securitisation Regulation (the STS Verification). It is expected that the report (i) will be issued before the Closing Date, and (ii) will be available for investors on the PCS website (<https://www.pcsmarket.org/sts-verification-transactions/>) together with detailed explanations of its scope at <https://www.pcsmarket.org/disclaimer>.

There can be no assurance that the securitisation transaction described in this Prospectus will receive the STS Verification (either before issuance or at any time thereafter) and if the securitisation transaction described in this Prospectus does receive the STS Verification, this shall not, under any circumstances, affect the liability of the Originator and SSPE in respect of their legal obligations under the Securitisation Regulation, nor shall it affect the obligations imposed on institutional investors as set out in Article 5 of the Securitisation Regulation.

Investors should conduct their own research regarding the nature of the STS Verification and must read the information available. In the provision of STS Verification, PCS has based its decision on information provided directly and indirectly by the Originator.

For the avoidance of doubt, the PCS website and the contents thereof do not form part of this Prospectus. No assurance can be provided that the securitisation transaction described in this Prospectus does or continues to qualify as an STS-securitisation under the STS Regulation at any point in time in the future.

3.4 Explanation of the flow of funds

3.4.1 How the cash flow from the assets will meet the Issuer's obligations to Noteholders

Securitized Receivable amounts received by the Loan Servicer and owed to the Fund will be paid by the same into the Treasury Account on the second day after the date on which they are received by the Loan Servicer or the following business day if that is not a business day, for same value date (the "**Collection Dates**"). In this connection, business days shall be taken to be all those that are business days in the banking sector in the city of Madrid.

Quarterly on each Payment Date Noteholders will be paid interest accrued and, upon the Revolving Period termination, principal will be repaid on the Notes in each Class on the terms set for each of them and in the Priority of Payments given in section 3.4.6.2 of this Additional Building Block or, when the Fund is liquidated, in the Liquidation Priority of Payments given in section 3.4.6.3 of this Additional Building Block, as appropriate.

3.4.2 Information on any credit enhancement

3.4.2.1 Description of the credit enhancement

The following credit enhancement transactions are incorporated into the financial structure of the Fund:

- (i) Cash Reserve set up with the payment of the Class Z Notes.

This reserve mitigates for Classes A, B and C the credit risk derived from Receivables' delinquency and default and the risk arising out of the timing different in settling Receivables (monthly) and Notes (quarterly).

- (ii) Treasury Account:

Account to which the income received on the Receivables is credited until payment of Note interest and acquisition of Additional Receivables on the next Payment Date during the Revolving Period or, when it is over, Note principal repayment.

- (iii) Principal Account:

Account to which the amounts of the Principal Available Funds not applied to acquiring Additional Receivables are credited during the Revolving Period.

- (iv) Subordination and deferment in interest payment and principal repayment between the Notes in each Class, derived from their place in the application of the Available Funds as well as the rules for Distribution of Principal Available Funds in the Priority of Payments, or in the application of the Liquidation Available Funds in the Liquidation Priority of Payments, are a means for distinctly hedging the different Classes.

The Fund has not entered and will not enter in any kind of hedging instrument. Since 98% of the Receivables are fixed rate and the nominal interest rate applicable to the Notes is fixed, the interest rate risk is appropriately mitigated.

Additionally, there is no currency risk given that both the Receivables and the Notes are denominated in the same currency (euros).

3.4.2.2 Cash Reserve

The Management Company shall set up on the Closing Date an Initial Cash Reserve using the payment of the Class Z Notes and shall subsequently, on each Payment Date, keep the Required Cash Reserve amount provisioned in the Fund Priority of Payments.

The characteristics of the Cash Reserve shall be as follows:

Cash Reserve amount.

1. The Cash Reserve shall be set up on the Closing Date in an amount equal to EUR ten million (€10,000,000.00) ("**Initial Cash Reserve**").
2. Subsequently, on each Payment Date, the Cash Reserve shall be provisioned until it reaches the Required Cash Reserve amount established herein out of the Available Funds in the Fund Priority of Payments.

The required Cash Reserve amount on each Payment Date (the "**Required Cash Reserve**") shall be EUR ten million (€10,000,000.00) during the Revolving Period and, after the Revolving Period, the higher of:

- a) 0.50% of the Outstanding Principal Balance of the Class A, B and C Notes.
- b) EUR two million five hundred thousand (€2,500,000).

Notwithstanding the above, the Required Cash Reserve amount will be equal to zero once the Class A, B and C Notes are fully repaid.

Yield

The Cash Reserve amount shall remain credited to the Treasury Account, and will be remunerated on the terms of the Guaranteed Interest Rate Account (Treasury Account) Agreement.

Application

The Cash Reserve shall be applied on each Payment Date to satisfying Fund payment obligations in the Priority of Payments and, upon liquidation of the Fund, in the Liquidation Priority of Payments.

3.4.3 Details of any subordinated debt finance

3.4.3.1 Start-Up Loan

The Management Company shall, for and on behalf of the Fund, enter with the Originator into an agreement on the Date of Incorporation of the Fund whereby the Originator shall grant to the Fund a commercial loan (the “**Start-Up Loan**”) amounting to EUR six million six hundred sixty thousand (€6,660,000.00) (the “**Start-Up Loan Agreement**”). The Start-Up Loan amount shall be delivered on the Closing Date and applied to finance the Fund set-up and Note issue and admission expenses and to cover the difference between Receivables’ Interest collection and Note interest payment on the first Payment Date.

Start-Up Loan principal shall earn 0.50% fixed annual nominal interest. Interest shall be settled and payable on the first Payment Date, and shall be calculated based on: (i) the exact number of days between the Closing Date and the first Payment Date and (ii) a three-hundred-and-sixty- (360-) day year. The interest settlement date shall be 18 September 2019. Interest shall be paid provided that the Fund has sufficient liquidity on the relevant Payment Date in the Priority of Payments and, upon liquidation of the Fund, in the Liquidation Priority of Payments.

Interest accrued and not paid on the first Payment Date will not be capitalised with the Start-Up Loan principal and shall not accrue late-payment interest.

Start-Up Loan principal will be fully repaid on the first Payment Date, 18 September 2019, and in the application priority established for that event in the application of Available Funds in the Priority of Payments, or in the following Payment Date/s if Available Funds are not sufficient to fully amortization.

Principal not repaid on the first Payment Date will not accrue additional interest.

All Start-Up Loan amounts due and not paid by the Fund because of a shortfall of Available Funds shall be paid on the following Payment Dates on which the Available Funds allow payment in the Fund Priority of Payments.

The Start-Up Loan Agreement shall remain in force until the earlier of: (i) the Final Maturity Date, or (ii) the date on which the Management Company proceeds with the Early Liquidation of the Fund, or (iii) the date on which the Start-Up Loan is fully repaid in accordance with the rules for repayment of the Start-Up Loan Agreement.

The Start-Up Loan Agreement shall not be terminated in the event of the Fund being terminated, in accordance with the provisions of section 4.4.4.(v) of the Prospectus Registration Document. In that event, the Start-Up Loan shall be used to pay the Fund set-up and Note Issue expenses and all other obligations undertaken by the Management Company, for and on behalf of the Fund, originated upon the Fund being incorporated and which are due and payable, and principal repayment shall be deferred and subordinated to satisfaction of those obligations, out of the Fund’s remaining resources.

3.4.3.2 Subordination of Class B, C, D, E and Z Notes

Class B Note interest payment and principal repayment is deferred with respect to Class A Notes, as provided in the Priority of Payments and in the Liquidation Priority of Payments.

Class C Note interest payment and principal repayment is deferred with respect to Class A and Class B Notes, as provided in the Priority of Payments and in the Liquidation Priority of Payments.

Class D Note interest payment and principal repayment is deferred with respect to Class A, Class B and Class C Notes and as provided in the Priority of Payments and in the Liquidation Priority of Payments.

Class E Note interest payment and principal repayment is deferred with respect to Class A, Class B, Class C and Class D Notes, as provided in the Priority of Payments and in the Liquidation Priority of Payments.

Class Z Note interest payment and principal repayment is deferred with respect to Class A, Class B, Class C, Class D and Class E Notes and as provided in the Priority of Payments and in the Liquidation Priority of Payments.

Sections 4.6.1 and 4.6.2 of the Securities Note detail the ordinal numbers in the priority of payments of the Fund of Note interest payment and principal repayment in each Class.

3.4.4 Investment parameters for the investment of temporary liquidity surpluses and parties responsible for such investment

3.4.4.1 Treasury Account

The Management Company, for and on behalf of the Fund, and BBVA shall, on the Date of Incorporation of the Fund, enter into a guaranteed interest rate account agreement (the “**Guaranteed Interest Rate Account (Treasury Account) Agreement**”) whereby BBVA will pay a fixed annual nominal interest rate on the amounts paid in for the benefit of the Fund through its Management Company into a financial account. The Guaranteed Interest Rate Account (Treasury Account) Agreement shall specifically determine that all amounts received by the Fund will be paid into a financial account in Euros (the “**Treasury Account**”) opened at BBVA in the name of the Fund by the Management Company, which amounts shall mostly consist of the following items:

- (i) cash amount received upon subscription for the Note Issue being paid up;
- (ii) Receivable principal repaid and ordinary and late payment interest collected;
- (iii) any other Receivable amounts owing to the Fund;
- (iv) the Cash Reserve amount from time to time;
- (v) Start-Up Loan principal drawn down;
- (vi) the amounts of the returns obtained on actual Treasury Account and Principal Account balances;
- (vii) the amounts, if any, of interim withholdings on the return on investments to be effected on each relevant Payment Date on the Note interest paid by the Fund, until due for payment to the Tax Administration; and
- (viii) the cash collateral amounts, if any, posted by the Loan Servicer in the event of its long-term credit rating for unsecured and unsubordinated debt obligations being downgraded below BBB by S&P.

BBVA shall pay a 0.10% fixed annual nominal interest rate, settled quarterly, other than for the first interest accrual period, the duration of and the interest settlement for which shall be based on the duration of that period, applicable for each interest accrual period (differing from the Interest Accrual Period established for the Notes) to the positive daily balances if any on the Treasury Account. Interest shall be settled on the expiry date of each interest accrual period on each of the Fund Determination Dates, and shall be calculated based on: (i) the exact number of days in each interest accrual period, and (ii) a three-hundred-and-sixty-five (365) day year or a three-hundred-and-sixty-six (366) day year if it is a leap year. The first interest accrual period shall comprise the days elapsed between the Date of Incorporation of the Fund and the first Determination Date, 31 August 2019, exclusive.

In the event that the rating of BBVA or of the replacing entity in which the Treasury Account is opened (either of them the “**Treasury Account Provider**”) should, at any time during the life of the Note Issue, be downgraded, and the rating of the Notes were negatively affected by such downgrade:

- a) below BBB (high) according to the minimum DBRS rating (the “**DBRS Minimum Rating**”), which shall be the higher of

- (i) if the institution has a long-term critical obligation rating (COR) from DBRS, a step below said COR; and
 - (ii) the long term issuer rating assigned by DBRS to the Treasury Account Provider or, if none exists, the private ratings or internal evaluations performed by DBRS;
- or
- b) below a S&P long-term rating of A- (or if such rating is withdrawn); or
 - c) below BBB, according to the long-term public rating assigned by Scope or, where there is no such rating, the private ratings or the internal assessments made by Scope (the “**Scope Rating**”);

the Management Company shall, within no more than thirty (30) calendar days from the day of the occurrence of any of these events for DBRS and Scope and ninety (90) calendar days for S&P, after notifying the Rating Agencies, do one of the following remedial actions in order to allow a suitable level of guarantee to be maintained with respect to the commitments derived from the Guaranteed Interest Rate Account (Treasury Account) Agreement in order for the ratings given to the Notes by the Rating Agencies not to be adversely affected:

- a) Obtain from an institution:
 - with a DBRS Minimum Rating of BBB (high), and/or
 - with a S&P long-term rating of A-, and/or
 - with a Scope Rating of BBB

an unconditional, irrevocable and first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by the Treasury Account Provider of its obligation to repay the amounts credited to the Treasury Account, for such time as the Treasury Account Provider remains downgraded.

- b) Transfer the Treasury Account to an institution:
 - with a DBRS Minimum Rating of BBB (high), and
 - with a S&P long-term rating of A-, and
 - with a Scope Rating of BBB,

and arrange a yield for its balances, which may differ from that arranged with the Treasury Account Provider under the Guaranteed Interest Rate Account (Treasury Account) Agreement.

In this regard, the Treasury Account Provider shall irrevocably agree to notify the Management Company of any change or removal of its rating given by the Rating Agencies, forthwith upon that occurrence throughout the life of the Note issue.

In the event of b) above occurring and thereafter:

- the DBRS Minimum Rating is BBB (high) or higher, and
- the S&P long term rating is A- or higher, and
- the Scope Rating is BBB or higher,

the Management Company shall subsequently transfer the balances back to BBVA under the Guaranteed Interest Rate Account (Treasury Account) Agreement.

All costs, expenses and taxes incurred in connection with putting in place and arranging the above actions shall be borne by BBVA or, as the case may be, the substituted Treasury Account Provider.

BBVA shall agree, forthwith upon the Treasury Account Provider’s credit rating being downgraded or removed, to use commercially reasonable efforts in order that the Management Company may do either of a) or b) above.

3.4.4.2 Principal Account

The Management Company, for and on behalf of the Fund, and BBVA shall, on the Date of Incorporation of the Fund, enter into a guaranteed interest rate account agreement (the “**Guaranteed Interest Rate Account (Principal Account) Agreement**”) whereby BBVA will pay a fixed annual nominal interest rate on the amounts paid by the Fund through its Management Company into a financial account. The Guaranteed Interest Rate Account (Principal Account) Agreement shall specifically determine that the amounts of the Principal Available Funds not applied to acquire Additional Receivables during the Revolving Period will be transferred into a financial account in Euros (the “**Principal Account**”) opened at

BBVA in the name of the Fund by the Management Company. Exceptionally, the amounts equal to the difference between the face values of the Note Issue principal and of the Initial Receivables acquired shall also be credited on the Closing Date.

BBVA shall pay a 0.10% fixed annual nominal interest rate, settled quarterly, other than for the first interest accrual period, the duration of and the interest settlement for which shall be based on the duration of that period, applicable for each interest accrual period (both being equal to the Interest Accrual Periods established for the Notes) to the positive daily balances if any on the Principal Account. Interest shall be settled on the expiry date of each Interest Accrual Period on each Payment Date and shall be calculated based on: (i) the exact number of days in each Interest Accrual Period, and (ii) a three-hundred-and-sixty-five (365) day year or a three-hundred-and-sixty-six (366) day year if it is a leap year.

In the event that the rating of BBVA or of the replacing entity in which the Principal Account is opened (either of them the “**Principal Account Provider**”) should, at any time during the life of the Note Issue, be downgraded, and the rating of the Notes were negatively affected by such downgrade:

- below a BBB (high) DBRS Minimum Rating; or
- below a S&P long-term rating of A- (or if such rating is withdrawn); or
- below Scope Rating of BBB,

the Management Company shall, within not more than thirty (30) calendar days for DBRS and Scope and ninety (90) calendar days for S&P from the day of the occurrence of any of these events, after notifying the Rating Agencies, do one of the following remedial actions in order to allow a suitable level of guarantee to be maintained with respect to the commitments derived from the Guaranteed Interest Rate Account (Principal Account) Agreement in order for the ratings given to the Notes by the Rating Agencies not to be adversely affected:

a) Obtain from an institution:

- with a DBRS Minimum Rating of BBB (high), and/or
- with a S&P long-term rating of A-, and/or
- with a Scope Rating of BBB

an unconditional, irrevocable and first demand guarantee securing for the Fund, merely upon the Management Company so requesting, prompt payment by the Principal Account Provider of its obligation to repay the amounts credited to the Principal Account, for such time as the Principal Account Provider remains downgraded.

b) Transfer the Principal Account to an institution:

- with a DBRS Minimum Rating of BBB (high), and
- with a S&P long-term rating of A-, and
- with a Scope Rating of BBB,

and arrange a yield for its balances, which may differ from that arranged with the Principal Account Provider under the Guaranteed Interest Rate Account (Principal Account) Agreement.

In this regard, the Principal Account Provider shall irrevocably agree to notify the Management Company of any change or removal of its rating given by the Rating Agencies, forthwith upon that occurrence throughout the life of the Note issue.

In the event of b) above occurring and thereafter:

- the DBRS Minimum Rating is BBB (high) or higher, and
- the S&P long term rating is A- or higher, and
- the Scope Rating is BBB or higher,

the Management Company shall subsequently transfer the balances back to BBVA under the Guaranteed Interest Rate Account (Principal Account) Agreement.

All costs, expenses and taxes incurred in connection with putting in place and arranging the above actions shall be borne by BBVA or, as the case may be, the substituted Principal Account Provider.

BBVA shall agree, forthwith upon the Principal Account Provider's credit rating being downgraded or removed, to use commercially reasonable efforts in order that the Management Company may do either of a) or b) above.

Income received on the amounts deposited in the Principal Account shall be paid into the Treasury Account.

The Guaranteed Interest Rate Account (Principal Account) Agreement shall be fully terminated in the event that DBRS or S&P do not confirm the provisional ratings assigned to the Notes as final ratings by 1pm (CET) on 9 July 2019. In addition, the Principal Account shall be cancelled on the Payment Date following the Payment Date on which the Revolving Period ends, once it has been settled by the Management Company.

15. Repayment of Start-Up Loan principal.
16. Payment to the Loan Servicer of the fee established under the Servicing Agreement.

In the event that BBVA should be replaced as Loan Servicer by a third party, payment of the management fee due to the third party, the new servicer, shall be moved up to 1st place above, along with the other payments included therein.

17. Payment of the Financial Intermediation Margin.

When accounts payable for different items exist in a same priority order number on the Payment Date and the Available Funds are not sufficient to settle the amounts due under all of them, the application of the remaining Available Funds shall be prorated among the amounts payable under each such item, and the amount applied to each item shall be distributed in the priority in which the accounts payable fall due.

(1) The following is not an exhaustive list, and shall be considered ordinary expenses of the Fund:

- a) Any expenses deriving from mandatory administrative verifications, registrations and authorisations, other than payment of the Fund set-up and Note issue and admission expenses and the ongoing fee payable to EDW or the SR Repository.

Because a significant part of those expenses are directly related to the Outstanding Principal Balance of the Collateralised Notes and that balance shall fall throughout the life of the Fund, the Fund's ordinary expenses will also fall as time goes by.

- (2) The following shall be considered extraordinary expenses of the Fund:

3.4.6.4 Financial Intermediation Margin

The Management Company shall, for and on behalf of the Fund, enter with the Originator into a Financial Intermediation Agreement, on the Date of Incorporation of the Fund, in order to remunerate the Originator for the financial intermediation process carried out, enabling the financial transformation defining the Fund's activity, the assignment to the Fund of the Receivables and the ratings assigned to the Notes.

The Originator shall be entitled to receive from the Fund a variable subordinated remuneration (the "**Financial Intermediation Margin**") which shall be determined and shall accrue upon expiry of every Determination Period, and which shall comprise, the preceding Determination Period, in an amount equal to the positive difference, if any, between the income and expenditure in each Determination Period, including losses, if any, brought forward from previous periods, accrued by the Fund with reference to its accounts and before the close of the Determination Period preceding every Payment Date. The Financial Intermediation Margin accrued at the end of the months of February, May, August and November, these being the last calendar month in each Determination Period, shall be settled on the next succeeding Payment Date, provided that the Fund has sufficient liquidity in the Fund Priority of Payments.

If the Fund does not have sufficient liquidity on a Payment Date in the Priority of Payments to pay the full Financial Intermediation Margin, the unpaid amount accrued shall be aggregated without any penalty whatsoever with the Financial Intermediation Margin accrued in the following Determination Period and shall be paid on the following Payment Dates on which the Available Funds allow payment in the Priority of Payments or, in the event of liquidation of the Fund, in the Liquidation Priority of Payments.

Notwithstanding the above, the Financial Intermediation Margin will only be settled as established in section 5 of Rule 19 of Circular 2/2016.

The first Financial Intermediation Margin settlement date shall be the first Payment Date, 18 September 2019.

The Financial Intermediation Agreement shall be fully terminated in the event that DBRS or S&P do not confirm any of the provisional ratings assigned to the Notes as final ratings by 1pm (CET) on 9 July 2019.

3.4.7 Other arrangements upon which payments of interest and principal to investors are dependent

3.4.7.1 Note Issue Paying Agent

The Management Company shall, for and on behalf of the Fund, enter into a paying agent agreement with BBVA to service the Note Issue by the Fund (the "**Note Issue Paying Agent Agreement**").

The main obligation to be undertaken on by BBVA (the "**Paying Agent**") under the Note Issue Paying Agent Agreement is to pay, on each Payment Date, Note interest and, as the case may be, to repay Note principal through IBERCLEAR, after deducting, as the case may be, the total amount of the interim tax withholding for return on investments to be made by the Management Company, on the Fund's behalf, in accordance with applicable tax laws.

In the event that the Paying Agent's rating should, at any time during the life of the Note Issue, be downgraded, and the rating of the Notes were negatively affected by such downgrade:

- below a BBB (high) DBRS Minimum Rating or
- below a S&P long-term rating of BBB; or
- below Scope Rating of BBB

the Management Company shall, within not more than thirty (30) calendar days for DBRS and Scope and ninety (90) calendar days for S&P from the day of the occurrence of any of these events, after notifying the Rating Agencies, do one of the following remedial actions in order to allow a suitable level of guarantee to be maintained with respect to the commitments derived from the Note Issue Paying Agent Agreement in order for the ratings given to the Notes by the Rating Agencies not to be adversely affected:

a) Obtain from an institution:

- with a DBRS Minimum Rating of BBB (high), and/or
- with a long-term rating at least as high as BBB from S&P, and/or
- with a Scope Rating of Baa3,

an unconditional, irrevocable and first demand guarantee securing for the Fund, merely upon the Management Company so requesting, performance of the commitments made by the Paying Agent for such time as the Paying Agent remains downgraded.

b) revoke the appointment of the Paying Agent, and proceed to appoint another institution:

- with a DBRS Minimum Rating of BBB (high), and
- with a long-term rating at least as high as BBB from S&P, and
- with a Scope Rating at least as high as Baa3,

to replace it before terminating the Note Issue Paying Agent Agreement. Should BBVA be replaced as Paying Agent, the Management Company shall be authorised to modify the fee payable to the substitute institution, which may be higher than the one agreed with BBVA in the Note Issue Paying Agent Agreement.

In this regard, the Paying Agent shall irrevocably agree to notify the Management Company of any change or removal of its rating given by the Rating Agencies, forthwith upon that occurrence throughout the life of the Note issue.

All costs, expenses and taxes incurred in connection with doing and arranging the above shall be borne by BBVA or, as the case may be, the replacing Paying Agent.

The Paying Agent shall agree, forthwith upon its credit rating being downgraded or removed, to use commercially reasonable efforts in order that the Management Company may do either of a) or b) above.

In consideration of the services to be provided by the Paying Agent, the Fund, throughout the Management Company shall pay thereto on each Payment Date during the term of the agreement, a fee of EUR twelve thousand (€12,000.00), including taxes if applicable. This fee shall be paid provided that the Fund has sufficient liquidity and in the Priority of Payments or, as the case may be, the Liquidation Priority of Payments.

In the event that, in the Priority of Payments, the Fund does not have sufficient liquidity to pay the full fee on a Payment Date, the unpaid amounts accrued shall be aggregated without any penalty whatsoever with the fee falling due on the following Payment Date, unless that absence of liquidity should continue, in which case the amounts due shall build up until fully paid on the Payment Date on which they are settled, in the Priority of Payments or, as the case may be, upon liquidation of the Fund in the Liquidation Priority of Payments.

The Note Issue Paying Agent Agreement shall be fully terminated (i) in the event that DBRS or S&P do not confirm the provisional ratings assigned to the Notes as final ratings by 1pm (CET) on 9 July 2019.

² **Non-performing loan (NPL) ratio**

This is the ratio between the risks classified for accounting purposes as non-performing loans and the total credit risk balance for customers and contingent risks. It is calculated as follows:

$$\frac{\text{Non-performing loans}}{\text{Total credit Risk}}$$

Explanation of the formula: "Non-performing loans" include those related to loans and advances to customers (gross) and those related to contingent risk, excluding the non-performing loans of credit institutions and securities. "Total credit risk" includes both pending and contingent risk. Their calculation is based on the headings in the first table on page 14 of this report.

Relevance of its use: This is one of the main indicators used in the banking sector to monitor the current situation and changes in credit risk quality, and specifically the relationship between risks classified in the accounts as non-performing loans and the total balance of credit risk, with respect to customers and contingent liabilities.

Change of criteria, due to IFRS 9, which entered into force on January 1, 2018, certain wholesale customer repos that until December 31, 2017 were presented in the total credit risk have not been taken into account in the calculation of this metric.

³ **NPL coverage ratio**

This ratio reflects the degree to which the impairment of non-performing loans has been covered in the accounts via loan-loss provisions. It is calculated as follows:

Explanation of the formula: "Non-performing loans" include those related to lending activity and those related to contingent risk, excluding non-performing loans from credit institutions and securities. "Provisions" are loan-loss provisions, for both customer loans and contingent risk. Their calculation is based on the headings in the first table on page 14 of this report.

Relevance of its use: This is one of the main indicators used in the banking sector to monitor the situation and changes in the quality of credit risk, reflecting the degree to which the impairment of non-performing loans has been

⁴ As of December 31, 2018 phased-in ratios include the temporary treatment on the impact of IFRS9, calculated in accordance with Article 473 bis of Capital Requirements Regulation (CRR). The capital ratios are calculated under CRD IV from Basel III regulation, in which a phase-in of 80% is applied for 2017 and a phase-in of 60% for 2016. - (ii) The sum of (a) a fixed amount on each Payment Date and (b) a periodic fee on the Outstanding Principal Balance of the Notes and, as the case may be, on the value of the real properties awarded or given in lieu of foreclosure to the Fund, which shall accrue daily from the incorporation of the Fund until it terminates and shall be settled and paid by Interest Accrual Periods in arrears on each Payment Date subject to the Priority of Payments or, as the case may be, in the Liquidation Priority of Payments. The fixed amount referred to in (a) on each Payment Date, shall be cumulatively reset, from the year 2020, inclusive, and be effective from 1 January of each year.
- (iii) Fee for preparing and sending the file for EDW or the SR Repository and for each submission.
- (iv) An extraordinary fee for preparing and executing an amendment to the Deed of Incorporation and the agreements, and from entering into additional agreements.

If on a Payment Date the Fund does not, in the Priority of Payments, have sufficient liquidity to settle the servicing fee, the amount due shall accrue interest equal to the Nominal Interest Rate established for Class A Notes. The unpaid amount and interest due shall be aggregated for payment with the fee payable on the following Payment Date, unless that absence of liquidity should continue, in which case the amounts due shall build up until fully paid, in the Priority of Payments or, as the case may be, in the Liquidation Priority of Payments.

3.7.2 Servicing and custody of the securitised assets

Notwithstanding the obligations of servicing and management of the Receivables corresponding to the Management Company in accordance with article 26.1.b) of Law 5/2015, the Management Company has entered into a Servicing Agreement with the Originator by virtue of which the Management Company subcontract or delegate in the Originator the functions of servicing and managing the Loans from which the Receivables will be derived. Relations between BBVA, the Fund, represented by the Management Company, and the Management Company, in relation to custody, servicing and management of the Loans underlying the Receivables it shall have assigned to the Fund, shall be governed by the Loan servicing agreement (the "**Servicing Agreement**").

The above shall all be construed without prejudice to the Management Company's liability in accordance with Article 26.1 b) of Law 5/2015.

BBVA (as loan servicer, the "**Loan Servicer**") shall accept the appointment received from the Management Company and thereby agree as follows:

- (i) To service and manage and be the custodian of the Loans underlying the Receivables according to the terms of the rules and ordinary servicing and management procedures established in the Servicing Agreement.

- (ii) To continue servicing the Loans underlying the Receivables, devoting the same time and efforts as it would devote and use to service its own loans and in any event on the terms provided for in the Servicing Agreement.
- (iii) That the procedures it applies and will apply to service and manage the Loans are and will continue to be in accordance with the laws and statutory regulations in force applicable thereto.
- (iv) To faithfully comply with the instructions issued by the Management Company.
- (v) To pay the Fund or the Management Company damages resulting from a breach of the obligations undertaken, although the Loan Servicer shall not be liable for things done on the Management Company's specific instructions.

In any event, the Loan Servicer waives the privileges and authorities conferred on it by law as the manager of collections for the Fund, as loan servicer and custodian of the relevant agreements, and in particular those provided for in Articles 1730 and 1780 of the Civil Code and 276 of the Commercial Code. In addition, as provided for in section 3.7.1.4 above of this Additional Building Block, the Loan Servicer waives the bringing of any action holding the Fund liable.

The most relevant terms of the Servicing Agreement are given in the following paragraphs of this section.

3.7.2.1 Ordinary Loan servicing and custody system and procedures

1. Custody of agreements, private contracts, documents and files

The Loan Servicer shall keep all Loan deeds, private contracts, documents and data files under safe custody and shall not give up their possession, custody or control other than with the Management Company's prior written consent to that effect, unless it is required to provide a document to institute proceedings to claim or enforce a Loan, or that is requested by any competent authority, duly informing the Management Company.

The Loan Servicer shall at all times allow the Management Company or the Fund's auditors duly authorised thereby reasonable access to said deeds, private contracts, documents and records. In addition, whenever required to do so by the Management Company, the Loan Servicer shall provide within two (2) Business Days of that request and clear of expenses, a copy or photocopy of any such deeds, private contracts and documents.

2. Collection management

The Loan Servicer shall continue managing collection of all Loan amounts payable by the Obligors, including both principal or interest and any other item. The Loan Servicer shall use all reasonable efforts for payments to be made by the Obligors to be collected in accordance with the contractual terms and conditions of the Loans.

Loan amounts received by the Loan Servicer for the Fund's account shall be paid by the Loan Servicer into the Fund's Treasury Account on the relevant Collection Dates, as this term is defined in section 3.4.1 of this Additional Building Block.

In the event of the long-term credit rating for the Loan Servicer's unsecured and unsubordinated debt obligations being downgraded below BBB by S&P, the Loan Servicer will do one of the following:

- (i) obtain from an institution with long-term unsecured and unsubordinated debt obligations rated at least as high as BBB by S&P, within not more than ninety (90) calendar days from the occurrence of that event, a first demand guarantee, meeting S&P's criteria in force from time to time, in an amount allowing the Notes ratings given by S&P to be maintained; or
- (ii) post cash collateral to the Fund at the Treasury Account, within no more than ten (10) calendar days from the occurrence of that event. The cash collateral amount shall be equivalent to the estimated aggregate amount of Loan repayment and interest instalments during one month from the date of downgrade below BBB by S&P.

The Management Company, for and on behalf of the Fund, may only draw on those cash collaterals or call the guarantee issued to the Fund to the extent of the Loan amounts, if any, not received from the Loan Servicer owing to the Fund and received by the Loan Servicer and not paid to the Fund.

The Loan Servicer shall in no event pay any Loan payment amount whatsoever to the Fund not previously received from the Obligor.

3. Information

The Loan Servicer shall regularly communicate to the Management Company the information concerning the individual characteristics of each Loan, fulfilment by Obligor of their Loan obligations, delinquency status, changes in the characteristics of the Loans, actions in the event of late payment, legal actions and auction of assets, all subject to the procedures and with the frequency established in the Servicing Agreement.

Furthermore, the Loan Servicer shall prepare and provide to the Management Company such additional information concerning the Loans or the rights attaching thereto as the Management Company may request.

4. Authorities and actions in relation to Loan renegotiation procedures

The Loan Servicer may not voluntarily extend or forgive the Loans in whole or in part, or in general do anything that may diminish the enforceability at law or economic value of the Loans, without prejudice to heeding requests by Obligor with the same diligence and procedures as for loans not assigned.

The Management Company may previously issue instructions to or authorise the Loan Servicer to agree with the Obligor such terms and conditions as it shall see fit for a novation changing the relevant Loans.

The Management Company may nevertheless authorise the Loan Servicer to enter into and accept Loan interest rate and term extension renegotiations, without requiring the Management Company's prior consent, subject to the following general enabling requirements:

a) Renegotiating the interest rate

1. The Loan Servicer may under no circumstances on its own account and without being so requested by the Obligor enter into interest rate renegotiations which may result in a decrease in the interest rate applicable to a Loan. In any event, whether or not it was generically authorised, any Loan interest rate renegotiation shall be taken on and settled bearing the Fund's interests in mind.
2. Subject to the provisions of the following paragraph, the Loan Servicer shall in renegotiating the Loan interest rate clause ensure that the new terms are in keeping with market conditions and are not different from those applied by the Loan Servicer proper in renegotiating or granting its fixed or floating rate loans. For these purposes, market interest rate means the fixed or floating interest rate offered by the Loan Servicer on the Spanish market for loans without mortgage security granted to individuals for financing consumer transactions, the loan amounts and terms being substantially similar to the renegotiated Loan.
3. The interest rate of a Loan shall under no circumstances be renegotiated down in the event that the average interest rate of all the Loans yet to be repaid weighted by the outstanding principal of each of those Loans is below 6.00%. Renegotiation from time to time of the floating interest rate applicable to a Loan may be at no event take place where the change is (i) to a floating interest rate with a benchmark index for the same to be determined other than six-months Euribor or one-year Euribor, or (ii) to a fixed interest rate, nor may a change be made from a fixed interest rate to a floating interest rate.

b) Extending the period of maturity

1. The Loan Servicer shall in no event consider at its own initiative, i.e. without being so requested by the Obligor, a change in the final maturity date of the Loan that could result in an extension of the term thereof. The Loan Servicer shall, without encouraging an extension of the term, act in relation to such extension bearing the Fund's interests in mind at all times, and subject to the following rules and limitations:
2. The aggregate of the principal assigned to the Fund of the Loans with respect to which the maturity date is extended may not exceed 10.00% of the face amount of the Note Issue.
3. The term of a specific Loan may be extended provided that the following requirements are met:
 - a) That the Loan principal repayment instalment frequency and the same repayment system are at all events maintained.
 - b) That the new final maturity or final repayment date does not extend beyond 18 December 2030.

The Management Company may at any time during the term of the Servicing Agreement cancel, suspend or change the requirements of the authorisation previously set for the Loan Servicer to renegotiate the interest rate or extend the term.

If there should be any renegotiation of the interest rate of a Loan or its due dates, the Loan Servicer shall forthwith notify the Management Company of the terms resulting from each renegotiation. Such notice shall be made through the computer or data file provided for the terms of the Receivables to be updated. Both the loan agreements and the private agreements pertaining to a novation of the terms of the Loans will be kept by the Loan Servicer, in accordance with the provisions of paragraph 1 of this section.

5. Action against the Obligors in the event of default on the Loans

Actions in the event of late payment

The Loan Servicer shall use the same efforts and the same procedure for claiming overdue amounts on the Loans applied to the rest of its portfolio loans.

In the event of default by the Obligor on the payment obligations, the Loan Servicer shall take the measures described in the Servicing Agreement, taking for that purpose such actions as it would ordinarily take if they were its own portfolio loans and in accordance with standard banking usage and practice for collecting overdue amounts, and shall be bound to advance such expenses as may be necessary for those measures to be carried out, without prejudice to its right to be reimbursed by the Fund. Those measures shall include all such court and out-of-court actions as the Loan Servicer may deem necessary to claim and collect the amounts owed by the Obligors.

In this regard, the Fund may hold other amounts, real estate, assets, securities or rights received to pay for Receivable principal, interest or expenses, under a decision in any court or out-of-court proceedings instituted for collecting the Receivables. In accordance with Article 16.3 of Law 5/2015, ownership and security interests, if any, in real properties belonging to the Fund may be entered in the Land Registry. Similarly, the ownership and other security interests in and to any other assets, if any, belonging to the Fund may be entered in the relevant registers.

Legal or other actions

The Loan Servicer shall, under the Servicing Agreement or using the power referred to in the following paragraph, take all relevant actions against Obligors failing to meet their Loan payment obligations. Such an action shall be brought using the appropriate court enforcement procedures, which may be an enforcement action or, as the case may be, by means of the appropriate declaratory proceedings.

For the above purposes and in relation to Loans originated by means of a loan agreement certified by a commissioner for oaths, and for the purposes of the provisions of Articles 581.2 and 686.2 of the Civil Procedure Law and if this should be necessary, the Management Company shall grant in the Deed of Incorporation as full and extensive a power of attorney as may be required at law to the Loan Servicer in order that it may, acting through any of its attorneys-in-fact duly empowered for such purpose, as instructed by the Management Company, for and on behalf of the latter, or in its own name albeit on behalf of the Management Company, as the authorised representative of the Fund, demand any Obligor in or out of court to pay the debt and take legal action against the same, in addition to other authorities required to discharge their duties as Loan Servicer. These authorities may be extended or amended in another deed where appropriate.

The Loan Servicer shall as a general rule commence the relevant legal proceedings if, for a period of seven (7) months, a Loan Obligor in default of payment obligations fails to resume payments or the Loan Servicer, and the latter with the Management Company's consent, fails to obtain a payment undertaking satisfactory to the Fund's interests. In order for actions for payment to be swifter, the Management Company may generally confer powers on the Loan Servicer, on such terms and subject to such limits as it deems fit.

Additionally, the Loan Servicer will provide the Management Company with all such Loan documents as the latter may request and in particular the documents required for the Management Company to take legal actions, where applicable.

6. Set-off

In the exceptional event that, despite the representation given in section 2.2.8 of this Additional Building Block, a Loan Obligor has a net, due and payable credit right against the Loan Servicer, and, because the assignment is made without the Obligor being aware, a Loan is fully or partially set-off against that receivable, the Loan Servicer shall proceed to pay to the Fund the amount set off plus accrued interest which would have been payable to the Fund until the date on which payment is made, calculated on the terms applicable to the relevant Loan.

7. Subcontracting

The Loan Servicer may subcontract any of the services it may agree to provide as the Management Company's attorney under the Servicing Agreement and after being authorised thereby. That subcontracting may in no event result in an additional cost or expense for the Fund or the Management Company, and may not result in the ratings assigned to each Note Class by the Rating Agencies being downgraded. Notwithstanding any subcontracting or subdelegation by the Loan Servicer: (i) the Management Company shall not be excused or released under that subcontract or subdelegation from any of the liabilities taken on under Article 26.1 b) of Law 5/2015, and (ii) the Loan Servicer shall not be excused or released under that subcontract or subdelegation from its obligation to indemnify the Fund or its Management Company for any damage, loss or expense incurred by the latter as a result of the Loan Servicer's breach of its Loan custody, servicing, management and information obligations, laid down in the Servicing Agreement.

8. Obligors' insurance

Part of the Loans originated by BBVA have insurance contracts attached thereto with a payment protection plan.

BBVA shall, as the case may be, coordinate actions for collecting compensations derived from the insurance policies with a payment protection plan on the terms and conditions of the actual policies, paying the amounts received to the Fund as the beneficiary.

9. Award of properties

The Fund's assets may include any amounts, real or chattel properties, securities or interests received to pay Receivable Loan principal, interest or expenses, both in the amount decided in a court decision resulting from court proceedings initiated upon the failure to pay the Receivables, and originating in the sale or operation of the properties or securities awarded or given in lieu of foreclosure or, as a result of any of the aforementioned proceedings, under administration for payment in an award procedure.

If real or chattel properties should be awarded, given in lieu of foreclosure or recovered for the benefit of the Fund, the Management Company shall, through the Loan Servicer, proceed to take possession of any such properties, if applicable, enter them in registers, and market and sell or otherwise make liquid the same within the shortest possible space of time, at market prices, and the Loan Servicer shall take an active role in order to expedite their disposal. Based on the foregoing, the Loan Servicer's duties shall include managing, administering, marketing and selling or otherwise make liquid the properties owned by the Fund as if they belong to the Loan Servicer, safeguarding at all times the Fund's interests, and the Loan Servicer shall in so doing apply the same management policies and allocate the same physical, human and organisational resources as it applies to administer and hold its own properties of similar characteristics, although the Loan Servicer shall at no time warrant the outcome of the sales of any such properties.

3.7.2.2 Term and substitution

The services shall be provided by the Loan Servicer until all obligations undertaken by the Loan Servicer as Originator of the Loans are discharged, once all the Loans serviced thereby have been repaid, or when liquidation of the Fund concludes after its termination, without prejudice to a possible early revocation of its appointment under the Servicing Agreement.

In the event of breach by the Loan Servicer of the obligations imposed on the Loan Servicer under the Servicing Agreement, or in the event of downgrade or loss of the Loan Servicer's credit rating or its financial circumstances changing to an extent that may be detrimental to or place at risk the financial structure of the Fund or Noteholders' rights and interests, the Management Company shall proceed, in addition to demanding that the Loan Servicer perform the obligations laid down in the Servicing Agreement, where this is legally possible, inter alia and after notifying the Rating Agencies, to do one of the following in order for the ratings assigned to the Notes by the Rating Agencies not to be adversely affected: (i) demand the Loan Servicer to subcontract or subdelegate to another institution the performance of all or part of the obligations and undertakings made in the Servicing Agreement; (ii) have another institution with a sufficient credit rating and quality secure all or part of the Loan Servicer's obligations; (iii) establish a cash or securities account for the benefit of the Fund in an amount sufficient to secure all or part of the Loan Servicer's obligations, and (iv) terminate the Servicing Agreement, in which case the Management Company shall previously designate a new Loan Servicer having a sufficient credit quality and accepting the obligations contained in the Servicing Agreement or, as the case may be, in a new servicing agreement. In the event of insolvency of the Loan Servicer, only (iv) above shall be valid. Any additional expense or cost derived from the aforesaid actions shall be covered by the Loan Servicer and at no event by the Fund or the Management Company.

If in any of the events described in the preceding paragraph the Servicing Agreement has to be terminated and a new back-up loan servicer has to be nominated, the Management Company (in this regard, the "**Back-Up Loan Servicer Facilitator**") shall use its best efforts to nominate a new back-up loan servicer (the "**Back-up Loan Servicer**") within not more than sixty (60) days.

In regard to the appointment of a Back-up Loan Servicer, the Parties undertake to act as follows:

a) Loan Servicer Commitments

The Loan Servicer makes the follow undertakings to the Management Company:

- To provide the Management Company with all documentary and computerised Loan information enabling the Back-up Loan Servicer to manage and service the Loans, with such content and structure and on such media as the Management Company shall determine.
- To make available upon the Management Company's request a record of the personal data of Obligors necessary to issue collection orders to Obligors or to have served on Obligors the notice referred to below (hereinafter "**Personal Data Record**" or "**PDR**"), the communication and use of which data shall be limited and in any event subject to compliance with the Data Protection Law or law replacing, amending or implementing the same and the General Data Protection Regulation.

- Upon the Management Company's request, to deposit the PDR before a Notary in order that it may be searched or used in due course by the Management Company in case of need in connection with the Loan servicing functions.
- In the event of the Loan Servicer actually being substituted, to assist the Management Company and the Back-up Loan Servicer using all reasonable efforts in the substitution process and, as the case may be, notify Obligors.
- To do such things and execute such contracts as shall require the Loan Servicer's involvement in order for functions to be effectively transferred to the Back-up Loan Servicer.
- The Loan Servicer shall bear all and any own and other third-party legal, advisory or other service costs and expenses incurred by the Management Company in discharging its duties as Back-Up Loan Servicer Facilitator.

b) The Management Company's undertakings as Back-Up Loan Servicer Facilitator

The Management Company agrees to use its best efforts in order to find a Back-up Loan Servicer. The Management Company agrees to keep a record of all actions taken to find the Back-up Loan Servicer, and the corresponding date, which shall include, but not be limited to, the following documents: analysis of potential back-up loan servicers, communications and discussions with the same, justification of decisions as to potential back-up loan servicers, legal opinions, communications with the Loan Servicer, the CNMV, the Rating Agencies and, as the case may be, the Loan Servicer's insolvency practitioner.

The Originator's assignment of the Receivables to the Fund will not be notified to the Obligors except if required by law.

Notwithstanding the above, in the event of insolvency, liquidation or substitution of the Loan Servicer or if the Loan Servicer is involved in a resolution process under in Law 11/2015 or because the Management Company deems this reasonably justified, the Management Company may demand the Loan Servicer to notify Obligors of the transfer to the Fund of the Loan receivables then outstanding, and that Loan payments will only be effective as a discharge if made into the Treasury Account opened in the name of the Fund. However, both in the event of the Loan Servicer failing to notify Obligors within five (5) Business Days of receiving the request and in the event of insolvency or liquidation of the Loan Servicer, the Management Company itself shall notify Obligors directly or, as the case may be, through a new servicer it shall have designated.

Similarly, and in the same events, the Management Company may request the Loan Servicer to do such things and satisfy such formalities as may be necessary, including third-party notices and entries in the relevant accounting records, in order to guarantee maximum efficiency of the assignment of the Loan receivables.

Upon early termination of the Servicing Agreement, the outgoing Loan Servicer shall provide the Back-up Loan Servicer, on demand by the Management Company and as determined thereby, with the necessary documents and data files it may have in order for the Back-up Loan Servicer to carry on the relevant activities.

The Servicing Agreement shall be fully terminated in the event that DBRS or S&P do not confirm the provisional ratings assigned to the Notes as final ratings by 1pm (CET) on 9 July 2019.

3.7.2.3 Liability of the Loan Servicer and indemnity

Pursuant to Article 26.1.b) of Law 5/2015, the Management Company shall be responsible for servicing and managing the Receivables pooled in the Fund. The Management Company shall therefore not be released or exonerated from any such liability by subcontracting or entrusting that duty to the Loan Servicer, on the terms described in this Article 3.7.2 and in Article 3.7.1.4 of this Additional Building Block.

The Loan Servicer shall agree to indemnify the Fund or its Management Company for any damage, loss or expense resulting for the same on account of any breach by the Loan Servicer of its Loan custody,

servicing and reporting duties, established under the Servicing Agreement or in the event of breach as provided for in paragraph 3 of section 2.2.9 of this Additional Building Block. In addition, the Loan Servicer waives the bringing of any action holding the Fund liable.

The Management Company may take action against the Loan Servicer where the breach of the obligation to pay any and all principal repayment and interest and other Loan amounts paid by the Obligors owing to the Fund does not result from default by the Obligors and is attributable to the Loan Servicer.

Upon the Loans terminating, the Fund shall, through its Management Company, retain a right of action against the Loan Servicer until fulfilment of its obligations.

Neither Noteholders nor any other creditor of the Fund shall have any direct right of action whatsoever against the Loan Servicer; that action shall lie with the Management Company on the terms described in this section. Notwithstanding the foregoing, under Article 26.1 b) and 2 of Law 5/2015, the Management Company shall be liable to Noteholders and other creditors of the Fund for all and any losses caused to them by a breach of its obligation to service and manage the Receivables pooled in the Fund. All of it without prejudice of the instructions that the Management Company may receive from the Meeting of Creditors as described in this Prospectus.

3.7.2.4 Loan Servicer's remuneration

In consideration of the services provided for in the Servicing Agreement, the Loan Servicer shall be entitled to receive a fee in arrears on each Payment Date during the term of the Servicing Agreement, which shall accrue for the exact number of days elapsed in each Determination Period preceding the Payment Date and on the Outstanding Balance of the Loans serviced and, as the case may be, the value of the properties on the preceding Payment Date.

If BBVA is replaced in that servicing responsibility, the Management Company will be entitled to change the fee for the new Loan Servicer, which may be in excess of that agreed with BBVA.

The management fee will be paid provided that the Fund has sufficient liquidity on the relevant Payment Date in the Priority of Payments or, upon liquidation of the fund, in the Liquidation Priority of Payments. If the Fund, through its Management Company, due to a liquidity shortfall in the Priority of Payments, fails to pay on a Payment Date the full fee due to the Loan Servicer, overdue amounts shall be aggregated without any penalty whatsoever with the fee payable on the following Payment Dates, until fully paid, as the case may be.

Furthermore, on each Payment Date, the Loan Servicer shall be entitled to reimbursement of all Loan servicing and management expenses of an exceptional nature incurred, such as in connection with legal and/or recovery actions, including procedural expenses and costs, or managing, holding, appraising and overseeing the sale of assets awarded to the Fund, if any, after first justifying the same. Those expenses will be paid whenever the Fund has sufficient liquidity and in the Priority of Payments or, upon liquidation of the Fund, in the Liquidation Priority of Payments.

3.8 Name, address and brief description of any swap, credit, liquidity or account counterparties

The securitisation repository, for which the authorisation requirements are set out in chapter 3 of the Securitisation Regulation will in turn disclose information on securitisation transactions to the public. The disclosure requirements of Article 7 of the Securitisation Regulation apply in respect of the Notes. On 22 August 2018, ESMA published its Final Report on securitisation disclosure technical standards (RTS/ITS) which included draft reporting templates, but on 31 January 2019, ESMA published a document entitled 'Opinion regarding amendments to ESMA's draft technical standards on disclosure requirements under the Securitisation Regulation which included revised draft reporting templates' (Disclosure Technical Standards). Such Disclosure Technical Standards are on the date of this Prospectus subject to review by the European Commission and not yet adopted in a binding delegated regulation of the European Commission. The transitional provision of Article 43(8) Securitisation Regulation applies and, consequently, disclosures in respect of the Notes must be made in accordance with the requirements of Annexes I to VIII of Delegated Regulation (EU) 2015/3 (the CRA templates). In a joint statement of the European Supervisory Authorities published on 30 November 2018 (JC2018 70), the European Supervisory Authorities confirmed that with the repealing of Article 8b of the CRA Regulation effective since 1 January 2019 and until the ESMA reporting templates to be used to meet the reporting requirements under Article 7 Securitisation Regulation will be available, the competent authority will be required to make a case-by-case assessment when examining the compliance with the disclosure requirements of the Securitisation Regulation, taking into account the type and extent of information being disclosed by the reporting entity. On the date of this Prospectus, there remains uncertainty as to the nature and detail of the information to be published, the manner in which it will need to be published and what the consequences would be for the Issuer, related third parties and

investors resulting from any potential non-compliance with the reporting obligations.

BBVA, as Originator, has been designated the “**Reporting Entity**” for the purposes of Article 7.2 of the Securitisation Regulation and shall be responsible for compliance with Article 7, in accordance with Section 22.5 of the Securitisation Regulation. Without prejudice of such ultimate responsibility, the Reporting Entity, directly or delegating to the Management Company or any other agent on its behalf, will:

- (a) from the Closing Date and until the date designated as such by agreement between the Reporting Entity and the Management Company, on behalf of the Fund, which will be as soon as reasonably possible once the final disclosure templates for the purpose of compliance with Article 7 of the Securitisation Regulation become applicable under the relevant Commission Delegated Regulation (the “**Transparency Template Effective Date**”):
 - (i) publish a quarterly investor report in respect of each Interest Accrual Period, as required by and in accordance with article 7(1)(e) of the Securitisation Regulation, which shall be provided substantially in the form of the CRA3 Investor Report, no later than one month after the relevant Payment Date; and
